NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2019 AND 2018
(2018 statement of net assets available for benefits compiled - see independent auditors' report)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of accounting - The plan follows the accrual method of accounting wherein additions and deductions are reflected in the period earned or incurred.

Accounting estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Subsequent events - The financial statements include management's evaluation of the events and transactions occurring subsequent to December 31, 2019 through October 5, 2020, which is the date the financial statements were available to be issued.

Risks and uncertainties - The plan invests in various investments. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Key parties of the plan - DPT Holdings, LLC is the plan sponsor/employer and the plan administrator. PPG Retirement Plan Services Ltd. is the third party administrator and performs various compliance tests as tax counsel. Voya Retirement Insurance and Annuity Company ("Voya") is the investment agent that maintains investment and participant records and holds custody of plan assets. Next Level Planning & Wealth Management is the plan's investment advisor. The plan sponsor's Chief Executive Officer is the plan trustee.

Investments - The plan sponsor/employer consults with their investment advisor to determine the investments available to plan participants. The participants allocate their contributions and transfer existing balances among the available investment options. Participants should refer to the investment account summaries and prospectuses for more information.

At the end of each business day, Voya determines the values of the investments held and allocates the values to the participants (see Note 6). The interest income and net appreciation (depreciation) in the fair values of investments, including investments bought, sold or held during the year, is reflected in the accompanying statement of changes in net assets available for benefits.

Investments at fair value - GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical investments (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows.

Level 1 - Valuation is based upon quoted prices in active markets for identical investments.

Level 2 - Valuation is based upon other significant observable inputs (including quoted prices for similar investments).

Level 3 - Valuation is based upon significant unobservable inputs (including the plan's assumptions in determining the fair value of investments).

Following is a description of the valuation methodology used for investments measured at fair value.

Pooled separate accounts - The pooled separate accounts are valued at the net asset value ("NAV") as provided by Voya. The NAV is generally based on the fair value of the underlying investments held by the separate account less its liabilities. The NAV is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the separate account will sell the investment for an amount different than the reported NAV.

The plan administrator determines by level, within the fair value hierarchy, the plan's investments at fair value as set forth below.

	Investments at fair value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Total investments in the fair value hierarchy	$ -	$ -	$ -	$ -
Investments measured at NAV (a)				3,982,059
Total investments at fair value				$3,982,059

	Investments at fair value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Total investments in the fair value hierarchy	$ -	$ -	$ -	$ -
Investments measured at NAV (a)				3,371,765
Total investments at fair value				$3,371,765

(a) In accordance with GAAP, certain investments that are measured at NAV have not been classified in the fair value hierarchy. The fair value amounts presented in the above table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV as a practical expedient as of December 31, 2019 and 2018. There are no participant redemption restrictions for these investments; the redemption notice period, if any, is applicable only to the plan.

December 31, 2019		Fair value	Unfunded commitments	Redemption frequency	Redemption notice period

December 31, 2018		Fair value	Unfunded commitments	Redemption frequency	Redemption notice period

Conservative	(a)	$ 41,573	n/a	Daily	n/a
Bonds	(a)	501,952	n/a	Daily	n/a

Global/international	(a)	143,205	n/a	Daily	n/a
Income	(a)	38,095	n/a	Daily	n/a

(a) The objective of these funds are to provide for capital appreciation and/or income consistent with the risk and return of the fund type summarized above. The small/medium/specialty funds included in this category accomplish their objectives by investing in mid and small cap blend, growth and value market segments and real estate. The global/international funds included in this category accomplish their objections by investing in emerging markets, Euro Pacific growth and foreign equity securities market segments.

(b) The objective of these funds is to seek capital appreciation and current income using a risk profile that is consistent with the target date of the funds.

Investment at contract value - The plan has a fully benefit-responsive guaranteed investment contract through an annuity contract issued by Voya. Voya maintains the contributions in a general account. Voya, as the contract issuer, is contractually obligated to repay the principal and a guaranteed minimum interest rate ("GMIR") for the life of the contract. The contract also provides two declared interest rates; a current rate, determined at least monthly, and a guaranteed minimum floor rate, determined at least annually. The guaranteed minimum floor rate may change after a defined period, but it will never be lower than the GMIR that applies for the life of the contract. The average yield earned by the fund was 1% in 2019.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the plan. Contract value, as reported to the plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal of all or a portion of the investment at contract value at any time. However, Voya may limit participant transfers, which are made at contract value, from this investment to other investments within the plan. The transfer limit, if imposed, varies but will never be less than 10% of the balance in the investment as of the date of the transfer, reduced by any transfers made during the same year. The plan administrator has determined this transfer limit does not have a practical effect in determining the fully benefit responsiveness of this contract.

The contract does not have a maturity date and there are no contract provisions that require a distribution at contract value at any specified time. The plan sponsor can request a lump sum distribution with a market value adjustment or an installment payout, at contract value, over a period of years. The contract will continue in full force until all assets have been distributed or no further payments are due.

The plan’s ability to receive amounts due is dependent on the issuer’s ability to meet its financial obligations. The issuer’s ability to meet its contractual obligations may be affected by future economic and regulatory developments. Certain events might limit the ability of the plan to transact at contract value with the issuer. At this time, the plan administrator is not aware of any events that may limit the ability of the plan to transact at contract value with the contract issuer or limit the ability of the plan to transact at contract value with the participants.

2. DESCRIPTION OF PLAN

The following description of the plan provides only general information. Participants should refer to the plan documents for a more complete description of the plan's provisions.

General - The plan was adopted effective January 1, 2016 as a defined contribution plan with a 401(k) salary deferral arrangement. It is subject to provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and subsequent amendments.

Eligibility - Employees are eligible to make elective deferral contributions immediately on the first day of employment. For purposes of employer matching and profit sharing contributions, if any, an employee must work 1,000 hours of service and be employed on the last day of the plan year. These requirements are waived upon death, disability or attainment of the normal retirement age (defined as age 65) during the year to which the contribution relates.

Contributions - Contributions to the plan can be made in the following ways:

a. Participants may contribute a percentage of their compensation subject to certain limitations (elective deferral contributions). The plan also permits Roth elective deferrals.

b. Rollover contributions are accepted by the plan from other qualified plans.

c. The employer may make matching contributions equal to a discretionary percentage of elective deferral contributions. No such matching contributions were made in 2019.

d. The employer may make discretionary profit sharing contributions. No such profit sharing contributions were made in 2019.

Participant accounts - Earnings, including the fair value appreciation (depreciation), are allocated to participant accounts on a daily basis based upon the performance of the investment options selected. Each participant's account is credited with the participant's elective deferral and rollover contributions and an allocation of the employer's contributions, if any. Participants are allowed to change their investment options on a daily basis and change their deferral percentage each pay period.

Vesting - Participants are always 100% vested in their elective deferral contributions, rollover contributions, and related earnings. Participants begin vesting in employer contributions and related earnings upon two full years of service, at which time they are 20% vested. The participant then vests at the rate of 20% for each year thereafter. Participants become 100% vested upon death, disability or attainment of normal retirement age.

Payment of benefits - Benefit payments may commence upon termination of employment, death, disability or attainment of normal retirement age. Distributions are generally in the form of a single lump sum. In-service withdrawals can commence upon attaining the age of 59 1/2. Hardship withdrawals are also permitted under certain circumstances as defined in the plan documents.

Administrative expenses - Certain administrative expenses of the plan are paid by the plan sponsor.

Forfeitures - Any forfeited nonvested accounts would be used to reduce employer contributions or pay plan expenses. There were no forfeitures used in 2019. Unapplied forfeitures were insignificant as of December 31, 2019 and 2018.

Notes receivable from participants - Participants loans are not permitted under the plan.

3. PARTY-IN-INTEREST TRANSACTIONS

The plan investments are managed by Voya. Voya is the investment agent as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. In addition, Voya provides certain administrative services to the plan pursuant to a service agreement between the plan sponsor and Voya. Voya receives revenue from mutual fund service providers for services Voya provides to the funds. This revenue is used to offset certain amounts that would otherwise be owed by the plan to Voya for its administrative services to the plan. Direct fees paid by the plan were insignificant in 2019. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

4. TERMINATION OF PLAN

Although it has not expressed any intent to do so, the plan sponsor has the right to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in any employer contributions and related earnings.

5. INCOME TAX STATUS

The plan has adopted a PPG Retirement Plan Services volume submitter profit sharing plan. The volume submitter profit sharing plan received its most recent favorable opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. As a result, the plan administrator has not obtained a separate Internal Revenue Service opinion or determination letter for the plan. The plan administrator and tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The plan is subject to routine audits by taxing jurisdictions; however there are currently no audits in progress.

6. INFORMATION CERTIFIED BY THE AGENT

Voya serves as the agent of the plan and, in that capacity, holds the plan's investment assets and executes transactions in those assets. The agent has certified certain information as set forth below to be complete and accurate.

a. Pooled separate accounts held by the agent for the plan and the fair values of such as of December 31, 2019;

b. Guaranteed investment contract held by the agent for the plan and the contract value of such as of December 31, 2019;

c. Interest income generated from the investment contract and net appreciation (depreciation) in fair value of investments during 2019; and

d. Contributions to, withdrawals from, purchases and sales of investments and inter-fund transfers between accounts during 2019.

7. SUBSEQUENT EVENTS

In March 2020, the United States economy began suffering adverse effects from the Coronavirus global crisis. The impact this crisis may have on the plan is unknown at this time. The Coronavirus Aid Relief, and Economic Security ("CARES") Act was passed by Congress in March 2020 and allows certain temporary plan provisions to be put into place, including allowing for Coronavirus-related distributions and waiving required minimum distributions. The plan has implemented certain provisions under the CARES Act and may implement other provisions at any time through December 31, 2020, with no formal amendment required to the plan documents until December 31, 2022.
