Independent Auditor's Report

To the Plan Administrator
Rimrock Group Retirement Plan

We have audited the accompanying financial statements of Rimrock Group Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits and accumulated plan benefits as of December 31, 2019 and 2018 and the related statements of changes in net assets available for benefits and changes in accumulated plan benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Plan as of December 31, 2019 and 2018 and the changes in its financial status for the year ended December 31, 2019, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 3 to the financial statements, the Plan merged into The Lincoln Electric Company Retirement Annuity Program, a defined benefit plan sponsored by The Lincoln Electric Company, effective December 31, 2019. Accordingly, all assets, participants, and accumulated plan benefits were transferred to The Lincoln Electric Company Retirement Annuity Program on December 31, 2019.

To the Plan Administrator
Rimrock Group Retirement Plan

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of reportable transactions for the year ended December 31, 2019 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1 - Plan Description

The following description of Rimrock Group Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan covering substantially all full-time employees of Rimrock Corporation (the "Company") who have completed one year of service and are age 21 or older. Effective July 1, 2003, the Plan was frozen, and no employees are eligible to enter the Plan after that date. In addition, no additional benefits will accumulate to existing participants after such date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective December 31, 2019, the plan merged with The Lincoln Electric Company Retirement Annuity Program. See Note 3 for more detail.

Contributions

All contributions made to the Plan are made by the Company. The Company contributes such amounts, as determined on an actuarial basis, to provide the Plan with assets sufficient to meet the projected benefits to be paid to plan participants. No participant contributions are permitted. No contributions were made during 2019.

Pension Benefits

A participant is entitled to pension benefits beginning at normal retirement age (65) primarily based on levels of compensation and years of service. The normal retirement pension benefit is a monthly life annuity composed of one-twelfth the sum of 1.25 percent of average compensation multiplied by accrued service to a maximum of 25 years and \$4.00 multiplied by accrued service in excess of 25 years. Effective July 1, 2003, all accrued benefits under the Plan were frozen at their current amount, and no future accrual for services will be credited and no future changes in compensation will be taken into account in the determination of a participant's accrued benefit. Vesting service for employment will continue to be recognized.

Participants become 100 percent vested upon completion of seven years of service. Participants with fewer than seven years of service have a vesting percentage as outlined in the plan document. Participants are 100 percent vested upon normal or early retirement. Benefits are payable beginning at normal retirement age, later retirement date, or in reduced amounts upon early retirement. Early retirement date means the first day of any month that a participant chooses that is on or after the date on which the participant attains age 55 and completes 10 years of service. Employees may elect to receive their monthly pension benefits in one of the following forms:

- (1) Joint and survivor annuity (either 50, 66.67, 75, or 100 percent)
- (2) Certain and life annuity over a 60- to 180-month period
- (3) Lump sum, as long as the present value of the accrued benefit is less than \$5,000

December 31, 2019 and 2018**Note 1 - Plan Description (Continued)*****Death and Disability Benefits***

If an active employee who has a vested interest in the Plan dies prior to his or her normal retirement age, a death benefit equal to the value of the employee's vested accumulated pension benefit is paid to the employee's beneficiary. Active employees who become disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated and vested as of the time they become disabled. Disability benefits are paid until normal retirement age, at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled. Disability benefits are available to participants who have completed two years of service and have attained age 21.

Funding Policy

The Company's funding policy is to make contributions to the Plan in amounts that are sufficient to provide for all employees' benefits in accordance with the pension benefits described above by the time they retire. Such contribution amounts must adhere to or exceed the minimum funding requirements under ERISA, as determined by the Plan's actuary. The Plan met the minimum funding requirements of ERISA for the year ended December 31, 2019.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Morgan Stanley Smith Barney, LLC or its affiliates. Morgan Stanley Smith Barney, LLC is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines. Investment management and custodial fees paid by the Plan to Morgan Stanley Smith Barney, LLC totaled \$37,378 during 2019. Administration and actuarial fees paid by the Plan to Jacob, Haxton & Boord, LLC totaled \$7,493 during 2019. Structured notes held by the Plan at December 31, 2018 were issued by Morgan Stanley Bank N.A., an affiliate of Morgan Stanley Smith Barney, LLC, and the Plan held noninvested assets in a bank deposit program in the name of Morgan Stanley Bank N.A. of \$1,282,393 at December 31, 2018; therefore, these investments qualify as party-in-interest investments.

Note 2 - Summary of Significant Accounting Policies***Investment Valuation and Income Recognition***

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

The Plan's investment management fees, custodian fees, Pension Benefit Guaranty Corporation (PBGC) premiums, and actuarial fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. All other expenses of the Plan are paid by the Company.

December 31, 2019 and 2018**Note 2 - Summary of Significant Accounting Policies (Continued)*****Actuarial Present Value of Accumulated Plan Benefits***

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to:

- (a) Retired or terminated employees or their beneficiaries
- (b) Beneficiaries of employees who have died
- (c) Present employees or their beneficiaries

Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary from Jacob, Haxton & Boord, LLC and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at December 31, 2019 and 2018 are summarized as follows:

Life expectancy of participants	RP-2014 Total Dataset Mortality with Scale MP-2019 in 2019 and RP-2014 Total Dataset Mortality with Scale MP-2018 in 2018
Assumed rate of return	4.0 percent per annum in 2019 and 6.0 percent per annum in 2018
Retirement age assumptions	65 in both 2019 and 2018

As discussed in Note 3, the Plan merged with The Lincoln Electric Company Retirement Annuity Program (RAP) effective December 31, 2019, and the Plan's accumulated benefits transferred to the RAP on that date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect amounts reported in the statement of net assets available for benefits.

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates will occur in the near term and could materially affect the financial statements.

December 31, 2019 and 2018

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 24, 2020, which is the date the financial statements were available to be issued.

Note 3 - Plan Merger

During 2019, the Plan merged and combined with The Lincoln Electric Company Retirement Annuity Program. Accordingly, all assets, participants, and related accumulated plan benefits of the Plan were transferred to The Lincoln Electric Company Retirement Annuity Program on December 31, 2019.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds, Exchange-traded Funds, Common Stock, and Preferred Stock

Mutual funds, exchange-traded funds, common stock, and preferred stock investments are valued at quoted prices on nationally recognized securities exchanges (Level 1 inputs).

December 31, 2019 and 2018
Note 4 - Fair Value Measurements (Continued)
Corporate Bonds and Structured Notes

Corporate bonds are estimated based on yields currently available on comparable securities of issues with similar credit ratings (Level 2 inputs). Structured notes are valued based upon recent bid prices or the average of recent bid and asked prices when available (Level 2 inputs), and if not available, they are valued through matrix pricing models developed by sources considered by management to be reliable. Matrix pricing, which is a mathematical technique commonly used to price debt securities that are not actively traded, values debt securities without relying exclusively on quoted prices for the specific securities, but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs).

Hedge Funds

The fair value of the hedge fund investment has been estimated using the net asset value per share (NAV) of the investments, as reported by the investment manager. The fund's investment objective is to seek capital appreciation through investing in funds managed by third-party investment managers that employ a variety of alternative investment strategies. Generally, this investment is redeemable on a quarterly basis. Notification of redemption must be provided by the notice date, which is generally the 25th calendar day of the second month prior to the repurchase date. There were no unfunded commitments related to these investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Due to the plan merger discussed in Note 3, all assets were transferred out of the Plan on December 31, 2019. Accordingly, there were no assets measured at fair value on a recurring basis at December 31, 2019.

The following table presents information about the Plan's assets measured at fair value on a recurring basis at December 31, 2018:

Assets Measured at Fair Value on a Recurring Basis at December 31, 2018			
	Investments (at Fair Value)	Level 1	Level 2
Common stock	\$ 1,268,864	\$ 1,268,864	\$ -
Preferred stock	42,347	42,347	-
Mutual funds	1,215,057	1,215,057	-
Exchange-traded funds	995,830	995,830	-
Corporate bonds	872,099	-	872,099
Structured notes	130,350	-	130,350
Total	4,524,547	\$ 3,522,098	\$ 1,002,449
Investments measured at NAV - Hedge fund	182,994		
Total investments at fair value	<u>\$ 4,707,541</u>		

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer.

December 31, 2019 and 2018**Note 5 - Tax Status**

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) indicating that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has received a determination letter from the IRS.

Note 6 - Reconciliation of the Financial Statements to Form 5500
