1. DESCRIPTION OF THE PLAN

The following brief description of the Weitz & Luxenberg Employee Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan covering all employees of Weitz & Luxenberg, P.C. (the "Company"). The Plan was established January 1, 1992, and most recently amended on January 1, 2016 (see Note 4). Employees become eligible to participate in the Plan upon completing two months of service and attaining the age of 21. Employees are eligible to enter the Plan and begin making salary reduction contributions on the first calendar quarter after meeting the eligibility requirements. Employees become eligible to receive Company discretionary profit sharing and supplemental contributions upon completion of one year of service and attaining the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Employee Contributions

Participants may elect to make contributions to the Plan on a pre-tax basis. These pre-tax contributions are known as 401(k) contributions. Participants may elect to defer up to 75% of their compensation on a pre-tax basis. Federal law also limits the amount a participant may elect to defer under this Plan and any other retirement plan permitting 401(k) contributions during any calendar year ($19,000 in 2019). However, if age 50 or over, a participant may defer an additional amount, called a "catch-up contribution", of up to $6,000 (in 2019). The Internal Revenue Code may further restrict 401(k) contribution elections by "highly compensated" participants.

Employer Contributions

The Company may make discretionary profit sharing and supplemental contributions as determined by the Company.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and investment earnings and charged with investment losses and transaction fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in the value of their contributions plus actual earnings thereon. Company contributions are subject to vesting provisions as follows:

Years of Service	% Vested
Less than 2 years	-0-
2 years	20
3 years	40
4 years	60
5 years	80
6 years	100

Payment of Benefits

Upon termination of employment, retirement, death, or disability, a participant or their beneficiary, in the event of death, is entitled to distribution of their vested account balance. A participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or equal monthly, quarterly, semi-annual, or annual installments over a period not to exceed the lifetime of the participant or the participant's beneficiary. However, if the value of a participant's vested interest is $5,000 or less, a lump-sum distribution will be made to the participant or his or her beneficiary. During service, participants may withdraw amounts from their salary reduction accounts to satisfy an immediate and heavy financial need, upon provision of proof to the satisfaction of the Plan administrator. Certain income tax penalties may apply to distributions taken prior to age 59 1/2. Distributions are subject to the applicable provisions of the Plan agreement. Benefit claims are recorded as expenses when they have been approved for payment and paid by the Plan.

Notes Receivable from Participants

Participants may borrow up to the lesser of $50,000 or 50% of the participant's vested account balance. The minimum loan amount is $1,000. Loans are collateralized by the participant's vested account balance and are accounted for as a specific investment of the borrowing participant's account. Loan repayments are made at least quarterly with interest based on interest rates comparable to those offered by financial institutions. Loans for reasons other than the purchase of a primary residence are to be repaid within five years. Loans are reported at their unpaid principal balances plus any accrued but unpaid interest.

Forfeitures

Forfeitures of unvested Company contributions may be applied to reduce future Company contributions or to pay administrative expenses of the Plan. For the year ended December 31, 2019, no forfeitures were used to reduce future Company contributions or to pay administrative expenses.

Administrative Expenses

At the election of the Company, expenses incurred in the administration of the Plan may be paid by the Company or by using assets of the Plan. For the year ended December 31, 2019, the Company paid a significant portion of administrative fees.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. For the year ended December 31, 2019, the interest rate on outstanding loans ranged from 4.25% to 6.50%.

Risks and Uncertainties

The Plan provides for investments in financial instruments that, in general, are exposed to risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities may occur and materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates.

3. PARTY-IN-INTEREST TRANSACTIONS

Certain of the Plan's investments are sponsored and managed by Voya Retirement Insurance and Annuity Company ("Voya") and AXA Equitable ("AXA"), the custodians for the Plan. The Plan loans funds to its participants according to the applicable provisions of the Plan agreement. The Company provides the Plan with certain accounting and administrative services for which no fees are charged. All such transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

4. TAX STATUS

The Company adopted a prototype plan that is qualified under an opinion letter dated March 31, 2014 received by the Plan administrator. The Plan was amended effective January 1, 2016 to, among other things, clarify the Plan administrator's authority to amend the Plan on behalf of the Company. Although the Plan has been amended since receiving the opinion letter, in the opinion of the Plan administrator, the Plan and its underlying trust have operated within the terms of the Plan and remain qualified under the applicable provisions of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2019 and 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. In addition, there are no tax related interest or penalties for the periods presented in these financial statements.

5. INVESTMENTS AND INFORMATION PREPARED AND CERTIFIED BY CUSTODIANS (UNAUDITED)

No auditing procedures were performed by the independent public accountants as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA with respect to information certified as complete and accurate by the custodians. Based on information provided and certified by the custodians, there are no fixed income obligations, leases, or debt instruments in default or deemed uncollectible, as defined by ERISA, as of December 31, 2019 and 2018.

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the custodian.

	2019	2018
Investments		
Group annuity contract - general account	$ 2,260,701	$ 2,075,094
Pooled separate accounts	28,019,275	22,166,348
Notes receivable from participants	$ 346,587	$ 425,603
Investment income		
Net appreciation in fair value of investments	$ 5,132,611	
Interest and dividends	$ 67,507	
Interest on notes receivable from participants	$ 21,079	

The Plan entered into benefit-responsive investment contracts with Voya and AXA. Contributions are maintained in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by the custodian.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributed to the guaranteed investment contract. Contract value, as reported to the Plan by the custodian represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the Plan's ability to transact at contract value. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-off of a subsidiary) that causes significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit termination of the agreement prior to the scheduled maturity date. The crediting interest rate is based on a formula agreed upon with the issuer but may not be less than 1%. Such interest rates are subject to change at any time. At December 31, 2019, the crediting interest rate was 1.75%.

There are no reserves against contract value for credit risk of the contract issuers or otherwise.

6. FAIR VALUE MEASUREMENTS

Accounting principles generally accepted in the United States of America define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value should be based on assumptions that market participants would use, including a consideration of non-performance risk.

In determining fair value, various valuation techniques are utilized, and observable inputs are prioritized. The availability of observable inputs varies from instrument to instrument and depends on a variety of factors including the type of instrument, whether the instrument is actively traded, and other characteristics particular to the transaction. For many financial instruments, pricing inputs are readily observable in the market, the valuation methodology used is widely accepted by market participants, and the valuation does not require significant management discretion. For other financial instruments, pricing inputs are less observable in the marketplace and may require management judgment.

The following is a description of the valuation methodologies used for the Plan's assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Pooled Separate Accounts
Units held in group annuity contracts - pooled separate accounts are valued on the net asset value of the shares held by the Plan at year-end, which is based on the unit prices quoted by the fund, representing the fair value of the underlying investments.

Pooled separate accounts use net asset value as a practical expedient to estimate fair value and are excluded from the fair value hierarchy.

There are no unfunded commitments on any of these funds, and there are no restrictions on redemptions.

The Plan administrator discusses and assesses fair value measurements with internally responsible personnel as well as with the Plan custodian and independent investment advisor, including pricing models and broker.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Gains and losses (realized and unrealized) included in the statement of changes in net assets available for benefits for the year ended December 31, 2019 are reported in net appreciation in fair value of investments.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants' accounts will become 100% vested in their account balances.

8. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 7, 2020, the date the financial statements were available to be issued. Based on that evaluation, the Plan has determined that, except for the following, no subsequent events have occurred that require adjustment to or disclosure in the financial statements.

In September 2020, the Company paid the employer contribution receivable amount of $237,494.

The 2019 novel coronavirus (or "COVID-19") has adversely affected, and may continue to adversely affect economic activity globally, nationally and locally. Following the COVID-19 outbreak in March 2020, the financial markets have experienced significant volatility, therefore affecting the values of investment securities. These economic and market conditions and other effects of the COVID-19 outbreak may continue to cause volatility. The extent of any adverse impact of the COVID-19 outbreak on the Plan's participants' account balances and the amounts reported in the 2019 Statement of Net Assets Available for Benefits cannot be predicted at this time.
