1. Description of Plan

The following description of the Calico Brands, Inc. 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was adopted effective August 1, 1999 by Calico Brands, Inc. ("Company") for the benefit of the Company's employees. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Administrative Committee oversees governance of the Plan. Plan management determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Administrative Committee.

Contributions

Each year participants may contribute up to 70% of pretax annual compensation, as defined in the Plan limited to the maximum amount allowed by law for the Plan year. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a collective trust. The Company matches 100% of a participant's contribution up to 5% of a participant's eligible compensation. Contributions are subject to certain statutory limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution and (b) Plan earnings (losses), and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $500 up to the lesser of (1) 50 percent of their account balance or (2) $50,000 reduced by their highest unpaid loan balance outstanding (principal and interest) during the preceding twelve-month period. The notes are secured by the balance in the participants' accounts and bear interest at a rate equal to the prime rate plus one point. The prime rate is determined based upon the prime rate of interest that is published in the Wall Street Journal on the 14th day of each month. Loans are repayable through payroll deductions. Loan terms are limited to a maximum of 5 years or longer for the purchase of a primary residence.

Payment of Benefits

Upon termination of service due to death, disability, or retirement from the Company, participants may receive the vested interest of their accounts in the form of a single sum of cash payment or installments over a period not to exceed the participant life expectancy. Hardship withdrawals are also available.

Forfeited Accounts

At December 31, 2019 and 2018, forfeited nonvested accounts totaled $1,709 and $1,669 respectively. These accounts will be used to reduce future employer contributions. Also, in 2019, employer contributions were reduced by $12,501 from forfeited nonvested accounts.

Plan Administration

The Plan is administered by the Company. The plan administrator controls and manages the operation and administration of the Plan.

Reliance Trust Company ("Reliance") is the trustee of the Plan and Automatic Data Processing, Inc. ("ADP") is the record keeper.

1. Description of Plan (Continued)

Eligibility

The Plan covers substantially all full-time employees of the Company who have completed three months of service and are age twenty-one or older. Eligible employees may participate on the first day of the month coinciding with or next following the date they became eligible.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's

2. Summary of Significant Accounting Policies (Continued)

gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2019 and 2018 no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Company and are therefore excluded from these financial statements (see Note 5). Investment-related expenses, including indirect compensation paid to investment advisors, are included in net appreciation in fair value of investments. Fees for the administration of notes receivable from participants are included in administrative expenses and charged directly to the participant's account.

Net Appreciation (Depreciation) in Fair Value of Investments

Net appreciation (depreciation) in fair value of investments is based on the fair value of the assets at the beginning of the Plan year, or at the time of purchase during the Plan year, and the related fair value on the day investment are sold with respect to realized appreciation (depreciation), or on the last day of the year with respect to unrealized appreciation (depreciation).

Realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments.

2. Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board (FASB) issued ASU 2018-13 - Fair Value Measurement - Disclosure Framework (ASC 820). The guidance modifies the disclosure requirements for fair value measurements. The updated guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019 with early adoption permitted. The Plan is currently assessing the impact of adoption.

Date of Management's Review of Subsequent Events

Subsequent events were evaluated through October 8, 2020, which is the date the financial statements were available to be issued.

3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no plan assets requiring the use of Level 2 inputs for the period presented.

3. Fair Value Measurements (Continued)

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2019 and 2018:

	Fair Value Measurements at the End of the Reporting Period Using:	
December 31, 2019	**Quoted Prices in Active Markets for Identical Assets (Level 1)**	**Fair Value**
Mutual funds	**$ 13,145,769**	**$ 13,145,769**
Total assets at fair value	**$ 13,145,769**	**$ 13,145,769**

December 31, 2018	**(Level 1)**	**Fair Value**
Mutual funds	$ 10,596,221	$ 10,596,221
Total assets at fair value	$ 10,596,221	$ 10,596,221

Gains and losses included in changes in net assets available for benefits for the years ended December 31, 2019 and 2018, are reported in net appreciation in fair value of investments.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2019 and 2018, there were no significant transfers between Levels 1 and 2 and no transfers into or out of Level 3.

4. Investments in Collective Trust

In February 2011 the Plan commenced offering the Wells Fargo Stable Return Fund ("Trust"), a collective trust that invests in Guaranteed Investment Contracts ("Investment Contracts") and short term investments.

4. Investments in Collective Trust (Continued)

The Trust values its investments at contract value (principal plus accrued interest) because the Trust's contracts are fully benefit-responsive and the Trust has been established for the collective investment of one or more qualified employer-sponsored defined contribution plans. Contract value is the relevant measurement attribute for that portion of the net assets that are fully benefit-responsive because that is the amount participants in the Trust would receive if they were to initiate permitted transactions under the terms of the underlying defined contribution plan. The contract value of the Plan investment in the Trust at December 31, 2019 and 2018 was $2,055,274 and $2,119,882.

All investment contracts are reset at least quarterly and have a zero percent minimum crediting interest rate.

The existence of certain conditions can limit the Trust's ability to transact at contract value with participants in the Trust. Examples of such conditions include, but are not limited to: material amendments to the Trust structure or administration, changes to the participating plans, competing investment options, complete or partial termination of the Trust, tax disqualification of the Trust, withdrawal of a plan sponsor, changes in laws or accounting requirements applicable to the Trust or participating plans, and communication to the plan participants designed to influence a participant not to invest in the Trust. As of December 31, 2019, the Trust's trustee believes the occurrence of an event that would limit the ability of the Trust to transact at contract value with participants in the Trust is not probable.

5. Related Party and Party in Interest Transactions

The Company provides to the Plan certain accounting and administrative services for which no fees are charged. As the Company is the Plan sponsor, these transactions qualify as party-in-interest transactions.

Administrative expenses paid to ADP, the record keeper of the Plan, amounted to $27,244 for the year ended December 31, 2019.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. Tax Status

The Plan currently operates under a prototype plan offered by ADP, which received a favorable opinion letter from the Internal Revenue Service dated July 16, 2014. The plan administrator and legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan is required to disclose significant concentrations of credit risk regardless of the degree of such risk. At December 31, 2019 and 2018, the financial instruments, which potentially subject the Plan to a concentration of credit risk, consisted principally of cash, investments, and notes receivable from participants.

9. Reconciliation of Financial Statements to Schedule H of Form 5500

Certain balances included on Schedule H Part I and II on the Annual Return/Report of Employee Benefits Plan (Form 5500) have been reclassified for purposes of presentation in the financial statements.

10. Trustee's Certifications

The investment balance and related investment information included in the financial statements, accompanying notes and supplemental schedule are derived from statements which have been certified by Reliance as complete and accurate in accordance with 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

11. Subsequent Events

The Plan monitors significant events occurring after the statement of net assets available for benefits date and prior to the issuance of the financial statements to determine the impacts, if any, on the financial statements to be issued. The Plan has evaluated subsequent events through the date which the financial statements are issued.

The COVID-19 outbreak has resulted in widespread and continuing impacts on the global economy. Financial and credit markets have experienced and may continue to experience significant volatility and turmoil. This volatility and turmoil may impact the fair values of Plan assets. The extent to which COVID-19 impacts the Plan's financial position and results will depend on future developments, which are highly uncertain and cannot be predicted, including new information that may emerge concerning the severity of the virus and the actions to contain and treat its impacts, among others.

In March 2020, the Coronavirus Aid, Relief and Economic Security Act (CARES Act) was signed into law. The CARES Act contains certain provisions that were adopted which will temporarily impact the Plan, including allowing certain eligible participants to receive hardship distributions, suspension of loan repayments, and delay of minimum required distributions. The future effects from the CARES Act on the Plan's financial statements are uncertain.
