Miba Industrial Bearings 401(k) Plan

Notes to the Financial Statements

1. Plan Description

The following description of the Miba Industrial Bearings 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The plans effective date was January 1, 2018, with all eligible employees entering into the Plan on a special entry date of August 1, 2018.

General

The Plan is a defined contribution plan which covers all eligible employees, excluding interns, of Miba Industrial Bearings US, LLC (the Company and/or the Plan Sponsor) and any participating affiliates, if applicable, who had prior services with Orion Corporation (includes John Crane Bearings) and Turbo Component & Engineering, Inc. and are eligible to participate in the Plan upon completing the Plan's eligibility requirements, including having completed two months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Transfers from Other Plans

Certain employees were transferred from Orion Corporation's 401(k) Plan and Turbo Component & Engineering, Inc.'s 401(k) Plan into the Miba Industrial Bearings 401(k) Plan on August 1, 2018. As a result, \$28,098,116 of transfers into the plan were recorded on the statement of changes in net assets available for benefits during the year ended December 31, 2018. The Company had no such transactions for the year end December 31, 2019.

Contributions

Under the plan, participants may elect deferrals from 1% to 80% of their eligible earnings subject to the maximum tax-deferred limitations established by the Internal Revenue Service (IRS) as either a pre-tax and/or Roth 401(k) deferral. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan provides for employer matching contributions of 50% of the participant's elective deferrals not to exceed 6% of the participant's compensation. The Plan provides for after-tax voluntary employee contributions in which participants may not exceed 10% of compensation.

A discretionary profit-sharing contribution not to exceed 6% of any participant's compensation may be made by the employer, which will be allocated annually. During the years ended December 31, 2019 and 2018, the Company made discretionary profit-sharing contributions of \$582,023 and \$243,362, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Plan Sponsor's contribution, (b) Plan earnings or losses and (c) administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Miba Industrial Bearings 401(k) Plan

Notes to the Financial Statements

Notes Receivable from Participants

Participants may borrow from their accounts subject to certain maximum and minimum amounts, as prescribed in the Plan and in the Internal Revenue Code (IRC) and may only have one loan outstanding at any time. The minimum loan is \$1,000 and participants can borrow up to 50% of their vested account balance to a maximum of \$50,000. All loans are secured by the balance in the participant's account and bear interest at the prime interest rate plus 1%. Loan terms shall not exceed five years, unless the loan was used to acquire a principal residence.

Vesting and Forfeitures

Participants are immediately 100% vested in their elective deferral including Roth 401(k) and catch-up contributions and, if any, rollover contributions and after-tax voluntary contributions. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants are 0% vested in contributions made by the Company until they become fully vested after three years of service.

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to pay Plan expenses or to reduce future employer contributions. As of December 31, 2019 and 2018, forfeited amounts available to reduce employer contributions totaled \$20 and \$0, respectively. For the Plan years ended December 31, 2019 and 2018, forfeited non-vested accounts were applied to reduce employer contributions by \$25,817 and \$0, respectively.

Benefit Payments

Distributions are payable upon the retirement, death, disability, or termination of employment either in the form of a single lump-sum payment, installments over a period of not more than the assumed life expectancies, or have the payment made in partial withdrawals. Normal retirement age is 65, with in-service withdrawals allowable at age 59 ½. Minimum distribution is required if a participant continues working for the Company after attainment of age 70 ½.

Hardship Withdrawals

Hardship withdrawals of a participant's deferral contributions are permitted in certain circumstances of immediate and heavy financial need, as defined in the Plan agreement.

Plan Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100% vested in their account balances.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Miba Industrial Bearings 401(k) Plan

Notes to the Financial Statements

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset (an exit price) in the principal or most advantageous market for the asset in an orderly transaction between market participants on the measurement date. (See Note 5 for discussion of fair value measurements.)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

The Plan paid administrative expenses of \$43,893 and \$9,574 for the years ended December 31, 2019 and 2018, respectively. Certain professional fees for the administration and audit of the Plan are paid by the Company on behalf of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Notes Receivable from Participants

Notes receivable from participants are recorded at their unpaid principal balances plus any accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Recently Issued Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement - Disclosure Framework* (Topic 820). The updated guidance improves the disclosure requirements on fair value measurements. The updated guidance

Miba Industrial Bearings 401(k) Plan

Notes to the Financial Statements

is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early adoption is permitted for any removed or modified disclosures. The Company is currently assessing the timing and impact of adopting the updated provisions.

Subsequent Events

The Plan has evaluated events and transactions that occurred between January 1, 2020 and October 12, 2020, which is the date that the financial statements were available to be issued for possible recognition or disclosure in the financial statements. See Note 8.

3. Summary of Financial Data Certified by the Trustee

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, Reliance Trust Company has certified as complete and accurate the following information as of and for the years ended December 31, 2019 and 2018 including the information in the accompanying supplemental schedule:

	2019	2018
Investments, at fair value	\$ 26,591,810	\$ 21,619,503
Net appreciation (depreciation) in fair value of investments	\$ 3,740,657	\$ (3,589,835)
Interest and dividends	1,531,305	980,405
Total investment income (loss)	\$ 5,271,962	\$ (2,609,430)

As directed by the plan administrator, no auditing procedures have been performed on the above certified information except to compare such information to the information included in the accompanying financial statements and supplemental schedule.

4. Income Tax Status

The Plan adopted a prototype plan document from ADP, LLC which received an opinion letter from the IRS on July 16, 2014 stating that the prototype plan document, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since the date of this letter, the Plan Administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon the examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Miba Industrial Bearings 401(k) Plan

Notes to the Financial Statements

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement* are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 or 2018.

Mutual funds and Money market funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

December 31, 2019	Assets at Fair Value			Total
	Level 1	Level 2	Level 3	
Mutual funds	\$ 26,361,725	\$ -	-	\$26,361,725
Money market fund	230,085	-	-	230,085
Total investments at fair value	\$ 26,591,810	\$ -	-	\$26,591,810

Miba Industrial Bearings 401(k) Plan

Notes to the Financial Statements

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

<i>December 31, 2018</i>	Assets at Fair Value			Total
	Level 1	Level 2	Level 3	
Mutual funds	\$ 21,561,460	\$ -	\$ -	\$ 21,561,460
Money market fund	58,043	-	-	58,043
Total investments at fair value	\$ 21,619,503	\$ -	\$ -	\$ 21,619,503

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of fair value hierarchy during 2019 or 2018.

6. Parties-in-Interest

Parties-in-interest are defined under Department of Labor (DOL) regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employers and certain others. Professional fees for the administration and audit of the Plan are paid by the Company on behalf of the Plan.

7. Corrective Distributions

The Plan failed to pass the Average Deferral Percentage (ADP) Test and the Actual Contribution Percentage (ACP) Test for the plan years ended December 31, 2019 and 2018.

The accompanying statements of net assets available for benefits include a liability of \$2,633 and \$0 at December 31, 2019 and 2018, respectively, related to the excess contributions payable to the participant. In the prior year, the plan did not distribute the excess contributions of \$2,323 to the participant within the proper time, therefore, was assessed a penalty. The Plan distributed these amounts to the participants within 3 1/2 months after the 2019 plan year.

8. Subsequent Event

On January 30, 2020, the World Health Organization (WHO) announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the "COVID-19 outbreak") and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. This pandemic has adversely affected global economic activity and greatly contributed to significant deterioration and instability in financial markets. As a result, the Plan's investment portfolio has incurred some decline in fair value since December 31, 2019. Because the values of the Plan's individual investments could fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, and related impact on the Plan's liquidity cannot be determined at this time.

Miba Industrial Bearings 401(k) Plan

Notes to the Financial Statements

On March 27, 2020, President Trump signed into law the “Coronavirus Aid, Relief, and Economic Security (CARES) Act.” The CARES Act, among other things, includes several relief provisions available to tax-qualified retirement plans and their participants. Plan management has evaluated the relief provisions available to plan participants under the CARES Act and has implemented the following provisions:

- Special coronavirus distributions up to \$100,000
- Increase of the available loan amount to the lesser of \$100,000 or 100% of the participant’s vested account balance
- Participant loan payment deferral for the remainder of 2020
- Suspended required minimum distributions for 2020
