INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Personal Touch Home Care Employee Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statements of Personal Touch Home Care Employee Stock Ownership Plan (the "Plan"), which comprise the statements of net assets available for plan benefits as of December 31, 2019 and 2018, and the related statements of changes in net assets available for plan benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation on the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Personal Touch Home Care Employee Stock Ownership Plan as of December 31, 2019 and 2018 and the changes in its net assets available for benefits for the year ended December 31, 2019, in conformity with accounting principles generally accepted in the United States of America.

Personal Touch Home Care Employee Stock Ownership Plan

Notes to Financial Statements
December 31, 2019 and 2018

Note 1 - DESCRIPTION OF PLAN

The following description of the Personal Touch Home Care Employee Stock Ownership Plan (the "Plan"), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was effective as of January 1, 2010 as a leveraged Employee Stock Ownership Plan (ESOP) and is designed to comply with section 4975(e)(7) and the regulations under the Internal Revenue Code, of 1986, as amended and is subject to the Applicable Provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA) and includes the employees of Personal Touch Holding Corp., and subsidiaries (the "Sponsor"). The trust department of an independent third-party bank is the Plan's trustee.

General

The Plan purchased common shares of the sponsor using borrowings from the sponsor and holds the stock in a trust established under the Plan. The borrowings are to be repaid over a period of thirty years by income earned and sponsor contributions.

The Plan is a defined contribution plan covering all employees of Personal Touch Holding Corp., and subsidiaries.

Contributions

The Plan Sponsor will make contributions to the Plan as determined by the Board of Directors. Any contributions to the Plan shall be allocated based on participant's compensation to all participant compensation. The contribution rate is discretionary, and can change from time to time. Participants do not make contributions to this Plan.

Eligibility

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after one year of service providing, they worked at least 1,000 hours during such plan year. Participants who do not have at least 1,000 hours of service during such plan year and not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such a year. Employees covered by a collective Bargaining Agreement are generally not eligible to participate in the Plan.

Vesting

Participants must have 1,000 hours of service during the year. Participants with less than 6 years of service since the plans inception with the company will vest at a rate of 20% per year between year two and year six. If participants are partially non-vested in their benefits resulting from the Sponsor's contributions and the participants have five consecutive years of "Breaks in Service", all the service the participants earned before the 5-year period no longer counts. Participants will be 100% vested upon their normal retirement age or upon death.

Note 1 - DESCRIPTION OF PLAN - CONTINUED

Put option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

Participant accounts and forfeitures

Sponsor's common stock released by the trustee from the unallocated account and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Plan earnings are allocated to each participant's account bases on the ratio of the participant's beginning of the year balance to all participants' beginning of the year account balances. Only those participants who are eligible employees of the sponsor as of the last day of the Plan year will receive an allocation.

Payment of Benefits

All distributions from the Plan will be made in one lump sum payment in cash. Distributions are required to be made not later than April 1st following the year in which you reach age 70 ½ or retire in accordance with Internal Revenue Service regulations.

Voting Rights

Each participant is entitled to exercise voting attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The mutual fund is valued at its quoted market price. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. The common shares of the company are valued at fair value on December 31, 2019. Fair value is determined by annual independent appraisers.

Operating Expenses

All administrative expenses of maintaining the Plan are all paid by the sponsor.

Note 3 - TAX STATUS OF PLAN

The Internal Revenue Service has determined that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan and related trust.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not, wouldn't be sustained upon examination by the applicable authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset), or disclosures in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The Plan Administrator believes it is no longer subject to income examination for years prior to 2016.

Note 4 - ADMINISTRATION OF PLAN ASSETS

The Plan assets, which consist principally of the Company's common shares, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan which are reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by an officer or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Note 5 - INVESTMENTS

The Plan's investments in the Company's common shares at December 31, 2019 are as follows:

	Allocated	Unallocated	Total
Number of shares	8,900,950	399,050	9,300,000
Cost	$ 53,404,919	$ 6,595,081	$ 60,000,000
Market	$ 120,607,865	$ 5,407,135	$ 126,015,000

Note 6 - FAIR VALUE MEASUREMENT

The Financial Accounting Standards Board's Accounting Standards Codification ("FASB ASC") defines fair value as the price that would be received upon sale of an asset or paid upon transfer of liability in orderly transaction between market participants at the measurement date and in the principal or most advantageous market for the asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity.

The FASB ASC specifies a hierarchy of valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon market data obtained from independent sources (observable inputs). In accordance with the codification under GAAP, the following summarizes the fair value hierarchy:

Level 1 Inputs - Unadjusted quoted market prices for identical assets and liabilities in an active market that the Company has the ability to access.

Level 2 Inputs - Inputs to the valuation methodology include:

* quoted prices for similar assets or liabilities in active markets;
* quoted prices for identical of similar assets or liabilities in inactive markets;
* inputs other than quoted prices that are observable for the asset of liability;
* inputs that are derived principally from and corroborated by observable market data by correlation or other means.

If the asset of liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs - Inputs based on prices or valuation techniques that are both unobservable and significant to the overall fair value measurements.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 6 – FAIR VALUE MEASUREMENT (continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual Funds - are valued at the quote net asset value ("NAV") of shares held by the Plan at year end, which is based on the fair market value of the underlying securities or investments in the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust - is valued at the NAV of shares held by the Plan at year end. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchase and sales) may occur daily. There is no redemption notice period for the individual participant level; however, there is up to a 12-month redemption notice period or the Plan level. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

2019

	Level 1	Level 2	Level 3	Total

	Level 1	Level 2	Level 3	Total
Company Stock	$ -0-	$ -0-	$ 122,295,000	$ 122,295,000

The following table shows a reconciliation for all **Level 3** assets measured at fair value for the period January 1, to December 31.

	2019	2018
Fair Value at January 1	$ 122,295,000	$ 59,985,000
Purchase of sponsor company common stock	-0-	-0-
Unrealized Gains/(Losses) relating to assets held at reporting date	3,720,000	62,310,000
Fair Value at December 31	$ 126,015,000	$122,295,000

Note 7 - INVESTMENTS

The following table represents the investments at fair value as of December 31

	2019		2018	
	Net Increase/ (Decrease) in Value During Year	Fair Value At End of Year	Net Increase/ (Decrease) in Value During Year	Fair Value At End of Year
Investments				
In sponsor company common stock	$ 3,720,000	$ 126,015,000	$ 62,310,000	$ 122,295,000
Total Investments at Fair Value	$ 3,720,000	$ 126,015,000	$ 62,310,000	$ 122,295,000

During the fiscal year ended December 31, 2019, the Plan's investments (including gains and losses in investments bought and sold, as well as held during the year) increased in value by $3,720,000.

Note 8 - LOAN PAYABLE

On December 9, 2010, the trustees purchased for the benefit of the trust a portion of the Company's common stock for $60,000,000. The purchase was paid for by the issuance of notes from the trust to the stockholders. The company subsequently issued its' notes to the stockholders in exchange for the notes issued by the trust. The proceeds of the loan were used to purchase the company's outstanding common stock. The agreement provides for the notes to be repaid over thirty years in equal annual installments of $4,516,360 (combination of interest and principal) each commencing December 9, 2011 through December 9, 2040. Prepayment of the notes may be made without penalty. The outstanding notes bear interest at an annual rate equal of 6.25% per annum. The notes are collateralized by the unallocated shares of common stock. The outstanding balance of the loan $2,719,009 matures as follows:

Year ended December 31	Amount
2020	$ 2,719,009
2021	$ -0-
2022	$ -0-
2023	$ -0-
2024	$ -0-
2025 and thereafter	$ -0-

Note 9 - PLAN TERMINATION

In the event that the contract is discontinued and the Plan is terminated, the participant balances will be distributed to the individual participants subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 10 - EMPLOYER CONTRIBUTIONS

The company is obligated to make contributions in cash to the plan which, when aggregated with the plan's dividends and interest earnings, equal the amount necessary to enable the plan to make its regularly scheduled payments of principal and interest due on its term loan.

Note 11 – RISKS AND UNCERTAINTIES

The Plan's investments consist primarily of the Company's common stock, which is exposed to the various risks, including interest rate market, and credit risks, as well as valuation assumptions based on earnings and cash flows. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term an that such changes could materially affect the amounts reported in the statement of net assets for benefits.

Note 12 - LITIGATION

In late 2012, the New York Regional Office of the United States Department of Labor ("DOL"), Employee Benefits Security Administration, opened an investigation of the Personal Touch Home Care Employee Stock Ownership Plan (the "ESOP"). During 2017, the DOL issued a letter announcing that the agency was closing its investigation.

On April 7, 2015, certain private plaintiffs filed a complaint against GreatBank Trust Company (the ("Trustee" of the ESOP) alleging that the Trustee violated the Employee Retirement Income Security Act of 1974 ("ERISA") and breached its fiduciary duties in connection with the purchase of 9,300,000 shares of Personal Touch Holding Corp stock by the ESOP in December 2010 for $60,000,000 (the "ESOP transaction"). As part of the ESOP transaction, the Company agreed to indemnify the Trustee for any legal proceedings the related in any way to the performance of the Trustee's services under the ESOP. A trial date was set for November 13, 2018. Prior to the trial, the Company and the Trustee came to an agreement whereby the Company would contribute $1,750,000 towards the total settlement amount of the lawsuit of $2,250,000. A fairness hearing on the class action settlement was scheduled for May 1, 2019. The hearing took place as scheduled and the settlement was approved. The Company did make the payment of $1,750,000 which is reflected in the financial statements of the parent company. Funds were deposited into the plan and subsequently allocated to the Plan participants.

Note 13 - SUBSEQUENT EVENTS

Management has evaluated the need for disclosures and/or agreements resulting from subsequent events through October 12, 2020. Based on this evaluation, no adjustments were required to the Financial Statements as of December 31, 2019.

Coronavirus

Since the start of January 2020, the outbreak of the coronavirus which was declared a pandemic by the World Health Organization on March 11, 2020, is rapidly evolving situation adversely affecting global commercial activities. The rapid development and fluidity of this situation precludes any prediction as its ultimate impact, which may have a continued adverse effect on economic and market conditions and trigger a period of global economic slowdown. The financial impact on the investments of the Plan is unknown at this time. The valuation of the investments in the combined financial statements as at December 31, 2019 do not include any impact as a result of this subsequent event. Personal Touch Home Care Employee Stock Ownership Plan will continue to monitor the developments relating to this pandemic and the potential effect on the fair value of the Plan's investments which may differ materially from the fair value of the investments in the combined financial statements.
