INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator of
Star Enterprise Retirement Plan

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of Star Enterprise Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2019 and 2018; the related statements of changes in net assets available for benefits for the years then ended; and the related notes to the financial statements. We also audited the statements of accumulated Plan benefits and changes in accumulated Plan benefits of the Plan as of December 31, 2018, and for the year then ended.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, which includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal

control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding Star Enterprise Retirement Plan's net assets available for benefits as of December 31, 2019, and changes therein for the year then ended and its financial status as of December 31, 2018, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

OTHER REGULATORY REQUIREMENTS

Our audit of the financial statements of Star Enterprise Retirement Plan for the year ended December 31, 2019, was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The additional information included in Schedule H - Financial Schedules (IRS Form 5500) is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The Schedule H - Financial Schedules (IRS Form 5500) is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

STAR ENTERPRISE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018 AND 2017

Note 1 - Description

On December 29, 1989, Star Enterprise (the Company), a general partnership between Texaco Refining and Marketing Inc., (East) and Saudi Refining, Inc., entered into a Master Trust Agreement with Mellon Trust Company to establish the Star Enterprise Master Trust (Master Trust) comprised of the Star Enterprise Retirement Plan and the Star Enterprise Group Pension Plan (the Plans).

With the merger of Chevron Corporation and Texaco Inc. on October 9, 2001, the new company ChevronTexaco Corporation became the Plan Administrator of the Plans.

The Plans were frozen as of July 1, 2002 and there are no active participants. For each participant, the Plan Administrator calculated the July 1, 2002 accrued benefit under the Plan. This accrued benefit was used to determine the Plan's obligations.

On January 1, 2004, Star Enterprise and ChevronTexaco Corporation entered into a Master Trust Agreement with State Street Bank and Trust Company.

On December 31, 2004, the Star Enterprise Group Pension Plan was merged into the Star Enterprise Retirement Plan (The Plan), creating a single plan within the Trust.

On May 9, 2005, ChevronTexaco Corporation, Plan Administrator of the Plan, changed its corporate name to Chevron Corporation (the Corporation). The name change has no impact on the Plan.

On April 1, 2016, the Corporation, as the Plan Administrator, entered into a Trust Agreement with The Northern Trust Company (the Trustee) replacing State Street Bank and Trust Company as trustee.

Effective June 1, 2019 the Plan record keeper was changed from Conduent to Willis Towers Watson.

Benefits

The Plan is a defined benefit pension plan, subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), that is maintained primarily to provide retirement and death benefits for eligible members and their spouses, joint pensioners and beneficiaries. The Plan provides pension benefits funded by contributions from the Company.

A more detailed description of the eligibility and vesting requirements, normal and early retirement rules, and benefits formula provided by the Plan is included in the "Summary Plan Description" of the plan.

STAR ENTERPRISE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
(Continued)

Plan Administrator
Chevron Corporation has been designated as the Plan Administrator of the Trust and the Plan.

Allocation Upon Termination/Reversion
It is the intent of the Company to continue the Trust and the Plan in full force and effect; however, the right to discontinue the Trust and the Plan is reserved to the Company. To the extent required to provide all of the accrued benefits under the Plan that if terminated, the Company will allocate the terminated Plan's assets on an actuarial basis among the Plan's members and their spouses, joint pensioners and beneficiaries in the manner prescribed by Section 4044 of the Employee Retirement Income Security Act of 1974 (ERISA). If the terminated Plan has assets in excess of the amount required to fully provide for the accrued benefits thereunder, then except as provided below, the excess assets will be returned to the Company, subject to any restriction imposed by applicable law.

Moreover, certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. The PBGC does not guarantee all types of benefits and the amount of any individual participant's benefit protection is subject to certain limitations, particularly with respect to benefit increases as a result of plan amendments in effect for less than five years. Some benefits may be fully or partially provided for while other benefits may not be provided at all.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements, in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation
Investments are carried at fair value which is determined, presented and disclosed in accordance with Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) 820, *Fair Value Measurements and Disclosures*. Under FASB ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price"), in an orderly transaction between market participants at the measurement date.

STAR ENTERPRISE RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
(Continued)

FASB ASC 820 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable input be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Plan's assumptions about inputs market participants would use in pricing the investments developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels, based on the inputs, as follows:

> Level 1 - Valuations based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.
>
> Level 2 - Valuations based on quoted prices in markets that are not active, quoted prices for similar investments in active markets or model-based valuations for which all significant assumptions are observable and can be corroborated by observable market data.
>
> Level 3 - Valuations based on unobservable inputs that are supported by little or no market activity and are significant to the overall fair value measurement. Values are determined using proprietary pricing models, discounted cash flow models that include the investment entities own judgments and estimations or some other pricing method using unobservable inputs.

In determining fair value, FASB ASC 820 allows various valuation approaches. The specific method for each of the Plan's investment classes are presented below.

Valuation Methods

Common/collective trusts. The fair value of the units in common/collective trusts is estimated based on the net asset value (NAV) per unit of the investments.

Equities. The fair value of equity securities is based on quoted market prices in active markets (level 1).

Transactions and Investment Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

In accordance with the policy of stating investments at fair value, the change in net realized and unrealized appreciation or depreciation is included in the statement of changes in net assets available for benefits.

Contributions from Company

The Plan records the Company's contributions when the amounts are determined by the Company.

Administrative Expenses
The administrative expenses include trustee, consultant, actuarial, accountant, and external administrators, which are applicable to the Plan as a whole. In addition, the Plan Administrator provides certain other administrative services for which no charges are made.

Note 3 - Funding Policy

The Plan Administrator annually determines the normal cost of the Plan and the amount of unfunded past service cost. This determination is based on an annual actuarial estimate of the amount required to provide benefits ultimately due. The Plan is subject to the funding provisions of ERISA. The funding policy of the Plan Administrator is to make the Company's contributions to the Plan at least equal to the minimum funding requirements of ERISA.

Note 4 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) beneficiaries of deceased employees. Benefits payable under all circumstances: retirement, death, disability, and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining actuarial results. Pension benefits in excess of the present assets of the Plan are dependent upon contributions received from the Company and income from investments.

Since information on the accumulated Plan benefits at December 31, 2019 and the changes therein for the year then ended are not included in the financial statements or notes thereto, these financial statements do not purport to present a complete presentation of the financial status as of December 31, 2019 and the changes in financial status for the year then ended, but only a presentation of the net assets available for benefits and the changes therein as of and for the year ended December 31, 2019. The complete financial status is presented as of December 31, 2018. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2019. Had the valuations been made as of December 31, 2018, there would be no material differences. No amendments were adopted on January 1, 2019.

Note 6 - Investments in Certain Entities that Calculate Net Asset Value

FASB ASC 820 allows entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value.

The following is a summary of the Plan's investments measured at fair value based on NAV, per share (or its equivalent).

{a} This investment is a direct filing entity with the Department of Labor; therefore, information regarding the investment's strategy is not disclosed.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 8 – Tax Status

On May 5, 2014, the Internal Revenue Service issued its determination that the Plan met the requirements for qualification under Section 401(a) of the Internal Revenue Code and the trust fund established pursuant to the Plan continues to be exempt from Federal Income Tax under Section 501(a) of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan's administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan is not subject to income tax. Accordingly, no provision for federal or state income taxes has been made.

The Plan's administrator and tax counsel have analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by the taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan believes it is no longer subject to income tax examinations for the years prior to 2016.

Note 9 – Plan Assumptions

Effective December 31, 2018 the assumed plan-related expenses were changed from $700,000 to $1,000,000.

Note 10 – Subsequent Events

Subsequent events were evaluated through the date on which the financial statements were available to be issued. The date is approximately the same as the auditors' report date.

Retirement

Participants who are not eligible for a lump sum are assumed to retire at age 60. Participants who are eligible for a lump sum are assumed to retire at the rates shown in the table below.

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Percentage retiring during the year	
Age	Rates
50	2.8%
51	1.0%

Form of payment

If eligible for lump sum option: 90% of eligible participants are assumed to elect a lump sum and all remaining participants are assumed to elect an annuity (single life annuity for non-contributory participants and 2 year certain and life annuity for contributory participants).

If ineligible for lump sum option: all participants are assumed to elect a single life annuity.

Calculation of Lump Sum: Lump sums were valued using the substitution of annuity form under IRS Regulation §1.430(d)-1(f)(4) without application of generational mortality.

Percent married

100% of participants. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement

SCHEDULE SB ATTACHMENTS

Spouse age	Wife three years younger than husband
Covered pay	NA
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the lump sum form of payment.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

SCHEDULE SB ATTACHMENTS

Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	Willis Towers Watson has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any other significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of 1/1/2019. Information on assets, contributions, and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC §430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.

SCHEDULE SB ATTACHMENTS

Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).
Rates of increase in:	
■ Assumed return for asset smoothing	The assumed return of 8.75% used for asset smoothing is the expected return on assets assumption chosen by the client, with the help of their investment advisers, for the 2019 plan year under U.S. GAAP.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Retirement	Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Statement of Actuarial Assumptions/Methods, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in Assumptions and Methods Since Prior Valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.
- The mortality table used to calculate the funding target and target normal cost was updated to reflect the new tables, based on RP-2014 and subsequent Society of Actuaries studies, published by IRS in October 2017 in regulation §1.430(h)(3)-1.
- The assumed plan-related expenses added to the target normal cost were changed from $700,000 for the prior valuation to $1,000,000 for the current valuation to account for higher expected expenses to be paid from the trust.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Demographic Assumptions

Inclusion date	The valuation date coincident with or next following the date on which the employee becomes a participant.
New or rehired employees	It was assumed there will be no new or rehired employees.
Mortality for funding	Separate rates for non-annuitants (based on RP-2014 “Employees” table without collar or amount adjustments, adjusted backwards to 2006 with MP-2014, and then projected forwards with a static projection as specified in the regulations §430(h)(3)-1 using Scale MP-2017) and annuitants (based on RP-2014 “Healthy Annuitants” table without collar or amount adjustments, adjusted backwards to 2006 with MP-2014, and then projected forwards with a static projection as specified in the regulations §430(h)(3)-1 using Scale MP-2017).
Termination	Since there are no active participants in the Plan, representative termination rates do not apply.
Disability	None.

SCHEDULE SB ATTACHMENTS

Retirement

Participants who are not eligible for a lump sum are assumed to retire at age 60. Participants who are eligible for a lump sum are assumed to retire at the rates shown in the table below.

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Percentage retiring during the year	
Age	Rates
50	2.8%
51	1.0%
52	1.2%
53	1.5%
54	1.9%
55	4.2%
56	3.5%
57	3.5%
58	3.5%
59	4.4%
60	13.2%
61	12.2%
62	21.7%
63	12.3%
64	12.3%
65	100%

Form of payment

If eligible for lump sum option: 90% of eligible participants are assumed to elect a lump sum and all remaining participants are assumed to elect an annuity (single life annuity for non-contributory participants and 2 year certain and life annuity for contributory participants).

If ineligible for lump sum option: all participants are assumed to elect a single life annuity.

Calculation of Lump Sum: Lump sums were valued using the substitution of annuity form under IRS Regulation §1.430(d)-1(f)(4) without application of generational mortality.

Percent married

100% of participants. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement

SCHEDULE SB ATTACHMENTS

Spouse age	Wife three years younger than husband
Covered pay	NA
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the lump sum form of payment.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

SCHEDULE SB ATTACHMENTS

Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Summary of Plan Provisions

Plan Provisions

The most recent restatement reflected in the following plan provisions was effective January 1, 2005.

Covered employees	All participants who satisfy the eligibility requirements of the Plan.
Participation date	Date of becoming a covered employee

Definitions

Vesting service	All participants are immediately vested in their benefit.
Normal retirement date (NRD)	First of month coinciding with or next following the attainment of age 65
Monthly pension benefit	The plans were frozen as of July 1, 2002. For each Participant the plan administrator calculated the July 1, 2002 accrued benefit under the plan(s).
Monthly preretirement death benefit	The benefit is defined as 50% of the benefit that would have been payable to the employee. The beneficiary may instead elect to receive a 10 year temporary annuity in the amount that would have been payable to the participant. The minimum death benefit is set at the value of the employee contributions with interest at the date when the benefits are paid from the plan

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	Participants who were active employees at Alliance on May 1, 2001 may commence after attainment of age 50 Participants who terminated prior to May 1, 2001 with 10 years of service may commence their Retirement Plan benefit after attainment of age 50 and their Group Pension Plan benefit after attainment of age 55.

Summary of Plan Provisions

Plan Provisions

The most recent restatement reflected in the following plan provisions was effective January 1, 2005.

Covered employees	All participants who satisfy the eligibility requirements of the Plan.
Participation date	Date of becoming a covered employee

Definitions

Vesting service	All participants are immediately vested in their benefit.
Normal retirement date (NRD)	First of month coinciding with or next following the attainment of age 65
Monthly pension benefit	The plans were frozen as of July 1, 2002. For each Participant the plan administrator calculated the July 1, 2002 accrued benefit under the plan(s).
Monthly preretirement death benefit	The benefit is defined as 50% of the benefit that would have been payable to the employee. The beneficiary may instead elect to receive a 10 year temporary annuity in the amount that would have been payable to the participant. The minimum death benefit is set at the value of the employee contributions with interest at the date when the benefits are paid from the plan

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	Participants who were active employees at Alliance on May 1, 2001 may commence after attainment of age 50 Participants who terminated prior to May 1, 2001 with 10 years of service may commence their Retirement Plan benefit after attainment of age 50 and their Group Pension Plan benefit after attainment of age 55.
