Kord Technologies, Inc. 401(k) Profit Sharing Plan
Notes to the Financial Statements
December 31, 2019 and 2018

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Kord Technologies, Inc. 401(k) Profit Sharing Plan (“Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General – The Plan Sponsor, Kord Technologies, Inc. (Company), established the Plan effective as of October 1, 2006. The Plan, as amended, is a defined contribution plan covering all non-leased and non-union employees of the Company who are age twenty one or older, as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Participants may make salary – deferred contributions to the Plan up to 100% of their annual compensation, not to exceed the annual limits imposed by the Internal Revenue Service (IRS). Participants may elect to make all pre-tax deferrals, all Roth deferrals, or a combination of deferrals each pay period. Contributions from employees are recorded and remitted in the period in which the Company makes the deductions from the participants’ payroll. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds as investment options for participants. The Company contributes a safe-harbor contribution to the Plan on behalf of each participant in an amount equal to 100% of the first four percent of eligible compensation, contributed to the plan as deferral contributions. The Company may also contribute a discretionary contribution to the Plan in an amount equal to a percentage of the participant’s regular pretax annual compensation. During the year ended December 31, 2019, the discretionary contribution was \$452,678. For the year ended December 31, 2019, \$1,456,068 in matching and discretionary contributions were made by the Employer.

Participant Accounts – Each participant’s account is credited with the participant’s contributions and Company matching & profit sharing contributions (if any), as well as allocations of Plan earnings, and is charged with an allocation of certain administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company’s matching and profit sharing contribution portion of participant accounts is based on years of service, as defined. A participant is 100% vested after three years of credited service.

Kord Technologies, Inc. 401(k) Profit Sharing Plan
Notes to the Financial Statements
December 31, 2019 and 2018

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or one-half of their vested account balance. The notes receivable from participants are secured by the balance in the participant's account and bear interest at a fixed rate that ranges from 4.25% to 6.50%. The maximum number of Plan loans that a participant may have outstanding at any one time is one. Note terms may generally may not exceed 5 years unless the loan is for purchase of a principal residence in which case the loan must not exceed 10 years.

Payment of Benefits – On termination of service due to death, disability, retirement or other reasons, a participant with a vested balance equal to or less than \$5,000 may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. A participant with a vested balance exceeding \$5,000 may elect to receive a lump-sum distribution, direct rollover, or partial withdrawals or installments but only with respect to minimum required distributions over a period of not more than the participants assumed life expectancy. In addition, distributions to participants on account of financial hardship may be made in certain circumstances limited under the terms of the Plan.

Forfeitures – At December 31, 2019 and 2018, forfeited non-vested accounts totaled \$11,287 and \$8,221, respectively. Non-vested forfeited accounts, when applicable, may be used to pay for future Plan expenses or to offset future employer contributions. During the year ended December 31, 2019, no forfeitures were used to reduce employer contributions or administrative fees.

Plan Amendments – Effective October 2019, the Plan was amended and restated to comply with the requirements of the final regulations under the applicable Code sections.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles generally accepted in the United States of America (GAAP) requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Kord Technologies, Inc. 401(k) Profit Sharing Plan
Notes to the Financial Statements
December 31, 2019 and 2018

Investment Valuation and Income Recognition – The Plan’s investments are stated at fair value, except for fully benefit responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan’s Administrator determines the Plan’s valuation policies utilizing information provided by the investment advisors, custodians, and insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent loans are treated as distributions based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2019 or 2018.

Payments of Benefits – Benefits are recorded when paid.

Administrative Expenses – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events – The Plan Administrator has evaluated subsequent events through October 8, 2020, the date the financial statements were available to be issued.

NOTE 3 – INFORMATION CERTIFIED AND PROVIDED BY THE TRUSTEE

The following is a summary of the Plan’s asset information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan’s financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate.

Kord Technologies, Inc. 401(k) Profit Sharing Plan
Notes to the Financial Statements
December 31, 2019 and 2018

Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31, <u>2019</u>	December 31, <u>2018</u>
Cash Equivalents	\$ 514,884	\$ 292,061
Investments	\$16,992,530	\$11,763,831
Notes Receivable from Participants	\$ 223,561	\$ 158,264

Fidelity Management Trust Company, the trustee of the Plan, also certified to the completeness and accuracy of \$2,394,590 of net appreciation in fair value of investments and \$805,160 of interest and dividends to the aforementioned assets for the year ended December 31, 2019.

NOTE 4 – FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Kord Technologies, Inc. 401(k) Profit Sharing Plan
Notes to the Financial Statements
December 31, 2019 and 2018

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2019 and 2018.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective investment fund: Unit prices are valued at net asset value per share based on quoted market prices of underlying investments. The unit prices are not publicly available and units are not publicly traded. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily, and the redemption notice period is daily. The only trading restrictions would apply to transfers into an investment fund in the event that a sponsor or participant engages in trading patterns that are detrimental to the account or underlying investment.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

Assets at Fair Value as of December 31, 2019

NOTE 5 – PARTY-IN-INTEREST TRANSACTIONS

During 2019, certain Plan investments were shares of funds managed by Fidelity Management Trust Company. Fidelity is the trustee as defined by the Plan, and therefore, these transactions qualify as parties in interest to the Plan. Fees of \$1,805 were paid to Fidelity Management Trust Company by the Plan during the year ended December 31, 2019.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and the Employer will direct the distribution of accounts in a manner permitted by the Plan as soon as practicable.

NOTE 7 – TAX STATUS

The Plan has adopted a volume submitter plan sponsored by Fidelity Management Trust Company. The volume submitter plan provider has received an advisory letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter plan advisory letter has been relied upon by the Plan. The Plan has been amended since the volume submitter plan received the advisory letter. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal, state or local taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

NOTE 10 – DELINQUENT PARTICIPANT CONTRIBUTIONS

The Company remitted certain 2019 participant contributions of \$615,902 to the trustee later than required by Department of Labor (DOL) Regulation 2510.3-102. As permitted by the Employee Benefits Security Administration (EBSA) of the DOL, the Company is in the process of correcting these contributions through the Voluntary Fiduciary Correction Program (VFCP).

NOTE 11 – SUBSEQUENT EVENTS

As a result of the spread of COVID-19 coronavirus, economic uncertainties have arisen which have resulted in significant volatility in the investment markets, resulting in a substantial decline in the value of investments. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.

On March 27, 2020, the Coronavirus Aid, Relief and Economic Security Act (the “CARES Act”), was signed into law. The CARES Act contains several provisions that temporarily impact 401(k) plans, including a new loan payment pause option, higher limits on loans that can be taken, permit the delay of required minimum distributions, and a new hardship withdrawal option of up to \$100,000. The Company has adopted these provisions into the Plan, effective with the date the law was signed.
