Multi-Plastics, Inc.
Savings and Retirement Plan
Notes to Financial Statements

1. Description of Plan

The following description of the Multi-Plastics, Inc. Savings and Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established in 1985 by Multi-Plastics, Inc. (the Company and/or Plan Sponsor) as a 401(k) defined contribution plan covering all non-union employees who have attained age 18 and completed thirty days of service by the first day of the Plan year (January 1) or the first day of the seventh month following (July 1). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may elect to contribute up to 100% of their pretax annual compensation as defined by the Plan not to exceed the limits imposed by the Internal Revenue Service (IRS). The Plan Sponsor will match a certain percentage of the participant's contribution as determined by the Plan Sponsor's Board of Trustees. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). During 2018, the Plan amended to allow for rollover contributions with limiting the type of rollover contributions and the Plan will not accept rollovers of after-tax contribution. During 2019, the Plan made an amendment that allows roth deferral contribution. For the plan years ended December 31, 2019 and 2018, the Plan Sponsor elected to match 50% of participant contributions up to 12% of eligible compensation.

Effective January 1, 2020, the Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2% of eligible compensation and their contributions will be invested in accordance with the Plan's investment policies until changed by the participant. The automatic deferral amount will increase each year by 1% of compensation up to a maximum of 5% of compensation unless the participant designates otherwise under a salary deferral election. The automatic deferral election applies to all eligible participants who have not made a salary deferral election that is at least equal to the automatic deferral amount designated above. Thus, if the participant has made a salary deferral election that provides for a lesser deferral amount than the automatic deferral amount described above or if eligible employees have not entered into a salary deferral election, the deferral amount automatically will be increased to the automatic deferral amount, unless the participant enters into a new salary deferral election (including an election indicating a 0% deferral rate).

At its discretion, the Plan Sponsor may also make additional discretionary contributions to the Plan each year. Participants covered by the Plan and either employed on the last day of the Plan year with 500 hours of service credited during the Plan year, or not employed as a result of death, disability, or retirement may be allocated a portion of the Plan Sponsor's discretionary contribution to the Plan. Allocations are based on each participant's annual compensation as a percentage of total eligible participant compensation. During 2019 and 2018, the Plan Sponsor did not make any discretionary contributions in addition to the employer match.

Multi-Plastics, Inc.
Savings and Retirement Plan
Notes to Financial Statements

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Plan Sponsor's contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of their account to any of the investment options available under the Plan.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Plan Sponsor's matching and discretionary contributions plus actual earnings thereon is based on years of continuous service as defined in the Plan document and represented by the following table:

<u>Years of Vesting Service</u>	<u>Vested Percentage</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more years	100%

Loan provisions

The Plan allows participants to borrow from their fund account balances. Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at prime plus 1%, as determined by the plan administrator, the day the loan is issued. Principal and interest is paid ratably through payroll deductions. Loan terms shall not exceed five years, unless the loan was used to acquire a principal residence. Participant accounts are assessed an initial administration fee for the issuance of a loan and are assessed a quarterly fee for as long as the loan is outstanding. Loan administration fees paid to Aspire Financial Services (Aspire) through charges to participants' accounts for 2019 and 2018 was \$1,955 and \$1,685, respectively.

Financial hardship withdrawals

Financial hardship withdrawals of a participant's deferral contributions are permitted in certain circumstances of immediate and heavy financial need.

Payment of benefits

Benefits are recorded when paid. The participant's entire account balance becomes payable upon death, disability, or retirement in the form of a lump sum distribution or annual installments. Normal retirement is age 65; early retirement is not permitted. In service withdrawals are permitted for participants who have reached age 59½.

Multi-Plastics, Inc.
Savings and Retirement Plan
Notes to Financial Statements

For termination of service due to other reasons, a participant may receive the value of the vested interest of his or her account as a lump sum distribution or in substantially equal annual installments over a fixed period of whole years.

Forfeitures

Forfeitures arising from balances of terminated participants with less than fully vested interests in the Plan are applied to reduce employer contributions or pay Plan expenses after the occurrence of a one-year break in service. As of December 31, 2019 and 2018, forfeited amounts available to reduce employer contributions totaled \$43,911 and \$42,956, respectively. For the Plan year ended December 31, 2019 and 2018, no forfeited nonvested accounts were utilized by the Plan.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded as declared.

Under the terms of the agreement between the custodian of the Plan and the Plan, the custodian manages the funds on behalf of the Plan. Plan participants may select how their accounts are invested in the various investments offered by the custodian. The value of the accumulated shares for each investment varies daily and reflects investment results, including dividends and market value changes based on quoted market values, less an amount for expenses of the investment fund.

Notes receivable from participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Multi-Plastics, Inc.
Savings and Retirement Plan
Notes to Financial Statements

Administrative fees

The Plan paid administrative expenses of \$103,068 and \$105,334 to TD Ameritrade and Aspire for the Plan years ended December 31, 2019 and 2018, respectively. All other professional fees for the administration and audit of the Plan are paid by the Company on behalf of the Plan.

Subsequent events

The Plan has evaluated events and transactions that occurred between January 1, 2020 and October 6, 2020 which is the date that the financial statements were available to be issued for possible recognition or disclosure in the financial statements. See Note 11.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurements* are described as follows.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Input to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

Notes to Financial Statements

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relative observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2019 and 2018 held by TD Ameritrade.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Cash, interest-bearing: Cash in money market deposit accounts is held at TD Bank USA. Valued at cost plus interest accrued daily.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total

5. Plan Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

6. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in employer contributions credited to their accounts.

7. Income Tax Status

The Plan obtained its latest determination letter dated March 31, 2014, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the tax authorities. The Plan Administrator and Board of Trustees have analyzed the tax positions taken by the Plan, and have concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Corrective Distributions

The Plan failed to pass the Average Deferral Percentage (ADP) Test and the Actual Contribution Percentage (ACP) Test for the Plan years ended December 31, 2019 and 2018.

Notes to Financial Statements

The accompanying statements of net assets available for benefits include a liability of \$91,463 and \$37,747 at December 31, 2019 and 2018, respectively, related to the excess contributions payable to the participants. The Plan distributed these amounts to the participants within 2 ½ months after the respective plan year ends.

9. Party-in-Interest Transactions

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Professional fees for the administration and audit of the Plan are paid by the Plan Sponsor on behalf of the Plan.

Certain Plan investments are managed by TD Ameritrade. TD Ameritrade is the trustee for the Plan and, therefore, these transactions qualify as party in interest transactions.

10. Delinquent Contributions

As required by ERISA Section 2510.3-102, the Plan Sponsor is required to segregate participant contributions to the Plan from its general assets as soon as practicable, but in no event more than 15 business days following the end of the month in which amounts are withheld from wages. For the Plan year ended December 31, 2017, certain employee and employer contributions were not remitted to the Plan within the timeframe required by the Department of Labor (DOL) for the August 25, 2017 pay period. Delays in remitting contributions to the custodian were due to an administrative error. As a result, contributions of \$6,848, loan repayments of \$895, and lost earnings of \$314 were remitted to the Plan during the year ended December 31, 2018.

11. Subsequent Events

On January 30, 2020, the World Health Organization (“WHO”) announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the “COVID-19 outbreak”) and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to significant deterioration and instability in financial markets. As a result, the Plan’s investment portfolio has incurred a decline in fair value since December 31, 2019. Because the values of the Plan’s individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan’s liquidity cannot be determined at this time.

Notes to Financial Statements

On March 27, 2020, President Trump signed into law the “Coronavirus Aid, Relief, and Economic Security (CARES) Act.” The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to Plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to \$100,000
- Increase the available loan amount as described in Note 1 to the lesser of \$100,000 or 100% of the participant’s vested account balance
- Suspended required minimum distributions for 2020
