FRESH PRODUCTS LLC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2019 and 2018

Note 1—Description of plan and significant accounting policies

The following description of Fresh Products LLC. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established under Section 401(k) of the Internal Revenue Code of 1986 (the Code) covering all eligible employees of Fresh Products LLC (the Company). The Plan was adopted by the Company effective January 1, 1992. Employees who are age 21 or older and have completed one consecutive month of service prior to April 1, 2019 or six consecutive months of service on or after April 1, 2019 are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan was restated effective November 19, 2019 to a prototype plan of Great-West Life & Annuity and Great-West Trust Company, LLC, the current trustee of the Plan.

Contributions

Participants may elect to defer up to 100% of annual earnings, as defined in the Plan, subject to the maximum amount allowable by the Internal Revenue Service (IRS) per year. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make rollover contributions from other qualified contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make matching contributions equal to a discretionary percentage, to be determined by the Company, of the participants' salary reduction. The Company's discretionary employer matching contribution was 50% of participants' compensation, not to exceed 5% of participants' deferrals during 2019.

The Plan includes an automatic enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation and their contributions invested in a target retirement date fund until changed by the participant.

Participant salary deferrals and Company contributions are included in income during the period the related salary is earned.

Plan expenses

The Plan's expenses are paid either by the Plan or the Company as provided by the plan agreements. Expenses that are paid directly by the Company are excluded from the financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS- CONTINUED
December 31, 2019 and 2018

Note 1—Description of plan and significant accounting policies—continued

Valuation of investments and income recognition

Investments are reported at fair value except for a fully benefit-responsive investment, which is valued at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisers, trustees, and insurance company. See Note 6 for discussion on fair value measurements. Contract value is the relevant measure for fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant accounts

Each participant's account is credited with their individual contribution and an allocation of: (a) the Company's contribution, (b) Plan earnings (losses), and (c) charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined in the plan agreements. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the trustee to invest his or her funds in the investment options established under the Plan.

Vesting

Each participant is fully vested in their own contributions. Vesting in the participants' accounts for employer contributions is based on years of continuous service, with each year of service being based on a full plan year as defined in the plan document. A participant is vested in employer contributions as follows: 34% vested with less than one year of service, 67% vested at one year of service, but less than two years of service, and 100% vested at two years of service.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to \$50,000, but in no case more than 50% of their vested account balance. Employees may only have one outstanding loan at any given time. The interest rate for the notes receivable will be prime rate plus one percent. Principal and interest are paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses have been recorded as of December 31, 2019 and 2018. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

FRESH PRODUCTS LLC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS- CONTINUED
December 31, 2019 and 2018

Note 1—Description of plan and significant accounting policies—continued

Forfeitures

At December 31, 2019 and 2018, forfeited non-vested accounts totaled approximately \$14,524 and \$0, respectively. These accounts will be used to reduce future Plan expenses and future employer contributions. The Plan did not use any forfeitures during 2019.

Payment of benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, have the balance rolled over to another qualified retirement account, or receive partial payments. Upon reaching the age of 59 ½, participants may elect to make in-service withdrawals. Participants who experience financial hardship are eligible to receive a distribution from their Plan accounts to the extent necessary to relieve that financial hardship, subject to certain restrictions. Benefits are recorded when paid.

Upon termination of service, a participant may receive a lump-sum amount equal to the value of his or her account. If a participant's balance is less than \$5,000 and a distribution election is not made, the full value of the account will be distributed in a single lump-sum within a reasonable period of time, either directly to the participant if the balance does not exceed \$1,000, or to an individual retirement account if the balance is between \$1,000 and \$5,000.

Excess contributions payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contribution. The Plan distributed the 2019 excess contributions during 2020 and the 2018 excess contributions during 2019.

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2—Investments

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held and notes receivable from participants at December 31, 2019 and 2018, and net appreciation (depreciation) in the value of investments, interest, dividends, and interest income on notes receivable from participants for the year ended December 31, 2019, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Great-West Life & Annuity and Great-West Trust Company, LLC, the current trustee of the Plan, and Ascensus Trust Company, the former trustee of the Plan. Such information has not been examined by the independent auditors.

FRESH PRODUCTS LLC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS- CONTINUED
December 31, 2019 and 2018

Note 3—Plan termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the employer-contributed portion of their accounts.

Note 4—Tax status

The IRS had determined and informed the Company by a letter dated January 1, 2018, that the former prototype plan, and by a letter dated March 31, 2014, that the current prototype plan, are designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated, in compliance with the applicable requirements of the Code and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5—Related-party transactions and party-in-interest transactions

Certain Plan investments are managed by the current trustee and the former trustee as of December 31, 2019 and 2018, respectfully. As such, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are netted against net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than direct payment. The Plan made payments to the current trustee and the former trustee collectively of \$40,569 for the year ended December 31, 2019. The Company directly pays any other fees related to the Plan's operations and are not included within these financial statements.

Note 6—Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under the Financial Accounting Standards Board Accounting Standards Codification Topic 820, Fair Value Measurement, are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

FRESH PRODUCTS LLC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS- CONTINUED
December 31, 2019 and 2018

Note 6—Fair value measurements—continued

Level 2. Inputs to the valuation methodology include:

- a. Quoted prices for similar assets or liabilities in active markets;
- b. Quoted prices for identical or similar assets or liabilities in inactive markets;
- c. Inputs other than quoted prices that are observable for the asset or liability;
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

- *Common/collective trust fund:* Valued at the daily net asset value (NAV) of units of a collective trust. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.
- *Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

- (a) In accordance with Subtopic 820-10, certain investments that were measured at the net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Investments measured using the NAV per share practical expedient:

The following tables summarize investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2019 and 2018, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan:

Note 7—Fully benefit-responsive investment contract with insurance company

The Plan has a fully benefit-responsive investment contract with Great-West Life & Annuity Insurance Company (Great-West). Great-West maintains the contributions in a general account starting in 2019. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Total value of the contract was \$14,021 at December 31, 2019. Interest crediting rates are reviewed on a quarterly basis for resetting. The crediting interest rate and the year for the investment contract was 1.25% at December 31, 2019.

Participant transfers may be restricted for up to 30 days in the event of excessive trading. If the Plan Sponsor chooses a book value payout for termination, participant transfer restrictions may apply until the money is paid to the next provider. Transactions are processed after the resolution of closed or disrupted financial exchanges or markets.

Note 8—Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9—Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2019 and 2018 to the Form 5500:

	2019	2018

The following is a reconciliation of changes in net assets available for benefits per the financial statements for the year ended December 31, 2019 to the Form 5500:

Note 10–Delinquent participant contributions

As required by ERISA, the Company is required to segregate employee contributions and repayments on notes receivable from participants to the Plan from its general assets as soon as administratively feasible. During the year ended December 31, 2016, the Company failed to remit to the Plan's trustee certain employee contributions and repayments of notes receivable from participants approximately \$14,700 within the period prescribed by the Department of Labor's regulations. The contributions and notes receivable from participants repayments were remitted to the Plan during 2016 and the lost earnings were remitted to the Plan during 2019. During the year ended December 31, 2019, the Company failed to remit to the Plan's trustee certain employee contributions and repayments of notes receivable from of approximately \$23,800 within the period prescribed by the Department of Labor's regulations. The contributions and notes receivable from participants repayments were remitted to the Plan during 2019.

Note 11–Subsequent events

The Plan has evaluated subsequent events through October 9, 2020, which is the date these financial statements were available to be issued. There were no subsequent events that required adjustment to the financial statements or additional disclosures except for the following.

As a result of the spread of the COVID-19 coronavirus during 2020, economic uncertainties have arisen as of the date of the financial statements. The extent of the impact of COVID-19 on the Plan's operational and financial performance will depend on certain developments, including the duration and spread of the outbreak, and the impact on the Plan Sponsor, participants and investments, all of which are uncertain and cannot be predicted. At this point, the extent to which COVID-19 may impact the Plan's financial condition or results of operations is uncertain.
