Note 1. Plan Description

The following brief description of the APFS 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of APFS Staffing Holdings, Inc. (the Company), as defined by the Plan. The Company is the Plan Administrator. Employees are eligible to participate in the Plan on the first day of the month subsequent to reaching age 21 and after completing 90 days of service, as defined by the Plan. Employees are eligible to receive a safe-harbor matching contribution made by the Company after completing one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: The Plan allows participants to contribute pre-tax and/or Roth after-tax contributions equal to a dollar amount or percentage of the contributing participant's compensation, as defined in the Plan, but not to exceed statutory limits of the Internal Revenue Code. Participants aged 50 and older may contribute catch-up contributions as allowed per Internal Revenue Service (IRS) limitations. The Company provides a safe-harbor matching contribution for all participants equal to 100 percent of each participant's contribution up to the first 3 percent of the participants' compensation plus 50 percent of the next 2 percent of the participants' compensation, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution; Company safe-harbor matching contribution; plan earnings; and administrative expenses. Allocations are based on participant earnings or account balances, as defined by the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions, the Company's safe-harbor matching 401(k) contributions and earnings thereon.

Notes receivable from participants: Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 less the highest outstanding balance of notes receivable during the one-year period prior to the date of the current loan or 50 percent of their vested account balance. Notes receivable terms range from one to five years, or longer if used to purchase a primary residence. The notes receivable are secured by the balance in the participant's account and bear interest at market interest rates, as defined. Interest rates on current notes receivable range from 3.25 percent to 7.25 percent. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Under certain circumstances, participants may make a financial hardship withdrawal.

Note 1. Plan Description (Continued)

Administrative expenses: Administrative expenses of the Plan are charged against earnings except to the extent the expenses are paid by the Plan Administrator.

Forfeitures: Forfeitures of nonvested account balances are used to pay plan administrative expenses and then to offset future Company contributions. There were no forfeitures at December 31, 2019 or 2018 and none were used during the year ended December 31, 2019.

Investment options: Upon enrollment in the Plan, a participant may direct employee contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: Investments are reported at fair value (except for fully benefit-responsive contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan’s valuation policies utilizing information provided by the investment trustee. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable are classified as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Note 3. Information Certified and Provided by Principal

The following is a summary of the Plan's asset and income information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal), trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income.

The following information has been certified by Principal:

	2019	2018
Shares of registered investment companies, at fair value	$ 16,606,625	$ 5,959,011
Units of pooled separate accounts, fair value	636,727	305,563
Units of common/collective trust held at a financial institution, fair value	41,921,921	21,377,440
Fixed Income Guaranteed Option, at contract value	1,644,735	1,083,466
Notes receivable from participants	543,935	384,053
Net appreciation in fair value of investments	9,058,667	
Interest and dividend income	213,386	
Interest on notes receivable from participants	31,657	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2019 and 2018:

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Units of pooled separate accounts: Valued at the NAV of the units of pooled separate accounts. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based upon the fair value of the underlying investments comprising the pooled separate accounts. This practical expedient is not used when it is probable that the fund will sell for an amount different from the reported NAV.

Units of common/collective trust held at a financial institution: Value based on the NAV of units of the common/collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the per share value of the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that a fund will sell the investment for an amount different than the reported NAV.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

	2019			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 16,606,625	$ -	$ -	$ 16,606,625
Investment measured at NAV (a)				42,558,648
Investments at fair value				$ 59,165,273

	2018			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 5,959,011	$ -	$ -	$ 5,959,011
Investment measured at NAV (a)				21,683,003
Investments at fair value				$ 27,642,014

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit the reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Note 4. Fair Value Measurements (Continued)

The following table sets forth the fair value of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2019 and 2018:

Investment	Fair Value December 31, 2019	Fair Value December 31, 2018	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Units of pooled separate accounts	$ 636,727	$ 305,563	$ -	Daily	None
Units of common/collective trust held at a financial institution	41,921,921	21,377,440	-	Daily	None
	$ 42,558,648	$ 21,683,003	$ -		

Note 5. Investment Contract with Insurance Company

The Plan entered into a fully benefit-responsive group annuity contract issued by Principal Life Insurance Company (Principal Life). Principal Life maintains the contributions in a general account. On any date, the value of the account will be equal to the sum of the deposits to it, reduced by any payments, transfers, applications, or fees with respect to the guaranteed interest balance on or before such date, plus any interest at its guaranteed interest rate. The group annuity contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value fund contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings at guaranteed credit rates, less participant withdrawals, if any. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. The crediting rate as of December 31, 2019, was 1.75 percent. Such interest rates are reviewed on a semiannual basis for purpose of resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (*a*) amendments to the plan documents (including complete or partial-plan termination or merger with another plan), (*b*) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (*c*) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (*d*) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note 6. Related-Party and Party-in-Interest Transactions

The Plan's investments are held and managed by Principal. Principal also provided administrative services to the Plan. In addition to the trustee to the Plan, Merrill Lynch Wealth Management also provides advisory services. Therefore, these investment transactions qualify as party-in-interest transactions. Administrative expenses paid by the Plan were $162,879 for the year ended December 31, 2019.

Certain employees of the Company provide administrative and trustee services to the Plan. These employees do not receive compensation from the Plan for their services. Certain other expenses of the Plan are paid by the Company.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 8. Tax Status

The Plan has adopted a volume submitter plan sponsored by Principal Life Insurance Company. The volume submitter plan provider has received an advisory letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter plan advisory letter has been relied upon by the Plan. The Plan has been amended since the volume submitter plan received the advisory letter. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

Note 9. Risks and Uncertainties

The Plan invests in various investment options. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2019 and 2018:

Note 11. Subsequent Events

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a “Public Health Emergency of International Concern” and on March 11, 2020, declared it to be a global pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate the spread of it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical area in which the Plan sponsor operates.

On March 27, 2020, the *Coronavirus Aid, Relief, and Economic Security Act* (CARES Act) was enacted to, amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic. The CARES Act also provides for certain optional relieve measures that can be adopted by qualified retirement plans including increased levels of participant loans for affected individuals for a limited time, and distributions with special tax treatment for affected individuals. Plans must allow participants who are affected by the coronavirus to suspend loan payments through December 31, 2020, and required minimum distributions for participants over 70 ½ can be omitted for 2020.

It is uncertain how long the adverse conditions associated with the coronavirus will last and what the complete financial effect will be to the Plan. As a result, the Plan investments may have incurred a significant decline in fair value since December 31, 2019.

Additionally, it is reasonably possible that estimates made in the financial statements, have been, or will be, materially and adversely impacted in the near term as a result of these conditions, including investment valuations.

The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 8, 2020, the date the financial statements were available to be issued.
