Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

1. Description of Plan (continued)

Participant directed investments: The investments in the participant accounts are directed by the participants among several mutual funds that are selected by management of the Plan. For participants who do not make a selection, contributions are allocated to a target benefit fund.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. The Company safe harbor non-elective contribution is also immediately vested. Should the Company make an additional non-elective contribution, those will be vested over four years.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined as of the date the loan application is signed, is set at 1 percent above the prime rate, as defined. Principal and interest is paid ratably through payroll deductions. Participants may not have more than two loans outstanding at a time. Loans must be repaid over a period of five years unless the loan is used to acquire a personal residence in which case the loan can be repaid over a 30-year period.

Payment of Benefits: On termination of service due to death, disability, or retirement, participant distributions are paid in a lump-sum amount in cash equal to the value of the participant's vested interest in his or her account. Partial distributions are only permitted for required minimum distributions under Internal Revenue Code Section 401(a)(9). Participant consent to the distributions is required only if the distribution exceeds \$ 5,000. In service distributions are permitted for participants who have attained age 59 ½.

2. Summary of Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Dividends from mutual funds are recorded when credited by the mutual fund company.

Payment of Benefits: Benefits are recorded when paid.

2. Summary of Accounting Policies (continued)

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are paid directly by the Plan.

Forfeiture Account: The Plan forfeited safe harbor contributions based on a true up compliance tests. The forfeitures were used to reduce employer match by \$ 5,635 in 2018, the forfeiture account was \$ 3,347 and \$ 3,390 as of December 31, 2019 and 2018, respectively.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; and • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Registered Investment Companies (Mutual funds) Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

3. Fair Value Measurements (continued)

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

Fair Value Measurements December 31, 2019

Level				
	1	2	3	Total
Registered investment companies	\$ 12,654,207	\$ -	\$ -	\$ 12,654,207

4. Related-Party Transactions and Party- in-Interest Transactions

The Plan has agreements with various parties-in-interest to provide administration, investment advice, custodian, audit and other services. Management believes the arrangements are exempt under ERISA.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested for all amounts in their respective accounts.

6. Tax Status

The Plan is based on a prototype plan of Newport Retirement Services Inc.. Newport Retirement Services Inc. has received a letter from the IRS that has determined and informed Newport Retirement Services Inc. by a letter dated March 31, 2014 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants.

8. Participants who have withdrawn from the Plan

The account balances of participants who are no longer employed by the Company with account balances.

9. Concentrations

The Plans investments Vanguard family of funds are 92% of the investment in registered investment companies for December 2019 and 2018.

10. Compliance

The Plan did not have an ERISA Fidelity Bond as of December 31, 2019. Management obtained an ERISA Fidelity Bond in October of 2020.

Plan management identified and made a few self-corrections of errors in 2019 related to participant contributions.
