Independent Auditor's Report

To the Plan Administrator of Sensata Technologies Employees Pension Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Sensata Technologies Employees Pension Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2019, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note G, which was certified by SEI Private Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2019, and for the year then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter – Supplemental Schedules

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2019 and the Schedule of Reportable Transactions for the year ended December 31, 2019 are required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Other Matter - 2018 Financial Statements

The financial statements of the Plan as of December 31, 2018, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by SEI Private Trust Company, the trustee of the Plan. Their report, dated June 26, 2019, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the 2019 financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

A. DESCRIPTION OF PLAN:

The following description of the Sensata Technologies Employees Pension Plan (the "Plan") provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan covering all eligible employees of Sensata Technologies, Inc. (the "Company") that were former employees of Texas Instruments, Inc. who were hired prior to April 27, 2006. No new participants were permitted to join the Plan after April 27, 2006. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective January 31, 2012 future benefits accruals were frozen for all participants.

Contributions and Funding Policy

The Company contributes amounts based upon actuarial computations to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants. The contributions are calculated to fund the Plan's normal service costs on a current basis and unfunded prior service costs. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2019 and 2018.

Retirement Dates

An employee's normal retirement age is the later of the date the employee reaches age 65 or the fifth anniversary of the date the participant entered the plan. The Plan permits early retirement at the later of the date the employee reaches age 55 or 20 years of service. There is no mandatory retirement age.

Benefits

Normal retirement benefits are based upon a formula taking into account the average of a participant's highest five years of Plan compensation, as defined. If a participant elects early retirement, benefits may be actuarially reduced by a formula based on age, years of service and the age at which the employee begins receiving benefit payments.

The normal form of a benefit payment for an unmarried participant is an annual benefit, payable in monthly amounts, for life. If the participant is married the form of payment will be as an actuarially equivalent qualified joint and survivor annuity. Participants may elect to take their benefit in the form of a qualified joint and survivor annuity, certain and life annuity, life annuity or lump sum payment. If an active participant dies after becoming vested, the surviving spouse will be paid the minimum death benefit in the form of an annuity.

All Plan benefits are subject to the limitations prescribed by the Internal Revenue Code which includes provisions that limit the amount of retirement income which may be paid to an individual participant.

Vesting

All participants were fully vested in their accrued benefits upon 5 years of service.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Administrative Expenses

Substantially all the administrative expenses incurred by the Plan are paid from the assets of the trust to the extent they are not paid by the Company.

Payment of Benefits

Benefits are recorded when paid.

Reclassification

Certain 2018 amounts have been reclassified to conform with the presentation in the 2019 financial statements.

C. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS:

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable, under the Plan's provisions, to the service employees have rendered and include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Vested benefits are benefits to which members are entitled regardless of future service with the Company. Nonvested benefits are dependent upon future services.

The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The more significant assumptions underlying the actuarial computations used in the valuation as of January 1, 2019 and 2018 are as follows:

Discount Rate	- 3.8% for 2019 and 3.0% for 2018
Mortality basis	- RP-2014 with Scale MP-2018 for 2019 and RP-2014 with Scale MP-2017 for 2018
Retirement	- Retirement at age 70

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits consists of the following as of January 1, 2019:

	2019
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	$ 2,206,408
Participating employees	32,186,480
Participants with deferred benefits	5,429,660
Total vested benefits	39,822,548
Nonvested benefits	317,424
Total actuarial present value of accumulated plan benefits	$ 40,139,972

The net decrease in actuarial present value of accumulated plan benefits can be attributed to the following for the year ended January 1, 2019:

	2019
Actuarial present value of accumulated plan benefits at beginning of year:	$ 44,314,590
Increase (decrease) during the year attributable to:	
Increase due to the decrease in the discount period	1,265,813
Benefits accumulated	478,388
Actuarial (gains)/losses	(2,003,445)
Benefits paid	(3,915,374)
Net decrease	(4,174,618)
Total actuarial present value of accumulated plan benefits	$ 40,139,972

D. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or other inputs that are observable or can be corroborated by observable market data for substantially the full terms of the assets or liabilities.

Level 3 - Inputs to the valuation methodology are unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used by the Plan. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2019			
Description	Total	Level 1	Level 2	Level 3
Mutual funds	$ 44,793,949	$ 44,793,949	$ -	$ -
Total investments in the fair value hierarchy	$ 44,793,949	$ 44,793,949	$ -	$ -

	2018			
Description	Total	Level 1	Level 2	Level 3
Mutual funds	$ 39,786,040	$ 39,786,040	$ -	$ -
Total investments in the fair value hierarchy	$ 39,786,040	$ 39,786,040	$ -	$ -

E. PARTIES-IN-INTEREST:

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, the management of investments held by the trustee are considered party-in-interest transactions.

F. TAX STATUS:

The Internal Revenue Service (“IRS”) has determined and informed the Plan by a letter dated September 24, 2015 that the Plan and related trust are designed in accordance with applicable sections of the Code. The Plan administrator and the Plan’s tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

G. COMPLIANCE AND ERISA:

The plan administrator has elected the method of compliance permitted under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, no auditing procedures with respect to the information certified by SEI Private Trust Company, the trustee of the plan, were performed by the independent auditors except for comparing the information to the financial statements and supplemental schedules. The trustee has certified as to the completeness and accuracy of the investments held by the Plan as of December 31, 2019 and 2018, the investment earnings and other investment-related transactions of the Plan for the years then ended, and the information contained in the supplemental schedules.

H. PLAN TERMINATION:

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

a. Benefits attributable to employee contributions, if any, taking into account those paid out before termination.

b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

c. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed below).

d. All other vested benefits (that is, vested benefits not insured by the PBGC).

e. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

I. SUBSEQUENT EVENTS:

The Company has evaluated subsequent events through October 9, 2020, the date these financial statements were available for issuance.

The 2019 novel coronavirus (or "COVID-19") has affected, and may continue to affect, the values of investments held by the Plan. The extent of the impact of the COVID-19 outbreak on the Plan's investments cannot be predicted at this time.

J. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:

The following is a reconciliation of net assets available for benefits on the financial statements to the Form 5500 as of December 31, 2018:

Actuarial methods for funding

Asset methods

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for non-vested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Summary of major plan provisions

Effective date and plan year	April 27, 2006 (spinoff from TI plan).
Participation in Plan	An active participant in the TI Pension Plan on April 27, 2006 whose accrued benefit under TI Pension Plan was transferred to Sensata Pension Plan. Plan is closed to new entrants. Some participants ceased accruing benefits in 1997 when they elected out of the TI Pension Plan. Pension benefits are frozen effective January 31, 2012 for all participants.
Eligibility	
• Normal retirement	Age 65
• Early retirement	Age 55 with 20 years of service, or age 60 with 5 years of service.
• Disabaility retirement	Total and permanent disability, and 5 years of service.
• Deferred Vested Retirement	5 year of service.
Amount of Pension	
• Normal retirement	An annual amount, payable in monthly installments, equal to the greatest of (a), (b), and (c) as follows: (a) (1) minus (2) below: (1) 1.5% of a Participant's Average Credited Earnings multiplied by Benefit Service; minus (2) Participant's Retirement Age Factor multiplied by Final Average Earnings multiplied by the Benefit Service limited to 35 multiplied by a fraction not greater than 1 of Benefit Service at retirement or termination to Benefit Service at Normal Retirement Date (b) $84 multiplied by Benefit Service (c) (1) plus (2) below: (1) Accrued benefit under prior plan as of December 31, 1998; plus (2) Amount determined in (a) considering only Benefit Service earned on or after January 1,1989 and limiting Benefit Service in (a)(2) to 35 minus Benefit Service earned prior to January 1, 1989 Certain participants have special accrued benefits as of December 31, 2000 and 2001 as listed in the Appendices of the plan document.
• Early retirement	The accrued Normal Retirement Benefit shall be reduced by 1/3% for each of the first 60 months and 7/24% for each of the next 60 months by which early retirement age precedes 65 for benefits under (a)(1), (b), and (c)(1). Also, Retirement Age Factor used in (a)(2) under Normal Retirement is adjusted for early commencement.

Schedule SB, Part V — Summary of Plan Provisions

• Disability retirement	Annual amount payable monthly, commencing at Normal Retirement Date, computed in the same manner as Normal Retirement Benefit. Assuming continuous service after disability to Normal Retirement Date and compensation level at the same rate as pre-disability.
• Deferred vested Retirement	Annual amount payable monthly, commencing at Normal Retirement Date, computed in the same manner as Normal Retirement Benefit. If commencing early, the amount above is reduced on actuarially equivalent basis from Normal Retirement Date.
Pre-retirement death	Benefit to qualifying spouse upon death of an active employee participating in the plan with 5 years of service, equal to 50% of the deceased participant's accrued benefit had he terminated and elected a 50% joint and survivor benefit payable immediately.
Form of Payments	The following optional forms of payment are available: • Single life annuity (automatic form for unmarried participants) • Reduced 5-year or 10-year certain and continuous single life annuity • Reduced 50%, or 100% joint and survivor annuity with the spouse as beneficiary (50% is automatic form for married participants) • Lump sum
ACTUARIAL EQUIVALENCE	
• Annuities	The interest rate used for the purposes of computing alternative periodic forms of benefits shall be the interest rate on the 30-year U.S. Treasury securities for the month of August prior to the Plan Year in which the Annuity Starting Date falls. The mortality assumption shall be taken from the mortality table described in Revenue Ruling 2001-62.
• Lump Sums	The greater of: (a) IRS 417(e) mortality table for year of distribution and rates in effect for August for the prior plan year, and (b) GATT mortality table with the 30 year Treasury rate for August for the prior plan year
Definitions	
• Compensation	W-2 compensation plus section 401(k) and 125 elective deferrals, excluding travel expenses, resettlement allowances, cost-of-living differentials, income from stock options and completion bonuses.
• Final Average Earnings	Lesser of the average of participant's compensation, up to Social Security Wage Base, for the three year period ending with the year preceding retirement or termination and the average of the Social Security Wage Base for the 35 year period ending the year the participant reaches Social Security Retirement Age.
• Average Credited Earnings Compensation	The average of five highest consecutive and completed years during each of which the employer received a full year of benefit service.

Miscellaneous				
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2019, the limit is $225,000			

Benefits included or excluded

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Most recent plan amendments included:** None
- **Plan amendments excluded:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Late retirement increases:**
  - Active participants: *N/A*
  - Deferred vested participants*:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions

Plan provisions specific to funding

Additional benefits included or excluded

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* NA
  - *Plan amendments:* NA
  - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
  - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

Maximum benefit amounts under IRS rules were updated from 2018 to 2019.
