Note 1 - Plan Description

The following description of National Church Residences 3-4-5 Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan available to substantially all employees of National Church Residences (the "Company") who have completed over one year of service, worked at least 1,000 hours, and have attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Company is required to contribute an amount equal to 3 percent of each participant's compensation each pay period for all participants with at least one year of service but fewer than five years of service, 4 percent of each participant's compensation each pay period for all participants with at least five years of service but fewer than 10 years of service, and 5 percent of each participant's compensation each pay period for all participants with at least 10 years of service.

In addition, the Company is required to contribute a matching contribution equal to 100 percent of the participants' contributions to a separate defined contribution savings plan sponsored by the Company. The Company's contribution is limited to 3 percent of total compensation each pay period for all participants with at least one year of service but fewer than five years of service, 4 percent of compensation for each pay period for all participants with at least five years of service but fewer than 10 years of service, and 5 percent of compensation for each pay period for all participants with at least 10 years of service.

Participants are not eligible to contribute to the Plan, with the exception of rollover contributions.

Participant Accounts

The allocation of the Company's basic contribution is based on compensation. Company matching contributions are allocated based on each participant's deferral to a separate defined contribution savings plan sponsored by the Company. Allocation of earnings and expenses is based on participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting

Vesting in the Company's contribution and related earnings is based on years of service and accumulates 25 percent per year after two years of service. A participant is fully vested in the basic and matching contributions after five years of credited service.

Participant Notes Receivable

The Plan allows participants to borrow money from the Plan in amounts not to exceed one-half of the participant's vested account balance. The initial notes must be for at least \$1,000 with a maximum of \$50,000, as determined by the Internal Revenue Service (IRS).

Benefit Payments

Upon termination of employment, retirement, death, or disability, the participant or, in the case of death, the surviving spouse can elect to receive the participant's vested account balance in a single lump sum or in various installment annuities.

December 31, 2019 and 2018

Note 1 - Plan Description (Continued)

Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan agreement. The Company must approve any such hardship withdrawals.

Forfeitures

Upon termination of employment, a participant's nonvested portion of company contributions and related earnings is forfeited. These amounts are used to reduce future company contributions or to defray administrative expenses of the Plan. The Plan held \$66,264 and \$1,760 in unused forfeitures as of December 31, 2019 and 2018, respectively. The Plan used approximately \$45,000 during 2019 to reduce employer contributions.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions

Certain plan assets are in investment funds managed by Fidelity Management Trust Company (Fidelity) and Lincoln Financial Group Trust Company, Inc. (Lincoln) or its affiliates. Fidelity and Lincoln are the trustees of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation

Investments held by the Plan are stated at fair value except as noted below. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fully benefit-responsive unallocated investment contract is valued at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The common collective trust funds are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments. All other investments are valued based on quoted market prices reported in active markets. See Note 6 for additional information.

Administrative Expenses

Fees for administrative services provided by the trustees are deducted directly from each participant's plan assets. Other administrative expenses are borne by the Company, including external legal and accounting services. In addition, the Company provides internal accounting and administrative services to the Plan at no charge.

Benefit Payments

Benefits are recorded when paid.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

December 31, 2019 and 2018

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures at the date of the financial statements and during the reporting period. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 2, 2020, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

During June 2019, the Plan changed its trustee from Fidelity Management Trust Company to Lincoln Financial Group Trust Company, Inc. and Oriental Bank (collectively, the "Trustees"). The Trustees held the Plan's investments and participant notes receivable and executed all related transactions during the periods under audit. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Trustees.

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 5 - Unallocated Investment Contract

The Plan has a benefit-responsive investment contract with Lincoln National Life Insurance Company (LNLIC). LNLIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The contract interest rates are reviewed on a quarterly basis for resetting. When establishing interest crediting rates for these products, Lincoln consider many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within its general accounts. The minimum crediting rate under the contract is 1.70 percent.

Note 5 - Unallocated Investment Contract (Continued)

Certain events limit the ability of the Plan to transact at contract value with the insurance company. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provision, (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes that the occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants, is not probable. There are no events that allow the issuer to terminate the contract and that require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2019 and 2018:
