Notes to Financial Statements

December 31, 2019 and 2018

Note 1. Description of the Plan

The following description of the Four Rivers Nuclear Partnership Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Four Rivers Nuclear Partnership, LLC (the "Company" or "Plan Sponsor"). The Plan was formed in 2014, with an effective date of October 1, 2014 by Fluor Federal Services, Inc., the former plan sponsor, under the direction, and subject to the approval of the U.S. Department of Energy ("DOE"), in connection with a service contract between Fluor Federal Services, Inc and the DOE. The term of the service contract ended in October 2017. At the termination of the contract, the Plan was assumed by Four Rivers Nuclear Partnership, LLC, the Plan Sponsor.

The Plan covers all employees of the Company who are working for the Four Rivers Nuclear Partnership, LLC Paducah Deactivation Project (Contract No. DEEM0004895) and are not otherwise eligible to participate in any other employee benefit plan that offers the same or similar benefits sponsored or maintained by another member of the same controlled group of corporations of which the Company is a member (determined within the meaning of section 1563(a) of the Code). Employees covered under a collective bargaining agreement may participate in the Plan to the extent permitted in the collective bargaining agreement. There are no age requirements or service period requirements to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The trustee of the Plan is Reliance Trust Company (the "trustee") and the Plan's third party administrator is ADP Retirement Services.

Plan amendments

In January 2019, the Plan was amended to allow for prior service credit for participants of contractors (active or deferred vested) as of October 20, 2017 to be counted in the Plan for vesting and eligibility purposes.

Transfer of Plan Assets

In December 2019, the Company transferred VNS Federal Services, LLC employees' participant accounts and loans from their original 401(k) accounts into the Plan.

Note 1. Description of the Plan, Continued

Contributions

Each year, participants may contribute up to 60 percent of pretax annual compensation, as defined in the Plan. Participants who have attained the age of 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 100 percent of the first 3 percent of eligible compensation that a participant contributes to the Plan, plus 50 percent of participant contributions between 3 and 5 percent. Additional profit sharing amounts may be contributed at the option of the Company's management. During the year ended December 31, 2019, the Company made \$3,763,625 in matching and nonelective profit sharing contributions to the Plan. The Company's contributions for participants covered under a collective bargaining agreement are subject to terms outlined in the respective collective bargaining agreement. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant accounts

Each participant's account is credited with the participant's contributions, Company matching, nonelective profit sharing contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and Company matching contributions plus actual earnings thereon. Vesting in the Company's nonelective profit sharing contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested in nonelective profit sharing contributions at the end of 2 years of credited service. Years of service with other employers defined by the Plan are recognized in credited service for determining vesting.

Notes receivable from participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined at the origination of each loan, is 1 percent above prime rate, as defined. Principal and interest is paid ratably through payroll deductions.

Note 1. Description of the Plan, Continued

Payment of benefits

On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump sum amount or other installment options as provided by the Plan. Hardship distributions are permitted upon demonstration of financial hardship. All fully vested balances are available for distribution after the participant reaches the age of 59½.

Forfeited accounts

At December 31, 2019 and 2018, forfeited nonvested accounts totaled \$118,194 and \$31,998, respectively. These accounts will be used by the Plan to reduce future employer contributions. Also in 2019, employer contributions were not reduced from forfeited nonvested accounts.

Note 2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

December 31, 2019 and 2018

Note 2. Summary of Significant Accounting Policies, Continued

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and other distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through September 29, 2020, the date that the financial statements were available to be issued.

Recently issued accounting pronouncements

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact of this new standard on its financial statements. The adoption of ASU 2018-13 is not expected to have a material impact on the financial statements.

Note 3. Trustee Certifications

The following is a summary of the Plan's asset information as of December 31, 2019 and 2018, and for the year ended December 31, 2019, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that the information provided to the plan administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	<u>2019</u>	<u>2018</u>
Investments at fair value:		
Collective trust funds	\$ 1,967,854	\$ 1,061,227
Mutual funds	33,821,569	21,681,915
Stable value funds	<u>819,708</u>	<u>892,587</u>
	36,609,131	23,635,729
Notes receivable from participants	<u>1,012,198</u>	<u>822,047</u>
	<u>\$ 37,621,329</u>	<u>\$ 24,457,776</u>

The trustee also certified the completeness and accuracy of \$4,332,102 of net appreciation in fair value of investments and \$1,307,213 of interest and dividends and \$49,440 of interest income on notes receivable from participants for the year ended December 31, 2019.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Four Rivers Nuclear Partnership Retirement Plan

Notes to Financial Statements

December 31, 2019 and 2018

Note 4. Fair Value Measurements, Continued

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly, such as;

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 4. Fair Value Measurements, Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Collective trust funds:

Net asset value (NAV), as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount differing from the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of a collective trust fund, the investment adviser reserves the right to temporarily delay the withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Mutual funds:

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value funds:

Net asset value (NAV), as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount differing from the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of a stable value fund, the investment adviser reserves the right to temporarily delay the withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

2019			
	Level 1	Level 2	Level 3
Mutual funds	\$ 33,821,569	\$ -	\$ -
Investments measured at NAV (a)			2,787,562
Investments at fair value			\$ 36,609,131

Note 4. Fair Value Measurements, Continued

	2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 21,681,915	\$ -	\$ -	\$ 21,681,915
Investments measured at NAV (a)				1,953,814
Investments at fair value				\$ 23,635,729

- (a) Certain investments that were measured at net asset value per share or its equivalent have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the items presented in the statements of net assets available for benefits.

The following tables set forth a summary of the Plan's investments reported at NAV as a practical expedient to estimate fair value.

Investment	2019			
	Fair value	Unfunded commitment	Redemption frequency	Redemption notice period
Collective trust funds	\$ 1,967,854	\$ -	Daily	15 Days
Stable value funds	819,708	-	Daily	24 Months
	\$ 2,787,562	\$ -		

Investment	2018

Collective trust funds	\$ 1,061,227	\$ -	Daily	15 Days
Stable value funds	892,587	-	Daily	12 Months
	\$ 1,953,814	\$ -		

Note 5. Related-party and Party in Interest Transactions

Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to the third party administrator totaling \$73,889 which were not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

Four Rivers Nuclear Partnership Retirement Plan

Notes to Financial Statements

December 31, 2019 and 2018

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer nonelective profit sharing contributions.

Note 7. Tax Status

The Company has adopted the Plan based on a prototype plan document sponsored by ADP Retirement Services. ADP Retirement Services has received an opinion letter from the IRS dated July 16, 2014, that states that the form of the prototype plan is acceptable under Section 401 of the Internal Revenue Code (IRC). The plan administrator and the Plan's tax counsel believe the Plan is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2019 statement of net assets available for benefits.

Note 9. Subsequent Events

The 2019 novel coronavirus (or "COVID-19") has adversely affected, and may continue to adversely affect economic activity globally, nationally and locally. It is unknown the extent to which COVID-19 may spread, may have a destabilizing effect on financial and economic activity and may increasingly have the potential to negatively impact the Company's and its customers' costs, demand for the Company's products and services, and the U.S. economy. These conditions could adversely affect the Company's business, financial condition, and results of operations. Further, COVID-19 may result in health or other government authorities requiring the closure of the Company's operations or other businesses of the Company's customers and suppliers, which could significantly disrupt the Company's operations and the operations of the Company's customers. The extent of the adverse impact of the COVID-19 outbreak on the Company and the Plan cannot be predicted at this time.
