1. DESCRIPTION OF PLAN

The following description of the Conifer Realty, LLC Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all employees of Conifer Realty, LLC (Company) who are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration - The Plan is administered by the Company. All assets of the Plan are held and managed by Fidelity Management Trust Company.

Contributions - Each year, participants may contribute up to the maximum percentage allowable of pretax or Roth (post-tax) annual compensation, as defined in the Plan (Roth option began in 2019). Participants are automatically enrolled at 4% with an annual increase of 1% up to a maximum of 10%. Participants may also make rollover contributions from other qualified retirement plans. Participants who have attained the age of 50 before the end of the plan year are eligible to make catch-up contributions. After one year of service, the Company will make matching contributions. In 2019, this was equal to 50% of the participant's contribution, on the first 6% of the participant's compensation. In 2018, this was equal to 75% of the participant's contribution, on the first 4% of the participant's compensation. Additional discretionary contributions to participants who have completed one year of service may also be made by the Company. Contributions are subject to certain limitations.

Participant Investment Options - Participants direct the investment of all contributions into various investment options offered by the Plan.

Participant Accounts - Each participant's account is allocated with the participant's contributions, the Company's contribution, Plan earnings, and administrative expenses. Plan earnings and administrative expenses are allocated based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately 100% vested in their contributions plus actual earnings thereon. Company contributions plus earnings thereon become 20% vested upon completion of two years of service and continue to vest at the rate of 20% for each successive year of service until 100% vested after six years of service. Participants are considered to have completed one year of service for vesting purposes at the anniversary date of their first day of employment with the Company.

Forfeitures - Participants who terminate their employment prior to their Company contribution account balance becoming 100% vested will be subject to the Plan's forfeiture rules. When a participant has a forfeiture event (death, distribution or five consecutive one-year breaks in service periods) their funds are moved to the forfeiture account. At December 31, 2019 and 2018, forfeited nonvested amounts totaled $140,933 and $116,226, respectively. These amounts can be used to reduce the Company's matching contribution and to pay administrative expenses of the Plan. In 2019 and 2018, administrative expenses were paid totaling $6,800 and $5,100, respectively, from the forfeited nonvested amounts. In 2020, $140,000 of the forfeiture amount was used to reduce the Company's 2019 matching contribution receivable.

1. DESCRIPTION OF PLAN, Continued

Notes Receivable from Participants - Participants may borrow from their vested account balance a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by a percentage of the vested account balance equal to the amount borrowed divided by the vested account balance and bear interest at a rate comparable to similar types of loans. Principal and interest are paid ratably through periodic payroll deductions.

Payment of Benefits - Upon retirement, death, disability, hardship or termination of employment, a participant may elect to receive benefits either in a lump-sum, installments or partial withdrawals.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net change in the fair value of the investments includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 **and 2018**. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Record keeping fees paid by the plan directly to the third party administrator are included in administrative expenses. Investment related expenses are included in net change in the fair value of investments.

3. INFORMATION CERTIFIED BY THE TRUSTEE

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator has obtained certification from Fidelity Management Trust Company that the investments and the related investment activity, appearing in the statements of net assets available for benefits, the statements of changes in net assets available for benefits, and the schedule of assets held for investment purposes, are complete and accurate.

4. FAIR VALUE MEASUREMENTS

The Plan accounts for its investments in accordance with Financial Accounting Standards Board Accounting Standards Codification, "Fair Value Measurements and Disclosures" (Fair Value Standard), which defines fair value, establishes a framework for measuring fair value and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by the Fair Value Standard, are used to measure fair value.

The Fair Value Standard prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has ability to access.

- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 or 2018.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

4. FAIR VALUE MEASUREMENTS, Continued

The common collective trust is valued at the net asset value (NAV), which is based on the market value of its underlying investments. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019:

	Level 1	Level 2	Total
Mutual funds	$15,443,962	$ 0	$15,443,962
Total assets in the fair value hierarchy	15,443,962	0	15,443,962
Investments measured at net asset value (a)	0	0	1,500,481
Total investments at fair value	$15,443,962	$ 0	$16,944,443

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018:

	Level 1	Level 2	Total
Mutual funds	$11,680,432	$ 0	$11,680,432
Total assets in the fair value hierarchy	11,680,432	0	11,680,432
Investments measured at net asset value (a)	0	0	950,824
Total investments at fair value	$11,680,432	$ 0	$12,631,256

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

For years ended December 31, 2019 and 2018, there were no transfers between Level 1 and 2 and no transfers in or out of Level 3.

4. FAIR VALUE MEASUREMENTS, Continued

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2019 and 2018, respectively:

Instrument	Fair Value At 12/31/19	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Stable value fund	$1,500,481	N/A	Daily	N/A

Instrument	Fair Value At 12/31/18	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Stable value fund	$950,824	N/A	Daily	N/A

5. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules. Fees incurred by the Plan for the investment management services are included in net change in the fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. The Plan made a direct payment to the third party administrator of $6,800 and $5,100 for 2019 and 2018, respectively, which was not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations ($9,250 and $9,050 for 2019 and 2018, respectively).

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Company contribution portion of their account.

7. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company, by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

8. RISKS AND UNCERTAINTIES

The Plan provides various investment options. Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect the account balances of participants and the amounts reported in the statement of net assets available for benefits.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	2019	2018
Net assets available for benefits per the financial statements	$17,643,305	$13,470,759
Adjustment for stable value common collective trust reporting	22,388	(9,755)
Net assets available for benefits per the Form 5500	$17,665,693	$13,461,004

The following is a reconciliation of changes in net assets available for benefits per the financial statements to the Form 5500 for the year ending December 31:

	2019	2018
Net (decrease)/increase in net assets available for benefits per the financial statements	$ 4,172,546	$ (392,407)
Current year adjustment for stable value common collective trust reporting	22,388	(9,755)
Prior year adjustment for stable value common collective trust reporting	9,755	469
Net increase in net assets available for benefits per the Form 5500	$ 4,204,689	$ (401,693)

10. SUBSEQUENT EVENTS

Management has evaluated subsequent events through the date of the independent auditors' report, which is the date the financial statements were available to be issued.

On March 11, 2020, the World Health Organization characterized an outbreak of a novel strain of coronavirus (COVID-19) as a pandemic. In addition, multiple jurisdictions in the U.S. have declared states of emergency. It is anticipated that the impact of COVID-19 will continue for some time. The extent of the future impact on the Plan's financial performance is not known as of the date of the independent auditors' report.
