HR STRATEGIES 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following description of the HR Strategies 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document and adoption agreements for a more complete description of the Plan's provisions. The Plan is sponsored by HR Strategies (the "Company"). The Company is a professional employer organization.

General:

The Plan was established effective January 1, 2009 by HR Strategies (the "Plan Administrator"). The Plan is a multiple-employer defined contribution plan and each client-employer of the Company ("Employers") have their own modified adoption agreement to the Plan. The Plan generally covers all employees of the Company and of the adopting employers (the "Employers") who have completed the age and service requirements selected by the Employers in the modifications to the adoption agreements. New Employers entering the Plan may initially waive the eligibility requirements for employees employed by the Employers as of the date entering the Plan. Participation occurs after completing each Employer's age and service requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA)

Plan mergers and transfers:

Qualified plans sponsored by certain Employers may be merged into the Plan in conjunction with such Employers' adoption of the Plan. New participant accounts are then created for such participants in the Plan. In addition, the account balances of participants employed by certain Employers who terminate their agreements with the Company during the year may be transferred out of the Plan through mergers with, or creation of, other qualified plans. Total assets transferred into the Plan from Employers for 2019 totaled approximately \$2,270,000. Approximately \$2,000,000 of assets transferred in were from The Specialty Furnishings, Inc. 401(k) Profit Sharing Plan which was merged into the Plan effective June 1, 2019. Assets transferred out of the Plan from Employers for 2019 totaled approximately \$330,000.

Contributions:

Participants may contribute up to 100% of pretax annual compensation up to IRS limits, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan also allows for participants to make Roth elective contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Employers may also elect to include an automatic enrollment provision in which participants are subject to automatic enrollment and/or increase in deferral election if no contrary election is made. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, self-directed brokerage accounts, and a guaranteed investment contract as investment options for participants.

HR STRATEGIES 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan (continued)

Discretionary employer-provided matching contributions may be made to the Plan. The match, if any, will be a specified percentage of the elective contributions the employee makes to the Plan. The Employers will determine the amount of the discretionary contributions, if any, they will make each Plan year. Employers can also elect to make a 401(k) safe harbor plan designated contribution, which aides the Employers in passing discrimination testing required by ERISA. Discretionary employer-provided non-elective (profit sharing) contributions may also be made to the Plan. Allocation of these contributions to participants will be made in accordance with the formula selected by the Employer as defined in the Plan.

Participant accounts:

Each participant's account is credited with the participant's contributions, the Employer's matching contributions, and allocations of (a) the Employer's nonelective contribution and, (b) Plan earnings (losses), and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their voluntary contributions and the Employer's safe harbor matching and non-elective contributions plus actual earnings thereon. Employers may elect an alternative vesting schedule for additional discretionary contributions.

Payment of benefits:

Upon termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum. The Plan allows for in-service distributions for participants who have reached the age of 59 1/2. In addition, hardship withdrawals are permitted if certain criteria are met.

Forfeited accounts:

At December 31, 2019 and 2018, forfeiture accounts totaled \$7,619 and \$15,841, respectively. Forfeitures resulting from termination of non-vested participants are used to reduce future Employer contributions or to pay for Plan expenses. During 2019, \$18,465 of forfeited funds were used to pay Plan expenses.

Notes receivable from participants:

Participants may borrow from their account up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Notes receivable are considered to be a directed investment from the account(s) of the participant maintained under the Plan. As such, all payments of principal and interest made by the participant will be credited only to the account(s) of such participant. Note receivable terms cannot exceed 5 years. The notes receivable are secured by the balance in the participant's account and bear interest at prime plus 1% at the time the loan is approved by the Plan Administrator. Principal and interest is repaid ratably through payroll deductions.

HR STRATEGIES 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

Note 2. Significant Accounting Policies

Basis of accounting:

The financial statements of the plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment valuation and income recognition:

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. If a participant ceases to make loan payments and the plan administrator deems the loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Use of estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Plan Administrator and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefit payments to participants are charged directly to the related participants' account and are included in administrative expenses. Participants are charged a plan asset fee calculated monthly based on a percentage of total plan assets. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

HR STRATEGIES 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

Note 2. Significant Accounting Policies (continued)

Corrective distributions payable:

Corrective distributions payable represent payments made to participants to return to them excess contributions as required to satisfy the relevant nondiscrimination provisions of the Plan.

Payments of benefits:

Benefits are recorded when paid.

Note 3. Party-In-Interest Transactions

Certain investments are units of investments managed by Mass Mutual Life Insurance Company ("Mass Mutual"), the recordkeeper and third party administrator. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Mass Mutual received \$125,146 in direct fees in 2019.

During 2019, the Plan sponsor inadvertently failed to deposit \$327 of participant contributions within the required timeline as stated by the United States Department of Labor (DOL). This instance was corrected during 2020. The DOL considers late deposits to be prohibited transactions. The Plan sponsor will compensate participants for any lost earnings resulting from the delay in contributions.

Note 4. Information Prepared and Certified by Custodian

The following information was compiled from data certified by the custodian, Reliance Trust Company, as being complete and accurate:

- A. Investments included in the Statements of Net Assets Available for Benefits - December 31, 2019 and 2018.
- B. Investment income included in the Statement of Changes in Net Assets Available for Benefits - Year Ended December 31, 2019.
- C. Investment information included in Schedule of Assets Held at End of Year.

Note 5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

HR STRATEGIES 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 7. Income Tax Status

The volume submitter plan sponsor has received an opinion letter dated March 31, 2014, in which the IRS stated that the restated volume submitter plan document was in accordance with applicable requirements of the Internal Revenue Code (IRC). The plan administrator timely adopted the volume submitter plan document. The plan administrator believes that the plan is currently being operated in accordance with the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the plan and recognizes a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Guaranteed Investment Contract with Insurance Company

The Plan has entered into a guaranteed investment contract with Mass Mutual Life Insurance Company ("Mass Mutual"). The Mass Mutual Guaranteed Interest Account (or "GIA") is a stable value investment with a guaranteed rate of return and a guarantee of principal that is backed by the Mass Mutual general investment account. The GIA is provided through a group annuity contract issued by Mass Mutual to a retirement plan. Under the contract, a crediting rate is established for a six-month period of time (a "rate period") and all assets invested in the GIA are credited with that rate. At the expiration of each rate period, a new crediting rate is declared. Mass Mutual assumes market, credit, and interest rate risks for the assets supporting the GIA. Mass Mutual considers this investment option to be fully benefit responsive notwithstanding the market value events under the contract that limit the ability of the Plan to transact at contract value. Because the GIA is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIA. Contract value, as reported by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

All bona fide participant-initiated withdrawals from the GIA, including benefit payments at termination or retirement, loans and transfers to other non-competing investment options, are paid at book value. Similar to other stable value alternatives, transfers to competing fixed income investments are not allowed. Employer-initiated events such as layoffs, a sale of a business unit, a company merger, or a change in the stable value option offered under a plan are considered market value events and are subject to the plan sponsor liquidity provisions discussed below.

HR STRATEGIES 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 8. Guaranteed Investment Contract with Insurance Company (continued)

Upon full or partial contract or plan termination and certain other sponsor-initiated events, distributions from the GIA may be subject to a liquidation value (market value) adjustment pursuant to a formula specified in the contract. The market value formula may produce a value that is more or less than the book value of the plan's investment in the GIA. If the market value of a plan's investment in the GIA is less than the book value, the book value of GIA assets will be liquidated in annual installment payments. While this is required for 403(b) plans, other plan sponsors have the choice to elect this installment payment method.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1%.

Certain events may limit the ability of the plan to transact at Contract Value. Such events include but may not be limited to a participant termination of employment due to: (1) removal of a group of participants from plan coverage as a result of temporary absence; (2) change in position or other occurrence qualifying as a temporary break in service under the plan; (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer; or (4) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the plan sponsor's business. Such events also include: (1) removal from the plan of one or more groups or classifications of participants; (2) partial or complete plan termination; or (3) plan disqualification. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note 9. Fair Value Measurements

The Plan's investments are valued at fair value based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has ability to access. |
| Level 2 | Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

HR STRATEGIES 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

Note 9. Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the daily closing price reported by the fund.

Self-directed brokerage accounts (including money market, common stock, and exchange-traded funds): Valued based on quoted market prices of common stock and mutual funds traded in active markets and held by the plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

Description	December 31, 2019			Total

Note 10. Subsequent Events

In March 2020, the World Health Organization categorized Coronavirus Disease 2019 ("COVID-19") as a pandemic, and the President of the United States declared the COVID-19 outbreak a national emergency. The COVID-19 pandemic has led to volatility in financial markets and has affected, and may continue to affect, the market price of the Plan assets. The potential economic impact brought by, and the duration of, COVID-19 is difficult to assess or predict and will depend on future developments that are highly uncertain and cannot be predicted.

Note 10. Subsequent Events (continued)

On March 27, 2020, Congress passed the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”), which included several relief provisions available to tax qualified retirement plans and their participants. The provisions of the CARES Act may be effective and operationalized immediately, prior to amending the Plan document. Major provisions implemented that impact the Plan include:

- Participants can take a distribution relating to coronavirus hardship to the lesser of \$100,000 or 100% of participant’s vested account balance without penalty through the remainder of 2020. The distributions may be repayable to the Plan within 3 years.
- Loan repayments with a due date between March 27, 2020 and December 31, 2020 may be suspended until December 31, 2020 and will re-amortize as soon as administratively feasible after January 1, 2021.
- Required minimum distributions are waived for the 2020 calendar year.

Subsequent events have been evaluated through October 7, 2020, which is the date the financial statements were available to be issued.
