NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Daubert Industries Inc. Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all of the employees of Daubert Industries, Inc. as well as employees of ECP Incorporated and Daubert Chemical Company, Inc. (together the "Company") who are age 21 or older and are not otherwise excluded employees as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may elect to make contributions on a pretax basis, as defined by the Plan, not to exceed the maximum allowed under the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified plans. In addition, participants age 50 or older may contribute catch-up contributions to the Plan. The Company contributes matching contributions equal to 100% of the first 4 percent of eligible compensation that a participant contributes to the Plan. In order to be eligible to receive matching contributions, participants must have completed one year of service with 1,000 hours. The Company may make annual discretionary contributions at the option of the Company's Board of Directors. Contributions are subject to certain limitations.

Starting in 2012, participants may elect to make contributions on a post-tax basis to a Roth 401(k). These contributions, as defined by the Plan, may not exceed the maximum allowed under the Internal Revenue Code.

Participant's Accounts

Each participant's account is credited with the participants' contribution, Company matching contributions, and allocations of (a) the Company's discretionary contribution, if any, and (b) Plan earnings, and charged with administrative expenses. Allocations are based on the participant's earnings on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully vested in all contributions at all times.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contribution in any of the investment options offered by the Plan.

Participants may change their investment options at any time.

NOTE 1 - PLAN DESCRIPTION (Continued)

Notes Receivable From Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Participants may have only one loan outstanding at any one time. Loan terms range from one to five years but may be longer if used for the purchase of a primary residence in which case the repayment period may not extend beyond 10 years from the date of the loan. The loans are collateralized by the balance in the participant's account and bear a reasonable rate of interest based on the prevailing interest rates charged by persons in the business of lending money for similar loans. Interest rates on current loans range from 4.25 percent to 6.50 percent. Principal and interest are paid ratably though payroll deductions.

Payment of Benefits
On termination of service, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's interest in his or her account, or annual installments. Participants who elected to purchase the Company's common stock in 1988 may elect to receive their distribution in cash or shares of the Company's common stock based on a valuation determined as of the end of the fiscal year prior to the year of distribution. Distributions may also be made in cases of financial hardship.

Administration
All significant costs related to plan administration are paid by the Company.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates
The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. The value of Company stock has been estimated by an outside appraiser in the absence of readily ascertainable market values. Because of the inherent uncertainty of valuation, those estimated values may differ significantly from the value that would have been used had a ready market for those securities existed, and the differences could be material.

Investment Valuation and Income Recognition
Plan investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable From Participants
Notes Receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2019 and 2018.

Payment of Benefits
Benefits are recorded when paid. There were no benefits payable at December 31, 2019.

Expenses
Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events
The COVID-19 outbreak in the United States may cause significant disruption to operations and investments. While the disruption is currently expected to be temporary, there is considerable uncertainty around its duration. The related financial impact and duration cannot be reasonably estimated at this time.

The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 9, 2020, the date the financial statements were available to be issued.

NOTE 3 - INFORMATION CERTIFIED BY THE TRUSTEE

The following summary of the investment information as of and for the years ended December 31, 2019 and 2018, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that information provided to the plan administrator by the trustee related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments.

	2019	2018
Registered investment companies	$ 37,194,129	$ 31,037,754
Common collective trusts	$ 4,477,044	$ 3,746,546
Notes receivable from participants	$ 143,360	$ 188,558
Net appreciation (depreciation) in fair value of investments	$ 6,439,198	$ (4,013,228)
Dividends and interest	$ 1,920,651	$ 2,731,409

NOTE 4 - FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarch gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1:
Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2:
Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets:
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3:
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Registered Investment Companies: Valued at the net asset value of shares held by the Plan at year end.

Common Collective Trusts: Valued at the net asset value of shares held by the Plan at year end.

Common Stock: Valued at fair value using a discounted cash flow analysis of expected income of the Company at December 31, 2019 and 2018, respectively, and the various operating and working capital assumptions.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of difference methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plans assets measured at fair value as of December 31, 2019 and 2018:

NOTE 5 - INVESTMENTS

Investments representing more than 5 percent of the Plan's total assets at December 31, 2019 and 2018, are as follows:

	2019	2018
Registered Investment Companies:		
Fidelity Blue Chip Growth Fund - Class K	$ 6,068,599	$ 5,149,531
Fidelity Contrafund - Class K	5,026,022	4,268,273
Fidelity Puritan Fund - Class K	3,207,509	2,424,721
MainStay Large Cap Growth Fund Class I	3,930,282	3,531,019
Fidelity Managed Income Portfolio	4,477,044	3,746,546
Fidelity Freedom K 2020		1,995,870

NOTE 6 - NONPARTICIPANT-DIRECTED INVESTMENTS

The Plan allowed a one-time purchase of shares in a stock fund to provide for participants' investments in the Company's common stock. This election is irrevocable as long as the Company's common stock is not traded on an established securities market. Dividends received from this investment are proportionately reinvested in the Fidelity funds the participant has selected for the investment of the remaining balance of his/her account.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain Plan investments are shares of registered investment companies managed by Fidelity. Fidelity is the trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Furthermore, Fidelity is providing plan administration services to the Plan. Certain administrative expenses are paid by the Company and, accordingly, are not reflected in the accompanying financial statements.

Certain Plan investments are common stock of the Company.

Certain employees of the Company provide administrative services to the Plan. These employees are not compensated for these services by the Plan. Certain other fees are paid by the Company on behalf of the Plan.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 9 - TAX STATUS

Effective March 19, 2003, the Plan adopted a non-standardized form of a prototype plan sponsored by Fidelity Management and Research Co. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan's evaluation on December 31, 2019 and 2018 revealed no uncertain tax positions that would have a material impact on the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is a least, reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.
