RE/SPEC INC. EMPLOYEE 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019 AND 2018

(1) Summary of Significant Accounting Policies

Method of Accounting

The financial statements of RE/SPEC Inc. Employee 401(k) Retirement Plan (the Plan) are prepared using the accrual method of accounting.

Nature of Operations of Plan Sponsor

RE/SPEC Inc. (the Company) is a consulting and services firm with expertise in mining and energy, water and natural resources, and data technology solutions. Work is regularly performed for clients throughout the United States, Canada and other countries. RE/SPEC Inc. provides solutions to both governmental and commercial entities through time-and-materials, cost plus fixed fee, fixed price and deliverable type contracts.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements. Actual results may differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options. Investments are exposed to various risks, such as interest, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Investment Valuation and Income Recognition

The Plan's investments, except as defined below, are stated at fair value on a recurring basis as determined by the Trustees (Notes 4 and 8). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when received. Dividends are recorded on the ex-dividend date.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan. Fully benefit-responsive investment contracts are reported as Guaranteed Investment Contracts (GIC) within the notes to the financial statements.

Net Change in Fair Value of Investments

The net appreciation (depreciation) in fair market value of investments is composed of the realized gains and losses in securities sold or otherwise disposed of during the year and the unrealized gains and losses in securities held at the end of the year.

Payment of Benefits

Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2019 AND 2018

(1) Summary of Significant Accounting Policies (Continued)

Subsequent Events

The Plan Administrator has evaluated subsequent events through September 30, 2020, the date which the financial statements were available for issue.

Market volatility of equity-based investments may substantially impact the market value of such investments at any given time. Subsequent to December 31, 2019, the United States and global markets experienced significant declines in market value resulting from uncertainty caused by the world-wide coronavirus pandemic. It is possible that the market value of the Plan's investments, both in total and in individual participant accounts, has changed significantly since December 31, 2019. The Plan's financial statements do not include adjustments to fair value that have resulted from these declines.

(2) Plan Description

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and Eligibility

The Plan is a defined contribution plan covering all Company employees age 21 and older. Full-time and regular part-time employees are not subject to an hours of service requirement. Temporary part-time employees must be credited with 1,000 hours of service in one year to meet Plan participation eligibility requirements. Plan entry is offered monthly.

All full-time and regular part-time participants, regardless of the number of hours worked during the Plan year, are eligible to receive the Company match. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. Participants vest at a rate of 20 percent per year of credited service. A participant is 100 percent vested after completing five years of service, or if less than five years, upon retirement, disability, death, or termination of the Plan.

Contributions

Each year, participants may contribute pretax annual compensation, as defined in the Plan, up to certain IRS limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

The Plan provides for an employer cash match equal to 50 percent of an employee's elective deferrals, up to a maximum of six percent of the employee's eligible compensation. On an annual basis, the Plan allows employees to direct the employer match to the Company's Employee Stock Ownership Plan (ESOP) rather than the 401(k) plan. ESOP Assets are held within the RE/SPEC Inc. Employee Stock Ownership Trust. As such, ESOP assets are not included in these financial statements. Employees do not need to be employed on the last day of the year to be eligible for the match.

(2) Plan Description (Continued)

Contributions (Continued)

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at three percent of eligible compensation and their contributions invested in the moderate investment model portfolio until changed by the participant.

The Plan allows Roth elective deferrals. Contributions to Roth 401(k) accounts are made on an after-tax basis and contributions to a Roth 401(k) account are included in the participant's gross income. Future distributions of Roth elected contributions and earnings thereon will not be taxed, if certain criteria are met. Roth elective deferrals to the Plan are permanently designated as Roth elective deferrals in participant accounts. The participants' Roth deferrals and gains and losses attributable to such deferrals are accounted for separately.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contributions, and an allocation of Plan earnings or losses and charged with an allocation of administration expenses. The benefit to which a participant is entitled is the benefit provided from the participant's vested account.

Investment Options

Upon enrollment in the Plan, a participant may direct employee contributions to any investments offered by the Plan. Participants may change their investment options at any time.

Participant Notes Receivable

Participants may borrow from their vested fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan transactions are treated as transfers to (from) the investment fund from (to) the participant notes fund. Loan terms range from one to five years or up to 20 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus one percent. Interest rates range from 4.25 to 6.50 percent. Principal and interest is paid ratably through payroll deductions. Participant notes receivable are valued at the principal balance of the note, plus accrued but unpaid interest.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant with benefits in excess of $1,000 may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual, quarterly, or monthly installments over a specified period of time not exceeding a participant's life expectancy or the joint life expectancy of a participant and a participant's beneficiary. If no election is made by the participant upon termination of employment, distributions between $1,000 and $5,000 are deposited into an individual retirement account, benefits less than $1,000 are paid in one lump sum as soon as administratively feasible.

Forfeited Accounts

Forfeited, non-vested amounts totaled **$11,578** and $20,590 at December 31, 2019 and 2018, respectively. Non-vested amounts are forfeited unless participants return to employment and contribute the distribution received at termination, within a specified time. The Plan uses forfeitures to reduce employer matching contributions.

RE/SPEC INC. EMPLOYEE 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
DECEMBER 31, 2019 AND 2018

(2) Plan Description (Concluded)

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants and payment benefits are charged directly to the participant's account and are included in administrative expenses.

(3) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

(4) Investments -- Information Certified by Trustees

The Plan's investments are held by the Trustees, who performs all accounting functions associated with the Plan's investments. The fair value of the investments at December 31, 2019 and 2018 is determined by the Trustees (Note 8).

The Plan is administered by the Company. Principal Life Insurance Company and Delaware Charter Guarantee & Trust Company, a member of the Principal Financial Group, is the Trustee for the years ended December 31, 2019 and 2018. The Plan investments are held and managed by the Trustees.

In accordance with Section 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator has received certification from the Trustees as to the accuracy and completeness of certain financial information of the Plan as of and for the years ended December 31, 2019 and 2018. Information contained in the following has been certified by the Trustee:

- Statements of Net Assets Available for Benefits (except for Participant Notes Receivable and Employer Contributions Receivable)
- Statement of Changes in Net Assets Available for Benefits (except for Contributions, Loan Interest, Fees, and Benefits Paid to Participants)
- Supplemental Schedule of Assets Held for Investment Purposes (except for Participant Notes Receivable)

(5) Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated September 8, 2014, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S.GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the Department of Labor or IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(6) Participant Withdrawals

Vested, undistributed account balances of terminated Plan participants total approximately **$3,735,000** and $3,448,000 at December 31, 2019 and 2018, respectively.

(7) Guaranteed Investment Contracts

In 2017, the Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Principal Life Insurance Company (Principal) totaling **$5,034,445** and $4,446,450 for 2019 and 2018, respectively. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1 percent or greater than 3 percent. The crediting rate is reviewed on a semi-annual basis for resetting. The rate was 2.85% as of December 31, 2019. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

The Plan Administrator does not believe that any events that would limit the Plan’s ability to transact at contract value with Plan participants or the issuer are occurring.

The GIC does not permit the insurance company to terminate the agreement prior to the schedule maturity date.

(8) Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level One: inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access
- Level Two: inputs include
    1. quoted prices for similar assets or liabilities in active markets;
    2. quoted prices for identical or similar assets or liabilities in inactive markets;
    3. inputs other than quoted prices that are observable for the asset or liability;
    4. inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability
- Level Three: inputs to the valuation methodology are unobservable and significant to the fair value measurement

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts: Fair Value represents the value of the fund shares, which is calculated daily based on the valuation of the funds' underlying investments at fair value. The pooled separate accounts value consists entirely of a Level 1 mutual fund which is valued at the closing price reported on the active market on which the individual fund is traded.

The following tables present the assets carried at fair value as of December 31, 2019 and 2018, in the accompanying Statements of Net Assets Available for Benefits by fair value hierarchy, as described above. All are measured on a recurring basis.

Total assets in the fair value hierarchy	**20,927,699**	**529,548**	**-**	**21,457,247**
