Eurofins Scientific, Inc. 401(k) Incentive Savings Plan

NOTES to FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION of PLAN

The following description of the **Eurofins Scientific, Inc. 401(k) Incentive Savings Plan** (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Eurofins NSC US, Inc. (the Company). Employees become eligible for elective deferrals after attaining one hour of service. After 90 days of service, employees become eligible to receive employer matching contributions. High school or college student employees working during semester breaks, non-resident aliens, and leased employees are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator is responsible for the oversight of the Plan. In collaboration with the investment advisor, the Plan's Trustees determine the appropriateness of the Plan's investment offerings and monitor investment performance.

The Plan will be impacted by changes related to the SECURE Act of 2019, which was passed into law December 19, 2019. Many of the provisions of the SECURE Act will go into effect in 2020. A key provision of the SECURE Act which may impact the Plan is raising of the required minimum distribution age from 70 ½ to 72.

A controlled group is generally considered one employer for Form 5500 reporting purposes. Participating employers under the Eurofins Scientific, Inc. 401(k) Incentive Savings Plan are as follows:

Contributions

Participants are allowed to contribute up to 75% of eligible compensation, as defined in the Plan Document. Participants may designate all or a portion of their deferral contributions as after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans (rollovers). The Plan includes an automatic enrollment provision whereby all newly eligible employees are automatically enrolled at a rate of 6% of eligible compensation, unless they affirmatively elect not to participate in the Plan. Additionally, participants automatically enrolled in the Plan, who subsequently decide not to participate in the Plan within 90 days of being auto-enrolled, can request such deferral contributions made during this time to be refunded.

The Company may make a discretionary matching contribution to the Plan. The matching contribution is determined each Plan year. Additional profit sharing and non-elective contributions may be made at the option of the Company's board of directors. The employer profit sharing contribution, if any, is generally allocated to eligible employees ratably as a percentage of compensation, unless a permitted disparity (Social Security Integration) provision applies.

Participants direct the investment of all contributions to their accounts into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings (losses). Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. If a participant in the Plan terminates employment other than by retirement, disability, or death, employer contributions and earnings or losses thereon vest in accordance with the following table:

Vesting (Continued)

Participants covered by the plan sponsored by Blue Heron Biotech, LLC on or before June 30, 2019, who do not have an hour of service after such date shall be 100% vested after 3 or more years.

Notes Receivable from Participants

Participants may borrow from their fund accounts at a minimum of \$1,000 up to a maximum equal to the greater of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate, which remains fixed throughout the duration of the loan, is set at one percent above the prime rate. Principal and interest is paid ratably through payroll deductions. Participants are only permitted to have two outstanding loans at a time.

Payment of Benefits

On termination of service due to disability, retirement, or termination of employment, a participant may elect to receive a lump sum distribution, direct rollover distribution, or a combination of the two in an amount equal to the value of the participant's vested interest in his/her account. These accounts can be used to reduce future employer matching contributions or future profit sharing contributions. Forfeitures of employer contributions were allocated to reduce employer matching contributions for the years ended December 31, 2019 and 2018, in the amount of \$526,547 and \$479,225, respectively.

NOTE 2 - SUMMARY of SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP). Current US GAAP standards are contained in the Accounting Standards Codification (ASC) as set forth by the Financial Accounting Standards Board (FASB).

Use of Estimates

The preparation of financial statements in accordance with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTES to FINANCIAL STATEMENTS

(Continued)

NOTE 2 - SUMMARY of SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash and Cash Equivalents

Cash and cash equivalents include non-interest bearing cash. The Plan maintains cash deposits at financial institutions where the account balance is not FDIC insured. At December 31, 2019 and 2018, net pending trades of \$668,480 and \$177,913, respectively, are included in non-interest bearing cash.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustees, in collaboration with the Plan's investment advisor, determine the valuation policies utilizing information provided by the custodian and its related parties. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest is recorded on the accrual basis. Dividends and capital gain distributions are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded for purposes of Form 5500 reporting. However, for purposes of the financial statements, for active participants who have not incurred a distributable event (employment termination, death, or disability), but have delinquent loans, the participant loan remains outstanding until a distributable event occurs.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

NOTE 3 - INFORMATION PREPARED and CERTIFIED by the CUSTODIAN (UNAUDITED)

Investment income (loss) for the years ended December 31, 2019 and 2018, totaled \$98,515,457 and \$(25,467,179), respectively.

NOTE 4 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of and for the years ended December 31, 2019 and 2018.

Registered Investment Companies

Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Guaranteed Interest Account

Fair value was the amount that Plan participants would receive if they withdrew or transferred funds within the Plan prior to their maturity for an event other than death, disability, termination or retirement. This fair value represented contract value adjusted to reflect then-current market interest rates only to the extent such market rates exceed crediting rates. The Plan's guaranteed interest account investment was liquidated during the plan year ended December 31, 2018 (See Note 5).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	Level 1	Level 2	Level 3	Total
Registered Investment Companies	553,586,928	-0-	-0-	553,586,928

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Registered Investment Companies	348,751,234	-0-	-0-	348,751,234

Level 1 and 2 Transfers

No transfers in and out of levels 1 and 2 occurred during the years ended December 31, 2019 and 2018.

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets as of and for the year ended December 31, 2018:

	Level 3
	Guaranteed Interest Account
Balance at December 31, 2017	40,808
Sales	(41,106)

NOTE 5 - GUARANTEED INTEREST ACCOUNT with INSURANCE COMPANY

The Plan Sponsor acquired Diatherix Laboratories, Inc., effective July 1, 2017. The Diatherix Laboratories 401(k) Plan held a non-benefit responsive guaranteed interest contract with Principal Life Insurance Company. As part of the Plan Sponsor's acquisition of Diatherix Laboratories, Inc., the assets of the Diatherix Laboratories 401(k) Plan were transferred to the Plan during 2017. As such, this investment contract was an asset held by the Plan.

Eurofins Scientific, Inc. 401(k) Incentive Savings Plan

NOTES to FINANCIAL STATEMENTS

(Continued)

NOTE 5 - GUARANTEED INTEREST ACCOUNT with INSURANCE COMPANY (Continued)

At December 31, 2018, this interest account matured and the fair value of the account is \$-0-. This contract provided a guaranteed interest rate for a specified period of time as determined, either three or five years. The rate credited was the rate in effect on the day when each deposit was directed to the account. To simplify reporting to Plan participants, all rates credited during the 12-month deposit year were averaged into a single composite rate. The 12-month deposit year was the same as the Plan year, ending on December 31 annually.

This contract promised contract value for a benefit event (termination, death, disability, and retirement); however, there was a possible surrender charge when funds were withdrawn prior to their maturity. Thus, the guaranteed interest contract was considered non-benefit responsive.

If the participant terminated participation in the fund before a guaranteed interest account matured or transferred funds to other investments beyond the limits of the contract, the Plan would apply an early withdrawal charge to guaranteed interest account balances.

NOTE 6 - GUARANTEED INVESTMENT CONTRACT with INSURANCE COMPANY

The Plan Sponsor acquired Diatherix Laboratories, Inc., effective July 1, 2017. The Diatherix Laboratories 401(k) Plan held an investment contract that comprised a traditional fully benefit-responsive guaranteed investment contract with Principal Life Insurance Company. As part of the Plan Sponsor's acquisition of Diatherix Laboratories, Inc., the assets of the Diatherix Laboratories 401(k) Plan were transferred to the Plan during 2017. As such, this investment contract was an asset held by the Plan. At December 31, 2018, this contract matured and the contract value is \$-0-. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and interest at a specified interest rate that was guaranteed to the Plan.

Because the guaranteed investment contract held by the Plan met the criteria to be considered fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract was presented on the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by Principal Life Insurance Company, represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting rate was declared and determined based on a formula outlined in the contract, but could not be less than the guaranteed minimum interest rate which was determined and announced each time the crediting interest was announced.

Certain events limited the ability of the Plan to transact at contract value with the contract issuer. Such events included retirement, death, disability, plan termination, and bankruptcy. Furthermore, the Plan's ability to receive amounts due in accordance with the fully benefit-responsive investment contract was dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations could have been affected by future economic and regulatory developments.

NOTE 7 - RELATED PARTY TRANSACTIONS and PARTY-in-INTEREST TRANSACTIONS

Certain Plan investments are in registered investment companies managed by Charles Schwab Bank. Charles Schwab Bank is the custodian of the Plan's assets and, therefore, these transactions qualify as party-in-interest transactions. At December 31, 2019 and 2018, the fair value of these investments totaled \$10,081,107 and \$6,994,964, respectively.

As previously discussed, the Plan may issue loans to participants that are secured by participant account balances. The value of the notes receivable outstanding were \$7,124,908 and \$5,613,077 as of December 31, 2019 and 2018, respectively. All of these transactions qualify as party-in-interest transactions.

There were no prohibited transactions involving a known party-in-interest for the years ended December 31, 2019 and 2018.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 9 - TAX STATUS

The Plan has not obtained a tax determination letter and relies on the advisory letter associated with the volume submitter defined contribution plan document dated March 31, 2014, in which the IRS stated that a plan, designed within the parameters of the volume submitter defined contribution plan document, would be in compliance with the applicable requirements of the Internal Revenue Code (IRC). The volume submitter defined contribution plan document has been amended and restated since receiving the advisory letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified, and the related trust is tax-exempt.

US GAAP requires Plan Management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that as of December 31, 2019 and 2018, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS audits for any tax periods in progress.

NOTE 10 - RISKS and UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Effective March 1, 2020, the Plan Sponsor created a break-out company, Eurofins NDSC Environment Testing Americas, Inc., from an existing participating employer, through which employees were transferred from another participating employer. The Plan was amended to recognize Eurofins NDSC Environment Testing Americas, Inc. as a participating employer.

On March 11, 2020, the World Health Organization declared the coronavirus (COVID-19) a pandemic. On March 19, 2020, Governor Tom Wolf ordered the closure of non-life-sustaining businesses in Pennsylvania. The Company was considered a life-sustaining business and continued operations within rigid guidelines aimed at halting the spread of the virus. The extent of the impact of COVID-19 on the Company's or Plan's operational and financial performance will depend on certain developments, including the duration and spread of the outbreak, impact on their customers, employees, and vendors. Effective June 26, 2020, the county in which the Company is headquartered moved to the "green" phase of the state's reopening plans, which allowed all businesses within the county to re-open under specific safety guidelines. As a result of the pandemic's impact on the Company's operations to-date, as well as potential impact going forward, it is difficult to predict the impact to the Plan.

Effective April 1, 2020, the Plan Sponsor acquired Precision TEM, LLC.

Effective during April 2020, the Plan adopted provisions in accordance with the CARES Act to allow for coronavirus-related plan distributions and loans to qualified participants who have been impacted by the pandemic. Qualified participants who request and certify eligibility under the CARES Act prior to December 31, 2020, may request a distribution or loan (prior to 180 days subsequent to March 27, 2020) equal to the lesser of \$100,000 or their entire account balance. If a qualified individual has an outstanding loan as of the date of the CARES enactment or is granted a new loan at this time, the loan payments with a due date from the CARES enactment through December 31, 2020, may be suspended for up to 12 months. The suspended loan is then reamortized with any interest that accrued during the payment delay period. The reamortization period for a new loan will be a maximum of 60 months from January 1, 2021. If the loan was already in place, the CARES suspension period is disregarded in determining compliance with the 60 month rule or 120 month rule for loans for the purchase of a principal residence.

Effective July 1, 2020, the Plan Sponsor acquired Xenco.

Effective August 1, 2020, the Plan Sponsor created a break-out company, Clinical Enterprises, from an existing participating employer, through which employees were transferred from another participating employer.
