1. Description of Plan

The following description of the Woodbolt Distribution 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan document is controlling at all times. The Plan is sponsored by Woodbolt Distribution, LLC (the Company).

Effective April 1, 2018, Fitjoy Nutrition, LLC (Fitjoy) adopted the Plan as a participating employer.

General

The Plan was established effective January 1, 2015. The Plan is a defined contribution plan covering all employees of the Company and Fityjoy except (1) union employees, (2) leased employees and (3) any employee who is a nonresident alien. The purpose of the Plan is to provide employees with retirement benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Under the terms of the Plan, employees become eligible to make salary deferral contributions upon having attained the age of 21.

Contributions

Each year, participants may contribute up to 100 percent of their salary and wages, as defined in the Plan, up to the maximum limits of the Internal Revenue Code (IRC). Additionally, participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may elect to make Roth deferrals which are subject to federal income taxes in the year of deferral. However, these deferrals are not subject to federal income taxes when distributed to participants. Employee contributions may be made only by payroll deductions. Participants can make rollover contributions representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled into the Plan on the first day of the month following their service start date unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 4 percent of eligible compensation.

The Plan is set up with a safe harbor matching provision. Participants are eligible for safe harbor matching contributions on the first day of the month following their service start date. The Company contributes a safe harbor matching contribution equal to 100 percent of participant's contributions up to 4 percent of the participant's eligible compensation. For the year ended December 31, 2019, the Company made safe harbor matching contributions of $660,008. The Plan also allows for an additional discretionary employer match. For the year ended December 31, 2019, the Company did not make a discretionary employer match. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, rollover contributions, Company safe harbor matching contributions and allocations of (a) Plan earnings, (b) Company discretionary matching contributions and (c) administrative expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and the Company safe harbor matching contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is granted 20 percent after one year of service, becoming fully invested after six years of credited service. Participants are automatically vested in their employee and employer contributions upon death, disability, normal retirement age or termination of the Plan.

Notes Receivable From Participants

Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 minus the highest outstanding loan balance in the past 12 months or 50 percent of their vested account balance. No participant loan shall exceed the participant's vested interest in the Plan. A participant cannot have more than one loan outstanding at any given time. The loans are secured by the balance in the respective participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the plan administrator. As of December 31, 2019 and 2018, interest rates ranged from 4.25 percent and 6.50 percent and 4.25 percent to 6.25 percent, respectively. Principal and interest are paid ratably, through payroll deductions, over a period generally not extending beyond five years from the date of the loan, unless the loan was obtained to acquire a principal residence.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant or their beneficiary may elect to receive a lump-sum distribution amount equal to the value of the participant's vested interest in his or her account. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Participants may make unrestricted withdrawals of their employee contributions on or after age 59 ½. At the age of 70 ½, a participant is required to receive minimum required distributions from their account annually. Participants are able to make withdrawals from employee contributions and vested employer contributions for financial hardship and qualifying emergencies, within guidelines established by the IRS regulations.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of participant loans or benefits paid to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

Forfeited Accounts

Forfeitures represent the portion of non-vested benefits remaining from employees who have withdrawn from the Plan before becoming fully vested. Forfeitures shall be used to reduce future Company contributions or pay plan expenses. At December 31, 2019 and 2018, there were $11,334 and $10,659, respectively, in unallocated forfeiture account balances.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value (except for fully-benefit responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Net appreciation (depreciation) in the fair value of investments is reported in the statement of changes in net assets available for benefits and consists of the realized and unrealized gains and losses of these investments. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Expenses related to the purchase or sale of investments are added to cost or deducted from proceeds.

Notes Receivable From Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances. Delinquent notes receivable from participants are recorded as a distribution based upon terms of the Plan document. Interest income is recorded on the accrual basis.

Payment of Benefits

Benefits are recorded when paid.

Concentrations of Credit Risk

The Plan's investments potentially subject the Plan to concentrations of credit risk. The Plan has not experienced any credit losses associated with these instruments.

Recent Accounting Standards

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*. ASU No. 2018-13 modifies the disclosure requirements for fair value measurements in Topic 820, *Fair Value Measurement*. The amendments are based on the concepts in the FASB Concepts Statement, *Conceptual Framework for Financial Reporting—Chapter 8: Notes to Financial Statements*, which the Board finalized on August 28, 2018. ASU No. 2018-13 is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted. Management is currently assessing the impact that ASU No. 2018-13 will have on the Plan's financial statements.

Subsequent Events

The Plan was amended to exclude all fringe benefits and commissions from eligible compensation and change the period for determining safe harbor matching contributions from payroll period to Plan year effective January 1, 2020.

In March 2020, the World Health Organization categorized the outbreak of the SARS-CoV-2 coronavirus (COVID-19) as a pandemic. The COVID-19 outbreak occurred globally causing significant fluctuations in financial markets in the United States and internationally. The extent of the impact on the Plan's net assets, including the fair value of investment securities and related net investment income or loss, as well as future contributions, will depend on the duration and continued spread of the COVID-19 outbreak and any other further economic developments. Plan management is not able at this time to estimate the full impact on the Plan's financial statements.

Plan management approved a resolution to adopt certain provisions of the Coronavirus Aid Relief and Economic Security Act (CARES Act) during 2020, including the following:

- allowing participants to take distributions of up to $100,000 from the Plan,
- increasing new notes receivable available borrowings of up to $100,000 through September 23, 2020 unless otherwise extended, and
- providing for the deferment of payments on existing notes receivable through December 31, 2020.

Effective April 26, 2020, safe harbor matching contributions were frozen and no future contributions will be made.

The custodian and recordkeeper of the Plan are currently in process of transitioning to Empower Retirement. Assets are expected to be transferred prior to December 31, 2020.

The Plan has evaluated subsequent events for recognition or disclosure through October 12, 2020, the date the financial statements were available to be issued.

3. Information Certified by Custodian

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2019 and 2018. Accordingly, Massachusetts Mutual Life Insurance Company (Mass Mutual), the custodian of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2019 and 2018 and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2019, and the related investment activity and interest income on notes receivable from participants reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2019.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Mutual funds are valued at the published per share net asset value (NAV) of shares held by the Plan and classified within Level 1 of the valuation hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019 and 2018:

	Assets at Fair Values as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 7,654,916	$ -	$ -	$ 7,654,916
Total investments at fair value	$ 7,654,916	$ -	$ -	$ 7,654,916

	Assets at Fair Values as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 5,593,197	$ -	$ -	$ 5,593,197
Total investments at fair value	$ 5,593,197	$ -	$ -	$ 5,593,197

5. Fully Benefit-Responsive Investment Contracts

The Plan holds an investment contract that is a traditional investment contract issued by Mass Mutual. This contract meets the fully benefit-responsive investment contract criteria, and therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

With traditional investment contracts, the Plan owns only the contract itself. Traditional investment contracts are designed to accrue interest based on crediting rates established by the contract issuers.

The traditional investment contract held by the Plan is a guaranteed investment contract. Mass Mutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer. The crediting rate for the year ended December 31, 2019 was 1.55 percent. The contract cannot be terminated before the scheduled maturity date.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also limit the ability of the Plan to transact at contract value with the participants.

6. Related-Party and Party in Interest Transactions

The Company provides the Plan with certain accounting and administrative services for which no fees are charged. The Plan holds a guaranteed investment contract provided by Mass Mutual, the custodian of the Plan. This investment is considered a party in interest transaction. Fees paid by the Plan for administrative services to the custodian totaled $57,561 for the year ended December 31, 2019. The Plan has notes receivable from participants at December 31, 2019. These notes and all transactions relating to these notes qualify as party in interest transactions. These transactions are exempt from the prohibited transactions rules under ERISA.

7. Tax Status

Effective September 1, 2018, the Plan was amended and restated by the adoption of a volume submitter plan sponsored by a third-party. The third-party administrator received a favorable advisory letter from the IRS dated March 31, 2014, which states that the volume submitter plan constitutes a qualified plan under Code Section 401 of the IRC with certain limitations. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Company believes that the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan and the related trust is tax-exempt as of the financial statement date.

U.S. GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, all amounts credited to participant's accounts will become 100 percent vested.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

As of December 31, 2019 and 2018, the Plan had investments of $4,152,132 and $3,458,235, respectively, that were concentrated in three and four funds, respectively.

10. Delinquent Participant Contributions

Pursuant to the Department of Labor Reg. 29 CFR 2510.3-102, an employer is required to segregate participant contributions from its general assets as soon as practicable, but in no event later than the 15th business day following the end of the month in which amounts are contributed by participants or withheld from their wages. For the years ended December 31, 2019 and 2018, the Company did not remit certain participant contributions to the Plan on a timely basis. As of the date the financial statements were available for issuance, $4,179 of contributions have been corrected with lost earnings.

11. Reconciliation of Financial Statements to Form 5500

As permitted under the Schedule C rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate or a formula or rate.

- Where an actual dollar amount of compensation is disclosed, no further notation regarding compensation calculations is generally provided.
- Where an estimate of the compensation amount is disclosed, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount.
- Where a formula or rate is provided to report compensation, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount. This formula or rate may be disclosed to describe the compensation to which it applies under the Schedule C rules. Alternatively, for purposes of Schedule C disclosure or in connection with your fiduciary review of the compensation paid with respect to the services, products and investment options utilized by the plan, you may calculate and disclose an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies.

Please note that, unless otherwise indicated in the descriptions contained in this report, direct compensation is presented on a plan year basis 01/01/2019 - 12/31/2019 and indirect compensation is presented on a calendar year basis ending 12/31/2019.

This report includes compensation actually paid to or by MassMutual within the indicated plan year as part of your MassMutual-serviced product. *(Note: If the plan year period or plan year end indicated in this Schedule C reporting package is incorrect, please notify your MassMutual customer service representative immediately).* This report does not include amounts deducted from plan assets and paid to third parties (other than MassMutual). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here from other service providers as is described below.

Please note that we have provided suggested service codes (based on the information in our records) with respect to services provided through our product. Please review all Schedule C and other Form 5500 materials with your experienced benefits counsel and other professionals to determine the most appropriate codes for your plan. In addition, please note that because plans with fewer than 100 participants (as of the beginning of the plan year) are generally not required to file Schedule C, you should refer to the instructions provided by the IRS for Schedule C and/or review the applicability of Schedule C to your plan with your experienced tax/benefits counsel, to determine whether it is necessary for the plan to report the information contemplated by this report.

Please contact your MassMutual Service Team should you require additional information regarding the compensation paid to or by MassMutual with respect to your plan.

Bank accounts and investments associated with short-term investment pool

This is an estimate based on the annual average rate of float (0.399% for 2019) earned on the bank accounts and investments associated with the short-term investment pool for the 2019 calendar year multiplied by an estimate of the assets related to uncashed checks.* This estimate does not include float earned for any other reason (e.g., if amounts remitted cannot be immediately invested because they are not in good order). Please review or request a copy of the current float disclosure for more information about the other circumstances in which float is earned.

* A complete listing of distribution checks that remain outstanding for your plan is available on the Retirement Plan Access web site under the Standard Reports section (Report R03998-Outstanding Distribution Checks). Uncashed check assets will continue to remain in a float-earning bank account until such time direction is received from the Plan Sponsor, subject to applicable regulation. The Plan Sponsor should consult with the Plan's/Plan Sponsor's tax advisor or benefits counsel to determine if assets attributable to uncashed checks should be included on the Form 5500 filing.

Under the variable investment options available through your plan's group annuity contract or funding agreement, contract values are invested in insurance company separate accounts that, in turn, invest in underlying registered investment companies (i.e., mutual funds) and collective investment funds.

The above list includes any investment option held by the plan on at least one month end during the 2019 calendar year. To arrive at an estimate of the dollar amount that MassMutual received from each investment option, multiply the rate of fees received from each investment option by your plan's year-end balance (or if the investment option was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the investment option at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.
