1. Description of Plan

The following description of Majestic Industry Hills, LLC (the "Company") and Majestic Industry Hills LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The operations and investment of the Plan's assets are directed by the Administrative Committee appointed by the management of Majestic Industry Hills, LLC.

General

The Plan is a defined contribution plan covering all employees of the Company who have six months or more of service and are age eighteen or older, excluding employees covered by Eligible Collective Bargaining Agreements and non-resident aliens. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Participants may elect to contribute up to 60% of pre-tax annual compensation up to a maximum of $19,000 for the year ended December 31, 2019. Participants' salary contributions may be discontinued at any time and may be otherwise modified at the beginning of each calendar quarter. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to $6,000.

Participants direct the investment of their contributions into various investment options offered by the Plan.

Participants may transfer to the Plan, a distribution amount that qualifies as a tax-exempt rollover under Internal Revenue Code Section 402(c) from another qualified plan.

For the year ended December 31, 2019, the amount of contributions that the Company elected to make was 100% of the first 4% of elective contributions. The matching Company contribution is invested at the direction of the Plan's participants into various investment options offered by the Plan. For the year ended December 31, 2019, employer matching contributions were $205,143.

Additional contribution amounts may be contributed at the option of the Company on a discretionary basis on behalf of all eligible employees. The contributions are credited to the Non-Matching Contribution Account. No discretionary amounts were contributed during the year ended December 31, 2019.

Participant accounts

Participant accounts are established and maintained within each of the investment accounts. Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings. All reasonable expenses incurred by the administrator and the trustee in administering the Plan may be paid from the forfeitures (if any), or from the remaining trust fund. All such costs and expenses paid from the trust fund shall, unless allocable to the accounts of particular participants, be charged against the accounts of all participants on a pro rata basis or in such other reasonable manner as may be directed by the Company and accepted by the trustee. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (continued)

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant becomes 100% vested in the employer portion of their accounts after five years of service, attainment of age 65, or upon death or permanent disability. Participants separating from the Plan for any other reason are vested according to years of service.

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum equal to the lesser of $50,000, or 50% of the present value of the vested interest of their account. The maximum loan term is five years unless the loan is used by the participant to purchase their primary residence, in which case the term of the loan will not extend beyond 10 years. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate of interest based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Principal and interest is paid ratably through semi-monthly payroll deductions.

Payment of benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or approximately equal monthly, quarterly, semi-annual or annual installments over a period not exceeding the life expectancy of the participant or the joint life and last survivor expectancy of the participant and his or her designated beneficiary. For termination of service due to other reasons, a participant must receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan also allows for payment of benefits in the event of certain participant hardship events.

Forfeited accounts

For the years ending December 31, 2019 and 2018, non-vested accounts were forfeited in the amount of $14 and $1,669, respectively.

2. Summary of Significant Accounting Policies

Accounting policies

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

2. Summary of Significant Accounting Policies (continued)

Investment valuation and income recognition (continued)

The Plan's mutual funds are presented at fair value determined daily by the trustee, on the basis of the last reported sales price quotations from national securities exchanges.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses have been recorded as of December 31, 2019 or 2018.

Expenses

Annual recordkeeping and administrative fees are paid for by the Plan's sponsor in accordance with the Plan's provisions. Loan administration and setup fees are paid for by individual participants.

Payment of benefits

Benefits are recorded when paid.

Subsequent events

The management of the Plan has reviewed the results of operations for the period of time from the period ending December 31, 2019 through October 9, 2020 the date the financial statements were available to be issued, and have determined that no adjustments are necessary to the amounts reported in the financial statements nor have any subsequent events occurred, the nature of which would require disclosure.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation method include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

3. Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contract: Guaranteed investment contracts (GIC) are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see note 5). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018.

Ending balance	$ 1,253,518	$ 1,364,646

4. Guaranteed Investment Contract with Transamerica Life Insurance Company

In 2006, the Plan entered into a fully benefit-responsive guaranteed investment contract with Transamerica Life Insurance Company (Transamerica). Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2019 and 2018, was $1,253,518 and $1,364,646, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 4 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

4. Guaranteed Investment Contract with Transamerica Life Insurance Company (continued)

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to scheduled maturity date.

The average yields earned by the guaranteed investment contract for the years ending December 31, 2019 and 2018 were 1.5% and 1.5%, respectively. These contracts guarantee a minimum 4% annual return by the end of the contract period.

5. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Transamerica Life Insurance Company. Transamerica Life Insurance is the trustee as defined by the Plan, therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants are also party-in-interest transactions.

6. Plan Terminations

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to accounts of participants shall become nonforfeitable and, after payment of expenses, shall be vested in full and paid or credited to each participant in accordance with the plan agreement.

7. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated April 14, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or the United States Department of Labor. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years ending prior to 2016 and 2013 by the Internal Revenue Service and the United States Department of Labor, respectively.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in risks in the near term would materially affect participant account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

9. Reconciliation of Financial Statements to Schedule H of Form 5500

At December 31, 2019 and 2018, there were no reconciling items between the net assets available for benefits, per the financial statements, to Schedule H of Form 5500.

For the year ended December 31, 2019, there were no reconciling items between the net decrease in net assets available for benefits, per the financial statements, to Schedule H of Form 5500.

10. Certified Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2019 and 2018, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2019, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Transamerica Financial Life Insurance Company, Inc.

11. COVID-19 Pandemic

The World Health Organization (WHO) officially declared on March 11, 2020, a global health crisis resulting from COVID-19 as a pandemic. This WHO declaration as well as various governmental responses to this pandemic, have resulted in a significant decrease in economic and business activity. Various governmental bodies have implemented preventative measures that have also significantly impacted daily social and economic activities. The Administrative Committee has evaluated the current situation and the overall impact of the pandemic and believes, as of the issuance date of these financial statements, that there are no impairments to assets, Plan investments, or other adverse effects that would require adjustments to the financial statements or disclosures as of December 31, 2019. The events surrounding this pandemic are still developing and the conclusion and totality of resulting adverse economic impacts to the Plan are currently unknown. The Administrative Committee continues to evaluate and monitor the events and impacts of the COVID-19 pandemic.
