1. Description of Plan

The following description of the Safepoint MGA, LLC 401(K) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, established January 1, 2014, and fully amended and restated as of January 1, 2018, for the benefit of the employees of SafePoint MGA, LLC (the Company). The Plan is intended to satisfy all the requirements for a qualified retirement plan under the provisions of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company serves as the Plan's sponsor and administrator. The Plan's Custodian is Voya Retirement Insurance and Annuity Company (Voya) and the third party administrator is Southern Pension Services.

Eligibility

The Plan covers all full-time employees of the Company with the exception of union employees and non-resident aliens. Eligible employees may become a participant and defer a portion of their compensation on the first day of the following month from which the employee completes three months of service.

Contributions

Each year, participants may contribute up to 100% of pretax or after-tax annual compensation, as defined in the Plan, subject to annual limitations as defined by the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make "catch-up" contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company contributes safe harbor nonelective contributions, which are allocated to each eligible participant in an amount equal to 3% of the participant's eligible compensation. The Company may also make discretionary nonelective and matching contributions. The Company made no discretionary contributions for the year ended December 31, 2019. The Company's contribution is invested directly into the investment options selected by the participant. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

1. Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution, Plan earnings, and charged with an allocation of investment expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately fully vested in their contributions, as well as the Company safe harbor contributions, plus actual earnings thereon. Vesting in the Company's discretionary contributions and earnings thereon is based on years of continuous service. Participants become 25% vested for each year of service after attaining 18 years of age, and are 100% vested after 4 years of eligible service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of a participant's vested account balance. The loans are secured by the balance in the participant's account and bear interest of 5.5% to 7.5%. Loan terms range from one to five years or longer for the purchase of a primary residence. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to retirement, death, disability, or termination of employment, a participant may elect to receive a lump-sum cash payment, installment payments (only if the participant is subject to lifetime Required Minimum Distributions), or have assets rolled to another retirement plan. If the total vested account balance is $1,000 or less, the entire vested benefit will be distributed to the participant in a lump sum. If the participant's total vested account balance under the Plan is between $1,000 and $5,000 as of the termination date and instructions to make a distribution are not made, the vested account balance will be rolled over to an Individual Retirement Account (IRA) selected by the Plan Administrator. If the total vested account balance exceeds $5,000, distribution is not required until age 70½ when required distribution rules apply.

Forfeitures

At December 31, 2019 and 2018, forfeited nonvested accounts totaled $401 and $393 *(unaudited)*, respectively. These accounts may be used to reduce employer contributions or pay Plan expenses. In 2019, no forfeitures were used to reduce employer contributions or to pay Plan expenses.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for additional discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded when received. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

No allowance for credit losses has been recorded as of December 31, 2019 or 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

2. Summary of Significant Accounting Policies (continued)

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through September 24, 2020, the date the financial statements were available to be issued. During the period from December 31, 2019 to September 24, 2020, the Plan did not have any material recognizable subsequent events other than those disclosed in Note 9.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

3. Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019.

Cash and cash equivalents: Valued at the closing account balance held by the Plan at year end.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Fixed account: Credited daily with interest which is subject to minimum contractual guarantees.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Preferred stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate fixed income securities: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Exchange traded funds: Valued at the closing price reported on the active market on which the funds are traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	Assets at Fair Value as of December 31, 2019

4. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their entire account.

5. Tax Status

The Plan has adopted a non-standardized form of a prototype plan sponsored by Southern Pension Services. The prototype plan provider has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Information Certified by Custodian

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the Custodian, except for comparing such information certified by the Custodian to information included in the Plan's financial statements and supplemental schedule.

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2019 and 2018, and net appreciation in fair value of investments and interest and dividends for the year ended December 31, 2019, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Voya (the Custodian of the Plan).

8. Related Party Transactions and Party In Interest Transactions

Certain Plan investments are funds managed by Voya. Voya is the Custodian of the Plan and, therefore, these transactions qualify as party in interest transactions. Fees paid by the Plan for investment management and administrative services amounted to $4,442 for the year ended December 31, 2019.

9. Other Matter

In late 2019, a novel strain of coronavirus was reported in Wuhan, Hubei, China. The World Health Organization determined the resulting outbreak of COVID 19, the disease caused by this novel coronavirus, to be a pandemic. The pandemic is disrupting organizations worldwide as national and local governments implement measures intended to slow the spread of COVID 19. The extent of the impact of COVID 19 on the Plan will depend on certain developments outside of the Plan and the Plan Sponsor's control, including the duration and spread of the outbreak; its impact on employees and vendors; and broader economic conditions, all of which are uncertain and cannot be predicted at this time.

9. Other Matter (continued)

On March 27, 2020, the Coronavirus Aid, Relief and Economic Security Act (the CARES Act) was signed into law. The CARES Act brings immediate changes and relief to 401(k) plans. Participants should contact the Plan Sponsor regarding changes to the Plan as a result of the CARES Act.

10. Excess Contributions

After December 31, 2019, it was identified that certain employer contributions were made during 2018 and 2019 in excess of the limits established by the Internal Revenue Code, totaling approximately $23,000. These excess contributions were corrected by the Plan Administrator by moving the excess contributions from each affected participant's account into the Plan's forfeiture account and then applying them to the fiscal year 2020 employer contributions. Therefore, as the contributions remained in the Plan to use as a future offset of employer contributions, no liability for excess contributions payable has been recorded in the accompanying statement of assets available for benefits.
