NOTE 1 DESCRIPTION OF PLAN

The following description of the Westbrook Service Corporation Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan was established on October 1, 1990 as a defined contribution plan covering substantially all employees of Westbrook Service Corporation (the "Company"), who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was established for the purpose of providing eligible employees of the Company and their beneficiaries funds for retirement.

Plan Administration

The Company is the plan sponsor and plan administrator of the Plan, and as such, controls and manages the operation and administration of the Plan. The Plan's assets are maintained by John Hancock Life Insurance Company, (the "Custodian"). Company contributions are held and managed by the Custodian who invests cash received, interest and dividend income, and makes distributions to participants (subject to the direction of the Company and the participants).

Contributions

Each year, participants in the Plan may voluntarily contribute up to 100% of their pre-tax annual compensation, as defined in the Plan, within the limits prescribed by the Internal Revenue Service (IRS). Participants may also roll over amounts representing distributions from other qualified defined-benefit or contribution plans.

The Plan provides for Company matching contributions and discretionary matching contributions, both of which are determined annually. For the year ended December 31, 2019, the Company made a match contribution equal to 25% of the participant's first 6% elective deferral, equal to approximately $72,000. Plan participants must have been an active participant in the matching portion of the Plan and have completed 1,000 or more hours of service in the Plan year to be eligible for the Company's matching contributions. Effective January 1, 2020, in accordance with the SECURE Act (see Note 2, Subsequent Events), participants must have completed 500 or more hours of service in the Plan year to be eligible for the Company's matching contributions.

Participant Accounts

Each participant account is credited with the participant's contribution and allocation of: (a) the Company's contribution and discretionary matching contribution (if any) and (b) Plan earnings or losses including market value adjustments on Plan investments. Allocations of earnings and losses are based on the proportion of the participant's account balance to the total account balances of all participants, as defined in the Plan document. All participant contributions are participant-directed.

Vesting of Benefits

Participants are immediately fully vested in their voluntary contributions plus actual earnings or losses thereon. Vesting in the Company's matching contribution and discretionary matching contribution (if any) portion of their accounts, plus any earnings or losses thereon, is based upon the number of years of continuous service. Participant accounts vest at a rate of 20% per year of service after the second year and become 100% vested after six years of credited service. Participant accounts become fully vested upon death, disability (as defined by the Plan), attainment of normal and/or early retirement age (defined by the Plan as 65 and 55, respectively), or upon termination of the Plan.

Investment Options

Upon enrollment in the Plan, participants may direct employee and employer contributions into various investment options offered by the Plan. Participants may change their allocation of contributions and investment options periodically as permitted by the plan sponsor.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants
Plan participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. A participant may not have more than two notes outstanding at any time. The notes are collateralized by the balance in the participant's account. Loans are treated as an investment option of the participant's account. Only the borrowing participant's account receives in the interest paid on the participant's loan. The interest rate applied to a loan is determined at the time of issuance, at the prime rate plus 1%, as defined. Loan terms are for a maximum of five years except for the purchase of a principal residence that may be for a maximum of 30 years. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits
Distributions of a participant's pre-tax account are made upon retirement from the Company, termination from service from the Company, death, permanent or total disability or in cases of financial hardship. The normal retirement age, as defined by the Plan, is the date at which participants reach the age of 65. Participants still employed who have reached the age of 59 ½ are eligible to withdraw all or a portion of their vested accounts. If a participant terminates before retirement, the participant will receive either a lump-sum payment of his or her account balance, or if the account exceeds $5,000, the participant may elect any distribution date up to the required minimum distribution age. The period may not extend beyond the life expectancy of the participant or the joint life expectancy of the participant and his or her beneficiary.

Forfeitures
Any non-vested portion of an account balance after the distribution of terminated participants vested account balance is forfeited. A forfeiture will also occur without a distribution after five consecutive one-year breaks in a former participant's service. Non-vested Company matching and discretionary matching contributions forfeited by participants are used to reduce certain administrative expenses and/or reduce Company contributions to the Plan. For the year ended December 31, 2019, the Company did not use the forfeitures account to pay administrative expenses or reduce employer contributions. The forfeitures account balance was approximately $13,300 and $8,500 at December 31, 2019 and 2018, respectively.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The accompanying financial statements have been prepared on an accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties
The Plan utilizes various investment instruments, which are exposed to various risks, such as interest rates, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Interest income is recognized when earned. Dividends are recorded on the ex-dividend date. Realized gains and losses on investments are recognized upon the sale of the related investment and unrealized appreciation or depreciation is recognized at period end when carrying values of the related investments are adjusted to their fair values. Purchase and sales of investments are recorded on the settlement date.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants
Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, which approximates fair value, with no allowance for credit losses as repayments of principal and interest are received primarily through payroll deductions and the notes are collateralized by the participants' account balances.

At December 31, 2019, loan interest rates ranged from 4.25% to 5.50% and had maturities through December 2024.

Benefits Paid to Participants
Benefits are recorded when paid.

Deemed Loan Distributions
Deemed loan distributions are recorded when the participant defaults on the loan. There were no deemed distributions during the year ended December 31, 2019.

Corrective Distributions
Corrective distributions are recorded when the Plan's third-party administrator determines adjustments are necessary during the plan year based on consideration of the Plan's compliance with ERISA requirements. Contributions are presented net of corrective distributions.

Administrative Expenses
Administrative expenses are charged directly to the participant's accounts or paid by the Company.

Subsequent Events
Plan management has evaluated subsequent events through the date of the independent auditor's report, the date which the accompanying financial statements were available to be issued. Based on such evaluation, other than (1) the adoption of the SECURE Act (noted below), (2) the COVID-19 pandemic (noted below), and (3) the adoption of the CARES Act (noted below), no other events have occurred that in the opinion of management warrant adjustment to or disclosures in the financial statements.

On December 20, 2019, the Setting Every Community Up for Retirement Enhancement (SECURE) Act was signed into law, providing a number of changes in existing law to make it easier for many employers to offer retirement plans and for employees to save for retirement. Most provisions of the SECURE Act became effective on January 1, 2020. The Company has assessed the effect of the SECURE Act provisions to the Plan and has disclosed material plan changes throughout Notes 1 and 2, as applicable.

As a result of the spread of COVID-19 coronavirus, economic uncertainties have arisen which have resulted in significant volatility in the investment markets which could result in a substantial decline in the value of the investments. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was signed into law, providing certain relief related to the economic fallout of the COVID-19 pandemic in the United States. The CARES Act has several provisions, if adopted by the Plan, that enable plan sponsors to provide plan participants with access to funds in defined contribution retirement plans to pay for unanticipated costs associated with the coronavirus pandemic. The Company has assessed the effect of the CARES Act provisions to the Plan and has disclosed material plan changes throughout Notes 1 and 2, as applicable, if any.

NOTE 3 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

NOTE 3 FAIR VALUE MEASUREMENTS (CONTINUED)

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive market, inputs other than quoted prices that are observable for the asset or liability or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to fair value measurement.

The assets' or liabilities' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2019 and 2018.

Pooled separate accounts
The value is based on the market value of the underlying assets, less any liabilities. The net asset value (NAV) per share is used as a practical expedient. This practical expedient is not used when it is determined to be probable that the investment will be sold for an amount different than the reported NAV.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments are reported at fair value as of December 31, 2019 and 2018, are comprised of pooled separate accounts and are valued using the NAV practical expedient and are not required to be categorized in the fair value hierarchy.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2019 and 2018:

	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
December 31, 2019:				
Pooled separate accounts	$ 3,336,134	n/a	Daily	None
December 31, 2018:				
Pooled separate accounts	$ 2,563,268	n/a	Daily	None

NOTE 4 SUMMARY OF INFORMATION CERTIFIED BY THE CUSTODIAN

The plan administrator has received certification of the financial information and data from the Custodian in accordance with 29 CFR 2520.103-5 of the United States Department of Labor's (the "DOL") Rules and Regulations for Reporting and Disclosure under ERISA. The Custodian has certified to the completeness and accuracy of all investments and related investment activity and notes receivable from participants and related interest income in the accompanying financial statements as of December 31, 2019 and 2018 and the year ended December 31, 2019 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2019.

NOTE 5 PARTY-IN-INTEREST TRANSACTIONS

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Certain Plan investments are held and managed by the Custodian, as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

Fees paid to the Custodian, advisor and third-party administrator qualify as party-in-interest transactions and amounted to approximately $21,000 for the year ended December 31, 2019.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. Additionally, certain administrative expenses such as audit and legal fees are paid by the Company at its discretion.

NOTE 6 PLAN TERMINATION AND AMENDMENTS

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The Company also has the rights to amend any or all provisions of the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and the net assets of the Plan must be allocated among the participants and beneficiaries of the Plan in the order provided for by ERISA.

NOTE 7 INCOME TAX STATUS

The Plan has adopted a prototype defined contribution plan. The current prototype plan obtained a favorable opinion letter dated March 31, 2014, in which the Internal Revenue Service ("IRS") stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The prototype plan has been amended since receiving the opinion letter, however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of and for the year ended December 31, 2019, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's income tax returns remain subject to examination by the Internal Revenue Service for three years from the date of filling.
