Epicor Software 401(k) Savings Plan
Notes to Financial Statements

A. Description of the Plan

The following description of the Epicor Software 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering substantially all employees of Epicor Software Corporation (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration. The Plan is administered by the Company.

Eligibility. All employees of the Company are eligible to participate in the Plan except for employees that are residents of Puerto Rico, employees covered by a collective bargaining agreement, leased employees and employees who are nonresident aliens with no U.S.-source compensation. Temporary employees who have attained at least 21 years of age and completed at least 1,000 hours of service will become eligible on the first entry date.

Participant Elective Deferrals. Participants may elect to contribute between 1 and 90% of eligible compensation, not to exceed the limits of the Internal Revenue Code (the IRC) which was $19,000 for 2019. In addition, participants who have attained age 50 are permitted to contribute additional "catch-up" salary deferrals. A participant may designate all or a portion of his or her salary deferrals as Roth deferrals contributed on an after-tax basis. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer Contributions. The Company will contribute matching contributions for the year for participants who have contributed salary deferrals to the Plan for the year. For the year ended December 31, 2019, the Company made matching contributions of 50% of the first 5% of compensation deferred by a participant. For the year ended December 31, 2019 the Company made Employer Matching Contributions to the Plan of $3,898,596.

The Company may also make discretionary contributions as determined annually by the Board of Directors. For the year ended December 31, 2019, the Company made no discretionary contributions.

Participant Accounts. Each participant's account is credited with the participant's contributions, employer matching contributions, and allocations of (a) the Company's discretionary contributions, (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

A. Description of the Plan (continued)

Forfeiture Accounts. At December 31, 2019 and 2018, forfeited nonvested accounts totaled $685 and $4,099 respectively. These accounts may be used to pay certain Plan expenses or may reduce future employer contributions. Forfeitures of $19,063 were used to reduce employer contributions for 2019.

Vesting. Participants are immediately vested in their Employee Before-Tax and Participant Rollover Contributions and earnings thereon.

Participants are also immediately vested in the Company's contributions plus actual earnings thereon.

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $1,000 up to the maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range 1 to 5 years or within a reasonable period of time that is longer than 5 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with the rates that a bank or other professional lender would charge for making a loan in a similar circumstance. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits. Upon termination of employment due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum amount not to exceed the value of the participant's vested interest in his or her account. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances not exceeding $1,000 will be immediately distributed in a lump-sum payment. With the plan administrator's approval, participants may withdrawal all or part of their aggregate contributions in the event of financial hardship.

Expenses of the Plan. Plan fees and administrative expenses are generally either paid directly by the Company or are passed through to the participants in the Plan. Some costs are covered by investment fees that are deducted directly from investment returns.

B. Summary of Significant Accounting Policies

Basis of Accounting. The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

B. Summary of Significant Accounting Policies (continued)

Group annuity contract - stable value and Common collective trust funds. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, as applicable, because contract value is the amount participants would receive if they were to initiate permitted transactions under the term of the Plan.

Investment Valuation and Income Recognition. The Plan's investments, other than fully benefit-responsive investment contracts which is reported at contract value, are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the Plan's investment advisers and trustee. See Note D for a further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Payment of Benefits. Benefits are recorded when paid.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Recent Accounting Pronouncements. In July 2018, the FASB issued ASU 2018-09, Codification Improvements. This ASU clarifies that an entity should evaluate whether a readily determinable fair value exists or whether its investments qualify for the net asset value per share practical expedient. It removes the example of stable value common collective trust fund from the illustrative in paragraph 962-325-55-17 to avoid interpretation that such an investment would never have a readily determinable fair value and would always use the net asset value per share practical expedient. The amendment to paragraph 820-10-55-2(bbb)(2) in this update replaces indefinite deferral guidance that is currently in paragraph 820-10-65-9 with a disclosure exemption in paragraph 820-10-55-2(bbb)(2) and paragraphs that explicitly cite that paragraph. These amendments are effective for fiscal years beginning after December 15, 2019, with earlier adoption permitted.

B. Summary of Significant Accounting Policies (continued)

The Plan has not elected to early adopt the provisions of this ASU for Plan year 2019 and Plan management is currently evaluating the impact this Update will have on the Plan's financial statements.

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan has not elected to early adopt the provisions of this ASU and Plan management is currently evaluating the impact this Update will have on the Plan's financial statements.

Subsequent Events. The Plan has evaluated subsequent events through October 13, 2020, the date the financial statements were available to be issued. See further documentation in Note M. Subsequent Events.

C. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the plan's asset information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee, Fidelity Management Trust Company, and furnished to the Plan Administrator.

The Plan Administrator has obtained certifications from the trustee, Fidelity Management Trust Company, that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate.

Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information included throughout the financial statements and supplemental schedule related to the following assets:

	December 31, 2019	December 31, 2018
Investments at fair value:		
Interest Bearing Cash	**$ 100,993**	$ 70,081
Mutual funds	**358,880,670**	282,717,512

C. Information Certified and Provided by Fidelity Management Trust Company (continued)

	December 31, 2019	December 31, 2018
Investments at contract value:		
Group annuity contract - stable value	**40,421,447**	39,141,031
Common collective trust funds	**44,337,862**	35,625,335
	$ 443,740,972	$ 357,555,976

D. Fair Value Measurements

The framework to measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques and used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of nonobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

There have been no changes in the methodologies used at December 31, 2019 and 2018.

D. Fair Value Measurements (continued)

Mutual Funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. As such, they are classified as Level 1 investments.

Group annuity contract-stable value fund: Group annuity contract-stable value funds, are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer and are therefore classified as Level 2 investments and not included below as investments measured at net asset value.

Common Collective trust funds: Common collective trusts are valued at the NAV of units for each trust. The NAV, as provided by the Trustee, are used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	Assets at Fair Value as of December 31, 2019			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 358,880,670	$	$	$ 358,880,670

Total investments in Fair Value hierar	$ 358,981,663	$ 40,421,447	$ -	$ 399,403,109
Investments measured at net asset value as a practical expedient (a)				$ 44,337,862
Total investments at Fair Value				$ 443,740,972

D. Fair Value Measurements (continued)

The fair value amounts presented in this table are intented to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2019 and 2018, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Common collective trust funds	$ 44,337,862	n/a	Daily	12 Months

E. Investment Contracts

As of December 31, 2019, and 2018, the plan held assets of $40,421,447 and $39,141,031, respectively, in a fully benefit-responsive investment contract (stable value fund) with MassMutual. The fund is comprised of units in the Fidelity Money Market Trust: Retirement Money Market Portfolio, as well as in the MassMutual Separate Account Guaranteed Interest Contract Core Fund.

E. Investment Contracts (continued)

The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by Fidelity Management Trust Company.

As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

Contract value, as reported to the plan by Fidelity Management Trust Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other Company events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	**2019**	2018
Based on actual earnings	**3.24%**	3.68%
Based on interest rate credited to participants	**2.72%**	3.62%

The Plan also offers common collective trust funds that include Pioneer Large Cap Growth Portfolio Fund and Pioneer Select Mid Cap Growth Fund ("the Funds"). The Funds may invest in various types of investments, including common stocks, money market funds and real estate investment trusts.

Wilmington Trust, N.A. ("WTNA") maintains the collective trust Funds and maintains ultimate fiduciary authority over the management of, and investments made, in the Funds. WTNA engaged Amundi Pioneer Institutional Asset Management, Inc. to provide investment advice with respect to the Fund's assets.

E. Investment Contracts (continued)

WTNA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment in the Funds are carried at contract value and, as WTNA considers contract value to be fair value, this is reflected in the financial statements.

F. Participant-Directed Investments

The Plan permits participants to invest their account balance and contributions in investment accounts offered by Fidelity. Allocations may be made in any percentage and may be changed by the participant at any time by directly contacting Fidelity.

G. Related Party Transactions and Party in Interest Transactions

Certain Plan investments are invested in mutual funds managed by Fidelity. Fidelity is the Trustee of the Plan and custodian of plan assets.

The Plan issues loans to participants, which are secured by the balances in the participants' accounts. During 2019, the Plan incurred $1,242 in contract administration fees to Fidelity. The Company paid certain administrative expenses of the Plan, including recordkeeping fees. Therefore, these transactions qualify as party-in-interest transactions. Transactions in such investments are exempt from the prohibited transaction rules.

H. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits as reported in the accompanying financial statements to the Plan's Form 5500 at December 31, 2019 and 2018, to Form 5500:

I. Plan Merger and Transfer of Plan Assets

The Company acquired MechanicNet Group, Inc. in June 2019. Effective as of July 1, 2019, all associated assets, liabilities, and obligations of the MechanicNet Group, Inc. 401(k) Profit Sharing Plan (the "MechanicNet Plan") were merged with and into the Plan, with the result that each participant in the MechanicNet Plan has an uninterrupted participation in the Plan, and the provisions of the Plan essentially replace the provisions of the MechanicNet Plan.

The Company acquired Majure Data, Inc. in July 2019. Effective as of August 1, 2019, all associated assets, liabilities, and obligations of the Majure Data, Inc. 401(k) Plan (the "Majure Plan") were merged with and into the Plan, with the result that each participant in the Majure Plan has an uninterrupted participation in the Plan, and the provisions of the Plan essentially replace the provisions of the Majure Plan.

The Company acquired 1 EDI Source, Inc. in October 2019. J. Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2014, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified.

J. Tax Status (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

K. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

L. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and distributions will be made as soon as administratively practicable after the Plan terminates.

M. Subsequent Events

On March 11, 2020, the World Health Organization declared COVID-19 a pandemic. The COVID-19 pandemic and resulting global disruptions have caused significant economic uncertainty and volatility in financial markets. As a result, the Plan's various investment securities have incurred significant fluctuations in fair value since December 31, 2019. The impact of COVID-19 continues to evolve rapidly and the Company is not able at this time to estimate its full impact on the Plan's financial statements.
