Note 1 - Plan Description

The following description of Wolf Robotics, LLC 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on October 1, 2003 and amended on January 1, 2019 covering all eligible employees of Wolf Robotics, LLC (the "Company"). The Plan is available to all employees age 21 years or older who have completed one month of service, with the exception of leased employees, employees covered by a collective bargaining agreement, nonresident aliens, and interns.

Effective January 6, 2020, the Plan was merged into the Lincoln Electric Company Employee Savings Plan, and all contributions were discontinued subject to provisions set forth in the plan agreement and the Employee Retirement Income Security Act of 1974 (ERISA). Accordingly, all assets, participants, and their related account balances were transferred to the Lincoln Electric Company Employee Savings Plan effective January 6, 2020. Upon merger of the Plan, active participants became 100 percent vested in their account balances.

Administration

Wolf Robotics, LLC (the "Company") sponsors and administers the Plan. American United Life Insurance Company (AUL or the "Custodian") serves as custodian, manages plan assets, and maintains the Plan's records. AUL offers Plan participants a variety of investment options through various pooled separate accounts and a group annuity contract. Individual accounts are invested in the various investment options at the direction of the participants.

Contributions

The Plan provides for employee salary deferral contributions up to a maximum of 100 percent of annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. This maximum percentage may be reduced by the plan administrator in certain circumstances. Employee contributions to the Plan are made through regular payroll deductions. Additional catch-up contributions are permitted to participants over the age of 50. Employees are automatically enrolled in the Plan upon meeting eligibility requirements at a deferral rate equal to 3 percent of eligible compensation unless the employee opts out of participation or elects a different percentage. The Company automatically increases participants' contributions by 1 percent unless the participant opts out, elects a different percentage, or is already contributing greater than or equal to 6 percent. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Participants are eligible to defer, on an after-tax basis through regular payroll deductions, up to 100 percent of eligible compensation as Roth 401(k) deductions. Provided requirements are met, withdrawals of contributions and any earnings are tax free to the participant. A participant's combined pretax and after-tax contributions cannot exceed the maximum annual amount allowed by law.

The Company may make discretionary matching contributions at a rate determined by management. In 2019, 50 percent of the first 6 percent of compensation deferred by the participant was matched by the Company. Employees are eligible for matching contributions upon entry into the Plan.

The Company may make discretionary profit sharing contributions. Participants who have completed 1,000 hours of service during the plan year and are employed on the last day of the plan year are eligible to receive profit-sharing contributions. During the year ended December 31, 2019 and the period ended January 6, 2020, the Company made no profit-sharing contributions.

Certain participant contributions in 2019 were paid after the time frame required by the Department of Labor. The Company remitted these contributions during 2019 and remitted related lost earnings to the Plan in 2020 subsequent to the plan merger.

Notes to Financial Statements

Note 1 - Plan Description (Continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting

Prior to the plan merger on January 6, 2020, the Company's discretionary contributions, if any, vest according to the following schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	- %
2	20
3	40
4	60
5	80
6 or more	100

A participant's account becomes 100 percent vested upon death, attaining normal retirement age (the age of 65 while an employee, retirement due to disability, or termination of the Plan.

Upon plan merger on January 6, 2020, active participants became 100 percent vested in all contribution types.

Participant Notes Receivable

Participants may borrow from their accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balances. The notes receivable are secured by the balance in the participant's account and bear interest at rates that range from 5.00 percent to 6.50 percent, which are commensurate with local prevailing rates determined periodically by the plan administrator, and mature at various dates through September 2049. The notes receivable have a maximum term of 5 years, unless such note receivable is for the purchase of the participant's primary residence, in which case the repayment period may not exceed 15 years from the date of the origination. Principal and interest are paid ratably through monthly payroll deductions. Upon termination of a participant from employment, the participant's note receivable shall continue to be payable in accordance with the provisions of the participant's note receivable or be due in full. Deemed distributions in the periods ended January 6, 2020 and December 31, 2019 were \$0 and \$8,452, respectively.

Benefit Payments

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

The Plan allows in-service distributions and partial distributions to participants age 59½ or older who have not terminated employment with the Company. The Plan also provides for hardship withdrawals for defined hardship events. Furthermore, the Plan allows for terminated participant vested account balances of \$1,000 or less to be automatically distributed and balances of \$1,000 to \$5,000 to be automatically rolled out of the Plan. The IRS has required minimum distributions once a participant reaches age 70½ during the previous plan year and is no longer employed by the Company.

January 6, 2020 and December 31, 2019

Note 1 - Plan Description (Continued)

Forfeitures

Prior to plan merger on January 6, 2020, if a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or to pay administrative expenses of the Plan. At January 6, 2020; December 31, 2019; and December 31, 2018, forfeited account balances totaled \$0, \$940, \$9,245, respectively.

The Plan used \$0 and \$12,826 for the periods ended January 6, 2020 and December 31, 2019, respectively, to reduce employer contributions.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by AUL or its affiliates. AUL is the Custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

The Plan provides for loans to participants, which are party-in-interest transactions that are exempt from the prohibited transaction rules.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

The Plan's investments are stated at fair value, except as noted below. The fully benefit-responsive group annuity contract is valued at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The pooled separate accounts are valued at net asset value per share (NAV) of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments. See Note 5 for additional information.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Various administrative costs are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

January 6, 2020 and December 31, 2019

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 1, 2020, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

American United Life Insurance Company holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Custodian.

Note 4 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 6 - Investment Contracts

The Plan has a benefit-responsive investment contract with AUL. AUL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

January 6, 2020 and December 31, 2019

Note 6 - Investment Contracts (Continued)

Interest is credited on contract balances using a single portfolio rate approach. Under this methodology, a single interest rate is applied to all contributions made to the product, regardless of the timing of those contributions. Interest crediting rates are reviewed on a semiannual basis for resetting. When establishing interest crediting rates for this product, AUL considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account.

Generally, there are no events that could limit the ability of the Plan to transact at contract value paid within 90 days or, in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract and which require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.
