1. Description of the Plan

Western & Southern Financial Group Employee Retirement 401(k) Savings Plan (the Plan) is a defined contribution plan covering all eligible full-time and part-time employees of The Western and Southern Life Insurance Company (the Company) and certain of its wholly owned subsidiaries. The Plan is subject to the provisions of ERISA. A more complete description of the Plan's provisions is contained in the plan document and the Summary Plan Description. Copies of these documents are available from the Company.

The Company purchased 100% of the common stock of Gerber Life Insurance Company from Nestlé S.A. on December 31, 2018, which resulted in approximately 500 associates becoming eligible for the Plan. Gerber Life associates were enrolled in the Plan as of January 2019, and benefit costs for match contributions have increased in a proportional manner in 2019.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of service. A participant is 100% vested after five years of credited service.

Notes Receivable from Participants

Employees may, subject to certain limitations, borrow against their vested account balance. Generally, the loan is to be repaid in equal installments over a period not to exceed five years. Interest is charged at a fixed rate of prime plus 2.00% at issuance and ranged from 5.25% to 7.50% on outstanding loans at December 31, 2019, and 5.25% to 7.25% at December 31, 2018. The loans are valued at the outstanding principal balance, plus any accrued interest thereon. As of December 31, 2019 and 2018, there were outstanding loans of \$7,210,094 and \$6,561,299, respectively.

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Contributions

The Company makes contributions for each plan participant. The Company's matching contributions are equal to one-half of the participant's basic contributions up to a maximum of 4% of the participant's total compensation. In 2019, the Company provided a discretionary matching contribution of an additional one-half of the next 2% of the participants' basic contributions.

All amounts in participant accounts are participant-directed. Participants may generally contribute up to the Internal Revenue Service (IRS) maximum limit of their pretax annual compensation, as defined by the Plan's provisions. Forfeited balances on terminated participants' non-vested accounts are used to reduce future employer matching contributions. Forfeitures of \$209,462 were used to reduce the employer contribution for 2019. The Company may also make additional contributions at its discretion. In 2019, there were no additional discretionary contributions.

Each participant's account is credited with the participant's contributions and an allocation of Company's contributions and plan earnings. Allocations are based on the participant earnings on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

2. Summary of Significant Accounting Policies

The following describes the significant accounting policies followed in the preparation of these financial statements, which have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan offers nineteen investment options to participants: sixteen mutual funds and three collective trusts. Seven of the mutual funds and one collective trust are managed by wholly-owned subsidiaries of the Company. One of the collective trusts is managed by the Plan's custodian and the other collective trust is managed by a third-party. The remaining nine mutual fund options - including one mutual fund option that is a group of ten target date funds - are offered and managed by third parties. All investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in inactive markets

- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value. There have been no changes in the methodologies used in December 31, 2019 or 2018.

Mutual funds: The fair values of mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

Collective trusts: The fair value of the funds has been estimated at NAV, which is based on the fair value of the underlying investment contracts in the funds as reported by the issuers of the funds. NAV is used as a practical expedient in determining the fair value of the Plan's interest in the collective trusts. This practical expedient would not be used if it is determined to be probable that the funds would sell the investments for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. There are no unfunded commitments related to the collective trusts and units are redeemable at NAV. There are no notice period requirements for the redemption of the investments.

Investment information included in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants, at December 31, 2019 and 2018, and net appreciation in fair value of investments and dividend and interest income for the year ended December 31, 2019, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fifth Third Bank, the custodian. Fifth Third Bank is not certifying the fair value hierarchy narrative or leveling information.

Administrative Expenses

Certain administrative expenses of the Plan are paid by the Company, and are excluded from the financial statements of the Plan.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Subsequent Events

The Plan and the Company are exposed to potential risk associated with the ongoing outbreak of the novel coronavirus ("COVID-19") and are actively monitoring developments through governmental briefings and the relevant health authorities. The effects of the outbreak on the Plan and the Company are uncertain and difficult to predict, as the situation is actively evolving. Risks to the Plan could potentially include (but are not limited to) lower investment returns on plan assets and the disruption of business operations due to changing work environments for employees and business partners. The Plan and the Company have business continuity plans in place to mitigate the risks posed to business operations by disruptive incidents such as these.

Management has evaluated subsequent events through the report date, the date the financial statements were available to be issued.

3. Income Tax Status

The Plan has received a determination letter from the IRS dated October 13, 2017, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan sponsor believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

4. Plan Termination

The Company has not expressed any intent to terminate the Plan; however, it may do so at anytime. In the event of such termination, all participant accounts shall be vested and subject to distribution under provisions of the Plan.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
