1. DESCRIPTION OF PLAN:

The following description of the Yachiyo 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees, subject to certain exclusions as defined, of Yachiyo of America, Inc., and affiliated adopting companies (collectively, the Employer) who are at least 18 years of age. An employee may participate in the Plan as of the first day that the employee meets the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 100% of their annual eligible compensation to the Plan, subject to certain limitations established by law. Participants are automatically enrolled at a 3% deferral rate, unless the participant elects otherwise. Participants may also contribute Roth elective deferrals and amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants who reach age 50 may elect to make catch-up contributions.

The Plan provides for discretionary Employer matching contributions. For the years ended December 31, 2019 and 2018, the Employer made matching contributions of 100% of the first 3% of employee salary deferrals. The Employer may also make a discretionary annual contribution to the Plan. No discretionary annual contribution was made during the years ended December 31, 2019 and 2018.

Participant accounts

Individual account balances are maintained for each participant. Each participant's account is credited with the participant's contributions, related Employer matching contributions, and an allocation of the Employer's discretionary contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The Plan's investments are participant-directed.

Vesting

Participants are immediately vested in all contributions plus actual earnings thereon.

Payment of benefits

Upon termination of service, death, disability, retirement, or reaching age 59 ½, distributions may be made to the participant or beneficiary in a single lump sum payment, or certain installment payments. Normal retirement is at age 65; however, the Plan also provides for early retirement upon attaining age 55 and five years of service. A participant may also elect to withdraw his or her deferred contributions and vested Employer contributions in the event of financial hardship, subject to Plan provisions.

Participant notes receivable

Participants may borrow from their Plan accounts under terms ranging from 1-5 years, or a reasonable period of time longer than 5 years for the purchase of a primary residence. The minimum note amount is \$1,000. The maximum loan amount is the lesser of \$50,000 or 50% of the vested account balance. Notes are secured by the balance in the participant's Plan account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting

The financial statements are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value (except for fully benefit-responsive contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisor and custodians.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant notes receivable

Participant notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan. No allowance for credit losses has been recorded as of December 31, 2019 and 2018.

Payment of benefits

Benefits are recognized when paid.

Administrative expenses

Certain administrative expenses are paid by the Employer and are excluded from these financial statements. Fees related to the administration of notes receivable or transactional fees are charged directly to the participant's account and are included in administration expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

3. INFORMATION PREPARED AND CERTIFIED BY CUSTODIANS:

Charles Schwab Bank and Standard Insurance Company (Standard) were the custodians for the years ended December 31, 2019 and 2018. The following information included in the accompanying financial statements and supplemental schedule of assets (held at end of year) was obtained from data that has been prepared and certified to as complete and accurate by the custodians:

Investments held at end of year

Participant notes receivable

Net appreciation (depreciation) in fair value of investments

Interest and dividends

4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT:

The Plan has a fully benefit-responsive group annuity investment contract issued by Standard. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The group annuity contract issuer is contractually obligated to repay the principal and specified interest rates that are guaranteed to the Plan.

The contract meets the fully benefit-responsive investment contract criteria and, therefore, are reported at contract value. Contract value is the relevant measure for fully benefit-responsive contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Standard, represents contributions made under the contract, plus earnings at the guaranteed interest rates, less participant withdrawals, transfers and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

By definition, this guaranteed investment contract is an insurance contract. As a result, the Plan may transact according to the terms defined in the contract at any time, however, certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include the early termination of the contract prior to Standard's recovery of start-up costs. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable. The guaranteed investment contract may be terminated by the issuer with at least sixty days of advance written notice to the Plan.

5. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2019 and 2018.

- *Cash*: Valued at closing price on active market.
- *Self-directed brokerage accounts*: Valued at observable market quotations for identical assets that are priced on a daily basis. The accounts primarily hold common stock, mutual funds, cash, and unit trusts which are considered actively traded.
- *Mutual funds*: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

Assets at fair value as of December 31, 2019

	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Cash	\$ 92,709	92,709	-	-

Investments, at fair value	\$ <u>20,468,675</u>	<u>20,468,675</u>	<u>-</u>	<u>-</u>

Assets at fair value as of December 31, 2018

	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Cash	\$ 11	11	-	-
Self-directed brokerage accounts	721,714	721,714	-	-

Investments, at fair value	\$ <u>15,722,173</u>	<u>15,722,173</u>	<u>-</u>	<u>-</u>

6. RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS:

Certain Plan investments are managed by and certain administrative expenses are paid to Charles Schwab Bank and Standard, the custodians of the Plan. Therefore, transactions involving these investments and administrative expenses qualify as party in interest transactions, which are exempt from the prohibited transaction rules.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

8. TAX STATUS:

The Employer adopted a volume submitter plan, which obtained its latest opinion letter on March 31, 2014. In that opinion letter, the Internal Revenue Service (IRS) stated that the volume submitter plan document, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan is designed in compliance with the applicable requirements of the IRC.

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

10. SUBSEQUENT EVENTS:

Subsequent to the date of the financial statements, an outbreak of a novel strain of coronavirus (COVID-19) has disrupted supply chains and affected production and sales across a range of industries. The extent of the impact of COVID-19 on the Plan Sponsor's performance and the Plan's investments will depend on certain developments, including the duration and spread of the outbreak. Impact to the Plan cannot be predicted, and the extent to which COVID-19 may impact the net assets available for benefits is uncertain at this time.

The Plan has evaluated subsequent events through October 8, 2020, the date the financial statements were available to be issued.
