NOTE A - DESCRIPTION OF THE PLAN

General

The Vizient, Inc. 401(k) Savings Plan (the "Plan") is a voluntary defined contribution plan adopted by Vizient, Inc. ("Vizient" or the "Company" or "Employer"). In August 2018, the Company acquired PurNet, Inc. ("PurNet") and in September 2018 acquired Inventory Optimization Solutions ("IOS"). These plans were merged into the Plan effective December 31, 2018. Transfers totaling $2,245,105 were completed in January 2019. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The administrative committee is responsible for the oversight of the Plan. The investment committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the administrative committee. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Eligibility

Full-time or part-time employees of the Company who have attained the age of eighteen are eligible to participate in the Plan upon employment.

Contributions

Participants may contribute up to 100% of eligible salary on either a pre-tax or after-tax basis, provided they are non-highly compensated employees, as defined. Highly compensated employees, as defined, may only contribute up to 10% of eligible salary on a pre-tax or after-tax basis. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Employers' matching contribution is equal to 50% of a participant's contribution up to 10% of eligible salary. Total employee pre-tax contributions were limited to $19,000 in 2019. New hires are automatically enrolled at a contribution of 5% of eligible salary unless they opt out of the Plan. Participants can change their deferral election at any time.

The Plan also offers catch-up pre-tax contributions up to an annual maximum of $6,000 for 2019 for participants who attain age 50 during the Plan year or are older than age 50. No Employer matching contribution will be made with respect to catch-up contributions.

Investment Options

Participants may elect to allocate their account balances in whole percentage points among various investment options.

Participant Accounts and Vesting

Participant accounts are credited with the participants' contributions, the Employer's matching contributions, and allocations of earnings and losses attributed thereto and charged with an allocation of administrative expenses. Allocations of earnings and losses and administrative expenses are based on participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Participants are immediately vested in their voluntary contributions and related earnings and losses. Vesting in the Employer's matching contributions and related earnings and losses occurs at the rate of 20% per year of service. The forfeited non-vested portion of the Employer's contributions and related earnings of terminated employees is used to reduce

NOTE A - DESCRIPTION OF THE PLAN - CONTINUED

future Employer matching contributions and to pay other fees in accordance with the Plan document. The Employer used forfeitures of $589,396 to reduce Employer's matching contributions in 2019. At December 31, 2019 and 2018, forfeited, non-vested accounts totaled $478,698 and $213,857, respectively.

Benefits

Upon termination of employment, death, disability, or retirement, a participant or designated beneficiary may elect to receive the vested portion of his or her account as a lump sum as soon as practical. If a participant's account is $1,000 or less, the balance of such account will automatically be distributed in a lump-sum amount upon meeting one of the conditions above. In-service distributions are available at the age of 59½ or in the event of financial hardship, subject to certain restrictions. Terminated vested employees at the age of 70 ½ must start Required Minimum Distributions ("RMD's"), as defined, from the Plan.

Notes Receivable from Participants

A participant may borrow a minimum of $1,000, up to a maximum of $50,000 at an interest rate equal to the Prime rate plus 2%. A participant may have only one loan outstanding at any time except such loans rolled over in 2015 from the University Health System Consortium consolidated retirement program. Loan terms range from up to five years for a standard loan or up to ten years for the purchase of a primary residence. Principal and interest are paid ratably through payroll deductions or can be made directly from the participant's bank.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend, modify, suspend, or terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts. Any such action does not deprive any participant of any vested rights or result in the funds held in trust being used for purposes other than provided by the Plan. No part of the assets of the Plan may be used for, or diverted to, any purpose other than the exclusive benefit of all participants at any time prior to satisfaction of all liabilities with respect to such participants.

Administration

Vanguard Fiduciary Trust Company ("Vanguard") is the trustee and recordkeeper of the Plan.

The administrative expenses are paid by the Plan unless paid by the Company. Investment advisory fees for portfolio management are paid directly from fund earnings; they are included in mutual fund expense ratios which are included in net appreciation in fair value of investments. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plans' Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date, and interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Collective Trust

The Vanguard Retirement Savings Trust includes security-backed investment contracts including synthetic investment contracts ("SICs"), guaranteed investment contracts ("GICs") and cash equivalents. These contracts are composed of underlying assets and a wrapper contract issued by a responsible third party. The issuer of the wrapper contract provides for withdrawals at contract value for any normal benefit responsive requirements. Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events include termination of the Plan, a material adverse change to the provisions of the Plan, or the Employer elects to withdraw from a wrapper contract. The Plan's management is not aware of the occurrence or likely occurrence of any such events, which would limit the Plan's ability to transact at contract value with the contract issuer and that also would limit the Plan's ability to transact at contract value with participants.

These investment contracts may have elements of risk due to the lack of a secondary market and resale restrictions which may result in the inability of the guaranteed investment contracts to be sold at a fair price and may substantially delay the sale of these contracts.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 or 2018. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES - Continued

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Benefit Payments

Benefit payments to participants under the Plan are recorded when paid.

NOTE C - INFORMATION CERTIFIED BY THE TRUSTEE

All information related to investments and notes receivable from participants disclosed in the accompanying financial statements, notes, and supplemental schedule, including investments held and notes receivable from participants at December 31, 2019 and 2018, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2019, was obtained or derived from information supplied to the Plan's administrator and certified as complete and accurate by Vanguard, the trustee of the Plan. Accordingly, at the request of the Plan administrator, the Plan's independent certified public accountants performed no audit procedures on the certified information other than to agree the Plan's related financial statements and supplemental schedule to the certified information.

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator has obtained a certification from the trustee of the Plan that all of the information provided is complete and accurate. Information in the accompanying financial statements, supplemental schedule and the information reported in this Note is presented in sole reliance upon that certification.

NOTE D - FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. Accounting guidelines specify a hierarchy of valuation classification based on whether the inputs to the valuation techniques used in each valuation classification are observable or unobservable.

These classifications are summarized in the three broad levels listed below:

- Level 1 - Quoted prices for identical instruments in active markets
- Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets
- Level 3 - Valuations derived from valuation techniques in which significant inputs or significant value drivers are unobservable.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

These levels are not necessarily an indication of the risk or liquidity associated with the investments. In determining the appropriate levels, management performed a detailed analysis of the assets measured at fair value. The determination of where an asset falls in the hierarchy requires significant judgment, resulting in transfers between levels. The Plan evaluates its hierarchy disclosures periodically and based on various factors, it is possible that an asset may be classified differently from period to period. The following is a description of the valuation methodologies used for the Plan's investments measured at fair value and the general classification of such investments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2019 and 2018.

NOTE D - FAIR VALUE MEASUREMENTS- CONTINUED

Mutual Funds: The fair values of mutual funds are based on their quoted market prices and net asset values and are classified within Level 1 of the fair value hierarchy. There are no redemption restrictions on any of the Plan's investments. Mutual funds are traded in an active market.

Collective Trust Funds: The collective trust fund is valued at net asset value ("NAV"). The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The trust may surrender units for withdrawal provided a written request is delivered to the trustee twelve months prior to valuation date or the withdrawal is solely for purposes of funding a distribution or loan payment. An employee directed investment exchange is allowed provided that such assets remain in the investment for a minimum of ninety days following such exchange. There are no unfunded commitments of the collective trust funds.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with Accounting Standard Update ("ASU") 2015-07, certain investments that are measured at fair value using the net asset value per share practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented below are intended to permit reconciliation of the fair value hierarchy to the amounts presented on the statements of net assets available for benefits.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Fair Value Measurements at December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 219,070,677	$ -	$ -	$ 219,070,677

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 546,335,802	$ -	$ -	$ 546,335,802

Total	$ 546,335,802	$ -	$ -	$ 575,865,580

NOTE E - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments in the mutual funds and collective trust fund are managed by Vanguard; therefore, these transactions qualify as party-in-interest transactions. In addition, notes receivable from Plan participants are considered party-in-interest transactions. Certain fees paid to the Plan trustee and recordkeeper for investment management services are incorporated into the expense ratios of the individual mutual funds and paid directly from fund earnings; therefore, these transactions qualify as party-in-interest transactions. All of these party-in-interest transactions are exempt from prohibited transaction rules.

NOTE F - INCOME TAX STATUS

The Plan received a favorable determination letter from the Internal Revenue Service ("IRS") on January 22, 2013 stating that the Plan, and related trust, is designed in accordance with applicable sections of the Internal Revenue Code (the "Code"). Although the Plan has been amended since the date of the letter, the Plan's administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Code and therefore, the Plan and related trust are exempt from taxation.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

NOTE G - SUBSEQUENT EVENTS

The Plan evaluated subsequent events through October 13, 2020, the date these financial statements were available to be issued.

In December 2019, a novel strain of coronavirus (SARS-CoV-2), which causes COVID-19, was reported to have surfaced in China. The spread of this virus has caused business disruption beginning in January 2020, which has impacted the global business community and their ability to maintain production and related headcounts. In March 2020, the World Health Organization declared the outbreak of COVID-19 to be a pandemic, and the U.S. economy began to experience pronounced effects including employee layoffs and declines in production. While the disruption is currently expected to be temporary, there is uncertainty around the extend and duration. Therefore, while the Company expects this matter to have an impact on its investments values and potential decrease in participant contributions, the related financial impact cannot be reasonably estimated at this time. The financial statements do not include adjustments to fair value that have resulted from these declines.

On March 27, 2020, Congress signed the Coronavirus Aid, Relief, and Economic Security Act, also known as the CARES Act. The CARES Act took immediate effect and contains several provisions that temporarily impact 401(k) plans, including a new hardship withdrawal option and a loan payment deferral option. Management has implemented these Plan changes related to the CARES Act.
