1. Description of Plan

The following is a brief description of the Jameson Health System, Incorporated 403(b) Plan (the Plan) and provides only general information. Participants should refer to the plan document or the Summary Plan Description for a complete description of the Plan's provisions.

General

The Plan is a defined contribution 403(b) plan established for the benefit of the employees of Jameson Health System, Inc. and affiliated companies Jameson Care Center, Inc.; Jameson Medical Care, Inc.; and Children's Advocacy Center of Lawrence County, Inc. (collectively, the Company), the Plan Sponsor. The Jameson Health System, Inc. and the University of Pittsburgh Medical Center (UPMC) completed an affiliation between the organizations and the Jameson Health System, Inc. was renamed UPMC Jameson. The Plan was intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was amended to cease all new loans obtainable under the Plan effective December 24, 2016.

Effective December 31, 2016, the Plan was frozen to new participants. Accordingly, no additional elective deferrals, catch-up contributions, rollover contributions, matching contributions, non-elective contributions, or direct transfers are permitted to be made to the Plan subsequently.

Eligibility

Employees were eligible to participate in the Plan immediately upon being hired by the Company. Employees of Jameson Health System, Inc. were eligible to receive employer matching contributions after completing three months of service. Employees of Jameson Care Center, Inc. were eligible to receive employer matching contributions after completing one year of service.

Contributions

Eligible employees were able to contribute pretax and post-tax annual compensation as defined in the Plan up to the maximum amount allowed by the IRC. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. The Company made matching contributions for eligible employees of Jameson Health System, Inc. with a maximum

of 2% to 6% of an employee's annual compensation based on total years of credited service at the beginning of the plan year. Each eligible employee of Jameson Care Center, Inc. received a matching contribution equal to 50% of the employee's elective deferral contributions up to a maximum of 4% of the employee's annual compensation. Employees could receive non-elective contributions as permitted by the plan document, upon discretion and approval of the President and Chief Executive Officer. Participants could roll over amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions were subject to certain limitations.

Participant Accounts

Effective after the plan freeze at December 31, 2016, each participant's account is credited with allocations of plan earnings and charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of his or her respective elected investment options. Allocations of administrative expenses are based on the participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Effective January 1, 2017, all active participants and terminated participants who have not yet forfeited their non-vested account balances became fully vested in their account balances.

Notes Receivable From Participants

A participant could borrow from his or her account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of his or her vested account balance. Loan terms could not exceed five years. However, if the loan was for the purchase of a principal residence, the Plan Administrator could permit a longer repayment term not to exceed ten years. Loans are collateralized by the percentage of the participant's vested account balance equal to the amount borrowed, divided by the vested account balance. The interest rate for these loans was fixed for the life of the loan. Principal and interest were paid through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or severance from employment or at age 59 ½, a participant can elect to receive a lump-sum distribution or installments of his or her vested account balance. The Plan Sponsor could initiate a mandatory distribution for those terminated participants whose vested account balance is \$1,000 or less.

Transfers

Effective June 1, 2017, the Plan permits fully vested eligible participants who participate in the UPMC 403(b) Retirement Savings Plan and/or the UPMC 401(a) Retirement Savings Plan to elect a plan-to-plan transfer to those plans.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan were prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan (except for fully benefit-responsive investment contracts) are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

2. Summary of Significant Accounting Policies (continued)

Purchases and sales of investments were recorded on a trade-date basis. Dividend income was recorded on the ex-dividend date and interest income was recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

Payments of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's administrative expenses were paid by either the Plan or the Plan Sponsor as provided by the Plan document.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at fair value, fully benefit-responsive investment contracts, at contract value, and notes receivable from participants at December 31, 2019 and 2018, and net appreciation in fair value of investments, interest and dividends, and interest on notes receivable from participants for the year ended December 31, 2019, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Great-West Life & Annuity Insurance Company and Great-West Trust Company LLC.

4. Fair Value Measurements

The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below.

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.
- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar assets and liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in markets that are not active
 - Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

5. Fully Benefit-Responsive Investment Contracts

The Plan invests in the Guaranteed Interest Fund, a fully benefit-responsive investment contract (a traditional investment contract), with Great-West Life & Annuity Insurance Company (Great-West). The issuer maintains the contributions in a general account. The account is credited with participant contributions plus earnings and charged for participant withdrawals and administrative expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer with a minimum guaranteed interest rate of 1%. The crediting rate is reviewed on an annual basis for resetting.

Notes to Financial Statements (continued)

5. Fully Benefit-Responsive Investment Contracts (continued)

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by the participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuers' ability to meet their financial obligations. The issuers' ability to meet their contractual obligations may be affected by future economic and regulatory developments.

The contract with Great-West does not have a termination date.

Certain events might limit the ability of the Plan to transact at contract value. Such events include a spin-off, sale, merger, partial plan termination, termination by a political subdivision of a governmental 457(b) plan, or a layoff of at least 20% of the workforce in any 12-month period. Upon occurrence of any of these events, a market value adjustment or other withdrawal restrictions may apply. Market value adjustment amounts shall never be deducted from participant accounts. The plan administrator does not believe that the occurrence of any such events that would limit the Plan's ability to transact or contract value with participants is probable.

The issuer may terminate the contract with advance written notice to the contract owner. There are no events that allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value.

6. Related-Party and Party-in-Interest Transactions

Certain administrative expenses were paid directly by the Company for which it was not reimbursed. Certain administrative functions were performed by officers or employees of the Company. No such officers or employees received compensation from the Plan.

7. Plan Termination

The Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their entire account.

Notes to Financial Statements (continued)

8. Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (the Code) and, therefore, it is not eligible to receive a determination letter from the Internal Revenue Service (IRS). The Plan is required to operate in conformity with the Code to maintain its qualification under Section 403(b). The plan administrator believes that the Plan is operating in accordance with the applicable requirements of Section 403(b) of the Code and, therefore, believes the Plan is qualified and the related custodial accounts and tax-deferred annuities are tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invested in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.

10. Subsequent Events

Management evaluated subsequent events for the Plan through October 8, 2020, the date the financial statements were available to be issued.
