Subject to the exceptions above, employees who are not regularly scheduled to work twenty or more hours a week can participate in the Plan after completing one year of service during which the employee completes at least 1,000 hours of service in a calendar year.

If an employee does not enroll in the Plan within 60 days of hire, that employee will be automatically enrolled in the Plan at a contribution rate of 5%. His or her money will be invested in the Target Date Fund that has a target retirement date closest to the year in which the employee is expected to retire (assuming retirement at age 65). In addition, the employee will be enrolled in the Automatic Increase Program (AIP), which will increase the employee's contribution rate by 1% on April 1st each year, to a maximum of 10%. Highly Compensated Employees will not be enrolled in the AIP plan feature. The employee may stop or change the elections at any time. Effective January 1, 2019, highly compensated employees are no longer automatically enrolled in the Plan.

Contributions

Plan participants are permitted to make voluntary contributions to the Plan through payroll deductions. Before-tax contributions, representing 401(k) contributions, are deposited in a "before-tax account", Roth after-tax contributions are deposited in a "Roth account", and after-tax contributions, where applicable, are deposited in an "after-tax account." The sum of before-tax and Roth contributions for each participant were limited to \$19,000 in 2019 and before-tax contributions were limited to \$18,500 in 2018, respectively. Participants who will be age 50 or older by the end of the Plan year are eligible to make before-tax and/or Roth catch-up contributions limited to \$6,000 for both 2019 and 2018, respectively.

The maximum permitted contributions are 1% to 50% of eligible compensation through payroll deductions on a before-tax basis, a Roth basis, an after-tax basis or a combination of the three, provided that the maximum participant contributions to the before-tax, Roth and after-tax accounts do not exceed 50% of eligible compensation.

Roth 401(k) contributions were implemented in the UNICare Savings Plan and Savings Plan for Union Employees effective January 1, 2019.

Additionally, participants may contribute amounts representing distributions from other qualified plans as Rollover contributions.

The Company has a matching program in which it contributes to the participant's account. These contributions are recorded in a "company matching account." Effective July 1, 2017, all non-union employees receive company matching contributions were 100% of the first 5% of eligible earnings. The Company match is not provided on annual bonus earnings.

UNICare Retirement Plan, an affiliated plan, was frozen effective June 30, 2017, and there were no more benefit accruals under that plan for all non-union employees, and some union employees (Suffolk, Ben & Jerry's and Independence Unions). Instead, all impacted employees received a 4% Company Non-Elective contribution in the UNICare Savings Plan. The company provides non-elective contributions of 4% of compensation for all participants after one year of service, which is subject to a three-year vesting requirement.

Under the provisions of the UNICare Retirement Plan, participants terminated, vested or retired may roll over their Retirement Plan lump sum distribution to the Plan, as long as there is an existing balance of at least \$1,000 in the Plan.

Purchases and Sales of Businesses and Plant Closures

As a result of Unilever's acquisition of Seventh Generation, Seventh Generation's employees became participants in the Plan effective January 1, 2018. Assets of \$20,512,006 were transferred from their former plan on December 29, 2017 and received by the UNICare Savings Plan in January 2018. This amount was recorded as a transfer receivable as of December 31, 2017.

Unilever sold the Baking, Cooking, Spreading (BCS) business to KKR effective July 1, 2018. A new company, Upfield, was formed, and former BCS employees became Upfield employees effective July 2, 2018. BCS employees terminated employment under Unilever on July 1, 2018 and had the choice of leaving their balances in the UNICare Savings Plan (if the balance was over \$1,000), rolling their balances into an IRA or the new Upfield Savings Plan, or taking a distribution payable to themselves. There was no transfer of assets into the new Upfield plan.

Effective as of August 30, 2019, the non-elective contribution account of any individual whose employment is terminated by the Company or an affiliated company in connection with a designated corporate event, as defined by the Plan document, shall be 100% non-forfeitable as of the individual's date of termination, provided such individual signs and does not revoke a general release of claims provided by the Company.

Participant Accounts

Each participant's account is credited with: (a) the participant's contribution; (b) the Company's contributions; and (c) an allocation of Plan earnings (losses) and administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Vesting

Participants are fully vested in all of their before-tax and after-tax contributions as well as the earnings thereon. Company matching contributions are vested 100% immediately.

UNICare Savings Plan

Notes to Financial Statements

December 31, 2019 and 2018

Vesting provisions relating to Company non-elective contributions are 100% after three years of service or attainment of age 65, death or disability.

The balance of forfeitures was \$260,994 and \$95,936 as of December 31, 2019 and 2018, respectively. Amounts forfeited by non-vested participants who terminated employment during the years ended December 31, 2019 and 2018 were \$860,139 and \$1,306,641, respectively. Forfeitures reduced Company matching contributions and Company non-elective contributions in the amounts of \$638,907 and \$1,313,055 for the years ended December 31, 2019 and 2018, respectively. Forfeitures of \$75,000 were used to pay Plan expenses for the year ended December 31, 2019.

Payment of Benefits

During employment, participants may withdraw all or a portion of their after-tax contributions, where applicable, and earnings thereon. Participants may apply for financial hardship withdrawals up to the eligible portion of their vested before-tax account based on Plan provisions, prior to attaining age 59.5, provided the withdrawal does not exceed the amount of the hardship. Upon attainment of age 59.5, participants may withdraw all or part of the value of their after-tax, before-tax, Company matching, and vested non-elective sources.

Upon termination of employment, participants are entitled to all of their vested balances. Terminated employees whose vested balances exceed \$1,000 may leave their account balances in the Plan until they attain the age 65. Terminated employees whose vested balances are \$1,000 or less are subject to an involuntary cash out.

Retired employees may elect to leave their account balances in the Plan until they attain age 70.5, at which time Internal Revenue Service (the “IRS”) regulations require minimum distributions to be made. Failure to make a voluntary election to defer payment will result in a total distribution of vested Plan balances at age 65.

Investments

Participants have the option to direct contributions towards a wide variety of funds in the Master Trust including capital preservation, bond, real assets, equity and Target Date Funds. The fund line-up includes custom Target Date Funds, six core investment funds, and Fidelity Brokerage Link. The funds offered by the Plan are as follows:

- **Capital Preservation Fund**
This fund is primarily invested in a diversified portfolio of synthetic fully benefit responsive guaranteed investment contracts issued by highly rated financial institutions such as insurance companies and banks. Each contract has its own specific terms, including interest rate and maturity date. The crediting interest rates at December 31, 2019 and 2018 for the contracts range from 1.53% to 2.91% and 2.29% to 3.51%, respectively. The weighted average crediting interest rates at December 31, 2019 and 2018 for the contracts are 2.61% and 2.90%, respectively.
- **Diversified Bond Fund**

Notes Receivable from Participants

At the request of Plan participants, notes receivable from participants are permitted up to the lesser of \$50,000 reduced by the largest outstanding loan balance in the previous 12 months or one-half of the participants' vested interest in accounts less any outstanding loans. Loans bear interest at a fixed rate determined at the time of origination based on the Reuters published prime rate plus one percent. Loans relating to the acquisition or construction of a participant's principal residence are to be repaid within fifteen years. All other loans are required to be repaid within five years.

Interest rates ranging from 4.25% to 8.25% and 4.25% to 9.25% were charged on the loans for the years ended December 31, 2019 and 2018, respectively.

Effective October 1, 2014, the loan policy and/or Administrative Services Agreement were amended to permit 1) terminated participants to continue to repay a plan loan, and 2) the full or partial prepayment of a plan loan at any time.

Administration

The Plan provides that the Benefits Administration Committee is responsible for the general administration of the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Valuation of Plan Investments and Income Recognition

The assets of the Plan have been commingled in the Master Trust with the assets of the Union Plan and Advantage Plan for investment and administrative purposes. The investment in the Master Trust represents the Plan's interest in the net assets of the Master Trust. The Plan's investment in the Master Trust is primarily stated at fair value and is based on the beginning of the year value of the Plan's interest in the Master Trust plus contributions and allocated investment income (loss) less distributions and allocated expenses. However, certain fully benefit-responsive investment contracts are stated at contract value.

Purchases and sales of securities are recorded on a trade-date basis. Gains and losses on the sale of investment securities are determined on the average cost method. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned on an accrual basis.

UNICare Savings Plan
Notes to Financial Statements
December 31, 2019 and 2018

The Plan presents in the Statements of Changes in Net Assets Available for Benefits the investment income (loss) for the Plan's interest in the Master Trust, which consists of its allocated share of investment income (loss), realized gains and losses, and the change in unrealized appreciation and depreciation from the Master Trust.

Notes Receivable from Participants

Notes receivable from participants are valued at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses as incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. Delinquent participant loans are recorded as deemed distributions based on the terms of the Plan.

Benefit Payments

Benefit payments are recorded when paid and include deemed distributions of \$239,787 and \$284,162 for the years ended December 31, 2019 and 2018, respectively.

Administrative Expenses

Investment management fees for all funds are included as a reduction of investment income. Certain other professional fees are paid by the Plan. Certain expenses incurred in connection with the administration of the Plan are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities, if any, at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

Through the Master Trust, the Plan provides for various investment options in any combination of stocks, commingled funds, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the December 31, 2019 and 2018 Statements of Net Assets Available for Benefits.

The Master Trust is exposed to credit loss in the event of non-performance by the companies with whom guaranteed investment contracts are placed. However, the Plan does not anticipate non-performance by these companies and believes that the risk to the Master Trust portfolio from credit loss is not material due to the diversified nature of the assets held.

Effects of New Accounting Pronouncements

In February 2017, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*.

This update requires disclosure of the dollar amount of the plan’s interest in each type of investment held by a master trust, as well as the master trust’s other assets and liabilities on a gross basis and the dollar amount of the plan’s interest in each balance. This Plan adopted this guidance on January 1, 2019 and retrospectively applied the guidance to all periods presented. The adoption did not have a material impact on the Plan’s financial statements.

In August 2018, the FASB issued ASU No. 2018-13, *Fair Value Measurement: Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*, which adds, removes and modifies certain disclosure requirements for fair value measurements. For example, under the new guidance, entities will no longer be required to disclose the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy, or valuation processes for Level 3 fair value measurements. This update is effective for annual periods beginning after December 15, 2019, and interim periods within those periods, and early adoption is permitted. The Company does not expect this update to have a material impact on the Plan’s financial statements.

The Plan is not aware of any other new accounting standards that were required to be adopted in 2019, or yet to be adopted, that would impact the Plan’s 2019 or prospective financial statements.

3. Tax Status of the Plan

The Plan last received a favorable tax determination letter dated July 29, 2014. The Plan has been amended since receiving its latest determination letter, however, the Plan administrator believes that the Plan is designated and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code, and therefore believe that the Plan is qualified and the related trust is tax exempt.

U.S. GAAP requires the Plan’s administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or the Department of Labor. The Plan’s administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Seventh Generation 401(k) Plan underwent an IRS audit for its 2015 plan year, which was prior to Unilever’s acquisition of Seventh Generation. The IRS noted certain temporary employees should have been considered eligible in the Plan who were not participating. In order to correct this, a qualified non-elective contribution of approximately \$17,000 was required. Since the Seventh Generation 401(k) Plan no longer exists, the contributions were made to the UNICare Savings Plan. This adjustment was completed in June 2019.

4. Investment Certification

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Fidelity Management Trust Company, the Trustee of the Plan has certified the completeness and accuracy of all investments and related activity and notes receivable from participants and interest from notes receivable from participants, included in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2019 and 2018, the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2019 and 2018 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2019.

5. Investments Held by the Master Trust

At December 31, 2019 and 2018, the Master Trust is comprised of the investment assets of the Plan, the Union Plan, and the Advantage Plan, affiliated plans of Unilever US.

Investment assets of the Master Trust, held by Fidelity Management Trust Company, the Trustee, related earnings (losses) and expenses are allocated to the plans participating in the Master Trust based upon the total of each individual plan's share of the Master Trust.

As of December 31, 2019, the investment categories of the Master Trust and Plan's share were as follows:

Investments, at fair value, except for synthetic guaranteed investment contracts which are at contract value	Master Trust Balances	Plan's Interest in Master Trust balances

Investment valuation and income recognition of Master Trust

Master Trust investments, with the exception of synthetic guaranteed investment contracts, are stated at fair value. The Investment Committee reviews the valuation and performance of the investment options on an annual basis. There are no redemption restrictions or unfunded commitments for any Master Trust investments.

Investment income (loss) for the Master Trust includes net appreciation (depreciation) of investments, as well as interest and dividends from investments. The net appreciation (depreciation) of investments held in the Master Trust consists of the realized gains (losses) and the unrealized appreciation (depreciation) on these investments.

Investment Contracts

As of December 31, 2019 and 2018, following are synthetic guaranteed investment contracts, of the Master Trust which are fully benefit-responsive:

December 31, 2019 and 2018

The Master Trust entered into fully benefit-responsive investment contracts, such as synthetic guaranteed investment contracts (“GICs”), with various third party financial institutions. These fully benefit-responsive investment contracts are held through the INVESCO Interest Income Fund (the “Fund”). Contract values represent contributions made to the investment contract plus earnings, less participant withdrawals and administrative expenses.

A synthetic GIC provides for a fixed return on principal over a specified period of time through fully benefit-responsive wrapper contracts issued by third party financial institutions which are backed by underlying assets owned by the Master Trust. The wrapper contract amortizes the realized and unrealized gains and losses on the underlying investments, typically over the duration of the investments through adjustments to the future interest crediting rate (which is the rate earned by participants). The issuer of the wrapper contract provides assurance that the adjustments to the interest crediting rate do not result in a future interest crediting rate that is less than zero. An interest crediting rate less than zero would result in a loss of principal or accrued interest.

Calculating the Interest Crediting Rate in Wrapper Contracts

The key factors that influence future interest crediting rates for a wrapper contract include:

- The level of market interest rates
- The amount and timing of participant contributions, transfers, and withdrawals into/out of the wrapper contract
- The investment returns generated by the fixed income investments that back the wrapper contract
- The duration of the underlying investments backing the wrapper contract

Wrapper contracts’ interest crediting rates are typically reset on a monthly or quarterly basis. While there may be slight variations from one contract to another, most wrapper contracts use a formula that is based on the characteristics of the underlying portfolio. Over time, the crediting rate formula amortizes the Fund’s realized and unrealized market value gains and losses over the duration of the underlying investments. Because changes in the market interest rates affect the yield to maturity and the market value of the underlying investments, they can have a material impact on the wrapper contract’s interest crediting rate. In addition, participant withdrawals and transfers from the Fund are paid at contract value but funded through the market value liquidation of the underlying investments, which also impacts the interest crediting rate. The amortization of the embedded market value gains (losses) are reflected in future interest crediting rates higher (lower) than they otherwise would have been.

All wrapper contracts provide for a minimum interest crediting rate of zero percent. In the event that the interest crediting rate should fall to zero and the requirements of the wrapper contract are satisfied, the wrapper issuers will pay to the Plan the shortfall needed to maintain the interest crediting rate at zero. This helps to ensure that participants’ principal and accrued interest will be protected.

Events That Limit the Ability of the Master Trust to Transact at Contract Value

In certain circumstances, the amount withdrawn from the wrapper contract would be payable at fair value rather than at contract value. These events include termination of the Master Trust, a material adverse change to the provisions of the Master Trust, if the employer elects to withdraw from a wrapper contract in order to switch to a different investment provider, or if the terms of a successor plan (in the event of the spin-off or sale of a division) do not meet the wrapper contract issuer's underwriting criteria for issuance of a clone wrapper contract. The events described above that could result in the payment of benefits at market value rather than contract value are not probable of occurring in the foreseeable future.

Issuer-Initiated Contract Termination

Examples of events that would permit a wrapper contract issuer to terminate a wrapper contract upon short notice include the Master Trust's loss of its qualified status, un-cured material breaches of responsibilities, or material and adverse changes to the provisions of the Master Trust. If one of these events was to occur, the wrapper contract issuer could terminate the wrapper contract at the market value of the underlying investments.

Fair Value Measurements

FASB Accounting Standards Codification ("ASC") 820, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted or published quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access.
- Level 2 - Inputs to the valuation methodology that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy:

Mutual Funds (Self-directed Brokerage Account)

A mutual fund's Net Asset Value ("NAV") is based on the value of underlying assets owned by the fund minus its liabilities and then divided by the number of shares outstanding calculated as of the close of business of the New York Stock Exchange. The mutual fund's assets normally are fair valued for the purpose of computing the fund's NAV. Since the NAV is a quoted price in a market that is active, they are classified within Level 1 of the valuation hierarchy.

Commingled Funds

These investments are investment vehicles valued using the NAV provided by the administrator of the fund. The values of the underlying assets owned by the fund are valued at quoted market prices in an active market. Each common/collective trust fund provides for daily redemptions by the Plan at reported NAVs with no advance notice requirement. The NAV is valued daily based on the fair value of the underlying investments held by the trust and classified within Level 1 of the valuation hierarchy.

Short-term Investment Funds

The short-term investment funds, which include money market funds, are valued at quoted market prices in an active market, which represent the NAVs held by the Plan at year end and are classified within Level 1 of the valuation hierarchy.

In accordance with the guidance relating to fair value measurements, the following tables represent the Master Trust's, and Plan's interest therein, fair value hierarchy for its financial assets measured at fair value on a recurring basis as of December 2019 and 2018. For the years ended December 31, 2019 and 2018, all of the following financial assets were measured within Level 1 of the valuation hierarchy.

6. Transactions with Related Parties and Parties-in-Interest

Certain Master Trust investments consist of units in investment funds managed by Fidelity, the Trustee. Fidelity owns these investment funds, and is a party-in-interest as defined by ERISA. These transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules of ERISA. In the opinion of the Plan administrator, fees paid during the year for services rendered by parties-in-interest were based on customary and reasonable rates for such services. The administration fees paid by the Plan during 2019 and 2018 disclosed on the Statements of Changes in Net Assets Available for Benefits were paid to Fidelity.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan, subject to the provisions of ERISA. In the event of the Plan termination, the participants' rights to their accrued benefits are non-forfeitable. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

8. Delayed Deposits of Employee Contributions

During 2017, the Plan inadvertently delayed making certain deposits for employee withholdings as soon as they could be reasonably segregated. The Company funded the lost earnings and filed the related excise tax returns in 2018.

9. Reconciliation of Financial Statements to Form 5500

10. Subsequent Events

The Plan has evaluated subsequent events through September 2, 2020, the date that the financial statements were available to be issued. Based on this evaluation, the Plan's administrator has determined that the following events required disclosure.

The global economic uncertainty associated with the novel coronavirus (COVID-19) pandemic has resulted in significant volatility in global financial markets. This volatility has affected, and may continue to affect, the value of the Plan's net assets available for benefits. The effects of economic and market conditions subsequent to December 31, 2019 are not reflected in these financial statements and future effects on the Plan's net assets available for benefits cannot be predicted due to uncertainty regarding the duration and scope of the pandemic and other changing market conditions.

In March 2020, the Coronavirus Aid, Relief and Economic Security (CARES) Act was enacted and signed into law. The CARES Act includes various provisions that temporarily ease rules around distributions and loans in 2020 for eligible plan participants in reaction to the economic conditions during the COVID-19 pandemic. Certain design changes were made to the Plan as permitted pursuant to the CARES Act.

The Plan has also implemented certain requirements of the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act). Any optional features within this Act are currently being assessed but have not been implemented to date.
