INDEPENDENT AUDITORS' REPORT

To the Participants and the Trustees,
Burke, Inc. Employee Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the Burke, Inc. Employee Stock Ownership Plan, which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits as of December 31, 2019 and 2018, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2019 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. PLAN DESCRIPTION:

The following description of the Burke, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

Burke, Inc. (the "Company" or "Employer") established the Plan as of December 28, 2004 and effective January 1, 2004. It is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (the "Code"), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

The Plan purchased Company common shares and holds the stock in a trust fund (the "Trust") established under the Plan. At December 31, 2019 and 2018, and for the years then ended, all outstanding shares of common stock were allocated to eligible participants' accounts in accordance with applicable regulations under the Code.

Administration

The governing body for administration of the Plan is the Burke, Inc. ESOP Administrative Committee and consists of Company employees selected to participate by the Board of Directors of the Company. The trustee of the Plan is Fiduciary Trust Services, Inc.

Eligibility

Effective January 1, 2016, the Plan was amended for certain employees to define an eligible employee as an employee that has reached age 21 and is expected to perform 20 or more hours of service per week in the 12 months following their employment commencement date. All other employees must complete one year and 1,000 or more hours of service to become Plan participants. Employees covered by a collective bargaining agreement, an employee who is a non-resident alien, or a leased employee are not eligible.

Vesting

Company contributions, as adjusted for earnings and losses thereon, vest 100% after three years of service. There is no vesting for less than three years of service.

Participants become 100% vested in all Company contributions immediately upon reaching early retirement age or normal retirement age (the later of attaining age 65 or five years of vesting service), death or total disability. Any forfeited Company contributions are allocated to active Plan participants on the December 31st following five consecutive one-year breaks in service by the forfeiting participant.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify transfer cash, equivalent to the shares diversified, to the participant's account in the Burke, Inc. Profit Sharing and Pay Deferral Savings Plan.

Participants who are age 50 with at least 5 but less than 10 years of participation in the Plan may also elect to diversify a portion of their account. Diversification is offered to each eligible participant over a five-year period, unless the participant reaches 10 years of participation in the Plan, at which point they become eligible to diversify under the options noted above. In each of the five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. Participants who elect to diversify transfer cash, equivalent to the shares diversified, to the participant's account in the Burke, Inc. Profit Sharing and Pay Deferral Savings Plan.

Reshuffling

The Plan permits the reshuffling of accounts of non-active participants. On an annual basis, following the processing of the diversification elections noted above, the stock accounts for non-active participants, who have reached a five-year break in service, may be reshuffled and replaced with amounts from active participants' other investment accounts of an equivalent value determined as of the last valuation date of the Plan.

Following the reshuffling of non-active participants' stock accounts, the other investment account of all non-active participants shall be transferred to the Burke, Inc. Profit Sharing and Pay Deferral Savings Plan.

Participant accounts and forfeitures

Each participant's account is credited with the participant's share of the Company's contributions and forfeitures available as determined by the recordkeeper. The participant's account is allocated the Company contributions and forfeitures based on the proportion of the participant's compensation to the total of all participants' compensation (capped at \$100,000 for 2019 and 2018) for the Plan year. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation of Company contributions for such year. Forfeitures for 2019 and 2018 were not material.

Plan earnings are allocated to each participant's account based on the proportion of the participant's account balance to the aggregate of all participants' account balances prior to the allocation of the contribution and forfeitures described above.

Employer contributions

Upon approval by the Company's board of directors, the Company may make discretionary contributions of cash or stock to the Plan. These discretionary contributions were \$5,251,234 during the year ended December 31, 2019 and \$3,957,018 and 3,000 shares during the year ended December 31, 2018.

Distributions

Distributions from the Plan will be made when a participant retires at early retirement age, normal retirement age of 65 with a minimum five years of service, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or becomes permanently disabled. Participants who otherwise terminate employment with the Company are eligible for distribution of their ESOP account in the sixth plan year after the year in which the participant terminates employment if their vested participant account balance is greater than \$10,000. If a terminated participant's vested account balance is less than or equal to \$10,000, the account balance may be distributed as soon as administratively practicable during the year following termination. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are made in cash or employer stock as determined by the plan administrator.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations.

Voting rights

The Trustee is responsible for voting all employer stock held as part of the Plan assets. Each participant or beneficiary shall be entitled to direct the Trustee as to the manner in which voting rights on shares of allocated employer stock are to be exercised.

Put option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants (and is not readily tradable on an established market or is subject to trading limitations) includes a put option. The put option is a right to demand that the Company or the Plan buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company may finance the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Plan termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the Trust will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Burke, Inc. ESOP Administrative Committee should direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loans, if any.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**Basis of accounting**

The Plan's financial statements are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and uncertainties

The Plan invests in common stock of the Company. This common stock is exposed to various risks, including a variety of risks associated with investing in an operating entity and the liquidity risk associated with investing in a private company. Due to the level of risk associated with the common stock, it is at least reasonably possible that changes could materially affect participants' account balances and amounts reported in the statements of net assets available for benefits.

Investment valuation and income recognition

The common shares of the Company are reported at fair value, which is determined by an annual independent appraisal. See Note 6 for discussion of fair value measurements.

Dividend income is accrued on the declaration date.

Purchases and sales of securities are recorded on a trade date basis. The Plan presents in its statements of changes in net assets available for benefits the net appreciation in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation on those investments.

Payment of benefits

Benefits are recorded when paid.

Administrative fees

Administrative expenses of maintaining the Plan that are paid directly by the Company are excluded from these financial statements.

Subsequent events

The Plan has evaluated subsequent events through the report date, the date the financial statements were available to be issued.

3. INCOME TAX STATUS:

The Plan obtained its latest determination letter on June 15, 2016, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code, and therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

4. ADMINISTRATION OF PLAN ASSETS:

The Plan's assets, which consist entirely of Burke, Inc. common shares, are held by the Plan Trustee.

Company contributions are held and managed by the Company, which invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

5. INVESTMENTS:

The Plan's investments at December 31 are as follows:

	<u>2019</u>	<u>2018</u>
Number of Shares	312,491	312,491
Cost	\$ 80,605,861	80,605,861
Market	\$ 102,972,084	100,200,288

During the years ended December 31, 2019 and 2018, 16,377 and 12,884 shares, respectively, were recycled within the ESOP to generate funds for cash distributions. There were no shares distributed during the years ended December 31, 2019 or 2018.

6. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2019 and 2018.

Common stock: The fair value of Burke, Inc. common stock held by the Plan is valued based upon an independent appraisal. This appraisal is based upon a combination of the market and cash flow valuation techniques consistent with prior years. The appraiser takes into account historical and projected cash flows and net income, return on assets, return on equity, market comparables, and fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

	<u>Investments at fair value as of:</u>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
December 31, 2019:				
Burke, Inc. common stock	\$ <u> -</u>	<u> -</u>	<u>102,972,084</u>	<u>102,972,084</u>
December 31, 2018:				
Burke, Inc. common stock	\$ <u> -</u>	<u> -</u>	<u>100,200,288</u>	<u>100,200,288</u>

The following table sets forth a summary of changes in the fair value of the plan's level 3 assets for the years ended December 31, 2019 and 2018:

	Level 3 Investments - Investment in Sponsor <u>Company Common Stock</u>	
Balance, January 1, 2018	\$ 95,050,922

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the period above are reported in net appreciation in fair value of Burke, Inc. common stock in the statements of changes in net assets available for benefits.

Quantitative information about significant unobservable inputs used in level 3 fair value measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs at December 31, 2019.

<u>Instrument</u>	<u>Fair Value</u>	<u>Valuation Techniques</u>	<u>Unobservable Input</u>

		Discounted Cash Flow Method	* Forecasted free cash flow * Discounted annual free cash flows * Discount for lack of marketability
		Guideline Public Company Method	* Market capital to sales ratio * Market capital to current and average EBITDA * Discount for lack of marketability

7. RELATED PARTY AND PARTIES-IN-INTEREST TRANSACTIONS:

The Plan invests in Company common stock. These transactions qualify as party-in-interest transactions. As described in Notes 1 and 4, the Plan has a number of service providers. These service providers qualify as parties-in-interest.

8. SUBSEQUENT EVENT:

Subsequent to the date of the financial statements, an outbreak of a novel strain of coronavirus (COVID-19) has disrupted supply chains and affected production and sales across a range of industries. The extent of the impact of COVID-19 on the Plan Sponsor's performance and the Plan's investments will depend on certain developments, including the duration and spread of the outbreak. Impact to the Plan cannot be predicted, and the extent to which COVID-19 may impact the statement of net assets available for benefits is uncertain at this time.
