The maximum participant loan is limited to the lesser of 50% of the participant's vested account balance or \$50,000. Participant loans bear interest at rates determined by the Plan administrator.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Forfeitures

Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company contributions or reduce expenses of the Plan that are paid by the Company. The Plan must reinstate the participant's non-vested account balance if the participant is re-employed prior to five consecutive one-year service breaks.

HEARTLAND HEALTHCARE SERVICES 401(k) RETIREMENT PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2019 and 2018

Note A - Description of the Plan (continued)

Payment of benefits

Normal retirement age is 59 ½. Early retirement is permitted at age 55, with 5 years of service with the Company. Upon termination of service, death, disability, or retirement, a participant may elect to receive the vested value of his or her individual account balance in a lump-sum distribution, substantially equal installments, or partial withdrawals, subject to the minimum of \$1,000.

Administrative expenses

Certain administrative costs and expenses are paid from forfeited accounts. Remaining expenses are deducted from participant account balances.

Note B - Summary of Significant Accounting Policies

Basis of accounting

The accompanying financial statements have been prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan determines valuations policies utilizing information provided by the investment advisors and third party custodians. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

HEARTLAND HEALTHCARE SERVICES 401(k) RETIREMENT PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2019 and 2018

Note B - Summary of Significant Accounting Policies (continued)

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expenses when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded, upon distribution of the participants vested balance.

Payment of benefits

Benefits are recorded when paid.

Subsequent events

The plan has evaluated subsequent events through October 6, 2020, the date the financial statements were available to be issued. As a result of the spread of the COVID-19 coronavirus, economic uncertainties have arisen which are likely to negatively impact the Company's financial position and results of operations. The extent and duration of the potential negative impact of the virus, that may include impacting our and employees, and those third parties involved in the administration of the Plan is unknown at this time.

Note C – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuations techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.

Level 2: Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2019 and 2018

Note C – Fair Value Measurements (continued)

The fair value of mutual funds and fixed income funds is based on quoted net asset values of the shares as reported by the funds, and therefore are considered level 1 investments. The mutual funds and fixed income funds held by the plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds and fixed income funds held by the plan are considered to be actively traded.

	Level 1 Investments	
	2019	2018
Mutual funds/equity funds	\$ 15,629,964	\$ 12,615,168
Mutual funds/fixed income funds	4,073,504	3,789,298
Total	<u>\$ 19,703,468</u>	<u>\$ 16,404,466</u>

The plan does not hold any investments classified as level 2 or level 3 investments.

There have been no changes in valuation methodologies used at December 31, 2019 and 2018.

Note D – Guaranteed Investment Contract with Insurance Company

The Plan holds a traditional fully benefit-responsive guaranteed investment contract with the Standard Insurance Company (the Standard). The Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by the Standard, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or a transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2019 and 2018, was \$2,575,276 and \$2,609,901, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1%. Such interest rates are reviewed on a quarterly basis.

Certain events limit the Plan's ability to transact at contract value with the Standard, as defined in the contract. Such events include termination of the contract, partial or total plan termination, for which a market value adjustment may apply. The Plan sponsor may choose to pay the market value adjustment directly, if applicable so that participant's contract values are not affected. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants or the issuer are probable of occurring.

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2019 and 2018

Note E - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in the employer portion of their accounts.

Note F - Plan Tax Status

The Internal Revenue Service has determined and issued a letter dated March 31, 2014, that its Volume Submitter Profit Sharing Plan with CODA is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore believe that the Plan is qualified, and the related trust is tax-exempt.

Note G – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note H - Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2019 to Schedule H Form 5500.

	2019
Net assets available for benefits per the financial statements	\$ 22,670,929
Less: defaulted loan shown as a distribution of benefits in 2017	(2,506)
Net assets available for benefits per Form 5500	\$ 22,668,423

Note I – Party-in-Interest Transactions

Certain administrative fees to manage and operate the Plan are paid for by the Company.

Members of the management team, Plan administrator and Plan trustee are current participants in the Plan.

These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.
