Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Texas Steel Conversion, Inc. Employees 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018, the related statement of changes in net assets available for benefits for the year ended December 31, 2019, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by American United Life Insurance Company, the asset custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the asset custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the asset custodian as of December 31, 2019 and 2018, and for the year ended December 31, 2019, that the information provided to the plan administrator by the asset custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2019, is required by the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the asset custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Plan Description

The following description of the Texas Steel Conversion, Inc. Employees 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees of Texas Steel Conversion, Inc. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was adopted by the Company on October 1, 1990 and has been amended from time to time. Two officers of the Company serve as trustees of the Plan. American United Life Insurance Company (AUL) serves as the Plan's asset custodian. The Company serves as the plan administrator and is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, and monitors investment performance.

Eligibility

The Plan is provided for all eligible employees of the Company. All employees, excluding leased employees, those covered by a collective bargaining agreement or other defined exclusions, may participate in the Plan so long as they are at least 18 years of age and have completed one year of service with 1,000 hours of service. The Plan includes a savings feature designed to permit the employee and the Company to contribute to the Plan, as allowable under Section 401(k) of the Internal Revenue Code (IRC).

Contributions

Participants may contribute up to 100% of their compensation, as defined, on a pre-tax basis subject to amounts allowed under the IRC. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Plan includes an automatic enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation, as defined, unless a different percentage is elected by the participant.

The Company may make discretionary matching contributions as a percentage of the participant's deferrals. For 2019, the discretionary matching contributions were equal to 15% of the participant's elective deferrals, up to 12.5% of annual compensation, as defined. Only employees actively employed on the last day of the plan year are eligible to receive an allocation of the discretionary matching contributions.

The Plan also allows for the Company to make discretionary nonelective contributions. The Company did not make any discretionary nonelective contributions for the year ended December 31, 2019.

Participant Accounts

Upon enrollment in the Plan, a participant may direct the asset custodian with regard to the investment of his or her account balances into various investment options offered by the Plan. Participants may change their investment options at any time.

Each participant's account is credited with the participant's contributions, allocations of the Company contributions, and plan investment earnings or losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts.

Vesting

Participants are vested immediately in their contributions, plus actual earnings thereon. A participant's interest in the contributions made by the Company begins vesting at 20% after two years of service, increasing 20% each year thereafter, with the participant 100% vested after six years. Participants become 100% vested upon death or disability.

Notes Receivable from Participants

Notes receivable from participants are loans to participants secured by the vested portion of their accounts as prescribed in the plan document. Loans bear interest at the prime rate plus 1% at the date of issuance. A participant may not have more than one loan outstanding at any time. Loans issued are no less than $1,000, with a maximum value limited to the lesser of $50,000 or one-half of the participant's vested account balance. Principal and interest is repaid ratably through payroll deductions. Loan terms are limited to five years unless for the purchase of a principal residence which could then be extended up to thirty years.

Benefit Payments

Distributions may be made to participants or their beneficiaries, as applicable, upon termination of employment, retirement, death or disability. In-service withdrawals are permitted for active participants with rollover accounts or who have reached the age of 59½, as defined. Additionally, hardship withdrawals are available to active participants, subject to hardship rules within the plan document. Upon termination, participants with an account balance of $1,000 or less shall receive an automatic lump sum distribution from the Plan. For participants who terminate with an account balance of more than $1,000 but less than $5,000, the plan administrator shall make a direct rollover into an individual retirement account. Withdrawals from the Plan may be subject to income tax on contributions and income earned.

Forfeitures

Forfeitures attributable to the non-vested matching contributions and nonelective contributions made by the Company may be used to pay administrative expenses of the Plan or to reduce future employer contributions. As of December 31, 2019 and 2018, there were unallocated forfeitures of $1,504 and $2,412, respectively. Forfeitures of $2,029 were utilized in 2020 to reduce the 2019 plan year employer matching contribution when funded. Forfeitures of $2,816 were utilized in 2019 to reduce the 2018 plan year employer matching contribution when funded.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for the benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under terms of the plan. The Plan invests in an investment contract through the AUL Fixed Interest Account, a fully benefit-responsive group annuity contract.

Investment Valuation and Income Recognition

Investments of the Plan are reported at fair value (except for the fully benefit-responsive group annuity contract which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation or depreciation in the fair value of the investments includes realized gains and losses on investments bought and sold during the year, as well as appreciation or depreciation of the investments held at the end of the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. In general, notes receivable from participants are considered in default when a participant fails to remit timely payments by the end of the repayment grace period under the loan program. Defaulted loans are treated as distributions based upon the terms of the plan document when a distributable event has occurred.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions.

Benefit Payments

Benefits paid to participants or beneficiaries are recorded when paid.

Administrative Expenses

Loan fees and certain transactional charges are paid by the participants. All other administrative expenses are paid by the Plan, unless paid by the Company, at its discretion. Investment related expenses are included in net appreciation or depreciation in fair value of investments.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for investment in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with the Plan's investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and may impact participants' account balances and the amounts reported in the financial statements.

Subsequent Events

Management of the Plan evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 9, 2020, which is the date the financial statements were available to be issued. See Note 9.

Note 3 - Information Certified by the Asset Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained a certification from the asset custodian of the Plan that all of the information provided is complete and accurate. Information included in the financial statements and accompanying notes to financial statements as to investments, notes receivable from participants, investment income, interest income on notes receivable from participants, and all information in the supplemental schedule is presented in reliance solely upon this certification.

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements, accompanying notes and supplemental schedule.

Note 4 - Fair Value Measurements

GAAP provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2019 and 2018.

Pooled Separate Accounts: These funds are valued at their net asset value (NAV) as determined by the issuer, based on the value of each of the underlying investments, less applicable fees charged by the issuer. The NAV is used as a practical expedient to estimate fair value. The practical expedient is not used when it is determined to be probable that the investment will be sold for an amount different than the reported NAV.

The pooled separate accounts are measured using NAV as the practical expedient and have been properly excluded from the fair value hierarchy in accordance with GAAP. The following provides additional information for the pooled separate accounts which are measured using NAV as the practical expedient as of December 31, 2019 and 2018.

(a) The strategy of the balanced funds is to consider the risk and return potential of each asset class and invest a percentage of assets in both stocks and bonds, along with a small amount in stable value investments for liquidity, focusing on long-term growth of capital and preservation of capital.

(b) The strategy of the bond funds is to provide returns and current income, while still considering the growth of capital.

(c) The strategy of the large-cap funds is to seek long-term growth of capital by investing primarily in equity securities and is generally less risk than the mid-cap or small-cap funds.

(d) The strategy of the mid-cap funds is to seek long-term capital appreciation with potential for greater long-term growth and risk than the large-cap funds.

(e) The strategy of the small-cap funds is to seek long-term capital appreciation while providing greater long-term growth and risk than the large-cap or mid-cap funds.

(f) The strategy of the international/global funds is to provide investors with potential long-term growth of capital while diversifying their portfolios with a spread of security types.

(g) The strategy of the target date funds is to achieve as high of a total return on an annual basis as is considered consistent with prudent investment risk and the preservation of capital by investing in a combination of mutual funds, stocks, and bonds using an asset allocation strategy designed for investors expecting to retire around a specific target date.

(h) The strategy of the specialty fund is to seek high total investment return through a combination of capital appreciation and current income.

Note 5 - Group Annuity Contract with AUL

The Plan has a fully benefit-responsive group annuity contract with AUL, the AUL Fixed Interest Account. AUL maintains the contributions in an unallocated contract account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. AUL is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the group annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract. Contract value, as reported to the Plan by AUL, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Amounts allocated to the AUL Fixed Interest Account earn interest at the higher of the rate guaranteed under the contract or the current rates established and declared by AUL prior to each calendar quarter. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable of occurring.

The group annuity contract does not permit AUL to terminate the agreement prior to the scheduled maturity date.

Note 6 - Federal Income Tax

The Company adopted a prototype plan document which received a favorable opinion letter dated March 31, 2014, in which the IRS stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the prototype plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan, through its adoption of the prototype plan, is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

Note 7 - Party-in-Interest Transactions

Plan investments include pooled separate accounts and a group annuity contract issued and managed by AUL. Therefore, the Plan's investment transactions in these funds qualify as party-in-interest transactions. These transactions are covered by an exemption from the "prohibited transaction" provisions of ERISA and the IRC.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their employer contributions.

Note 9 - Subsequent Events

The COVID-19 pandemic has led to volatility in the financial markets and has affected, and may continue to affect, Plan assets. The potential economic impact brought by, and the duration of, COVID-19 is difficult to assess or predict and will depend on future developments that are highly uncertain and cannot be predicted.

The effects of the COVID-19 pandemic has also decreased the demand for oil and gas products and services as companies and other organizations around the world have suspended or curtailed operations. This has caused a significant economic downturn in the oil and gas industry. As a result, there have been multiple rounds of layoffs during 2020 made by the Company. It has been determined that these layoffs have resulted in a partial plan termination. Employees terminated on or after January 1, 2020 are included in the partial plan termination and as such, their plan account balances are fully vested as of their termination date.

The Plan has implemented certain requirements of the Coronavirus Act, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act (the SECURE Act), which change the Plan to, among other things, suspend required minimum distributions and delay the commencement date for required minimum distributions. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with the applicable law and IRS guidance.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
