Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Tuttle-Click Automotive Group Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the trustee as of and for the years ended December 31, 2019 and 2018, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

TUTTLE-CLICK AUTOMOTIVE GROUP RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2019 AND 2018

1. Description of plan:

The following description of the Tuttle-Click Automotive Group Retirement Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan was established December 29, 1950, and has been amended several times since that date.

General:

The Sponsor of the Plan is TCAG, Inc. (Sponsor or TCAG).

The Plan is a defined contribution retirement plan with 401(k) provisions consisting of a salary reduction arrangement. The Plan covers substantially all employees of TCAG who have completed two months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant contributions:

Participants may elect to defer up to 60% of their pretax annual compensation, subject to current statutory limits determined annually and prescribed by the Internal Revenue Service. Upon satisfying eligibility requirements, participants who do not affirmatively elect otherwise are automatically enrolled in the Plan with a pre-tax deferral rate of 3%. The Plan provides for an annual 1% increase in deferral rates for participants below 6%, up to a maximum of 6% of compensation, regardless of whether the existing deferral is by election or as the result of automatic enrollment. The 6% maximum was increased to 7% effective March 15, 2019. The annual 1% increase will occur on March 15th (excluding individuals auto-enrolled within the previous six months).

Participants may also elect to make after-tax and catch-up contributions to the Plan. The Plan permits eligible participants to make additional voluntary contributions of qualified rollovers from other retirement plans.

Employer contributions:

The employer may make discretionary matching or other contributions to the Plan. Employer contributions are invested in the same funds and increments as directed by the participant for the participant's contributions. Contributions are subject to statutory limitations. For plan year 2019 a discretionary match of 100% of employee deferrals up to a maximum of $500 was contributed to the Plan for eligible participants and in plan year 2018, no discretionary contributions were made.

Participants' accounts:

Each participant's account is credited with the participant's elective deferral, rollover and employer contributions, actual earnings thereon, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of plan (continued):

Vesting:

Participants are immediately vested in their elective deferral pretax, after-tax and catch-up contributions and any rollover contributions made to the Plan, plus actual earnings thereon. Vesting in the employer's contribution portion of the participant's accounts plus actual earnings thereon is based on years of credited service. Participants vest 20% per year, beginning with their first year of credited service and fully vest upon the completion of their fifth year of credited service or upon attaining their normal retirement date. The Plan defines a year of credited service to be a twelve consecutive month period commencing with the participant's hire date with at least 1,000 hours of service. Upon death or total disability of any participant prior to retirement, the participant's account balance shall become fully vested.

Participant loans:

The Plan allows for participants to obtain loans from the Plan. All loans require written spousal consent, cannot exceed 50% of the vested portion of the participant's account (or $50,000 if less), and must be a minimum of $1,000. All loans must be repaid within five years unless the proceeds are used for purchase of a principal residence, in which case the loan may be repaid over a ten-year period. Loans will provide for the repayment of interest at a rate comparable to rates available at commercial lending institutions. Principal and interest may be paid through payroll deduction. The participant's individual account serves as collateral for the loan. Loans will be considered in default if payments are not made for 90 days or if there is any outstanding principal remaining after the last scheduled repayment date. Upon default, death, disability or termination of employment, the entire outstanding principal and accrued interest shall be immediately due and payable. Because the participant's account collateralized the loan in its entirety, the credit quality of the participant is not assessed by the Plan Administrator. Unpaid loans will be treated as a taxable distribution from the Plan.

For financial reporting purposes, participant loans are included in the statement of net assets available for benefits as notes receivable from participants.

Hardship withdrawals:

If approved by the Plan Administrator, a participant may withdraw up to the vested portion of his/her individual account balance to satisfy any of the following immediate and heavy financial needs: unreimbursed medical expenses for qualified persons, purchase of a principal residence, to prevent eviction from or foreclosure on a principal residence, to pay for post-secondary education expenses for qualified persons, funeral expenses or for expenses that qualify as a casualty deduction under the Internal Revenue Code (IRC). Prior to receiving a hardship withdrawal, a participant must first exhaust all other options, including a loan from the Plan.

1. Description of plan (continued):

Hardship withdrawals (continued):

During 2019, the Plan was amended to include the hardship distribution provisions of the Bipartisan Budget Act of 2018 that eliminated the six-month suspension of contributions following hardship distribution, expanded the sources available for hardship distributions and removed the requirement that participants obtain plan loans prior to receiving a hardship distribution.

Investment options:

Upon enrollment in the Plan, a participant may direct contributions in any whole percentage increments into any of several different investment options. Participants may change their investment options at any time.

Payment of benefits:

On termination of service due to death, disability, retirement or other reason, a participant whose vested account balance exceeds $5,000 may elect to receive a lump sum amount payment equal to the value of their account balance. Participants with account balances less than $5,000 must take a lump sum distribution as soon as practicable following termination. The Plan requires mandatory distributions under the Plan in excess of $1,000 be automatically rolled over to an IRA established on behalf of participants who do not affirmatively consent to receive their distribution.

Forfeitures:

Forfeited balances of terminated participants' nonvested accounts are first used to pay administrative expenses, then to reduce employer contributions. At December 31, 2019 and 2018 nonvested accounts to be allocated in future periods totaled $50,626 and $195,573, including approximately $40,000 and $35,000 allocated to uncashed benefit payment checks. Forfeitures of $19,544 and $20,229 were used to pay plan administrative expenses during 2019 and 2018; and $227,407 and $6,951 in forfeitures were used to reduce employer contributions.

Management has been working with the Plan's recordkeeper to attempt to locate and distribute assets to individuals associated with uncashed benefit payment checks from prior years. During 2019, approximately $26,000 of assets from the forfeiture account was transferred into accounts set up for these individuals, for the purpose of processing disbursements.

2. Summary of significant accounting policies:

Basis of accounting:

The Plan's financial statements are prepared using the accrual method of accounting.

2. Summary of significant accounting policies (continued):

Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation (depreciation) in the fair value of investments includes both realized and unrealized gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Payments of benefits:

Benefits paid to participants are recorded when paid.

Expenses:

Certain expenses of maintaining the Plan are paid by the Plan unless otherwise paid for by the Sponsor. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Subsequent events:

The Plan has evaluated the events that have occurred subsequent to December 31, 2019 through October 7, 2020, the date that the financial statements were available to be issued. The Plan has no responsibility to update these financial statements for events and circumstances occurring after this date.

3. Federal income tax status:

The Sponsor has adopted a volume submitter plan as published by Fidelity Management & Research Company, who obtained its latest advisory letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with applicable sections of the IRC. Although the Plan has been amended since receiving the advisory letter, the Plan Administrator and the Sponsor believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

4. Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets or active markets that the Plan does not have access to;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Fair value measurements (continued):

At December 31, 2019, the fair value of assets measured on a recurring basis is as follows:

	Fair value	Level 1	Level 2	Level 3
Investments in the fair value hierarchy:				
Interest-bearing cash	$ 4,404,528	$ 4,404,528	$ -	$ -
Registered investment companies	62,632,625	62,632,625	-	-
Investments measured at net asset value [(a)]:				
Common/collective trust	203,368	-	-	-
	$ 67,240,521	$ 67,037,153	$ -	$ -

At December 31, 2018, the fair value of assets measured on a recurring basis is as follows:

	Fair value	Level 1	Level 2	Level 3
Investments in the fair value hierarchy:				
Interest-bearing cash	$ 5,053,268	$ 5,053,268	$ -	$ -
Registered investment companies	50,072,507	50,072,507	-	-
Investments measured at net asset value [(a)]:				
Common/collective trust	2,307,091	-	-	-
	$ 57,432,866	$ 55,125,775	$ -	$ -

[(a)] In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

4. Fair value measurements (continued):

The assets in the preceding tables were measured primarily using the market approach. Following is a description of the valuation methodologies used for assets measured at fair value:

Interest-bearing cash: Consists of highly liquid instruments that generate interest income. The carrying value of interest-bearing cash is its fair value.

Registered investment companies: Valued at the closing price reported in the active market in which the individual securities are traded.

Common/collective trust: The Plan holds an investment in the Fidelity Managed Income Portfolio. The fund is valued at the net asset value of units of the trust. The net asset value is used as a practical expedient to estimate fair value. The net asset value of the fund's shares is determined daily and includes adjustments for investment fees. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months written notification in order to ensure that securities liquidations will be carried out in an orderly business manner, however, such withdrawals may occur before the expiration of the 12 month period. Participants may redeem units at any time at that day's unit value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured using the NAV per share practical expedient:

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2019 and 2018. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2019	Fair value	Unfunded commitments	Redemption frequency	Redemption notice period
Fidelity Managed Income Portfolio	$ 203,368	$ -	Daily	12 months

December 31, 2018	Fair value	Unfunded commitments	Redemption frequency	Redemption notice period
Fidelity Managed Income Portfolio	$ 2,307,091	$ -	Daily	12 months

5. Investments:

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2019 and 2018, and net appreciation (depreciation) in fair value of investments, interest and dividends for the years ended December 31, 2019 and 2018, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Fidelity Management Trust Company.

6. Related party and party in interest transactions:

Plan investments are managed by Fidelity Investments Institutional. The Plan paid certain expenses to Fidelity Investments Institutional and other service providers during 2019 and 2018 related to plan administration and investment activity. These transactions qualify as exempt party in interest transactions under ERISA.

Expenses that are paid directly by the Sponsor are excluded from these financial statements. Employees of the Sponsor perform certain accounting and administrative functions for the Plan, however, no employee receives compensation from the Plan.

7. Plan termination:

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

8. Risks and uncertainties:

The Plan invests in various investment securities that are exposed to risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Subsequent events:

The COVID-19 outbreak in the United States has caused significant business and economic disruption, as well as heightened market risk and volatility. The impact of COVID-19 continues to evolve rapidly and its future effects on participants' account balances, as well as the Plan's net assets available for benefits and changes in net assets available for benefits, are unknown.

In January 2020, the Plan was amended to increase the deferral rate for newly eligible participants who are auto-enrolled into the Plan from 3% to 4%. In addition, the maximum percentage for auto-enrolled participants was increased from 7% to 8% effective March 15, 2020.

In March 2020, the Plan implemented the provisions of the Coronavirus Aid, Relief and Economic Security Act (CARES Act), which was signed into law on March 27, 2020, permitting coronavirus-related distributions and participant loan relief to eligible participants.

During 2020, the Plan implemented the provisions contained in the Setting Every Community Up for Retirement Enhancement (SECURE) Act, which was signed into law on December 20, 2019, increasing the automatic enrollment escalation maximum up to 15%.
