INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
First Co. 401(k) Retirement Plan
Dallas, Texas

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of First Co. 401(k) Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, and the related statement of changes in net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Nationwide Trust Company and Nationwide Life Insurance Company, the custodians of the plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodians hold the plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodians as of December 31, 2019 and 2018 and for the year ended December 31, 2019, that the information provided to the plan administrator by the custodians is complete and accurate.

First Co. 401(k) Retirement Plan
Notes to Financial Statements
December 31, 2019 and 2018

Note 1 – Description of Plan

The following description of First Co. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by First Co. (the Plan Sponsor and Company) under the provisions of Section 401(a) of the United States Internal Revenue Code (the IRC), which includes a qualified cash or deferred arrangement as described in section 401(k) of the IRC, for the benefit of eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as well as certain provisions of the federal income tax laws.

Employees who have attained age 18 and complete six months of service are eligible to participate in the Plan except for the following:

- Members of a collective bargaining agreement
- Nonresident aliens
- Leased employees

Upon satisfying the eligibility requirements, employees may participate in the Plan on the first day of the following quarter.

Contributions

The Plan is funded through employee elective deferrals and Company contributions. Each year, a participant may elect to contribute a portion of their pretax compensation, subject to certain maximum limitations imposed by Section 402(g) of the Internal Revenue Code (IRC). Participants direct the investment of their contributions into various investment options offered by the Plan.

At the discretion of the plan administrator, participants may be permitted to deposit or "rollover" into the Plan distributions they have received from other plans and certain IRAs. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Contributions are not to exceed the limits imposed by Section 402(g) of the IRC.

The Company has elected to operate the Plan as a safe harbor 401(k) plan, which makes the plan exempt from certain compliance testing requirements. The Company makes a safe harbor matching contribution of 100% of the participant's deferral up to 3% and then 50% up to 5% of their compensation.

Note 1 – Description of Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, allocation of company contributions, and Plan earnings or losses and charged with an allocation of administrative expenses. Allocations may be charged based on either the size of the participant's account balance or equally to each participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their elective deferrals including catch-up contributions, rollover contributions from other plans, and actual earnings thereon. The method for crediting vesting service for company nonelective contributions is based on vesting periods of service. Participants are credited with a period of service for 12 months of service. A participant is always 100% vested in their company nonelective contributions if they are employed on or after their Normal Retirement Age or if they terminate employment on account of their death or disability.

Because the Plan is a safe harbor 401(k) plan, participants are always 100% vested in their safe harbor matching contributions. The following schedule is only applicable for company nonelective contributions which were discontinued in 2016.

Periods of Service	Percentage Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeited Accounts

Forfeitures represent unvested portions of terminated participants' accounts. At any time when accounts are forfeited, these accounts will be used to pay administrative expenses, reduce company contributions, or restore forfeited account balances of eligible rehires. At December 31, 2019 and 2018, forfeited accounts totaled $0 and $1,511, respectively. During 2019 forfeited non-vested accounts of $1,521 were used to pay administrative expenses.

Note 1 – Description of Plan (Continued)

Investment Options

Upon enrollment in the Plan, a participant may direct the contributions made to the Plan, for or on behalf of the participant, to any one or more of the investment funds determined at the discretion of the Plan Administrator and Plan Sponsor and in such multiples as the participant prescribes. A participant may change his or her investment direction with respect to future contributions or redirect the investment of his or her account balances.

Notes Receivable from Participants

Prior to September 1, 2018, participants who were active employees could borrow against their vested account balances a minimum of $1,000 up to a maximum amount equal to the lesser of 50% of their vested account balance or $50,000. New loans are no longer permitted, but outstanding loans continue to be paid off. The loans, in the form of promissory notes, are secured by the balances in the participant's account, and bear interest at reasonable rates, which are commensurate with local prevailing rates as determined by the Plan Administrator. A participant was allowed to have 1 loan outstanding at any one time. Principal and interest are paid ratably through payroll deductions and generally repaid within five years.

Benefits Paid to Participants

On termination of service, disability, or retirement, a participant is entitled to receive a distribution equal to the value of the participant's vested interest in his or her account. Distribution of a deceased participant's account will be made to the designated beneficiary. Additionally, under certain circumstances, the Plan allows for financial hardship and in-service withdrawals.

Plan Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the plan document. Expenses paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net appreciation/depreciation of fair value of investments.

Termination of the Plan

Although the Company intends to maintain the Plan indefinitely, the Company reserves the right to terminate the Plan at any time subject to the provisions of ERISA. Upon termination, no further contributions will be made to the Plan and all amounts credited to the participant's account will become 100% vested. The Company will direct the distribution of the participant's account in a manner permitted by the Plan as soon as practicable.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

Preparing the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassification

Certain reclassifications have been made to the 2018 financial statement presentation to correspond to the current year's format. Total net assets available for benefits are unchanged due to these reclassifications.

Investment Valuation and Income Recognition

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. See Note 4 for discussion of fair value measurements. Interest and other income are recorded on the accrual basis. Purchases and sales of investments are recorded on the trade-date basis. Dividends are recorded on the ex-dividend date. The net appreciation (depreciation) of investments, including realized gains and losses on sales during the year and current changes in unrealized appreciation (depreciation) in the market value of investments held at year end, is presented in the statement of changes in net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make scheduled repayments and the Plan administrator deems the participant note receivable to be in default, the participant note receivable balance is reduced and a benefit payment recorded.

Payment of Benefits

Benefits are recorded when paid.

Note 2 – Summary of Significant Accounting Policies (Continued)

Subsequent Events

Subsequent events were evaluated through October 6, 2020, which is the date the financial statements were available to be issued. See Note 11 for further information on subsequent events.

Note 3 – Information Certified by Custodians

The Plan Administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator limited auditing procedures with respect to the investments certified by Nationwide Trust Company and Nationwide Life Insurance Company, the custodians of the Plan, which included total investments as of December 31, 2019 and 2018, and the total investment income for the year ended December 31, 2019, and all information included in the supplemental schedule Form 5500, Schedule H, line 4i – Schedule of Assets Held for Investment Purposes at End of Year.

The following investment information was obtained or derived from information provided to the Plan Administrator and certified as complete and accurate by the custodians of the Plan, as of December 31, 2019 and 2018 and for the year ended December 31, 2019:

	2019	2018
Investment values certified by the custodians	$ 19,510,737	$ 16,220,534
Notes receivable from participants certified by the custodians	$ 181,518	$ 397,568

	Year ended December 31, 2019
Investment income certified by the custodians:	
Net appreciation (depreciation) in fair value of investments	$ 2,869,980
Interest	$ 67,924
Dividends	$ 258,377
Interest on notes receivable from participants certified by the custodians	$ 12,092

Note 4 – Fair Value Measurements

The Financial Accounting Standards Board's Accounting Standards Codification (ASC) Topic 820, Fair Value Measurement, establishes a framework for measuring fair value. The framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Note 4 – Fair Value Measurements (Continued)

The three levels of the fair value hierarchy under ASC Topic 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
  - Quoted prices for similar assets or liabilities in active markets;
  - Quoted prices for identical or similar assets or liabilities in inactive markets;
  - Inputs other than quoted prices that are observable for the asset or liability; and
  - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There are three general valuation techniques that may be used to measure fair value, as described below:

A) Market approach – Uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. Prices may be indicated by pricing guides, sale transactions, market trades, or other sources;

B) Cost approach – Based on the amount that currently would be required to replace the service capacity of an asset (replacement cost); and

C) Income approach – Uses valuation techniques to convert future amounts to a single present amount based on current market expectations about the future amounts (includes present value techniques and option-pricing models). Net present value is an income approach where a stream of expected cash flows is discounted at an appropriate market interest rate.

The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds

Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end based on quoted market prices.

Note 4 – Fair Value Measurements (Continued)

Below are the Plan's financial instruments carried at fair value on a recurring basis by the FASB ASC 820-10 fair value hierarchy levels:

	December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 16,648,375	$ -	$ -	$ 16,648,375
Investments at fair value	$ 16,648,375	$ -	$ -	$ 16,648,375

	December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 12,993,134	$ -	$ -	$ 12,993,134
	$ 12,993,134	$ -	$ -	$ 12,993,134

Gains and losses, realized and unrealized, for the year ended December 31, 2019 are reported under net appreciation (depreciation) in fair value of investments on the accompanying statement of changes in net assets available for benefits.

Note 5 – Fully Benefit-Responsive Investment Contracts

The Plan invests in the Nationwide Fixed Select Option, which is a fully benefit-responsive guaranteed investment contract (GIC) with the Custodian, Nationwide Life Insurance Company. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

The following represents the disaggregation of contract value between types of investment contracts held by the Plan:

	2019	2018
Synthetic investment contracts	$ 2,862,362	$ 3,227,400
Traditional investment contracts	-	-
Total Fully Benefit-Responsive Investment Contracts	$ 2,862,362	$ 3,227,400

Note 5 – Fully Benefit-Responsive Investment Contracts (Continued)

The key difference between a synthetic investment contract and a traditional investment contract is that the Plan owns the underlying assets of the synthetic investment contract. A synthetic investment contract includes a wrapper contract, which is an agreement for the wrap issuer, such as a bank or insurance company, to make payments to the Plan in certain circumstances. The wrapper contract typically includes certain conditions and limitations on the underlying assets owned by the Plan. With traditional investment contracts, the Plan owns only the contract itself. Synthetic and traditional investment contracts are designed to accrue interest based on crediting rates established by the contract issuers.

The synthetic investment contracts held by the Plan include wrapper contracts that provide a guarantee that the credit rate will not fall below 0 percent. Cash flow volatility (for example, timing of benefit payments) as well as asset underperformance can be passed through to the Plan through adjustments to future contract crediting rates. Formulas are provided in each contract that adjusts renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets. Crediting rates are reviewed quarterly for resetting.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. These events may be different under each contract. Examples of such events include the following:

1. Amendments to Plan documents, including complete or partial Plan termination or merger,
2. Changes to the Plan's prohibition on competing investment options,
3. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations,
4. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code, or
5. Premature termination of the contracts

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the agreements without the consent of the issuer.

Note 6 – Reportable Transactions

There were no reportable transactions, non-exempt transactions with parties-in-interest, or any other prohibited transactions that would require supplemental presentation under the DOL regulations during the year ended December 31, 2019.

Note 7 – Transactions with Parties-in-Interest

Parties-in-interest are defined under DOL Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. As such, transactions conducted with the custodians, third party administrator (the TPA), auditor, and the Company qualify as party-in-interest transactions.

Fees incurred by the plan for the investment management services are included in the net appreciation in fair value of the related investment, as they are paid through revenue sharing rather than a direct payment. During 2019, the Plan made direct payments of $83,874 for administration and advisory fees. The Plan sponsor pays directly any other fees related to the operation of the Plan.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is, at least, reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 – Tax Status

The Plan sponsor adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2014, which states that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (IRC) and is, therefore, not subject to tax under present income tax law. The Plan is required to operate in conformity with the IRC to maintain its qualification. Management is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

GAAP requires plan management to evaluate tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Generally, the statute of limitations for the IRS to assess taxes on a plan expires three (3) years from the due date of the return or the date on which it was filed, whichever is later.

Note 10 – Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits between the financial statements and Form 5500 as of December 31, 2019 and 2018:

	2019	2018
Net assets available for benefits per the financial statements	$ 20,180,953	$ 17,047,701
Less: Contributions receivable included in the financial statements	-	(429,599)
Net assets available for benefits per Schedule H of Form 5500	$ 20,180,953	$ 16,618,102

The following is a reconciliation of contributions between the financial statements and Form 5500 as of December 31, 2019:

	2019
Contributions per the financial statements	$ 1,345,089
Add: Employer contribution receivables, beginning of year	429,599
Total contributions per Form 5500	$ 1,774,688

Note 11 - Subsequent Events

SECURE Act

The plan has implemented the requirements of the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act) which was signed into law on December 19, 2019 and is effective for years beginning after December 31, 2019.

COVID-19 and CARES Act

In March 2020, the World Health Organization declared COVID-19 a pandemic. The COVID-19 pandemic and resulting global disruptions have caused significant economic uncertainty and volatility in financial markets. As a result, the Plan's various investment securities have incurred significant volatility in fair value since December 31, 2019. The impact of COVID-19 continues to evolve rapidly, and the Company is not able at this time to estimate its full impact on the Plan's financial statements.

The Coronavirus Aid, Relief, and Economic Security ("CARES") Act was signed into law on March 27, 2020. The CARES Act allows certain eligible individuals to receive coronavirus-related relief for loan repayment, suspend required minimum distributions, delay the commencement date for required minimum distributions, and take a COVID-19 related distribution up to $100,000 from the Plan beginning on or after January 1, 2020 and before December 31, 2020.

The optional features within the CARES Act were not adopted by the Plan.
