Note 1 - Plan Description

The following description of Fairfield Medical Center 403(b) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees, except those who are a part of a collective bargaining agreement, of Fairfield Medical Center (the "Center"), excluding certain nonresident aliens who have earned income from sources within the United States. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

As discussed in Note 6, the Center approved termination of the Plan effective October 31, 2019. The descriptions below are provisions of the Plan prior to termination.

Contributions

The Plan provides for employee pretax deferral contributions subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

On July 11, 2018, the Center amended the plan document to freeze the Plan for all contributions effective January 1, 2019.

Participant Accounts

Each participant's account is credited with the participant's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Participant Notes Receivable

Participants may borrow from their accounts subject to certain maximum and minimum amounts, as prescribed in the Plan and in the Internal Revenue Code. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate. There were no outstanding participant notes receivable at December 31, 2019 and 2018.

Vesting

Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon.

Benefit Payments

On termination of service due to death, disability, or retirement, the only form of payment is a lump-sum amount equal to the value of the participant's vested interest in his or her account. The normal retirement age for the Plan is 59½.

Termination

The Center has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. As discussed in Note 6, the Center approved termination of the Plan effective October 31, 2019.

December 31, 2019 and 2018

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

As discussed in Note 6 to the financial statements, the Center approved termination of the Plan effective October 31, 2019. As a result, the plan sponsor determined that liquidation was imminent on this date. Therefore, the Plan changed its basis of accounting for periods subsequent to December 31, 2018 from the going concern basis to the liquidation basis.

Under the liquidation basis of accounting, assets are measured to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process, and liabilities are measured using the accrual basis of accounting and would include any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process.

Investment Valuation

The Plan's investments are stated at fair value. Mutual funds are stated at fair value based on quoted market prices. See Note 5 for additional information.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Administrative Expenses

Various administrative costs are paid by the Center.

Benefit Payments

Benefits are recorded when paid.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 22, 2020, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Matrix Trust Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year in liquidation are based solely on information certified by the Trustee.

December 31, 2019 and 2018

Note 4 - Tax Status

The Internal Revenue Service (IRS) is not currently accepting applications for individual 403(b) plan determination letters. The plan administrator has indicated the Plan will apply for a determination letter when the IRS allows such applications to be made. The plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of Internal Revenue Code Section 403(b). Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

As of December 31, 2019 and 2018, the Plan's assets consisted of mutual funds totaling \$21,419 and \$6,755,301, respectively, which were classified as Level 1 inputs on the fair value hierarchy.

Note 6 - Termination - Liquidation Basis

The plan sponsor elected to terminate the Plan effective October 31, 2019. As a result, the Plan adopted the liquidation basis of accounting for periods subsequent to December 31, 2018. Under the liquidation basis of accounting, assets are recorded at the amount expected to be collected, and liabilities are recorded at amounts expected to be paid during the course of liquidation. There were no liabilities recognized as a result of the termination.

Liquidation of assets through distributions to participants with account balances began during 2019 and was completed on February 3, 2020.

Note 1 - Plan Description

The following description of Fairfield Medical Center 403(b) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees, except those who are a part of a collective bargaining agreement, of Fairfield Medical Center (the "Center"), excluding certain nonresident aliens who have earned income from sources within the United States. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

As discussed in Note 6, the Center approved termination of the Plan effective October 31, 2019. The descriptions below are provisions of the Plan prior to termination.

Contributions

The Plan provides for employee pretax deferral contributions subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

On July 11, 2018, the Center amended the plan document to freeze the Plan for all contributions effective January 1, 2019.

Participant Accounts

Each participant's account is credited with the participant's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Participant Notes Receivable

Participants may borrow from their accounts subject to certain maximum and minimum amounts, as prescribed in the Plan and in the Internal Revenue Code. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate. There were no outstanding participant notes receivable at December 31, 2019 and 2018.

Vesting

Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon.

Benefit Payments

On termination of service due to death, disability, or retirement, the only form of payment is a lump-sum amount equal to the value of the participant's vested interest in his or her account. The normal retirement age for the Plan is 59½.

Termination

The Center has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. As discussed in Note 6, the Center approved termination of the Plan effective October 31, 2019.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

As discussed in Note 6 to the financial statements, the Center approved termination of the Plan effective October 31, 2019. As a result, the plan sponsor determined that liquidation was imminent on this date. Therefore, the Plan changed its basis of accounting for periods subsequent to December 31, 2018 from the going concern basis to the liquidation basis.

Under the liquidation basis of accounting, assets are measured to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process, and liabilities are measured using the accrual basis of accounting and would include any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process.

Investment Valuation

The Plan's investments are stated at fair value. Mutual funds are stated at fair value based on quoted market prices. See Note 5 for additional information.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Administrative Expenses

Various administrative costs are paid by the Center.

Benefit Payments

Benefits are recorded when paid.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 22, 2020, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Matrix Trust Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year in liquidation are based solely on information certified by the Trustee.

December 31, 2019 and 2018

Note 4 - Tax Status

The Internal Revenue Service (IRS) is not currently accepting applications for individual 403(b) plan determination letters. The plan administrator has indicated the Plan will apply for a determination letter when the IRS allows such applications to be made. The plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of Internal Revenue Code Section 403(b). Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

As of December 31, 2019 and 2018, the Plan's assets consisted of mutual funds totaling \$21,419 and \$6,755,301, respectively, which were classified as Level 1 inputs on the fair value hierarchy.

Note 6 - Termination - Liquidation Basis

The plan sponsor elected to terminate the Plan effective October 31, 2019. As a result, the Plan adopted the liquidation basis of accounting for periods subsequent to December 31, 2018. Under the liquidation basis of accounting, assets are recorded at the amount expected to be collected, and liabilities are recorded at amounts expected to be paid during the course of liquidation. There were no liabilities recognized as a result of the termination.

Liquidation of assets through distributions to participants with account balances began during 2019 and was completed on February 3, 2020.
