Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

FINANCIAL STATEMENTS AND
INDEPENDENT AUDITORS' REPORT
DECEMBER 31, 2019 AND 2018

INDEPENDENT AUDITORS' REPORT

To the Retirement Plan Committee and Participants of the
Retirement Plan of Thales ATM, Inc.
Arlington, Virginia

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Retirement Plan of Thales ATM, Inc. (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statement of changes in net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by US Bank, N.A., the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2019 and 2018, and for the year ended December 31, 2019, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule of Assets as of December 31, 2019, and the supplemental Schedule of Reportable Transactions for the year ended December 31, 2019 are required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

RETIREMENT PLAN OF THALES ATM, INC.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2019 AND 2018

1. DESCRIPTION OF THE PLAN

General – The Retirement Plan of Thales ATM, Inc. (the “Plan”) is a defined benefit plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) that was established January 1, 1988, for the salaried employees of Thales ATM, Inc. (the “Company”). Prior to January 2001, the Plan’s name was Retirement Plan of Airsys ATM, Inc. and prior to September 1997, the Plan’s name was the Retirement Plan of Wilcox Electric, Inc. Participants who were employed by the Company prior to January 1, 1988, also participate in the retirement plans of the Company’s former parent companies, Northrop Corp. and American Standard, Inc. (“predecessor plans”). Participants should refer to the Plan Document for a more complete description of the Plan’s provisions.

No other employees are eligible to participate under the Plan as participation was closed on December 31, 2002. On December 31, 2002, the accrual of plan benefits of the Plan was frozen. As a result of freezing the accrual of benefits, each person who was a general participant in the Plan on December 31, 2002, and who was in the employment of the Company on that date, became fully vested in their accrued benefits as of December 31, 2002.

US Bank, N.A., is the Plan’s trustee and custodian.

Contributions – Employer contributions are based upon actuarial determinations. Under the current provisions of the Plan, employees make no contributions. All contributions made by the employer are paid to the trustee and deposited in the trust fund. A contribution of \$370,107 was made for the 2019 Plan year during 2020.

Retirement Benefits – Participants become eligible for normal retirement on the first day of the month coincident with or next following the employee’s 65th birthday. Early retirement is permitted after age 55 with ten years of vested service.

Upon retirement, participants receive benefits based upon years of credited service. The Plan is only responsible for the portion of this computed benefit that exceeds the benefit payable under the predecessor plans.

Benefit distributions upon normal retirement are in the form of a life annuity for unmarried participants, if an optional payment is not selected. Married participants receive an actuarially reduced 50% joint and survivor annuity. Optional payment forms include single life annuity, contingent annuitant, 10-year certain or life benefit, or lump sum.

Surviving Spouse Benefits – Upon the death of a vested participant prior to eligibility for early retirement, benefits become payable to the spouse beginning on the participant’s earliest retirement date. The benefit payable to the spouse is equal to the 50% joint and survivor annuity that would have been paid had the participant survived to their earliest retirement date.

Upon the death of a vested participant after reaching eligibility for early retirement, the benefit payable to the spouse equals the benefit that would have been paid had the participant selected the early retirement option. The benefit is payable in the form of a 50% joint and survivor annuity.

Disability Retirement Benefits – In the event that a participant's employment is terminated as a result of disability, and the participant is eligible to receive a normal or early retirement benefit, they shall receive such benefit.

Administrative Expenses – The Plan or the Company may pay the administrative and Pension Benefit Guaranty Corporation ("PBGC") insurance premiums of the Plan. During 2019, the Plan paid PBGC fees of \$176,515 and administrative fees of \$63,851.

Plan Termination – Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. Upon termination, the net assets of the Plan will be allocated for payment to the participants in an order of priority as prescribed by ERISA and its related regulations and the Plan document.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated plan benefits and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC, as well as the priority of those benefits. Some benefits may be fully or partially provided for by the then existing net assets of the Plan and the PBGC guarantee, while other benefits may not be provided for at all.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires of the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest is accrued when earned.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Funding Policy - Annual contributions, as determined by the Plan's actuary, are made by the Company to fund the Plan and have been computed in accordance with the Unit Credit Actuarial Cost Method.

Payment of Benefits – Benefits to participants are recorded when paid.

Date of Management's Review – Subsequent events have been evaluated through October 7, 2020, which is the date the financial statements were available to be issued, and there were no material events that required recognition or disclosure.

3. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances—retirement, death, disability, and termination of employment, are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the plan's actuary. Significant actuarial assumptions used include the following:

Investment return – 7.25% per annum, compounded annually for 2020 and 2019.

Life expectancy assumptions –

For the 2020 year, the Pri-2012 Total Dataset Mortality Projected with Scale MP-2019 with separate rates for employees, retirees, contingent survivors, and disabled participants

For the 2019 year, the RP 2014 Total Dataset Adjusted to 2006 using MP-2014 and projected forward with Scale MP-2018, and for the 2018 year, the RP 2014 Total Dataset Adjusted to 2006 using MP-2014 and projected forward with Scale MP-2017.

Discount rate – 7.25% for 2019 and 2018.

Estimated expenses – Based on the previous year's administrative expenses, adjusted for the expected change in the PBGC premiums.

Form of Payment – For 2020 and 2019, it is assumed that 50% of participants will take a lump sum payment, while 50% will take the annuity option.

The actuarial present value of accumulated plan benefits as January 1 is as follows:

	2020	2019
Vested Benefits:		
Active and terminated participants	\$ 7,202,658	\$ 7,727,811
Retired participants	<u>4,643,883</u>	<u>4,510,150</u>
	11,846,541	12,237,961
Nonvested benefits	<u>6,179</u>	<u>5,679</u>
Total accumulated plan benefits	<u>\$ 11,852,720</u>	<u>\$ 12,243,640</u>

The change in accumulated plan benefits for the year ended December 31, 2019 is as follows:

Actuarial present value of accumulated plan benefits at beginning of period	\$ 12,243,640
Increase (decrease) during the year attributable to:	
Benefits accumulated	(39,641)
Interest due to the decrease in discount period	847,318
Benefits paid to participants	(1,132,799)
Assumption changes	(65,798)
	<u>(390,920)</u>
Actuarial present value of accumulated plan benefits at end of period	<u>\$ 11,852,720</u>

The changes in the actuarial assumptions discussed above resulted in a decrease to the accumulated plan benefit of \$65,798.

4. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term.

Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018:

Mutual Funds and Money Market Fund – Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments at December 31, 2019 and 2018 are reported at fair value as follows:

	Fair Value Measurements Using:			Total
	Level 1	Level 2	Level 3	
December 31, 2019:				
Mutual Funds	\$ 13,463,422			\$ 13,463,422
Money Market	649,371			649,371
Investments measured at fair value	<u>\$ 14,112,793</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 14,112,793</u>
December 31, 2018:				
Mutual Funds	\$ 12,374,190			\$ 12,374,190
Money Market	667,527			667,527
Investments measured at fair value	<u>\$ 13,041,717</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 13,041,717</u>

5. INFORMATION CERTIFIED BY CUSTODIAN

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, US Bank, N.A., the custodian of the Plan, has certified that the following data included in the accompanying financial statements is complete and accurate with respect to investments as of December 31, 2019 and 2018, and for the year ended December 31, 2019:

- Investments, at fair value
- Accrued investment income
- Interest and dividends
- Net appreciation on fair value of investments
- Supplemental Schedule of Assets
- Supplemental Schedule of Reportable Transactions

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that some changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

7. TAX STATUS

The IRS has determined and informed the Company by a letter dated July 27, 2014, that the Plan is designed in accordance with applicable sections of the IRC. The Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision has been made in the financial statements for income taxes.

Generally accepted accounting principles requires Plan management to evaluate tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan expenses are paid to US Bank, N.A. the Plan's custodian. These expenses are party-in-interest transactions.

Optional Form Selection

Upon retirement, 50% of active and vested terminated employees are assumed to elect the normal form of payment and 50% are assumed to elect the lump sum.

Provision for Expenses

The expected administrative (i.e. non-investment) expenses that will be paid from plan assets, which were assumed to equal actual expenses during the prior year adjusted for expected change in PBGC premium, were included in the Target Normal Cost for minimum contribution purposes.

Appendix B (Continued)

Standing Elections	The client has not signed an election that provides for the automatic use of the Carryover Balance and/or Prefunding Balance if necessary to meet the minimum funding requirement.
Asset Method	Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date plus an adjustment to defer full recognition of investment losses and gains over a two-year period. The investment (gain)/loss for every year equals the market value at the beginning of the year projected to the end of the year using the interest rate above, but no greater than the third segment rate for the plan year, minus the end of the year actual market value. The actuarial value of assets will be no less than 90% and no more than 110% of the market value (including interest-adjusted accrued but unpaid contributions). Note that due to the regulatory constraint on the interest rate, a characteristic of this asset valuation method is that, over time, it may be more likely to produce an actuarial value of assets that is less than the market value of assets.
Funding Method	Pure Unit Credit
Employees Valued	Only participants as of the valuation date were valued.
Changes in Assumptions and Methods since the Last Actuarial Valuation	<p>The interest rates used for determining the funding target were 3.92%, 5.52% and 6.29%. These rates were updated to the rates required for the current plan year.</p> <p>The optional form election assumption was changed from all employees electing the normal form of payment.</p> <p>The mortality table for the funding target was changed as required under PPA '06.</p>
Justification for Changes in Actuarial Assumptions	Assumption changes other than to prescribed actuarial assumptions were made to better anticipate future experience. No approval is required for these changes because the change in assumptions resulted in an increase in the funding shortfall.

January 1, 2019 Valuation
EIN/PN: 06-0938363 / 004

Changes in Assumptions and Methods since the Last Actuarial Valuation The optional form election assumption was changed from all employees electing the normal form of payment.

Justification for Changes in Actuarial Assumptions Assumption changes other than to prescribed actuarial assumptions were made to better anticipate future experience. No approval is required for these changes because the change in assumptions resulted in an increase in the funding shortfall.
