INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the Essity North America Cash Balance Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Essity North America Cash Balance Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Vanguard Fiduciary Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2019 and 2018, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2019 and Schedule H, Line 4(j) – Schedule of Reportable Transactions for the year ended December 31, 2019 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following description of the Essity North America Cash Balance Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory cash balance defined benefit pension plan established September 1, 2001. The Plan was amended and restated effective January 1, 2015. The Plan covers salaried employees of Essity North America, LLC (the "Company"); non-union hourly employees of the Company's Bellemont, Arizona, Flagstaff, Arizona, and Greenwich, New York facilities; and after January 1, 2002, SCA Tissue employees that were formerly SCA Hygiene salaried employees. As of December 31, 2003, the Plan was frozen to new entrants and future benefit accruals (i.e. pay credits) were eliminated for all participants. Active participants at December 31, 2003 continue to earn vesting service under the Plan and all participants continue to accrue cash balance interest credits. The Plan sponsor is Essity North America, Inc. (formerly known as SCA Americas, Inc). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Effective January 1, 2018, the Plan was amended to change the Plan sponsor to Essity North America Inc. and to change the Plan name to the Essity North America Cash Balance Plan.

Funding Policy

The Company's funding policy is to make contributions in such amounts as may be required to meet the minimum funding requirements of ERISA. Employer contributions are made based on actuarially determined amounts using the projected unit credit cost method. Minimum contribution requirements have been met for 2019 and 2018.

Vesting

Participants become 100% vested upon completion of three years of credited service, as defined. If a participant terminates before completing three years of service, the right to receive accumulated benefits is forfeited, unless the participant has reached age 65 or termination of employment is attributable to death or disability.

Retirement Benefits

Upon separation from service, vested participants are entitled to pension benefits based on pay credits and interest credits accumulated in their cash balance accounts. Pay credits are based on a percentage of compensation determined by age levels, as defined. Interest credits are based on 30-year treasury rates, as defined. The Plan will pay a death benefit to the beneficiary of a participant who dies prior to the commencement of benefits, as defined by the Plan. As of December 31, 2003, the Plan was frozen and no future pay credits are provided.

Benefit payments will be paid based upon a single life annuity if the participant is not married. A married retiree will automatically receive pension benefits in the form of a joint and survivor annuity. Elections may be made to receive the benefit in another form, including lump-sum, as defined. If the present value of a participant's accrued benefit does not exceed $1,000, it will automatically be paid as a lump sum as soon as administratively feasible after separation from service.

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to discontinue its contributions and terminate the Plan at any time under the provisions of ERISA. In the event the Plan terminates, participants become 100% vested in benefits earned as of the termination date regardless of length of service, to the extent such benefits are then funded, and the assets of the Plan shall be distributed in the manner and order set forth in the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. Whether all participants receive their benefits should the Plan terminate at some future point would depend on the sufficiency of the Plan's net assets at that time to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The benefits steering committee of the Plan sponsor determines the Plan's valuation policies utilizing information provided by trustees, custodians and investment advisors. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments consists of the realized gains or losses and the unrealized appreciation or depreciation of those investments.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

In 2019 and 2018, certain investment and administrative expenses were paid out of the Plan, and include recordkeeping, trustee, and actuarial professional fees. Certain other administrative expenses of the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Certain investment related expenses are included in net appreciation (depreciation) in fair value of investments presented in the statements of changes in net assets available for benefits.

Recently Issued Accounting Guidance

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update 2018-13, Fair Value Measurement (Topic 820), Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement ("ASU 2018-13"). ASU 2018-13 was issued as part of a disclosure framework project to improve the effectiveness of disclosures in the notes to the financial statements. ASU 2018-13 removes, adds and modifies certain disclosure requirements from Topic 820, however, the added disclosures are not required for nonpublic entities. ASU 2018-13 is effective for all entities for fiscal years beginning after December 15, 2019. Certain amendments are to be applied prospectively while others are to be applied retrospectively. Early adoption is permitted. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan early adopted ASU 2018-13 on January 1, 2019, which did not have a material effect on the Plan's financial statements.

3. Financial Information Certified by Trustee (Unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information included in the accompanying financial statements and supplemental schedules was certified by Vanguard Fiduciary Trust Company, the trustee, as complete and accurate:

- Mutual funds and cash as shown in the statements of net assets available for benefits at December 31, 2019 and 2018.
- Dividend income and net appreciation (depreciation) in fair value of investments as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2019 and 2018.
- The information for all mutual funds listed in the schedule of assets (held at end of year) at December 31, 2019 and the schedule of reportable transactions for the year ended December 31, 2019, as shown in the supplemental schedules.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019:

	Total	Level 1	Level 2	Level 3
Investments, at fair value:				
Mutual funds	$ 5,406,686	$ 5,406,686	$ -	$ -
Total	$ 5,406,686	$ 5,406,686	$ -	$ -

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2018:

	Total	Level 1	Level 2	Level 3
Investments, at fair value:				
Mutual funds	$ 4,923,064	$ 4,923,064	$ -	$ -
Total	$ 4,923,064	$ 4,923,064	$ -	$ -

5. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' years of service on the date the benefit information is presented (the valuation date). Benefits payable under all circumstances (e.g. retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered prior to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. As of December 31, 2003, the Plan was frozen and no future pay credits are provided. The present value of a participant's accrued benefit as of the valuation date assumes the participant will earn no more credited service and will receive no future salary.

The actuarial present value of accumulated plan benefits as of January 1, 2019 is as follows:

Vested benefits	
Participants currently receiving benefits	$ 193,088
Active and terminated vested participants	3,520,355
Total vested benefits	3,713,443
Nonvested benefits	-
Total actuarial present value of accumulated plan benefits	$ 3,713,443

The changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2019 are as follows:

Actuarial present value of accumulated plan benefits, beginning of period	$ 4,110,069
Increase (decrease) during the year attributed to:	
Benefits paid	(406,943)
Decrease in the discount period	270,287
Assumption changes	(231,486)
Actuarial (gains)/losses	(28,484)
Net increase (decrease)	(396,626)
Actuarial present value of accumulated plan benefits, end of period	$ 3,713,443

The significant methods and assumptions used to determine the actuarial present value of accumulated plan benefits as of January 1, 2019 are as follows:

Mortality	RP-2014 employee/annuitant specific mortality tables with white collar adjustment projected on a generational basis with Scale MP-2018
Discount Rate	7%
Future interest crediting rate	3.04% gradually increasing each year until a maximum of 5%
Withdrawal Before Retirement	Decreasing rates between ages 20 and 55
Retirement Age	2.5% at age 55-59; 5% at age 60-61; 30% at age 62; 15% at age 63-64; 100% at or after age 65

The assumption changes from January 1, 2018 to January 1, 2019 include updating the mortality assumption projection from Scale MP-2017 as of January 1, 2018 to Scale MP-2018 as of January 1, 2019. The future interest crediting rate was updated from a 3% rate gradually increasing each year until reaching a maximum rate of 5% per year as of January 1, 2018 to a 3.04% rate gradually increasing each year until reaching a maximum rate of 5% per year as of January 1, 2019. The decrement timing method used in the valuation was changed from beginning of year to rounded middle of year.

The foregoing assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

6. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated December 9, 2016, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. The plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

7. Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the value of accumulated plan benefits.

8. Related-Party and Party-In-Interest Transactions

Transactions involving shares of mutual funds managed by affiliates of Vanguard Fiduciary Trust Company, the trustee, are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under ERISA regulations.

9. Subsequent Events

The COVID-19 pandemic during 2020 has significantly disrupted financial markets, economies and other events subsequent to December 31, 2019. The impact to the Plan of the COVID-19 pandemic during 2020 has resulted in significant volatility in fair value of investments of the Plan. It has also decreased interest rates and could impact employee demographics which could change assumptions utilized in the future for the actuarial present value of accumulated plan benefits. While management of the Plan currently expects to be able to continue to meet immediate contribution requirements, the long-term impact of the effects of the COVID-19 pandemic to the Plan or Plan sponsor are currently not known. The Plan sponsor is also currently evaluating the effects of relief from regulatory authorities, including the Coronavirus Aid, Relief and Economic Security Act (CARES Act), to the Plan. The extent of any impact of the COVID-19 pandemic on the Plan's net assets available for benefits and actuarial present value of accumulated plan benefits could not be reasonably estimated at the date the financial statements were available to be issued.

The Plan has evaluated subsequent events through October 8, 2020, the date the financial statements were available to be issued.

Benefit commencement date:	
■ Preretirement death benefit	Upon death
■ Deferred vested benefit	The later of age 65 or current age if older than 65
■ Disability benefit	Upon disablement
■ Retirement benefit	Upon termination of employment
Form of payment	80% of active participants are assumed to elect a lump sum and 20% are assumed to elect a life annuity. 100% of vested terminated participants are assumed to elect a lump sum. Calculation of lump sum: 80% of participants are assumed to elect a lump sum form of payment under the plan when eligible. Lump sums were assumed equal to the cash balance account balance. Calculation of annuity: Annuities were valued as the actuarial equivalent of the cash balance account balance. Actuarial equivalent annuities were determined using the IRS mandated segment rates reflecting corridors and mortality table during the valuation plan year.
Percent married	80% of males; 80% of females. These assumptions are used to value pre-retirement surviving spouse benefits.
Spouse age	Wife four years younger than husband.
At-risk assumptions	N/A
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

SCHEDULE SB ATTACHMENTS

Future Increases in Maximum Benefits and Plan Compensation Limitations	Accrued benefits projected to be paid in future years are limited to be the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.
Calculation of Cash Balance Accounts	Future cash balance account balances are projected at the assumed interest crediting rate until decrement for valuation purposes. The future interest crediting rate assumption is 3.04% gradually increasing each year until reaching a maximum of 5.0%.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

SCHEDULE SB ATTACHMENTS

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Essity North America, Inc. regarding the likelihood that these benefits will be paid.

The plan pays small benefits (with a present value up to $5,000 in a single lump sum payment). Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

The plan sponsor furnished participant data and claims data as of January 1, 2019. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Cash balance interest crediting rate

The plan credits interest to cash balance accounts using the 30-year Treasury rate. After examining historical variability in this rate, we believe that the selected assumption does not significantly conflict with what would be reasonable, allowing for some adverse deviation, based on a combination of market conditions at the measurement date and future expectations.

Annuity conversion rate for hybrid plans

The assumed annuity conversion rate is a long term estimate of the plan's conversion basis; we believe that the selected assumption does not significantly conflict with what would be reasonable, allowing for some adverse deviation.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

SCHEDULE SB ATTACHMENTS

Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates are based on plan sponsor expectations for the future reflecting plan changes and current economic conditions with periodic monitoring of observed gains and losses caused by termination patterns different than assumed.
Disability	Disability rates are based on plan sponsor expectations for the future reflecting plan changes and current economic conditions with periodic monitoring of observed gains and losses caused by disability patterns different than assumed.
Retirement	Retirement rates are based on plan sponsor expectations for the future reflecting plan changes and current economic conditions with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.
Benefit commencement date for deferred benefits:	
■ Deferred vested benefit	Deferred vested participants are assumed to begin benefits at age 65 (or current age if later) because the plan's experience is not considered to be credible, but deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2017 to September 2018.

The mortality table used to calculate the funding target and target normal was updated to reflect the new tables, based on RP-2014 and subsequent Society of Actuaries studies, published by the IRS in October 2017 in regulation §1.430(h)(3)-1.

The assumed administrative expenses added to the target normal cost was changed from $70,000 to $90,000.

The future interest crediting rate was updated from a 3% rate gradually increasing each year until reaching a maximum rate of 5% per year to a 3.04% rate gradually increasing each year until reaching a maximum rate of 5% per year.

There have been no other changes in assumptions since the prior valuation.

Change in methods since prior valuation

The decrement timing used in the valuation was changed from beginning of year to rounded middle of year. Under rounded middle of year decrement timing, all decrements are assumed to occur at the middle of the year and eligibility for benefits, commencement and cessation of benefits, and other events are assumed to occur at the middle of the year.

The change in funding method meets the parameters for automatic approval of software changes under IRS Rev. Proc. 2017-56.

There have been no other changes in methods since the prior valuation.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V
Summary of Plan Provisions

Plan Provisions

The plan was originally effective September 1, 2001. The most recent significant plan amendment was effective January 1, 2005.

Coverage and Participation

As of December 31, 2003, the plan was frozen to new entrants and future benefit accruals were eliminated. Active participants at December 31, 2003 continue to earn vesting service and all participants continue to receive cash balance interest credits.

Prior to December 31, 2003, a participant was eligible to become a member in the plan based on the following:

An eligible employee who was employed by GPT on August 31, 2001 and became an SCA Tissue employee on September 1, 2001, began participating immediately, regardless of their period of service with the Company; or

An SCA Tissue employee who has completed 12 months of service with SCA Tissue as a regular salaried employee paid from the Company's U.S. payroll or a nonunion hourly employee at the Company's Bellemont, Arizona, Flagstaff, Arizona, or Greenwich, New York facilities.

Effective January 1, 2003, employees who worked for the Heritage Sales Group and the Atlanta Production Facility and are entitled to salaried benefits with SCA Tissue, joined the Plan. These groups were formerly part of SCA Hygiene and became SCA Tissue employees on January 1, 2002.

Effective January 1, 2003, employees who worked for Encore Paper joined the Plan. These participants will receive past service credit for vesting purposes only.

Definitions

Vesting service

One year for each 1,000-hour calendar year of employment by the plan sponsor.

Normal retirement date (NRD)

First of month coinciding with or next following the attainment of age 65 with three years of vesting service.

SCHEDULE SB ATTACHMENTS

Monthly pension benefit

The monthly benefit equal to a participant's cash balance "account" converted to an equivalent life annuity at age 65, or paid as a lump sum.

Prior to December 31, 2003, the participant's cash balance "account" grew each year through Pay Credits and Interest Credits. At the end of the year, a participant's cash balance "account" was increased with Pay Credits based on their age at the end of their pensionable year and the pay received from that year. The following table illustrates the Pay Credit schedule (prior to December 31, 2003):

	Annual Pay Credit	
Participant's Age December	All Pay	Pay > SSWB
< 30	4.0%	4.0%
30 – 39	4.5%	4.5%
40 – 49	5.0%	5.0%
50 – 59	5.5%	5.5%
60 +	6.0%	6.0%

As of December 31, 2003, the plan was frozen and no future pay credits are provided.

Also, at the end of each year the participant's January 1 "account" balance is credited with interest, based on the 30-year Treasury Constant Maturity rate published by the Federal Reserve as of August of the previous year.

NAFEligibility for Benefits

Normal retirement

Retirement on NRD

Late retirement

Cash balance "account" increased with Interest Credits through the participant's date of retirement.

Vested Benefits Upon Termination of Service

Termination for reasons other than death or disability after completing three years of vesting service.

SCHEDULE SB ATTACHMENTS

Disability	Participants are fully vested, regardless of their period of service upon disability. A participant is defined to be “disabled” if they are eligible to receive disability benefits from the Social Security Administration.
Preretirement death benefit	Death while eligible for normal, postponed, or deferred vested retirement benefits, with a surviving spouse.

Benefits Paid Upon the Following Events

Normal retirement	The monthly pension benefit determined as of NRD
Postponed retirement	The monthly pension benefit determined as of the actual retirement date
Vested Benefits Upon Termination of Service	An annual benefit equal to a participant’s cash balance “account”, increased with Interest Credits to the commencement date, and converted to an actuarial equivalent annuity or paid as a lump sum equal to the cash balance account balance.
Disablement	An annual benefit equal to the cash balance account balance, increased with Interest Credits until the later of: 1. The first day of the sixth month after the participant stops working because of their disability; or 2. The first day of the month immediately following the date the participant’s benefit election form is received (so long as the date is prior to the participant attaining age 65).

SCHEDULE SB ATTACHMENTS

Preretirement death

If the participant is married and dies prior to receiving benefits, the participant's spouse will receive benefits from the plan as follows:

1. If the participant's account balance is more than $5,000 the spouse will receive the cash balance account balance as an actuarial equivalent life annuity (determined based on the spouse's age). The participant's spouse can also choose any other available payment method; or

2. If the participant's account balance is $5,000 or less, the participant's spouse will automatically receive a lump-sum distribution equal to the cash balance account balance.

If the participant is not married, their beneficiary is entitled to a lump-sum payment of the participant's cash balance account balance.

Other Plan Provisions

Form of payment

Normal Form of Retirement Income: An unmarried member receives benefits payable as a life annuity. A married member receives a 50% joint and survivor benefit.

Preretirement death benefits are payable only as described above.

Optional Forms of Retirement Income in Lieu of Normal Form

Optional forms of payment include 100% joint and survivor annuity, 75% joint and survivor, 50% joint and survivor annuity, lump-sum payment, and a life annuity. In all cases, optional forms of payments are provided as an actuarial equivalent to a life annuity.

Actuarial equivalent basis is the interest rates (August look back) and mortality table mandated by IRC 417(e) applicable as of the annuity commencement date.

Pension Increases

N/A - Plan was frozen December 31, 2003.

Participant contributions

None

SCHEDULE SB ATTACHMENTS

Limits on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes take effect. Increases in the dollar limits are assumed for determining pension cost.

Future Plan Changes

No future plan changes were recognized. Willis Towers Watson is not aware of any future plan changes that are required to be reflected.

Changes in Benefits Valued Since Prior Year

There have been no changes in benefits valued since the prior valuation.

Substantive Commitment

No substantive commitments other than the above plan provisions have been included in this valuation.
