401(K) RETIREMENT SAVINGS PLAN**

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2019 AND 2018

Note A - Description of Plan

The following description of the Zaremba Management Company 401(k) Retirement Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Zaremba Management Company (the "Company"). Participants age 21 and over are eligible to participate upon completion of three consecutive months of employment. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was amended and restated effective November 1, 2018. In addition, a merger agreement between Zaremba Management Company 401(k) Retirement Savings Plan and the Siara Management Retirement Plan was approved and effective November 1, 2018. Participants from the Siara Management Retirement Plan were transferred to the Zaremba Management Company 401(k) Retirement Savings Plan. See Note J for details.

Contributions

Each year, participants may contribute up to 80% of their compensation as defined in the Plan agreement and subject to certain limits set by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation (prior to November 1, 2018, the deferral rate was 1%), and their contributions are invested in a designated balanced fund until changed by the participant.

Effective November 1, 2018, the Company makes matching contributions equal to 50% of the first 6% of employee elective contributions. Prior to November 1, 2018, the Company made matching contributions equal to 25% of the first 4% of employee elective contributions.

At the end of each plan year, the Company may make an additional elective contribution. No elective contributions have been made to the Plan during 2019 or 2018.

Participants direct the investment of all contributions into various investment options offered by the Plan.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2019 AND 2018

Note A - Description of Plan, continued

Participant Accounts

Each participant account is credited with the participant's contribution, the employer's matching contribution, and an allocation of (a) the Company's elective contribution, (b) plan earnings, and (c) plan administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions, plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service. Prior to November 1, 2018, participants were vested after six years of credited service.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive the value of the vested interest in his or her account in either a lump-sum, or in monthly installment payments. On termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. A lump-sum distribution will be automatically made to terminated participants whose vested account balance does not exceed \$5,000.

Forfeited Accounts

Forfeited non-vested accounts are used to reduce future employer contributions or administrative expenses. Non-vested account forfeitures totaled \$7,479 in 2019 and \$845 in 2018. Employer contributions were reduced by \$7,479 and \$845 from forfeited account balances in 2019 and 2018, respectively.

Investment Option

The Plan offers several investment options in which a participant may elect to invest. A participant may change his investment option specification with respect to contributions to be made in the future and with respect to amounts already in his individual account.

Notes Receivable from Participants

Participants may borrow from their account a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans must be repaid in level installments and, except for the purchase of the participant's principal residence, within five years. The loans are secured by the balance in the participant's account and bear interest at a fixed rate equal to the prime rate in effect as of the loan date, plus 2%. The interest rate on notes receivable outstanding as of December 31, 2019 and 2018 ranged from 5.25% to 7.50%. Principal and interest are paid ratably through payroll deductions.

Administration

The Company is the Plan Administrator. The Company may designate someone within the Company to assist with the duties of administration. The Plan Administrator has primary authority for filing various reports, forms and returns with the Department of Labor and the Internal Revenue Service. The Company also appoints trustees to the Plan.

Restrictions on Plan Assets

The use of Plan assets is for the exclusive benefit of eligible employees, participants, pensioners, their beneficiaries, or for proper expenses of administration of the Plan.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Reclassifications

Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform to the presentation in the current-year financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note H for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2019 AND 2018

Note B - Summary of Significant Accounting Policies, *continued*

Notes Receivable from Participants

Participant loans are recorded on the financial statements as notes receivable from participants at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced, and a benefit payment is recorded.

Contributions

Employee elective contributions and Company matching contributions are determined and deposited with the trustee biweekly. The Company discretionary contribution is determined and deposited with the trustee annually.

Excess Contributions

Amounts payable to participants for contributions in excess of amounts allowed by the IRS (“corrective distributions”) are included with benefits paid to participants in the year they are refunded to the participant. Corrective distributions included with benefits paid to participants totaled \$4,924 in 2019 and \$1,156 in 2018. Subsequent to December 31, 2019, the Plan paid corrective distributions related to the 2019 plan year totaling \$1,713.

Plan Expenses

The Plan is sponsored by the Company. Personnel within the employer organization perform various administrative services for the Plan, including maintenance of participant records. The payroll and related overhead costs associated with these services are not included as Plan expenses.

Concentrations

The Plan’s participants are employed by the Company and its’ subsidiaries.

Note C - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note D - Information Certified by the Custodian

In accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator has elected to restrict the scope of the auditor's examination with regard to statements or information prepared and certified by the insurance carrier.

John Hancock Insurance Co. and Reliance Trust Company have certified the accuracy and completeness of the investment activity for the years ended December 31, 2019 and 2018. In connection with the Plan restatement and merger in November 2018, the Plan transferred its assets from Reliance Trust Company to John Hancock Insurance Co. ZAREMBA MANAGEMENT COMPANY
401(K) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2019 AND 2018

Note E – Parties in Interest Transactions

Certain Plan investments are pooled separate accounts and participant loans managed by John Hancock Insurance Company. John Hancock is the custodian as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions.

Certain administrative functions are performed by the officers and employees of the Company (who may also be participants in the Plan) at no cost to the Plan. These transactions qualify as party-in-interest transactions.

Participant loans qualify as party-in-interest transactions, however, such transactions are exempt from the prohibited transaction rules.

Note F - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by an opinion letter dated March 31, 2014, that the Volume Submitter Profit Sharing Plan with CODA is qualified under section 401(a) of the Code, and, therefore, acceptable for use by employers for the benefit of their employees. Although the Plan has not received a determination letter and has been amended since the date of the opinion letter, the plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Annually, information tax returns are prepared and filed with the Department of Labor.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

Note G - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the short-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note H - Fair Value Measurements

The framework for measuring fair values provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. <i>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</i>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled Separate Accounts: Valued at the Net Asset Value (NAV) of units of the fund held by the Plan based on the fair market value of the underlying investments of the fund. The funds do not have a finite life, unfunded commitments relating to these types of investments, or significant restrictions on redemptions. The unit values are calculated by John Hancock Insurance Co. and are presented for reconciliation purposes only.

Note I – Subsequent Events

On January 30, 2020, the World Health Organization (“WHO”) announced a global health emergency stemming from a new strain of coronavirus (“COVID-19”) and on March 11, 2020, the WHO classified the COVID-19 outbreak as a pandemic. The COVID-19 pandemic has triggered volatility in financial markets and has had a significant impact on the global economy and investment values. The Plan's individual investments fluctuate in response to changing market conditions therefore the impact of the COVID-19 pandemic on investment values in subsequent periods, if any, cannot be determined. The full impact of the COVID-19 outbreak continues to evolve as of the date of this report.

The Plan Administrator has evaluated subsequent events through October 8, 2020, the date the financial statements were available to be issued, and made any necessary adjustments and disclosures, as applicable.
