Note 1 - Plan Description

The following description of Pickaway Health Services 403(b) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was established by Pickaway Health Services, Inc. (the "plan sponsor") to cover eligible employees. Employees are eligible to participate upon employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective December 31, 2019, the Plan was frozen to new participants and contributions.

Contributions

Prior to December 31, 2019, participants may contribute up to a maximum percent of pretax annual compensation, as defined in the Plan and allowed by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants also may contribute amounts representing distributions from other qualified plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

Prior to December 31, 2019, the plan sponsor contributes 100 percent of participant deferrals up to 4 percent of eligible compensation. Base compensation for the purpose of the match formula is capped at a maximum of \$125,000. The plan sponsor may also make an employer profit-sharing contribution to all employees based on his/her eligible compensation for the plan year. The plan sponsor did not elect to make a profit-sharing contribution during 2019. Plan sponsor contributions are invested as directed by the participant.

Certain participant contributions in 2019 were paid after the time frame required by the Department of Labor. The contributions totaled \$1,553,324 and were related to all plan years from 2012 through 2019. The plan sponsor remitted substantially all of the the lost earnings to the Plan in 2019, with the remainder to be remitted during 2020.

Participant Accounts

Each participant's account is credited with the participant's contributions and the plan sponsor's contributions, as well as allocations of the Plan's earnings. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participants' earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100 percent vested in their contributions and plan sponsor matching contributions plus actual earnings on the contributions.

Benefit Payments

Distributions are payable upon retirement, death or disability, in the form of a lump sum, partial payment, or cash in an amount equal to the vested balance of a participant's account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or account as a lump-sum distribution.

Party-in-interest Transactions

Party-in-interest transactions are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the plan sponsor, and certain others. Dynamic Pension Services, Inc. is the Plan's third-party administrator. UBS Financial Services Company is the investment advisor for the Plan. These parties generally receive payment from the plan sponsor.

Notes to Financial Statements

December 31, 2019 and 2018

Note 1 - Plan Description (Continued)

All plan investments are held by Ascensus Trust Company, which is the trustee, as defined by the Plan. Fees incurred are paid directly by the Plan for the investment management services, or its affiliates.

Termination

While it has not expressed any intent to do so, the plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value and valued based on quoted market prices.

The methods described above may produce fair value estimates that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. See Note 5 for additional information.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the plan sponsor. The plan sponsor also provides accounting and other administrative services to the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 6, 2020, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Ascensus Trust Company holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Ascensus, LLC., as agent for Ascensus Trust Company.

Notes to Financial Statements

December 31, 2019 and 2018

Note 4 - Tax Status

The Internal Revenue Service (IRS) is not currently accepting applications for individual 403(b) plan determination letters. The plan administrator has indicated that the Plan will apply for a determination letter when the IRS allows such applications to be made. The plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of Internal Revenue Code Section 403(b). Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2019 and 2018:
