1. DESCRIPTION OF THE PLAN:

The following brief description of the Employees' Retirement Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan intended to meet the requirements of Section 401(k) of the Internal Revenue Code (IRC) covering employees of AluChem, Inc. AluChem of Jackson, Inc. Porocel Industries, LLC, Catalyst Recovery of Louisiana, LLC, AluChem of Little Rock, LLC and Quanta Technologies, LLC (the Companies) who have 90 days of service and are age twenty-one or older. Porocel Industries, LLC came under common control with the other companies on May 7, 1996, and the employees of Porocel Industries, LLC became eligible to participate in the Plan on September 1, 1996. Employees of Catalyst Recovery of Louisiana, LLC became eligible to participate in the Plan on October 7, 2004. Employees of AluChem of Little Rock, LLC became eligible to participate in the Plan on November 3, 2008. Employees of Quanta Technologies, LLC became eligible to participate in the Plan on April 27, 2012. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Companies are the plan administrators.

Contributions

Each year, participants may contribute up to a dollar limitation permissible under IRC. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 0.5% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

Prior to January 1, 2019, the Companies contribute 50% of every 1% of base compensation that a participant contributes to the Plan, up to a maximum of 5%. The Company also matches participant's catch up deferral contributions to the Plan.

Prior to January 1, 2019, the Companies elected to make a discretionary contribution equal to 1.5% of participants' gross annual eligible earnings (floor contributions) for those participants employed at the end of the Plan year. Contributions are subject to certain limitations as defined by the Plan.

Effective January 1, 2019, the Plan was amended to allow for safe harbor match contributions. These contributions equal 100% of employee contributions up to 3% of the employee's earnings and 50% of employee contributions exceeding 3% of the employee's earnings up to 5% of the employee's earnings.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the employer's contributions and (b) Plan's earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the amount that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and the Employer's discretionary contributions plus actual earnings thereon. Employer matching contributions become 100% vested after six years of service.

Notes receivable from participants

Participants may obtain a loan through the Plan for a maximum of 50% of their vested balance, but not to exceed \$50,000. The minimum loan amount is \$1,000. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates at the date of issuance as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive periodic installments, or a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited accounts

At December 31, 2019 and 2018, forfeited nonvested accounts totaled \$13,867 and \$17,282 respectively. Forfeitures are available to offset plan expenses or as additional employer contributions. Forfeitures were used to reduce plan fees by \$26,098 and \$21,472 during 2019 and 2018, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following are the significant accounting policies of the Plan:

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in the net appreciation of fair value of investments. Expenses associated with obtaining a loan are paid by the Plan participants.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenue and expenses during the reporting period. Accordingly, actual results may differ from those estimates.

Subsequent events

The Plan has evaluated subsequent events through, the date the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

The Plan management has elected the method of compliance permitted by 29 CFR2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Lincoln Financial Group, the Plan's trustee, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018, the supplemental schedule of assets (held at end of year) as of December 31, 2019, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2019.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Insurance company general account: Management has determined that contract value approximates fair value due to the contract crediting interest rates being comparable to similar contracts with equivalent credit risk.

Pooled separate accounts: The Plan's pooled separate accounts do not have readily determinable market values. The Plan, as permitted by accounting principles generally accepted in the United States of America, has valued this investment based on the net asset value reported by the investment manager, which is based on the underlying securities. These securities consist primarily of registered investment companies, which are valued based on quoted market prices.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

<u>Description</u>	<u>Assets at fair value as of December 31, 2019</u>

5. TAX STATUS:

The Internal Revenue Service has determined and informed the Company by a letter dated September 26, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Companies have the right to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all benefits will be distributed to participants and beneficiaries in proportion to their respective account balances.

7. RELATED PARTY TRANSACTIONS:

Pooled separate accounts and the insurance company general account are issued by Lincoln Financial Group. Since Lincoln Financial Group is the trustee of the Plan, these transactions qualify as party-in-interest. Fees paid by the Plan for the trustee services amounted to \$80,497 and \$72,406 for the years ended December 31, 2019 and 2018, respectively.

8. RISK AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. PLAN COMPLIANCE CORRECTION:

During 2019 and 2018, it was discovered that several employees were not properly auto enrolled, and several employees were not properly enrolled at the correct deferral percentages. The Plan administrator is currently in the process of correcting employees who should have been eligible to participate but were improperly excluded from the Plan, those that should not have been participating but were improperly included in the Plan, and those that had incorrect contributions for the year. The Plan is unable to reasonably estimate the dollar amount due to the Plan.

10. SUBSEQUENT EVENT:

Subsequent to the date of the financial statements, an outbreak of a novel strain of coronavirus (COVID-19) has disrupted supply chains and affected production and sales across a range of industries. The extent of the impact of COVID-19 on the Plan Sponsor's performance and the Plan's investments will depend on certain developments, including the duration and spread of the outbreak. Impact to the Plan cannot be predicted, and the extent to which COVID-19 may impact the statement of net assets available for benefits is uncertain at this time.
