DLZ CORPORATION
EMPLOYEE STOCK OWNERSHIP AND 401(K) PLAN
Notes to Financial Statements
December 31, 2019

Note 1 - Plan Description:

The following description of the DLZ Corporation Employee Stock Ownership and 401(k) Plan (the "Plan") provides only general information. Plan participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that includes an Employee Stock Ownership Plan (ESOP) covering substantially all full-time employees of DLZ Corporation and Subsidiaries (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Amendments

Effective January 1, 2019, the Plan was amended to change the hardship distribution procedures to align with the regulations enacted by the Bipartisan Budget Act of 2018.

Eligibility

Employees are eligible to participate in the 401(k) portion of the Plan on the first day of the month following their date of hire. Participation in the ESOP requires an individual to complete one year of service defined as a 12-month period in which an employee works at least 1,000 hours.

Contributions

Each year, participants may contribute pre or after-tax contributions up to 50% of their annual eligible compensation as defined by the Plan. Participants may also contribute rollovers from other qualified plans. Participants who have attained age 50 prior to the end of the plan year are eligible to make catch-up contributions. Upon eligibility being met, participants will be automatically enrolled at a 4% deferral rate with a 1% annual increase up to 10%.

Company contributions are discretionary and consist of a match contribution. The Plan also allows for a profit-sharing contribution made at the discretion of the Board of Directors. The matching contributions are based upon a percentage of each participant's salary deferral that is contributed to the Plan. For the year ended December 31, 2019, the Company matched 50% of up to 4% of compensation contributed by each participant totaling \$965,564. A profit-sharing contribution totaling \$291,500 was also contributed. For the year ended December 31, 2019, the Company funded an ESOP contribution totaling \$835,000.

EMPLOYEE STOCK OWNERSHIP AND 401(K) PLAN
Notes to Financial Statements
December 31, 2019

Note 1 - Plan Description (Continued):

Forfeitures

Forfeited balances from terminated participants' nonvested accounts are re-allocated annually to the remaining Plan participants in the ratio each participants compensation bears to the total compensation of all participants. For the year ended December 31, 2019, no 401(k) forfeitures were used and \$17,724 in ESOP forfeitures were re-allocated to Plan participants. Amounts available for future use as of December 31, 2019 and 2018, were \$192,414 and \$130,502, respectively.

Participant Accounts

Each participant's account is credited with the participant's and Company's contributions, Plan earnings and charged with an allocation of administrative expenses. Company contributions and forfeitures are allocated based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct their deferrals, rollovers and matching contributions into various investment options offered by the Plan.

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee may vote as directed by the Plan committee if no direction is received from the participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's portion of their accounts, plus actual earnings, is based on years of continuous service as follows:

<u>Years of Service</u>	<u>Percent Vested</u>
2	20%
3	40%
4	60%
5	80%
6 or more	100%

EMPLOYEE STOCK OWNERSHIP AND 401(K) PLAN
Notes to Financial Statements
December 31, 2019

Note 1 - Plan Description (Continued):

Participant Notes Receivable

Participants may borrow from their accounts up to an amount that is equal to the lesser of \$50,000 or 50% of the present value of the participant's nonforfeitable accrued benefit. All loans are to be repaid over a period not to exceed five years, although an extension of the repayment period may be granted if the loan proceeds are used to purchase a participant's principal residence. The loans are collateralized by the participant's vested account and bear interest at a reasonable rate for loans of a similar nature made from financial institutions. Principal and interest is paid ratably through payroll deductions. Should the participant terminate, the balance of the outstanding loan becomes due and payable and the participant's vested account will be used to repay the loan. A participant may have no more than one loan outstanding at any time. Participant loans are valued at their unpaid principal balance plus accrued but unpaid interest.

Payment of Benefits

For the 401(k) portion of the Plan, a participant may elect to receive a single lump sum or a series of installments equal to the value of his or her account upon termination of service, death or disability. A participant may also request in-service or hardship distributions if the requirements are met.

Payment of the ESOP account will either be paid as a single lump sum or installments over a period of time up to five years. A single lump sum will be paid to a terminated participant if their account balance is \$5,000 or less on the date of distribution. If the vested balance of the participant's account is greater than \$5,000 on the date of distribution, the account will be distributed in five annual installments. Distributions due to conflict of interest or death will be paid in a single lump sum.

All distributions are subject to the applicable provisions of the Plan document. Benefit payments are recorded when paid.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25% of their shares allocated to his or her account, less any shares previously diversified. In the 6th year, the percentage changes to 50%.

Plan Termination

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances.

Note 2 - Significant Accounting Policies:

Basis of Accounting

The Plan's financial statements are prepared on the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates. The fair value of DLZ Corporation preferred stock is particularly subject to change in the near term.

Investments Valuations and Income Recognition

The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Fair Value Measurements

ASC 820 defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (or exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs are inputs that reflect the Plan's assumptions about the inputs that market participants would use in pricing the asset or liability and are developed based on the best information available in the circumstances.

The fair value hierarchy input levels are as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

DLZ CORPORATION
EMPLOYEE STOCK OWNERSHIP AND 401(K) PLAN
Notes to Financial Statements
December 31, 2019

Note 2 - Significant Accounting Policies (Continued):

Fair Value Measurements (Continued)

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 3 - Information Prepared and Certified by Trustee:

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the Plan's trustee.

	<u>2019</u>	<u>2018</u>
Investments, at fair value	\$ 81,734,891	\$ 63,351,468
Notes receivable - participants	409,847	425,149
Investment gains	14,758,728	
Loan interest income	21,442	

Note 4 - Nonparticipant-Directed Investments:

The significant components of the changes in net assets relating to the nonparticipant-directed investments for the year ended December 31, 2019, are as follows:

Changes in net assets:	
Contributions	\$ 835,000
Net appreciation in investment value	2,260,236
Distributions	(668,496)
	<hr/>
Net Increase	\$ 2,426,740
	<hr/>

Notes to Financial Statements

Note 5 - Party-in-Interest Transactions:

Certain Plan assets are investments sponsored by Vanguard Fiduciary Trust Company, the Plan's trustee. Other assets are invested in the stock of DLZ Corporation, the Plan sponsor. Transactions in these investments qualify as exempt party-in-interest transactions.

The Company provides certain accounting, administrative and investment management services to the Plan for which it receives no compensation.

Note 6 - Plan Expenses:

Administrative expenses paid from the Plan represent recordkeeping and administrative fees which amounted to \$27,662 for the year ended December 31, 2019.

Note 7 - Tax Status:

The Plan received a favorable determination letter from the Internal Revenue Service dated February 8, 2018, stating the Plan, as then designed, was qualified under Section 401 of the Internal Revenue Code. The Plan has since been amended; however, the Plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Authoritative accounting standards require the Plan to examine its tax positions for uncertain positions. Management is not aware of any tax positions that are more likely than not to change in the next 12 months or that would not sustain an examination by applicable taxing authorities.

The Plan's policy is to recognize penalties and interest as incurred in its statement of changes in net assets available for benefits, which totaled \$0 for the year ended December 31, 2019.

Note 8 - Fair Value Measurements:

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in valuation methodologies at December 31, 2019, compared to December 31, 2018. The Company's policy is to recognize transfers between levels at the end of each reporting period, if applicable. There were no transfers between Level 1, 2 or 3 assets or liabilities during the year ended December 31, 2019.

DLZ CORPORATION

Notes to Financial Statements

Note 8 - Fair Value Measurements (Continued):

Money market funds: Valued at the daily closing price as reported by the underlying fund, which is traded on a national exchange.

Registered investment companies: Valued at the daily closing price as reported by the underlying fund, which is traded on a national exchange.

DLZ Corporation preferred stock: Valued at fair value as determined by a third-party independent appraiser, which has been reviewed and approved by the Plan trustee and management.

Common / collective trust: Valued at fair value, using the practical expedient as provided by the Financial Accounting Standard Board's (FASB) Accounting Standards Codification (ASC) 820. The Plan's investments in common and collective trusts, which invest in fixed income securities, guaranteed investment contracts and a money market fund, calculate NAV per unit. Investments in common and collective trusts are marked to market and priced daily.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a summary, by level within the fair value hierarchy, of the Plan's assets at fair value as of December 31, 2019 and 2018:

Guideline Public Company Method: warrants moderate consideration.

Guideline Transaction Method: warrants moderate consideration.

Note 9 - Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 10 - Subsequent Events:

On January 20, 2020, the World Health Organization ("WHO") announced a global health emergency stemming from a new strain of coronavirus that was spreading globally (the "COVID-19 outbreak"). On March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic, triggering volatility in financial markets and a significant negative impact on the global economy. Because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, Plan management is unable to estimate the full impact of the COVID-19 outbreak on the assets of the Plan, as it continues to evolve as of the date of this report.

The Plan has evaluated subsequent events through October 7, 2020, the date on which the financial statements were available to be issued.
