Essity North America Investment and Retirement Plan
Notes to Financial Statements
As of and for the Years Ended December 31, 2019 and 2018

1. Description of Plan

The following brief description of the Essity North America Investment and Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan, which is a defined contribution plan and originally effective September 1, 2001, was most recently amended and restated effective as of January 1, 2017. The Plan sponsor is Essity North America Inc. (the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

In 2017, Essity acquired BSN medical, a leading medical solutions company that develops products within wound care, compression therapy and orthopedics. The Plan was amended during 2018 (see Note 8) to, among other matters, reflect the mergers, effective December 31, 2018, with and into the Plan of the BSN Medical Inc. Savings and Investment Plan (the “BSN Plan”) and the Compression Solutions, Inc. 401(k) Plan (the “CSI Plan”).

During 2018, assets of approximately \$61,478,621 were transferred in from the BSN Plan and assets of \$258,454 were transferred in from the CSI Plan. As of December 31, 2018, the amount due from the BSN Plan was \$58,809,823 and the amount due from the CSI Plan was \$258,454.

Eligibility

The Plan covers employees of the Company, as defined in the Plan document. Eligibility generally begins on the date of commencement of employment. Employees covered by a collective bargaining agreement, unless the collective bargaining agreement provides for eligibility in the Plan, leased employees, residents of Puerto Rico, and independent contractors are generally excluded from participating in the Plan. Temporary employees generally need to complete a year of service to become eligible for the Plan.

Contributions

Participants may contribute 1% to 75% of compensation as a tax-deferred contribution or as a Roth contribution, as defined in the Plan document. The Plan provides for an automatic enrollment of salary deferral contributions of 3% from payroll of new eligible employees, increasing by 1% annually on the participant’s employment commencement date anniversary up to a maximum of 5%, unless otherwise elected by the participant. The Company designates the age-appropriate target fund as the default investment for participants who do not make an affirmative election of an investment fund.

Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. These catch-up contributions are limited to \$6,000 for 2019 and 2018, respectively, and are not eligible for the Company match contribution.

The Plan provides for employer matching contributions which equal 100% of the first 3% of eligible compensation that a participant contributed to the Plan plus 50% of the next 2% of eligible compensation a participant contributed to the Plan, subject to certain limitations.

The Plan also provides, for eligible participants, a nonelective employer contribution amount to the Plan of up to 5.5% of compensation, as defined in Plan document, up to the Social Security Wage Base plus an additional amount of up to 5.5% of defined compensation that exceeds the Social Security Wage Base.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined in the Plan document. The benefits to which a participant is entitled are the benefits that can be provided from the participant's vested account. All investments are participant-directed.

Vesting

A participant, at all times, has a fully vested (100%) interest in their contribution accounts, matching contribution accounts, rollover accounts, and actual earnings thereon.

A participant is 100% vested after 3 years of credited service in his nonelective employer contribution account.

Notwithstanding the above vesting for the nonelective employer contribution accounts, a participant will become 100% vested in these accounts upon their attainment of normal retirement age while an employee, death while an employee, or becoming disabled while an employee.

Forfeited Accounts

If a former participant is re-employed by the Company within five years of the termination date, previously forfeited amounts are first used to reinstate the participant's account, then are used to reduce future Company contributions, and lastly to reduce administrative expenses. Total unallocated forfeitures were \$443,216 and \$260,871 at December 31, 2019 and 2018, respectively. Forfeitures used to offset employer contributions totaled \$345,100 and \$245,128 for the years ended December 31, 2019 and 2018, respectively.

Notes Receivable from Participants

Active Plan participants may request loans for a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of the participant's vested account balance. Participants are permitted to only have one loan, except as otherwise permitted by the Plan document. Loan terms range from one to five years, or up to fifteen years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate of prime plus 1%. At December 31, 2019, the interest rates ranged from 3.25% to 9.25%. Loan application and processing fees are charged directly to the participant's account balance. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

In the event of a participant's death, retirement, disability or termination of employment for other reasons, the participant or his beneficiary may elect to receive the entire account balance in a lump sum or as periodic distributions. Account balances which do not exceed \$1,000 will automatically be paid in a lump sum as soon as administratively feasible.

A participant may also withdraw all or a portion of his entire account balance upon attainment of age 59½ or in the case of financial hardship, as defined.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

Essity North America Investment and Retirement Plan
Notes to Financial Statements
As of and for the Years Ended December 31, 2019 and 2018

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The benefits steering committee of the Plan sponsor determines the Plan's valuation policies utilizing information provided by trustees, custodians and investment advisors. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments consists of the realized gains or losses and the unrealized appreciation or depreciation of those investments.

Notes Receivable from Participants

Notes receivable from participants (participant loans for Form 5500 reporting purposes) are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment management fees, fees related to the administration of notes receivable and other participant specific fees are charged directly to the participant's account and are included in administrative expenses. Certain investment related expenses are included in the net appreciation (depreciation) in fair value of investments.

Recently Issued Accounting Guidance

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update 2018-13, Fair Value Measurement (Topic 820), Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement ("ASU 2018-13"). ASU 2018-13 was issued as part of a disclosure framework project to improve the effectiveness of disclosures in the notes to the financial statements. ASU 2018-13 removes, adds and modifies certain disclosure requirements from Topic 820, however, the added disclosures are not required for nonpublic entities. ASU 2018-13 is effective for all entities for fiscal years beginning after December 15, 2019. Certain amendments are to be applied prospectively while others are to be applied retrospectively. Early adoption is permitted. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan early adopted ASU 2018-13 on January 1, 2019, which did not have a material effect on the Plan's financial statements.

3. Unaudited Information Certified by the Plan Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information included in the accompanying financial statements and supplemental schedule of assets (held at end of year) was certified by Vanguard Fiduciary Trust Company, the trustee, as complete and accurate.

- Investments, at fair value, and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2019 and 2018.
- Investment activity, including interest and dividend income, interest income on notes receivable from participants, and net appreciation (depreciation) in fair value of investments, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2019 and 2018.
- The information for all mutual funds, common collective trust and notes receivable from participants (participant loans) listed in the schedule of assets (held at end of year) at December 31, 2019, as shown in the supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Essity North America Investment and Retirement Plan
Notes to Financial Statements
As of and for the Years Ended December 31, 2019 and 2018

Common collective trusts: Valued at the NAV of units of the common collective trust held at year-end. The NAV, as provided by the common collective trust, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2019:

	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Investments, at fair value:				
Mutual funds	\$ 729,217,675	\$ 729,217,675	\$ -	\$ -
Common collective trust (*)	63,888,235	-	-	-
Total	<u>\$ 793,105,910</u>	<u>\$ 729,217,675</u>	<u>\$ -</u>	<u>\$ -</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2018:

	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Investments, at fair value:				
Mutual funds	\$ 550,744,304	\$ 550,744,304	\$ -	\$ -
Common collective trust (*)	65,866,715	-	-	-
Total	<u>\$ 616,611,019</u>	<u>\$ 550,744,304</u>	<u>\$ -</u>	<u>\$ -</u>

*In accordance with fair value measurement guidance, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented as investments in the statements of net assets available for benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2019 and 2018, there were no transfers in or out of levels 1, 2, or 3.

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate NAV per share (or its equivalent) as of December 31, 2019 and 2018.

Participant transactions (purchases and sales) in common collective trusts may occur daily. Were the Plan to initiate a full redemption of the common collective trusts, the common collective trusts reserve the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The Vanguard Retirement Savings Trust invests in high-quality fixed income securities with financial backing from insurance companies and banks. Participants who invest in the Vanguard Retirement Savings Trust agree to limitations imposed by issuers of investment contracts. These limitations include restrictions on the timing and amounts which can be transferred from the Vanguard Retirement Savings Trust to short-term bond funds. Additionally, once money is transferred from the Vanguard Retirement Savings Trust into stock, balanced or bond funds with an average duration of more than four years, the money must remain in the fund for at least 90 days before it can be transferred into a shorter-term bond fund. Money, however, can always be transferred back into the Vanguard Retirement Savings Trust.

The T. Rowe Price Stable Pooled Fund's investment objective is to maximize current income consistent with maintenance of principal and to provide for withdrawals for certain participant-initiated transactions under a retirement plan without penalty or adjustment. The Fund invests principally in guaranteed investment contracts issued by insurance companies, investment contracts issued by banks, synthetic investment contracts issued by banks, insurance companies and other issuers, as well as other similar instruments. Participants' ownership of the Fund is represented as units. Units are issued and redeemed daily at the Fund's constant NAV of \$1 per unit. The Fund allows for daily liquidity, with no additional days' notice required for redemption. It is the policy of the Fund to use its best efforts to maintain a stable NAV of \$1 per unit, although there is no guarantee that the Fund will be able to maintain this value. The amounts in the Fund were transferred in from the BSN Plan (see Notes 1 and 8) and were subject to a redemption notice period. At the end of the redemption notice period in April 2019, amounts in the Fund were allocated to an investment option with a similar investment strategy. Participants invested in the Fund continued to be able to direct the withdrawal or transfer of all or a portion of their investment through April 2019.

5. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated August 1, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. The plan administrator and the plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

6. Related-Party and Party-In-Interest Transactions

The Plan invests in mutual funds and a common collective trust which are managed by affiliates of Vanguard Fiduciary Trust Company ("VFTC"). The Plan also paid \$385,536 and \$352,470 to VFTC for certain administrative, trustee, recordkeeping, and other expenses during the years ended December 31, 2019 and 2018, respectively. VFTC is the trustee as defined by the Plan and, therefore, transactions in these securities qualify as party-in-interest transactions. Such transactions are not, however, considered prohibited transactions under ERISA regulations. Additionally, for participants who have elected to take a participant loan, the loans are secured by the respective participant's account balance.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its employer matching contribution and nonelective employer contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Plan Amendments

Effective January 1, 2018, the Plan was amended to change the Plan sponsor to Essity North America Inc. and to change the Plan name to the Essity North America Investment and Retirement Plan.

Effective December 31, 2018, the Plan was amended to reflect the merger of the BSN Plan and CSI Plan with and into the Plan and to protect any benefits, rights or features under the BSN Plan and CSI Plan with regard to the merger and the transfer of account balances as well as to provide for a non-elective contribution under the Plan to eligible BSN and CSI employees. The non-elective contribution for eligible BSN and CSI participants to the Plan as well as JoViPak Corporation participants will be the amount of 3.5% of compensation, as defined in Plan document, up to the Social Security Wage Base plus an additional amount equal to 3.5% of defined compensation that exceeds the Social Security Wage Base for the 2019 plan year.

9. Subsequent Events

Effective January 1, 2020, the Plan was amended to increase the non-elective contribution for eligible BSN, CSI and JoViPak Corporation participants to the amount of 5.5% of compensation, as defined in Plan document, up to the Social Security Wage Base plus an additional amount equal to 5.5% of defined compensation that exceeds the Social Security Wage Base for the 2020 plan year and thereafter.

During 2020, the Plan enacted certain provisions under the Coronavirus Aid, Relief and Economic Security Act (the "CARES Act") including:

- Permitting CARES Act distributions (up to \$100,000); and
- Waiving, to the extent permitted by the CARES Act, required minimum distributions in the calendar year 2020.

The COVID-19 pandemic during 2020 has significantly disrupted financial markets, economies and other events subsequent to December 31, 2019. The impact to the Plan of the COVID-19 pandemic during 2020 has resulted in significant volatility in fair value of investments of the Plan. It has also decreased interest rates. The long-term impact of the effects of the COVID-19 pandemic to the Plan or Plan sponsor are currently not known. The extent of any impact of the COVID-19 pandemic on the Plan's net assets available for benefits or Plan participant's account balances could not be reasonably estimated at the date the financial statements were available to be issued.

The Plan has evaluated subsequent events through October 8, 2020, the date the financial statements were available to be issued.
