Report on the Financial Statements
We have audited the accompanying financial statements of The Haskell Company Employee Stock Ownership Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statement of changes in net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2019 and 2018, and the changes in net assets available for benefits for the year ended December 31, 2019, in accordance with accounting principles generally accepted in the United States of America.

DIXON HUGHES GOODMAN LLP

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Financial Statements

1. Description of Plan

The following description of The Haskell Company (the "Company") Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Company established the Plan effective as of January 1, 2008 with an effective restatement date of January 1, 2015. The Plan operates as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan purchased Company common shares using the proceeds of borrowings from the Company, and holds the stock in a trust established under the Plan. The borrowings are to be repaid according to the terms described in Note 5 by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowings are collateralized by the unallocated shares of stock. The Company has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to:

a. The accounts of employees with rights in allocated stock (Allocated) and
b. Stock not yet allocated to employees (Unallocated).

Eligibility

Employees of the Company are generally eligible to participate in the Plan after attainment of age 18 and completion of one year of service provided they worked at least 1,000 hours during such year. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year. An eligible employee will still receive an allocation of the Company contributions for a plan year if employment is terminated on account of retirement, death, or disability in such year.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustees from the unallocated account and forfeitures of terminated participants' non-vested accounts. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on the proportion that an individual's compensation for the plan year bears to the compensation of all participants for the plan year. At December 31, 2019 and 2018 there were no forfeited non-vested accounts. During the year ended December 31, 2019, 803.3379 shares of stock and $33,975 in cash were forfeited.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service in the Plan. A participant is 20 percent vested after two years of credited service and are 100 percent vested after five years of credited service.

Payment of benefits

Distributions of benefits are made in cash. In the event of retirement, total disability or death of a participant, benefits will commence no later than the last day of the Plan year following the Plan year on which a participant retires, suffers a disability, or dies while employed by the Company. Distributions related to terminations may commence no later than one year after the end of the fifth Plan year following the Plan year in which the participant separated from service. The full benefits will be paid in either a lump sum, in five substantially equal annual installments, or in as many substantially equal annual installments as permitted under Code Section 409(o)(1)(C)(ii).

Regardless of the provisions listed above, any Company common stock allocated to a participant's account that was acquired by the Plan with the proceeds of a loan is not required to be distributed until the loan is completely repaid by the Plan. If a participant has met one of the conditions above, at the time the loan is repaid, the distribution must begin by the end of the year in which the loan is repaid.

Voting rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account under certain specified circumstances and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Plan termination

The Company reserves the right to terminate or amend the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Employee Benefits Administration Committee shall direct the trustees to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Put option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Trust buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Trust can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Years of participation in The Haskell Company Tax Deferred Savings Plan (401(k)) (the "401(k) Plan") is considered when calculating the 10-year requirement. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant my diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to

50%. For those participants who elect to diversify, Company common stock will be liquidated, and the proceeds will be transferred to the 401(k) Plan for investment at their discretion.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividends are recorded on the payment date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded upon distribution.

Administration of plan assets

The Plan's assets, which consist principally of Company common shares, are held by the trustee of the Plan. Company contributions are held and managed by the trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The trustee also administers the payment of interest and principal of the loan, which is reimbursed to the trustee through contributions as determined by the Company.

Administrative expenses

Certain Plan expenses are deducted from participant's accounts and the remaining expenses are paid by the Company. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Subsequent events

Subsequent to the statement of net assets available for benefits, the World Health Organization declared the outbreak of COVID-19, a novel strain of Coronavirus, a pandemic. This contagious disease outbreak has continued to spread across the globe and is impacting worldwide economic activity and financial markets. The financial statements do not reflect any adjustments as a result of the subsequent increase in economic uncertainty.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security ("CARES") Act was passed by Congress. The CARES Act, among other things, includes several relief provisions available to tax qualified retirement plans and their participants. Plan management is evaluating the impact of the CARES Act on the Plan.

The plan has evaluated subsequent events through August 31, 2020 the date the financial statements were available to be issued.

3. Investments

The Plan's investment in Company common stock at December 31, 2019 and 2018 is as follows:

	2019		2018	
	Allocated	**Unallocated**	Allocated	Unallocated
Number of shares	**87,156**	**26,243**	83,404	29,995
Cost	**$ 31,579,233**	**$ 9,508,362**	$ 30,219,775	$ 10,868,085
Estimated fair value	**$ 42,949,461**	**$ 12,932,432**	$ 36,653,561	$ 13,181,898

During the year ended December 31, 2019, the Plan's investment in Company common stock had net appreciation of $6,046,435.

4. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1: Observable inputs such as quoted prices in active markets.

Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.

Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Sponsor company common stock
The fair value of the Company common stock is determined by an annual independent appraisal. This appraisal was based on a combination of the market and income valuation approaches. The appraiser took into account historical and projected cash flow and net earnings, weighted average cost of capital, market comparables, and applicable discounts.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Sponsor company common stock	$ -	$ -	$ 55,881,893	$ 55,881,893

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Sponsor company common stock	$ -	$ -	$ 49,835,459	$ 49,835,459

The following table illustrates the activity Level 3 assets measured at fair value on a recurring basis for year ended December 31, 2019:

	Sponsor Company Common Stock
Fair value at December 31, 2018	$ 49,835,459
Net appreciation in fair value	6,046,435
Fair value at December 31, 2019	$ 55,881,894

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Loan Payable

On November 13, 2008, the Plan entered into a $25,844,637 term loan agreement with the Company. The proceeds of the loan were used to purchase 71,329 shares of the Company's common stock. Unallocated shares are collateral for the loan. The agreement provides for the loan to be repaid over twenty years at an interest rate of 4.24% per annum. On December 31, 2019 the shares were committed to be released with a scheduled payment of principal and interest of $1,942,327. This payment was subsequently paid in January 2020.

The schedule of amortization of the loan for the next five years and thereafter is as follows:

2020	$ 2,853,147
2021	1,517,932
2022	1,582,292
2023	1,649,381
2024	1,719,315
Thereafter	3,540,403
Total	$ 12,862,470

6. Employer Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. On December 31, 2019 the scheduled payment of principal and interest was comm

The Company contributed $3,178,017 to the Plan for 2019, of which $1,396,161 was receivable at December 31, 2019.

7. Exempt Party-in-Interest Transactions

Certain plan investments are shares held by the plan sponsor; therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid to the trustee by the Plan for administrative services were $97,105 for the year ended December 31, 2019.

8. Tax Status

The Internal Revenue Service (the "IRS") has determined and informed the Company by letter dated October 4, 2016, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (the "IRC"). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the accompanying 2019 and 2018 financial statements to Schedule H of Form 5500 as of December 31:

	2019	2018
Net assets available for benefits per the financial statements	**$ 45,740,340**	$ 39,395,350
Interest payable not reflected on Form 5500	**-**	(79,193)
Net assets available for benefits per the Form 5500	**$ 45,740,340**	$ 39,316,157

The following is a reconciliation of increase per the financial statements for the year ended December 31, 2019 to Schedule H of Form 5500.

Net increase in net assets per the financial statements	$ 6,344,990
Change in Interest payable not reflected on Form 5500	79,193
Net income per Form 5500	$ 6,424,183
