Cargotec Holding, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of Cargotec Holding, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Cargotec Holding, Inc. and its related entities: Cargotec USA Inc.; Cargotec Solutions LLC and Cargotec Port Security LLC; Watco Lift Corp; and Navis LLC and Navis International LLC (collectively, the Company), and are not represented by a collective bargaining agreement. Covered employees are eligible to participate immediately upon hire; participating employees are immediately eligible for matching contributions and discretionary contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may elect to contribute up to 100% of their eligible compensation to the Plan on a tax-deferred basis, subject to limitations imposed by the Internal Revenue Service (IRS). Participants who are 50 by the end of the Plan year and who are making deferral contributions to the Plan may also make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company makes matching contributions to the Plan on behalf of all eligible participants. The matching contribution is limited to 100% of the participant's contribution up to 3% of the employee's compensation and 50% of the participant's contribution for the next 2% of the employee's compensation under safe harbor plan provisions. The Plan also allows for a discretionary contribution by the Company. There were no discretionary contributions made for the year ended December 31, 2019.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching and discretionary contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants' investment options: Participants direct their salary deferral and Company contributions to selected investments as made available and determined by the Plan each year. Participants may change their investment options from time to time via access to Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Participants are immediately vested in the Company's matching contributions, plus actual earnings thereon. Vesting in the Company's matching contribution and the discretionary contribution portion of their accounts, plus actual earnings thereon, is based on whole years of service. These contributions and related earnings vest to participants 20% per year for each year of service. A participant is fully vested after five years of service.

Payment of benefits: The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Upon retirement, death or disability, participants become 100% vested in their account and will receive their distribution in a lump-sum amount. Upon termination, participants will receive their vested account balances in a lump-sum amount.

Cargotec Holding, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Forfeited accounts: At December 31, 2019 and 2018, forfeited nonvested accounts totaled \$2,926 and \$26,491, respectively. These accounts may be used to reduce employer contributions and pay Plan expenses. During the year ended December 31, 2019, forfeitures of \$30,577 were used to pay administrative expenses and reduce employer contributions.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. A participant may only have one loan outstanding at a time. These transactions are treated as transfers between the investment fund and the participant notes receivable fund. The terms of the notes receivable cannot exceed five years, unless the note receivable is for the purchase of the employee's principal residence, which has a maximum 15-year repayment period. The notes receivable are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the Plan Administrator. The interest rate ranged from 4.25% to 8.50% for all outstanding notes at December 31, 2019. Principal and interest are paid ratably through payroll deductions.

Note 2. Summary of Significant Accounting Policies

Following is a summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements.

Basis of accounting: The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Use of estimates: The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes therein. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. Delinquent loans are treated as deemed distributions based upon terms of the Plan document.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, Part IV, Line 4i—Schedule of assets (held at end of year).

Investment valuation and income recognition: Investments are recorded at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Committee determines the Plan's valuation policies utilizing information provided by the investment trustees. See Note 4 for a discussion of fair value measurements.

Cargotec Holding, Inc. 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain expense of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in the fair value of investments.

Note 3. Information Certified by the Trustees

The following is a summary of the Plan's asset information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B., the trustees, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustees that information provided to the Plan Administrator by the trustees related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31	
	2019	2018
Investments, at fair value:		
Mutual funds	\$ 97,259,085	\$ 78,230,935
Brokerage accounts	81	218,405
Pooled separate accounts	15,643,113	12,082,989
Investments, at contract value:		
Unallocated deposit administration contract	23,536,639	22,074,898
Notes receivable from participants	1,746,777	1,857,763

The trustees also certified to the completeness and accuracy of \$23,386,446 of net appreciation in fair value of investments, \$1,688,457 of interest and dividends related to the aforementioned assets and \$94,436 related to interest income on notes receivable from participants for the year ended December 31, 2019.

Notes to Financial Statements

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under *FASB Accounting Standards Codification (ASC) Topic 820* are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Brokerage accounts: Brokerage accounts are valued at the value of the underlying investments at the end of the Plan year.

Pooled separate accounts: The unit value of pooled separate accounts is calculated based on the observable NAV of the underlying investments at the end of the Plan year. The NAV is used as a practical expedient to estimate fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Cargotec Holding, Inc. 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

Assets at Fair Value as of December 31, 2019				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 97,259,085	\$ -	\$ -	\$ 97,259,085
Brokerage accounts	81	-	-	81
Investments measured at fair value	<u>\$ 97,259,166</u>	<u>\$ -</u>	<u>\$ -</u>	<u>97,259,166</u>
Pooled separate accounts (a)				15,643,113
Total investments at fair value				<u>\$ 112,902,279</u>

Assets at Fair Value as of December 31, 2018				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 78,230,935	\$ -	\$ -	\$ 78,230,935
Brokerage accounts	218,405	-	-	218,405
Investments measured at fair value	<u>\$ 78,449,340</u>	<u>\$ -</u>	<u>\$ -</u>	<u>78,449,340</u>
Pooled separate accounts (a)				12,082,989
Total investments at fair value				<u>\$ 90,532,329</u>

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line item presented in the statement of net assets available for benefits.

Investments measured using the NAV per share practical expedient: The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2019 and 2018. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment	Fair Value at December 31		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2019	2018			
Pooled separate accounts	\$ 15,643,113	\$ 12,082,989	None	Immediate	None

Transfers between levels: For the year ended December 31, 2019, there were no significant transfers between Levels 1 and 2 and there were no transfers in or out of Level 3.

Note 5. Unallocated Deposit Administration Contract

The Plan has a benefit-responsive unallocated deposit administration contract with Prudential Retirement Insurance and Annuity Company (Prudential). Prudential maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Prudential. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Cargotec Holding, Inc. 401(k) Plan

Notes to Financial Statements

Note 5. Unallocated Deposit Administration Contract (Continued)

Prudential is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the unallocated deposit administration contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the unallocated deposit administration contract. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.5%. Such interest rates are reviewed on a semiannual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any events that would limit the Plan's ability to transact at contract value with participants is probable of occurring.

The unallocated deposit administration contract does not permit the insurance company to terminate the agreement prior to 90 days' written notice.

Note 6. Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 8. Tax Status

The underlying nonstandard prototype plan has received an opinion letter from the IRS dated April 29, 2014, stating that the form of the Plan is qualified under section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is tax-exempt. The Plan Sponsor has determined that it is eligible, and has chosen, to rely on the current IRS prototype plan opinion letter. Although the Plan has been amended since the prototype plan received the opinion letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Code.

Cargotec Holding, Inc. 401(k) Plan

Notes to Financial Statements

Note 8. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2019 statement of net assets available for benefits.

Note 10. Related-Party and Party-in-Interest Transactions

Certain Plan assets are managed by Prudential Bank & Trust, F.S.B. and Prudential Retirement Insurance and Annuity Company. Prudential Bank & Trust, F.S.B. and Prudential Retirement Insurance and Annuity Company are the trustees of the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the services amounted to \$229,252 for the year ended December 31, 2019. In addition, fees paid by the Plan for investment management services are netted with investment income.

Note 11. Subsequent Events

Subsequent to the coronavirus (COVID-19) outbreak in 2020 in the United States, there has been substantial volatility in financial markets and the economy. These conditions and other economic events have had a significant adverse impact on investment portfolios. As a result, the Plan's investments have likely incurred a significant volatility in fair value since December 31, 2019.

Management has evaluated and disclosed subsequent events up to and including October 7, 2020, which is the date the financial statements were available to be issued.

Cargotec Holding, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of Cargotec Holding, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Cargotec Holding, Inc. and its related entities: Cargotec USA Inc.; Cargotec Solutions LLC and Cargotec Port Security LLC; Watco Lift Corp; and Navis LLC and Navis International LLC (collectively, the Company), and are not represented by a collective bargaining agreement. Covered employees are eligible to participate immediately upon hire; participating employees are immediately eligible for matching contributions and discretionary contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may elect to contribute up to 100% of their eligible compensation to the Plan on a tax-deferred basis, subject to limitations imposed by the Internal Revenue Service (IRS). Participants who are 50 by the end of the Plan year and who are making deferral contributions to the Plan may also make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company makes matching contributions to the Plan on behalf of all eligible participants. The matching contribution is limited to 100% of the participant's contribution up to 3% of the employee's compensation and 50% of the participant's contribution for the next 2% of the employee's compensation under safe harbor plan provisions. The Plan also allows for a discretionary contribution by the Company. There were no discretionary contributions made for the year ended December 31, 2019.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching and discretionary contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants' investment options: Participants direct their salary deferral and Company contributions to selected investments as made available and determined by the Plan each year. Participants may change their investment options from time to time via access to Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Participants are immediately vested in the Company's matching contributions, plus actual earnings thereon. Vesting in the Company's matching contribution and the discretionary contribution portion of their accounts, plus actual earnings thereon, is based on whole years of service. These contributions and related earnings vest to participants 20% per year for each year of service. A participant is fully vested after five years of service.

Payment of benefits: The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Upon retirement, death or disability, participants become 100% vested in their account and will receive their distribution in a lump-sum amount. Upon termination, participants will receive their vested account balances in a lump-sum amount.

Cargotec Holding, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Forfeited accounts: At December 31, 2019 and 2018, forfeited nonvested accounts totaled \$2,926 and \$26,491, respectively. These accounts may be used to reduce employer contributions and pay Plan expenses. During the year ended December 31, 2019, forfeitures of \$30,577 were used to pay administrative expenses and reduce employer contributions.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. A participant may only have one loan outstanding at a time. These transactions are treated as transfers between the investment fund and the participant notes receivable fund. The terms of the notes receivable cannot exceed five years, unless the note receivable is for the purchase of the employee's principal residence, which has a maximum 15-year repayment period. The notes receivable are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the Plan Administrator. The interest rate ranged from 4.25% to 8.50% for all outstanding notes at December 31, 2019. Principal and interest are paid ratably through payroll deductions.

Note 2. Summary of Significant Accounting Policies

Following is a summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements.

Basis of accounting: The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Use of estimates: The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes therein. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. Delinquent loans are treated as deemed distributions based upon terms of the Plan document.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, Part IV, Line 4i—Schedule of assets (held at end of year).

Investment valuation and income recognition: Investments are recorded at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Committee determines the Plan's valuation policies utilizing information provided by the investment trustees. See Note 4 for a discussion of fair value measurements.

Cargotec Holding, Inc. 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain expense of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in the fair value of investments.

Note 3. Information Certified by the Trustees

The following is a summary of the Plan's asset information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B., the trustees, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustees that information provided to the Plan Administrator by the trustees related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31	
	2019	2018
Investments, at fair value:		
Mutual funds	\$ 97,259,085	\$ 78,230,935
Brokerage accounts	81	218,405
Pooled separate accounts	15,643,113	12,082,989
Investments, at contract value:		
Unallocated deposit administration contract	23,536,639	22,074,898
Notes receivable from participants	1,746,777	1,857,763

The trustees also certified to the completeness and accuracy of \$23,386,446 of net appreciation in fair value of investments, \$1,688,457 of interest and dividends related to the aforementioned assets and \$94,436 related to interest income on notes receivable from participants for the year ended December 31, 2019.

Notes to Financial Statements

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under *FASB Accounting Standards Codification (ASC) Topic 820* are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Brokerage accounts: Brokerage accounts are valued at the value of the underlying investments at the end of the Plan year.

Pooled separate accounts: The unit value of pooled separate accounts is calculated based on the observable NAV of the underlying investments at the end of the Plan year. The NAV is used as a practical expedient to estimate fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Cargotec Holding, Inc. 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

Assets at Fair Value as of December 31, 2019				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 97,259,085	\$ -	\$ -	\$ 97,259,085
Brokerage accounts	81	-	-	81
Investments measured at fair value	<u>\$ 97,259,166</u>	<u>\$ -</u>	<u>\$ -</u>	<u>97,259,166</u>
Pooled separate accounts (a)				15,643,113
Total investments at fair value				<u>\$ 112,902,279</u>

Assets at Fair Value as of December 31, 2018				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 78,230,935	\$ -	\$ -	\$ 78,230,935
Brokerage accounts	218,405	-	-	218,405
Investments measured at fair value	<u>\$ 78,449,340</u>	<u>\$ -</u>	<u>\$ -</u>	<u>78,449,340</u>
Pooled separate accounts (a)				12,082,989
Total investments at fair value				<u>\$ 90,532,329</u>

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line item presented in the statement of net assets available for benefits.

Investments measured using the NAV per share practical expedient: The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2019 and 2018. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment	Fair Value at December 31		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2019	2018			
Pooled separate accounts	\$ 15,643,113	\$ 12,082,989	None	Immediate	None

Transfers between levels: For the year ended December 31, 2019, there were no significant transfers between Levels 1 and 2 and there were no transfers in or out of Level 3.

Note 5. Unallocated Deposit Administration Contract

The Plan has a benefit-responsive unallocated deposit administration contract with Prudential Retirement Insurance and Annuity Company (Prudential). Prudential maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Prudential. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Cargotec Holding, Inc. 401(k) Plan

Notes to Financial Statements

Note 5. Unallocated Deposit Administration Contract (Continued)

Prudential is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the unallocated deposit administration contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the unallocated deposit administration contract. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.5%. Such interest rates are reviewed on a semiannual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any events that would limit the Plan's ability to transact at contract value with participants is probable of occurring.

The unallocated deposit administration contract does not permit the insurance company to terminate the agreement prior to 90 days' written notice.

Note 6. Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 8. Tax Status

The underlying nonstandard prototype plan has received an opinion letter from the IRS dated April 29, 2014, stating that the form of the Plan is qualified under section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is tax-exempt. The Plan Sponsor has determined that it is eligible, and has chosen, to rely on the current IRS prototype plan opinion letter. Although the Plan has been amended since the prototype plan received the opinion letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Code.

Cargotec Holding, Inc. 401(k) Plan

Notes to Financial Statements

Note 8. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2019 statement of net assets available for benefits.

Note 10. Related-Party and Party-in-Interest Transactions

Certain Plan assets are managed by Prudential Bank & Trust, F.S.B. and Prudential Retirement Insurance and Annuity Company. Prudential Bank & Trust, F.S.B. and Prudential Retirement Insurance and Annuity Company are the trustees of the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the services amounted to \$229,252 for the year ended December 31, 2019. In addition, fees paid by the Plan for investment management services are netted with investment income.

Note 11. Subsequent Events

Subsequent to the coronavirus (COVID-19) outbreak in 2020 in the United States, there has been substantial volatility in financial markets and the economy. These conditions and other economic events have had a significant adverse impact on investment portfolios. As a result, the Plan's investments have likely incurred a significant volatility in fair value since December 31, 2019.

Management has evaluated and disclosed subsequent events up to and including October 7, 2020, which is the date the financial statements were available to be issued.

Notes to Financial Statements

Note 1. Plan Description

The following description of Cargotec Holding, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Cargotec Holding, Inc. and its related entities: Cargotec USA Inc.; Cargotec Solutions LLC and Cargotec Port Security LLC; Watco Lift Corp; and Navis LLC and Navis International LLC (collectively, the Company), and are not represented by a collective bargaining agreement. Covered employees are eligible to participate immediately upon hire; participating employees are immediately eligible for matching contributions and discretionary contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may elect to contribute up to 100% of their eligible compensation to the Plan on a tax-deferred basis, subject to limitations imposed by the Internal Revenue Service (IRS). Participants who are 50 by the end of the Plan year and who are making deferral contributions to the Plan may also make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company makes matching contributions to the Plan on behalf of all eligible participants. The matching contribution is limited to 100% of the participant's contribution up to 3% of the employee's compensation and 50% of the participant's contribution for the next 2% of the employee's compensation under safe harbor plan provisions. The Plan also allows for a discretionary contribution by the Company. There were no discretionary contributions made for the year ended December 31, 2019.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching and discretionary contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants' investment options: Participants direct their salary deferral and Company contributions to selected investments as made available and determined by the Plan each year. Participants may change their investment options from time to time via access to Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Participants are immediately vested in the Company's matching contributions, plus actual earnings thereon. Vesting in the Company's matching contribution and the discretionary contribution portion of their accounts, plus actual earnings thereon, is based on whole years of service. These contributions and related earnings vest to participants 20% per year for each year of service. A participant is fully vested after five years of service.

Payment of benefits: The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Upon retirement, death or disability, participants become 100% vested in their account and will receive their distribution in a lump-sum amount. Upon termination, participants will receive their vested account balances in a lump-sum amount.

Note 1. Plan Description (Continued)

Forfeited accounts: At December 31, 2019 and 2018, forfeited nonvested accounts totaled \$2,926 and \$26,491, respectively. These accounts may be used to reduce employer contributions and pay Plan expenses. During the year ended December 31, 2019, forfeitures of \$30,577 were used to pay administrative expenses and reduce employer contributions.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. A participant may only have one loan outstanding at a time. These transactions are treated as transfers between the investment fund and the participant notes receivable fund. The terms of the notes receivable cannot exceed five years, unless the note receivable is for the purchase of the employee's principal residence, which has a maximum 15-year repayment period. The notes receivable are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the Plan Administrator. The interest rate ranged from 4.25% to 8.50% for all outstanding notes at December 31, 2019. Principal and interest are paid ratably through payroll deductions.

Note 2. Summary of Significant Accounting Policies

Following is a summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements.

Basis of accounting: The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Use of estimates: The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes therein. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. Delinquent loans are treated as deemed distributions based upon terms of the Plan document.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, Part IV, Line 4i—Schedule of assets (held at end of year).

Investment valuation and income recognition: Investments are recorded at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Committee determines the Plan's valuation policies utilizing information provided by the investment trustees. See Note 4 for a discussion of fair value measurements.

Note 2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain expense of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in the fair value of investments.

Note 3. Information Certified by the Trustees

The following is a summary of the Plan's asset information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B., the trustees, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustees that information provided to the Plan Administrator by the trustees related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31	
	2019	2018
Investments, at fair value:		
Mutual funds	\$ 97,259,085	\$ 78,230,935
Brokerage accounts	81	218,405
Pooled separate accounts	15,643,113	12,082,989
Investments, at contract value:		
Unallocated deposit administration contract	23,536,639	22,074,898
Notes receivable from participants	1,746,777	1,857,763

The trustees also certified to the completeness and accuracy of \$23,386,446 of net appreciation in fair value of investments, \$1,688,457 of interest and dividends related to the aforementioned assets and \$94,436 related to interest income on notes receivable from participants for the year ended December 31, 2019.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under *FASB Accounting Standards Codification (ASC) Topic 820* are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Brokerage accounts: Brokerage accounts are valued at the value of the underlying investments at the end of the Plan year.

Pooled separate accounts: The unit value of pooled separate accounts is calculated based on the observable NAV of the underlying investments at the end of the Plan year. The NAV is used as a practical expedient to estimate fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

Assets at Fair Value as of December 31, 2019				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 97,259,085	\$ -	\$ -	\$ 97,259,085
Brokerage accounts	81	-	-	81
Investments measured at fair value	<u>\$ 97,259,166</u>	<u>\$ -</u>	<u>\$ -</u>	<u>97,259,166</u>
Pooled separate accounts (a)				15,643,113
Total investments at fair value				<u>\$ 112,902,279</u>

Assets at Fair Value as of December 31, 2018				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 78,230,935	\$ -	\$ -	\$ 78,230,935
Brokerage accounts	218,405	-	-	218,405
Investments measured at fair value	<u>\$ 78,449,340</u>	<u>\$ -</u>	<u>\$ -</u>	<u>78,449,340</u>
Pooled separate accounts (a)				12,082,989
Total investments at fair value				<u>\$ 90,532,329</u>

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line item presented in the statement of net assets available for benefits.

Investments measured using the NAV per share practical expedient: The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2019 and 2018. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment	Fair Value at December 31		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2019	2018			
Pooled separate accounts	\$ 15,643,113	\$ 12,082,989	None	Immediate	None

Transfers between levels: For the year ended December 31, 2019, there were no significant transfers between Levels 1 and 2 and there were no transfers in or out of Level 3.

Note 5. Unallocated Deposit Administration Contract

The Plan has a benefit-responsive unallocated deposit administration contract with Prudential Retirement Insurance and Annuity Company (Prudential). Prudential maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Prudential. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Cargotec Holding, Inc. 401(k) Plan

Notes to Financial Statements

Note 5. Unallocated Deposit Administration Contract (Continued)

Prudential is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the unallocated deposit administration contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the unallocated deposit administration contract. Contract value, as reported to the Plan by Prudential, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.5%. Such interest rates are reviewed on a semiannual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any events that would limit the Plan's ability to transact at contract value with participants is probable of occurring.

The unallocated deposit administration contract does not permit the insurance company to terminate the agreement prior to 90 days' written notice.

Note 6. Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 8. Tax Status

The underlying nonstandard prototype plan has received an opinion letter from the IRS dated April 29, 2014, stating that the form of the Plan is qualified under section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is tax-exempt. The Plan Sponsor has determined that it is eligible, and has chosen, to rely on the current IRS prototype plan opinion letter. Although the Plan has been amended since the prototype plan received the opinion letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Code.

Cargotec Holding, Inc. 401(k) Plan

Notes to Financial Statements

Note 8. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2019 statement of net assets available for benefits.

Note 10. Related-Party and Party-in-Interest Transactions

Certain Plan assets are managed by Prudential Bank & Trust, F.S.B. and Prudential Retirement Insurance and Annuity Company. Prudential Bank & Trust, F.S.B. and Prudential Retirement Insurance and Annuity Company are the trustees of the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the services amounted to \$229,252 for the year ended December 31, 2019. In addition, fees paid by the Plan for investment management services are netted with investment income.

Note 11. Subsequent Events

Subsequent to the coronavirus (COVID-19) outbreak in 2020 in the United States, there has been substantial volatility in financial markets and the economy. These conditions and other economic events have had a significant adverse impact on investment portfolios. As a result, the Plan's investments have likely incurred a significant volatility in fair value since December 31, 2019.

Management has evaluated and disclosed subsequent events up to and including October 7, 2020, which is the date the financial statements were available to be issued.
