1. DESCRIPTION OF PLAN:

The following description of the ZF North America, Inc. 401(k) & Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of Plan provisions.

General
The Plan is a defined contribution plan covering substantially all employees of ZF North America, ZF Gainesville, ZF Chassis Components, ZF Marine Propulsion Systems Miramar, ZF Services, ZF Electronics Systems Pleasant Prairie, ZF Axle Drives Marysville, ZF Transmissions Gray Court, ZF Chassis Systems Duncan, ZF Chassis Systems Tuscaloosa and Ing. Tsetinis Beratungs GmbH (collectively referred to as Company or Employer). Prior to its closure in early 2019, the ZF Chassis Systems Chicago had also participated in the Plan. Union employees of the Company are not eligible to participate in the Plan unless coverage is provided under a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Except as follows, there is no service requirement to join the Plan. Employees are automatically enrolled in the Plan as soon as administratively feasible following employment with the Company. Union employees at the Chicago facility of ZF Chassis Systems Chicago, LLC had entered the Plan on the first day of the month following 60 days of employment with ZF Chassis Systems Chicago, LLC. Effective September 28, 2014, Union employees at the Tuscaloosa facility of ZF Chassis Systems Corporation enter the Plan on the 91st day of employment with ZF Chassis Systems Corporation.

Contributions
Subject to certain limits, participants may contribute a portion of their compensation to the Plan. Participants are also permitted to deposit into the Plan rollover distributions from other qualified plans.

The Company made matching contributions of 100% of the first 3%, plus 50% of the next 2% of eligible participant compensation for the non-union groups and members of the Tuscaloosa Union (ZF Chassis Systems Corporation). The Chicago Union (ZF Chassis Systems Chicago, LLC) had matching contributions of 100% of the first 1%, plus 50% of the next 4% of eligible participant compensation prior to its closure. The Company may also make qualified non-elective and discretionary retirement contributions.

The Company made a discretionary retirement contribution in 2020 for the Plan year 2019 of 3% of eligible compensation, plus an additional 6% of compensation in excess of the taxable wage base under the Federal Social Security Act.

Participant accounts
A participant's account is credited with the contributions made to the Plan on behalf of the participant and adjusted for earnings and losses thereon. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are vested immediately in their contributions and qualified non-elective Company contributions, plus actual earnings thereon. Vesting in Company matching and discretionary retirement contributions is based on years of continuous service. Participants who are members of the Chicago and Tuscaloosa Unions are 100% vested in Company matching contributions after three years of credited service and are immediately vested in their contributions and qualified non-elective contributions.

Notes receivable from participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through biweekly payroll deductions.

Payment of benefits
Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in their account. For termination of service due to other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution, or rollover their vested amounts to another qualified retirement account. Additionally, prior to termination of employment, a participant may withdraw all or a portion of his vested account balance upon attaining age 59 ½ or for financial hardship, if certain requirements are satisfied.

The Plan includes mandatory distribution provisions. These provisions provide for terminated participants with vested balances greater than $1,000 but less than or equal to $5,000, to have a direct rollover based on the vested account balance into an Individual Retirement Account. If the amount is under $1,000, participants will receive a lump-sum distribution as soon as practical following termination of their employment, at the discretion of the plan administrator.

Forfeited accounts
At December 31, 2019 and 2018 forfeited nonvested accounts totaled $211,357 and $183,081, respectively. At the discretion of the Company, forfeitures may be used to reduce employer contributions or Plan expenses. During 2019, $2,213 of forfeitures were used to pay Plan expenses and $50,464 of forfeitures were used to reduce employer contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting
The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

See Note 4 for discussion of fair value measurements.
Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2019 and 2018. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits
Benefits are recorded when paid.

Administrative expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. If the Company does not pay such expenses, the trustee shall pay them from the Plan assets as permitted by the plan document. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events
The Plan has evaluated subsequent events through the date of the report, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY TRUSTEE:

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2019 and 2018, the supplemental schedule of assets (held at end of year) as of December 31, 2019, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2019.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual and money market funds: Valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and transact at that price. The funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the NAV of units of collective trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of a collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

5. RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS:

Certain Plan investments are shares of money market funds, mutual funds, and common/collective trusts managed by Fidelity Management Trust Company, the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

7. TAX STATUS:

The Internal Revenue Service has determined and informed the Company by letter dated January 25, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). 8. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

9. TRANSFERS TO/FROM THE PLAN:

Subsequent to the date of the financial statements, an outbreak of a novel strain of coronavirus (COVID-19) has disrupted supply chains and affected production and sales across a range of industries. The extent of the impact of COVID-19 on the Company's performance and the Plan's investments will depend on certain developments, including the duration and spread of the outbreak. Impact to the Plan cannot be predicted, and the extent to which COVID-19 may impact the statement of net assets available for benefits is uncertain at this time.

In response to COVID-19, congress passed the Coronavirus Aid, Relief, and Economic Security (CARES) Act on March 27,2020. As a result, the Plan has allowed certain loan deferment and withdrawal provisions of the bill.
