Gabriel Performance Products, LLC Savings Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Gabriel Performance Products, LLC Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan was established on July 1, 2001, as a defined contribution plan covering substantially all employees of Gabriel Performance Products, LLC (the Company) and its wholly owned subsidiaries or affiliates who have adopted the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Generally upon the completion of an hour of service, as defined by the Plan, participants are eligible to make voluntary pre-tax contributions, by means of a salary deferral agreement, of up to 75% of their compensation, subject to Internal Revenue Service (IRS) limitations. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who meet certain age requirements are eligible to contribute additional catch-up contributions subject to certain dollar limits. In addition, participants may contribute amounts representing distributions from other qualified plans.

The Company may make a discretionary matching contribution based on a fixed formula communicated to the participants. The Company may also make a discretionary profit sharing contribution. Participants must be employed at the end of the Plan year to be eligible for the employer discretionary profit sharing contribution allocation. Employer contributions are subject to certain limitations.

Participant accounts: Each participant account is adjusted for the participant's contributions, the Company's contributions, if any, and Plan earnings thereon, and charged with an allocation of the Plan's administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contributions is based on years of service with the Company, as defined in the Plan document. Prior to 2018, vesting was determined using a 5-year graded vesting schedule. In July 2018, the Plan document was amended to determine vesting using a 3-year graded vesting schedule. Participants are immediately vested in the Company's contributions at the time of death or disability.

Notes receivable from participants: Participants may borrow from their accounts up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. A maximum of three loans can be outstanding at any one time. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Benefit payments: On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum. Employees may withdraw their vested interest in the Plan upon attainment of age 59 ½ and under certain other circumstances, as defined in the Plan document.

Forfeited accounts: Forfeitures of non-vested Company contributions may be used to restore forfeitures, reduce Company contributions, or pay Plan expenses. Forfeitures of \$41,919 were used to reduce Company contributions during the year ended December 31, 2019. Unapplied forfeitures amounted to \$24,256 and \$19,197 as of December 31, 2019 and 2018, respectively.

Gabriel Performance Products, LLC Savings Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Plan termination: Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. In the event of termination of the Plan, participants will become 100% vested in their accounts. The assets then remaining in the Plan will be allocated and distributed to participants in accordance with the terms and provisions of the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Benefit payments: Benefits are recorded when paid.

Administrative expenses: Expenses of the Plan are paid by the Company or the Plan, at the discretion of the Company.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. At December 31, 2019, three pooled separate accounts comprised approximately 47% of the Plan's investments (each individually greater than 10%). At December 31, 2018, four pooled separate accounts comprised approximately 63% of the Plan's investments (each individually greater than 10%). This concentration represents a credit risk.

Recently issued accounting pronouncement: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement, which modifies the disclosure requirements for fair value measurements by removing, modifying, and adding certain disclosures. ASU 2018-13 is effective for the Plan for fiscal years beginning after December 31, 2019. The Plan is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact of this new standard on its financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 5, 2020, the date the financial statements were available to be issued.

Notes to Financial Statements

Note 3. Information Certified and Provided by John Hancock Life Insurance Company (U.S.A.)

The following is a summary of the Plan's asset information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

	2019	2018
Investments, at fair value:		
Pooled separate accounts	\$ 13,396,999	\$ 7,302,476
Common/collective trust fund	173,120	346,363
	<u>\$ 13,570,119</u>	<u>\$ 7,648,839</u>
Non-interest bearing cash	<u>\$ 24,256</u>	<u>\$ 19,197</u>
Notes receivable from participants	<u>\$ 361,480</u>	<u>\$ 391,864</u>

The custodian also certified to the completeness and accuracy of the following for the year ended December 31, 2019:

Net appreciation in fair value of investments	<u>\$ 2,255,040</u>
Interest income on notes receivable from participants	<u>\$ 23,748</u>

Note 4. Fair Value Measurements

Accounting standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Gabriel Performance Products, LLC Savings Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled separate accounts: Valued at the total of the net asset value of shares of mutual funds and cash held by the account at year-end. The Plan's interests in the pooled separate accounts are valued based on the information reported by the investment advisor.

Common/collective trust fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2019			
	Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy	\$ -	\$ -	\$ -	\$ -
Investments measured at net asset value ^(a)				13,570,119
Investments, at fair value				<u>\$ 13,570,119</u>

	2018			
	Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy	\$ -	\$ -	\$ -	\$ -
Investments measured at net asset value ^(a)				7,648,839
Investments, at fair value				<u>\$ 7,648,839</u>

^(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

There were no transfers in or out of Levels 1, 2, or 3 during the years ended December 31, 2019 and 2018.

Note 5. Tax Status

Effective July 1, 2018, the Plan adopted a volume submitter plan document sponsored by Kadish, Hinkel & Weibel. The volume submitter plan received a determination letter from the Internal Revenue Service (IRS) as to the plan's qualified status. The volume submitter plan's opinion letter is being relied upon by this Plan. Prior to July 1, 2018, the Plan had adopted an individually designed plan document, which the IRS had determined and informed the Company, by a letter dated February 4, 2010, was designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the respective determination letters, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6. Party-In-Interest Transactions

Certain Plan investments are managed by John Hancock Retirement Plan Services, an affiliate of the custodian. Therefore, these transactions qualify as party-in-interest transactions. Fees paid to the custodian and its affiliates amounted to \$63,889 for the year ended December 31, 2019.

Note 7. Plan Mergers

In 2018, the Plan Sponsor authorized the mergers of the Ranbar 401(k) Profit Sharing Plan and the Manopco, Inc. 401(k) Plan into the Plan effective January 1, 2019. In January 2019, the Plan received net assets \$4,240,388, of which \$4,153,760 was from the Ranbar 401(k) Profit Sharing Plan and \$86,628 was from the Manopco, Inc. 401(k) Plan. Legal control was assumed by the Plan on January 1, 2019.

Note 8. Subsequent Events

Subsequent to year-end, on January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. The pandemic in the United States and throughout the world has resulted in substantial volatility in financial markets. This has caused significant volatility within the Plan's investment portfolio. The extent to which the coronavirus impacts the performance of the Plan's investment portfolio will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and actions taken to contain the coronavirus or its impact, among others.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted to, amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic. The CARES Act also provides for certain optional relief measures that can be adopted by qualified retirement plans, including increased levels of participant loans for affected individuals for a limited time, and distributions with special tax treatment for affected individuals. Plans must also allow participants who are affected by the coronavirus to suspend loan payments through December 31, 2020, and required minimum distributions for participants over age 70 ½ can be omitted for 2020.
