Note 1 – Description of the Plan

The following description of the Novel Healthcare Services 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering all employees of Novel Healthcare Services Inc. ("the Employer"), who are not covered by a collective bargaining agreement which includes retirement benefits, and who are not Non Resident Aliens (NRI's), have completed six months of service and are 21 years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan and up to the maximum limit prescribed by the law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans. The Plan provides that each year the Employers may make discretionary matching, safe harbor matching and discretionary profit sharing contributions at the option of the Employers' management. Contributions are subject to certain limitations.

Investment Options
Upon enrollment in the Plan, a participant may direct contributions in any of the available investment options. These investment options are comprised of a variety of mutual funds. Each of these investment vehicles has a distinct investment strategy, allowing adequate selection for participants wishing to thoroughly diversify their portfolios. Participants may change their investment options and their contribution percentages at any time.

Participant Accounts
Each participant's account is credited with the participant's contributions, the Company's matching contributions and allocations of Plan earnings(losses), and charged with an allocation of Plan expenses. Allocations of Plan earnings and expenses are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon as well as any safe harbor matching contributions made by the employer. Vesting in the Employers' profit sharing contributions is based on years of continuous service, a participant is 100% vested after five years of credited service.

Payment of Benefits
On termination of service due to death, disability, or retirement, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum or direct rollover distributions.

Forfeited Accounts
Forfeitures are retained in the Plan and can be used to reduce future employer contributions or pay plan expenses. At December 31, 2019 and 2018, there was no balance in the forfeiture account. In 2019 and 2018, the Plan applied $0 in forfeited accounts to reduce employer contributions or to pay plan expenses.

Note 1 – Description of the Plan, continued

Notes Receivable from Participants
Participants may borrow from their account balances a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Participants are allowed to have one outstanding loan. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Note fund. Loans are collateralized by the balance in the participant's account and bear a reasonable rate of interest determined at the time the loan is made. Principal and interest is paid ratably through payroll deductions.

Administrative Expenses
All Plan administrative expenses are paid by the Plan Sponsor with the exception of participant-initiated charges which include withdrawal activity charges, charges to set up an annuity or installment payments, and any other specific activity charges for withdrawals which are charged to the individual participant's account.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer contributions.

Note 2 – Summary of Significant Accounting Policies

Date of Management's Review
Subsequent events were evaluated through October 9, 2020, which is the date the financial statements were available to be issued.

Basis of Accounting
The financial statements of the Plan are prepared using the accrual basis of accounting.

Estimates
The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Investment earnings are recorded on the accrual basis. Benefits are recorded when paid. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Note 3 – Fair Value Measurements

The Financial Accounting Standards Board Accounting Standards Codification 820 (FASB ASC 820), Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified or contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value.

		Fair Value Measurements at Reporting Date Using		
December 31, 2019	Fair Value	Quoted Prices in Active Markets for Identical Assets Level 1	Other Observable Inputs Level 2	Unobservable Inputs Level 3
Mutual funds	$ 759,650	$ 759,650	-	-
Total	$ 759,650	$ 759,650	$ -	$ -
December 31, 2018				
Mutual funds	643,981	643,981	-	-
Total	$ 643,981	$ 643,981	$ -	$ -

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market methods, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2019.

Note 4 – Information Prepared and Certified by the Trust Administrator (Unaudited)

Consistent with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the independent auditors not to audit the information certified as complete and accurate by the Plan's trust administrator. The investment information as of December 31, 2019 and 2018 was certified by Capital Bank and Trust Company. The value of investments as reported by the trust administrator is summarized as follows:

	2019	2018
Participants directed investments, at fair value	$ 759,650	$ 643,981
	$ 759,650	$ 643,981

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2019	2018
Net appreciation (depreciation) in fair value of mutual funds	$ 58,527	$ (7,768)
	$ 58,527	$ (7,768)

Note 5 – Tax Status

The Internal Revenue Service has determined and informed the administrator of the Plan by letter dated March 31, 2014 that the Prototype plan adopted by the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been made in the financial statements.

The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

Note 6 – Concentration of Credit Risk

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Assets invested in the various funds are not guaranteed by the trustee of the Plan or the trust administrator and are not federally insured by the Federal Deposit Insurance Corporation.

Note 7 – Party-in-Interest Transactions

Certain plan investments are funds managed by the trust administrator, Capital Bank and Trust Company. Such transactions qualify as party-in-interest transactions and are reported on the Schedule of Assets (Held at End of Year), as part of the financial statements.

These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 8 – Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2019 to Schedule H of Form 5500:
