INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the
AAA Mid-Atlantic Defined Benefit Pension Plan

Report on the 2019 Financial Statements

We were engaged to audit the accompanying 2019 financial statements of the AAA Mid-Atlantic Defined Benefit Pension Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2019, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility on the 2019 Financial Statements

Our responsibility is to express an opinion on the 2019 financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion on the 2019 Financial Statements* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2019 financial statements.

Basis for Disclaimer of Opinion on the 2019 Financial Statements

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Wells Fargo Bank, N.A., the custodian of the Plan, except for comparing the information with the related information included in the 2019 financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2019, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion on the 2019 Financial Statements

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion on the 2019 Financial Statements* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion on the 2019 financial statements. Accordingly, we do not express an opinion on the 2019 financial statements referred to in the first paragraph.

Other Matter – Supplemental Schedules

The supplemental Schedule H, Line 4(i), Schedule of Assets (Held at End of Year) as of December 31, 2019 and Schedule H, Line 4(j) – Schedule of Reportable Transactions for the year ended December 31, 2019 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion on the 2019 Financial Statements* paragraph, we do not express an opinion on the supplemental schedules referred to above.

Other Matter – 2018 Financial Statements

The financial statements of the Plan as of and for the year ended December 31, 2018, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by Wells Fargo Bank, N.A., the custodian of the Plan. Their report, dated October 11, 2019, indicated that (a) because of the significance of the information that they did not audit, they were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee and custodian, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Report on Form and Content in Compliance with DOL Rules and Regulations 2019

The form and content of the information included in the 2019 financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

AAA Mid-Atlantic Defined Benefit Pension Plan
Notes to Financial Statements
As of and for the Years Ended December 31, 2019 and 2018

1. Description of Plan

The following description of the AAA Mid-Atlantic Defined Benefit Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions. Copies of the Plan document and Summary Plan Description are available from the Plan administrator or Pension Committee.

General

The Plan is a noncontributory defined benefit pension plan established January 1, 1950. The Plan provides pension benefits to certain employees of AAA Club Alliance, Inc. and subsidiaries (“ACA”) or (the “Company”). Employees hired or rehired on or after September 1, 2004 are ineligible to participate in the Plan and have the opportunity to participate in the AAA Club Alliance 401(k) Retirement Savings Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

Effective September 1, 2017, the Plan was amended to allow for certain terminated, vested Plan participants to take elective distributions through an annuity or lump sum payment for balances between \$40,000 and \$100,000.

Effective July 31, 2018, the Plan was amended to cease accruals of additional benefits for future services and compensation for the remaining active participants in the Plan.

The Plan is administered by the Company’s Pension Committee (“Committee”), which is a committee of the Board of Directors of the Company. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan’s investment offerings and diversification, monitors investment performance and reports to the Plan’s Pension Trustees.

Wells Fargo Bank, N.A. (the “Custodian”) is the Plan’s custodian. Additionally, the Plan has Custodian accounts with both Discover and PNC for certain short-term investments. Vanguard Fiduciary Trust Company (“Vanguard”) is a paying agent for benefit payments.

Funding Policy

The Company contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan participants. Employer contributions are made in amounts sufficient to fund the Plan’s normal cost plus an amount at least sufficient to amortize the unfunded actuarial liability and to satisfy minimum funding standards. The Plan has met the minimum funding requirements of ERISA for the 2019 and 2018 Plan years. The Company can elect to make contributions in excess of minimum contributions.

Vesting

As a result of the Plan being frozen on July 31, 2018, participants became fully vested. Prior to July 31, 2018, participants became 100% vested upon completion of five years of credited service, as defined. If a participant terminated before completing five years of service, the right to receive accumulated benefits was forfeited, unless the participant reached the early retirement age of 60 or termination of employment was attributable to death or disability.

Retirement Benefits

Participants are entitled to monthly pension payments beginning at normal retirement (the later of attaining age 65 or the completion of 5 years of service in the Plan).

Normal Retirement Benefit:

- For service prior to January 1, 2010, it consists of 1.5% of Final Average Annual Earnings at December 31, 2009, plus .5% of Final Average Annual earning at December 31, 2009 in excess of the participant’s covered compensation for 2009, the sum multiplied by the credited service at December 31, 2009, not in excess of 35 years; plus 2% of Final Average Annual Earning times credited service in excess of 35 years.

AAA Mid-Atlantic Defined Benefit Pension Plan
Notes to Financial Statements
As of and for the Years Ended December 31, 2019 and 2018

- For service after December 31, 2009, it consists of 1.0 of Final Average Annual Earnings plus .5% of Final Average Annual earnings in excess of the participant's covered compensation, the sum multiplied by the credited service after January 1, 2010 and on or before July 31, 2018, not in excess of 35 total years; plus 1.5% of Final Average Annual Earnings times credited service after January 1, 2010 and on or before July 31, 2018. For purposes of service after December 31, 2009, Final Average Annual Earnings only uses earnings after December 31, 2009.

Former participants of other eligible groups related to plans merged with and into the Plan shall have their plan benefits calculated in accordance with their respective terms in the Plan document.

The Plan provides also provides for reduced benefits at early retirement age (ages 55-64 with 5 years of service) and permits late retirement.

At retirement, participants chose from a number of life annuity options or installment payments, with certain limitations described in the Plan document. If no election is made, the normal retirement benefit is a life annuity for a single participant and a 50% joint and survivor annuity for a married participant.

Death and Disability Benefits

Unless otherwise elected, a vested participant who dies prior to receiving benefits under the Plan and is married at the time of death is entitled to a benefit payable to their spouse in the form of a 50% surviving spouse annuity. If an active participant, prior to attaining age 40 and the completion of 10 years of continuous service, and with a vested balance in the Plan, becomes totally and permanently disabled, a disability pension calculated in a manner similar to a normal retirement pension is paid to the participant.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's Pension Committee determines the Plan's valuation policies utilizing information provided by the Plan's investment advisors, trustee and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Recently Issued Accounting Guidance

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update 2018-13, Fair Value Measurement (Topic 820), Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement (“ASU 2018-13”). ASU 2018-13 was issued as part of a disclosure framework project to improve the effectiveness of disclosures in the notes to the financial statements. ASU 2018-13 removes, adds and modifies certain disclosure requirements from Topic 820, however, the added disclosures are not required for nonpublic entities. ASU 2018-13 is effective for all entities for fiscal years beginning after December 15, 2019. Certain amendments are to be applied prospectively while others are to be applied retrospectively. Early adoption is permitted. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan early adopted ASU 2018-13 on January 1, 2019, which did not have a material effect on the Plan’s financial statements.

3. Financial Information Certified by Custodian (Unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information included in the accompanying financial statements and supplemental schedules were certified by Wells Fargo Bank, N.A., the custodian, as complete and accurate:

- Investments, at fair value in the amounts of \$230,338,707 and \$193,929,229, accrued income as shown in the statements of net assets available for benefits at December 31, 2019 and 2018, respectively.
- Interest of \$91,096, dividends of \$88,255, net appreciation in fair value of investments of \$39,915,712, and other income of \$7,339 as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2019.
- Interest of \$64,400, dividends of \$308,639 and net depreciation in fair value of investments of \$(6,710,015), as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018.
- The information for all registered investment companies (mutual funds), collective investment trusts and preferred stock listed in the schedule of assets (held at end of year) at December 31, 2019 and the schedule of reportable transactions for the year ended December 31, 2019, as shown in the supplemental schedules.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

AAA Mid-Atlantic Defined Benefit Pension Plan
Notes to Financial Statements
As of and for the Years Ended December 31, 2019 and 2018

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2019 and 2018.

<i>Registered investment companies (mutual funds):</i>	Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The NAV is based on the value of the underlying assets owned by each fund, less its liabilities divided by the number of shares outstanding. The mutual funds held by the Plan are deemed to be actively traded.
<i>Collective investment trusts:</i>	Valued at the NAV of units held. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the collective investment trust less its liabilities. This practical expedient is not used when it is determined to be probable that the collective investment trust will sell the investment for an amount different than the reported NAV.
<i>Preferred Stock:</i>	Valued using unobservable inputs supported by little or no market activity.
<i>Interest-bearing cash:</i>	The carrying value of interest-bearing cash approximates fair value as maturities are less than three months and/or include money market funds that are based on quoted prices and are actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2019:

	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>

Notes to Financial Statements
As of and for the Years Ended December 31, 2019 and 2018

*In accordance with fair value measurement guidance, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented as investments in the statements of net assets available for benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the periods ended December 31, 2019 and December 31, 2018, there were no transfers in or out of levels 1, 2, or 3.

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2019 and 2018.

<u>Investment Type</u>	<u>Fair Value, as of December 31</u>		<u>Unfunded</u>	<u>Redemption</u>	<u>Redemption</u>
	<u>2019</u>	<u>2018</u>	<u>Commitments</u>	<u>Frequency</u>	<u>Notice Period</u>
Collective investment trusts	\$225,651,395	\$182,338,624	\$ -	Daily	Daily

The Plan invests in collective investment trusts that invest in short-term investments, fixed income securities and equity securities. The objective of the collective investment trusts invested in short-term investments is to preserve principal while maximizing current income on cash reserves to the extent consistent with principal preservation and maintenance of liquidity. The objective of the collective investment trusts invested in fixed income is to provide investment results that approximate the overall performance of certain bond indices, and to provide a predictable rate of return while preserving the safety of capital and minimizing market risk. The objective of the collective investment trusts invested in equity investments is to approximate the overall performance of certain domestic, international and emerging market indices. These collective investment trusts are redeemable at net asset value under agreements with the underlying funds. However, it is possible that these redemption rights may be restricted by the collective investment trusts in the future in accordance with underlying fund agreements. Due to the nature of the investments held by the collective investment trusts, changes in market conditions and the economic environment may significantly impact the net asset value of the collective investment trusts, and consequently, the fair value of the Plan's interest in the collective investment trusts. Furthermore, changes in the liquidity provisions of the collective investment trusts may significantly impact the fair value of the Plan's interest in the collective investment trusts.

5. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' years of service on the date the benefit information is presented (the valuation date). Benefits payable under all circumstances (e.g. retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered prior to the valuation date.

As described in Note 1, and further detailed in the Plan document, the Plan was frozen effective September 1, 2004 and, effective July 31, 2018, the Plan was amended to cease accruals of additional benefits for future services and compensation for the remaining active participants in the Plan. As a result, no new participants have been allowed to enter the Plan after September 1, 2004; and no more credited service has accrued for participants after July 31, 2018. The present value of a participant's accrued benefit as of the valuation date assumes the participant will earn no more credited service and will receive no future salary.

AAA Mid-Atlantic Defined Benefit Pension Plan
Notes to Financial Statements
As of and for the Years Ended December 31, 2019 and 2018

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of January 1, 2019 is as follows:

	2019
Vested Benefits	
Participants currently receiving benefits	\$130,949,306
Active and terminated vested participants	<u>100,733,601</u>
Total vested benefits	231,682,907
Nonvested benefits	<u>-</u>
Total actuarial present value of accumulated plan benefits	<u>\$231,682,907</u>

The changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2019 are as follows:

	2019
Actuarial present value of accumulated plan benefits, beginning of period	<u>\$254,517,519</u>
Increase (decrease) during the year attributed to:	
Decrease in the discount period	7,334,505
Benefits accumulated and actuarial (gains)/losses	3,548,647
Benefits paid	(10,874,208)
Assumption changes	<u>(22,843,556)</u>
Net increase (decrease)	<u>(22,834,612)</u>
Actuarial present value of accumulated plan benefits, end of period	<u>\$231,682,907</u>

The significant methods and assumptions used to determine the actuarial present value of accumulated plan benefits as of January 1, 2019 and 2018 are as follows:

	2019
Mortality	RP-2014 Total Dataset Mortality adjusted backward to 2006 and projected with Scale MP-2019
Discount Rate	3.60%
Weighted Average Retirement Age	Age 65

The assumption changes from January 1, 2018 to January 1, 2019 include updating the mortality assumption projection from Scale MP-2018 as of January 1, 2018 to Scale MP-2019 as of January 1, 2019, and updating the discount rate from 2.95% as of January 1, 2018 to 3.60% as of January 1, 2019.

The foregoing assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

6. Tax Status

The Internal Revenue Service (“IRS”) has determined and informed the Company by a letter dated October 30, 2017, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (“IRC”). Although the Plan had been amended since receiving its determination letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for plan years prior to 2016.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. Related Party and Party-In-Interest Transactions

Certain plan investments, including collective investment trusts, mutual funds, interest bearing cash and money market funds, are managed by Wells Fargo Bank, N.A., (the “Custodian”), PNC Bank, Discover Bank and Vanguard. The Plan’s benefit payment services are handled by The Vanguard Group, Inc. (“Vanguard”). These transactions qualify as party-in-interest transactions. These transactions are not, however, considered prohibited transactions under ERISA regulations. Fees for these services are paid by the Company.

9. Plan Termination

The Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to certain provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (“PBGC”), a U.S. government agency, up to the applicable limitations (discussed below).

AAA Mid-Atlantic Defined Benefit Pension Plan
Notes to Financial Statements
As of and for the Years Ended December 31, 2019 and 2018

- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

10. Subsequent Events

The COVID-19 pandemic during 2020 has significantly disrupted financial markets, economies and other events subsequent to December 31, 2019. The impact to the Plan of the COVID-19 pandemic during 2020 has resulted in fluctuations in the fair value of investments of the Plan. It has also decreased interest rates and could impact employee demographics which could change assumptions utilized in the future for the actuarial present value of accumulated plan benefits. While management of the Plan currently expects to be able to continue to meet immediate contribution requirements, the long-term impact of the effects of the COVID-19 pandemic to the Plan or Plan sponsor are currently not known. The Plan sponsor is also currently evaluating the effects of relief from regulatory authorities, including the Coronavirus Aid, Relief and Economic Security Act (CARES Act), to the Plan. To the extent that the COVID-19 pandemic impacts the Plan's net assets available for plan benefits and the present value of accumulated plan benefits could not be reasonably estimated at the date the financial statements were available to be issued.

The Plan has evaluated subsequent events through October 12, 2020, the date the financial statements were available to be issued.

Summary of Plan Provisions as of January 1, 2019

1. Type of Plan

The Plan is a non-contributory, defined benefit plan.

2. Effective Date

The Plan became effective January 1, 1950.

3. Eligibility for Participation

Attainment of age 21 and one Year of Employment. Effective in 2005, new hires are not eligible to enter the Plan.

4. Definitions

- (a) **Plan Year:** A Plan Year is a 12-month period beginning on January 1 and ending on December 31.
- (b) **Hours of Service:** An hour for which an employee is paid, or entitled to payment for the performance of duties as well as any periods of vacation, holidays, sickness or disability.
- (c) **Year of Employment:** A 12-month period beginning on the employment commencement date during which the Employee completes at least 1,000 Hours of Service. If an Employee fails to complete 1,000 Hours of Service in the first 12-month period, a Year of Employment shall mean the first Plan Year in which 1,000 Hours of Service is completed
- (d) **Continuous Service:** The completion of 1,000 Hours of Service in a Plan Year shall constitute one year of Continuous Service for determining the vested percentage under the Plan. No service is granted after July 31, 2018.
- (e) **Credited Service:** The completion of 1,000 Hours of Service in a Plan Year shall constitute one year of Credited Service subsequent to January 1, 1976. Prior to that date, completed years and months shall be used in calculating Credited Service. Credit shall be given in both the first and final Plan Years of employment for fractions of years completed. The denominator of said fraction shall be 12 and the numerator shall be the actual number of completed months in the Plan Year of reference. No service is granted after July 31, 2018.
- (f) **Cancellation and Restoration of Credits:** Fewer than 500 Hours of Service in a Plan Year constitutes a one-year break in service for purposes of vesting and benefit accrual. Vesting and benefit years and the Accrued Benefit will be restored (a) if the Participant completes one year of Credited Service following re-employment and (b) if the Participant's previous period of service exceeds his or her period of absence.
- (g) **Earnings:** Annual earnings including bonuses and overtime not in excess of \$270,000 (for 2018). This limit is subject to an indexed cost-of-living adjustment where adjustments are made in \$5,000 increments.
- (h) **Final Average Annual Earnings:** The Participant's earnings received in the highest five consecutive twelve month periods of service. NOTE: Final Average Annual Earnings are frozen at December 31, 2009 for benefits accrued prior to December 31, 2009.
- (i) **Covered Compensation:** The average of the taxable wage bases in effect for each year during the 35-year period ending with the year the Participant attains Social Security Retirement Age, assuming no increases in such wage base for years after the current year and before the Participant actually attains Social Security Retirement Age.

5. Retirement Benefits

Normal Retirement

- ***Normal Retirement Date.*** The first day of the month coincident with or next following the later of a Participant's 65th birthday or 5 years of Continuous Service.
- ***Normal Retirement Benefit.***
 - ***For service prior to January 1, 2010:*** 1.5% of Final Average Annual Earnings at December 31, 2009 plus .5% of Final Average Annual Earnings at December 31, 2009 in excess of the Participant's Covered Compensation for 2009, the sum multiplied by the Participant's Credited Service at December 31, 2009 not in excess of 35 years; plus 2% of Final Average Annual Earnings times Credited Service in excess of 35 years.
 - ***For service after December 31, 2009:*** 1.0% of Final Average Annual Earnings plus .5% of Final Average Annual Earnings in excess of the Participant's Covered Compensation, the sum multiplied by the Participant's Credited Service after January 1, 2010, not in excess of 35 total years; plus 1.5% of Final Average Annual Earnings times Credited Service after January 1, 2010. For purposes of service after December 31, 2009, Final Average Annual Earnings only uses earnings after December 31, 2009.

The total benefit shall not exceed 60% of Final Average Annual Earnings.

All benefits became frozen at July 31, 2018.

Former participants of the following groups shall have their plan benefits calculated in accordance with their respective merger/acquisition agreements:

Automobile Club of Virginia: For service prior to December 31, 1994, benefits are calculated under, and paid from the Automobile Club of Virginia Retirement Plan. Effective in 1999, the Virginia Plan was merged into this plan. Service beginning as of January 1, 1995 shall be used to calculate a benefit under the AAA plan formula. Determination of vesting status shall be based on original date of hire.

Automobile Club of Maryland: For service prior to December 31, 1992, benefits are calculated under, and paid from the Automobile Club of Maryland Plan. Effective in 1993, the Maryland Plan was merged into this plan. An annual cost of living factor, no greater than 3%, is applied to the frozen Maryland benefit while employed at AAA. Service beginning as of January 1, 1993 shall be used to calculate a benefit under the AAA plan formula. Determination of vesting status shall be based on original date of hire.

Anthracite Motor Club: Service beginning as of January 1, 1995 shall be used to calculate a benefit under the AAA plan formula. Determination of vesting status shall be based on original date of hire.

The Valley Automobile Club, Inc.: Service beginning as of January 1, 1997 shall be used to calculate a benefit under the AAA plan formula. Determination of vesting status shall be based on original date of hire.

Potomac Division: Service beginning as of January 1, 1998 shall be used to calculate a benefit under the AAA plan formula. Determination of vesting status shall be based on original date of hire.

South Jersey Sales Group: Service beginning as of January 1, 1998 shall be used to calculate a benefit under the AAA plan formula. Determination of vesting status shall be based on original date of hire.

AAA Central-West Jersey, Inc.: Benefits are calculated under the CWJ plan formula for service prior to December 31, 2001. An annual cost of living factor, no greater than 3%, is applied to the CWJ portion of the benefit while employed at AAA. Service beginning as of January 1, 2002 shall be used to calculate a benefit under the AAA plan formula.

5. Retirement Benefits (cont'd)

Early Retirement

- **Early Retirement Date:** The first day of any month after the Participant has both attained age 55 and completed at least 5 years of Continuous Service.
- **Early Retirement Benefit:** Calculated in the same manner as the Normal Retirement Benefit giving credit for service to the Early Retirement Date and reduced by 1/3 of 1% for each month by which the Early Retirement Date precedes the Normal Retirement Date.

Late Retirement

- **Late Retirement Date:** The first day of any month after the Participant's Normal Retirement Date.
- **Late Retirement Benefit:** The benefit accrued on the actual retirement date, considering earnings and service to that date.

6. Vested Benefit

- **Eligibility:** Completion of 5 or more years of Continuous Service.
- **Vested Benefit:** Calculated in the same manner as the Normal Retirement Benefit giving credit for service to the date of reference. If the value of the Vested Benefit is less than \$5,000, the Participant will receive a lump sum amount in lieu of a deferred annuity.

7. Death Benefits

Pre-Retirement Spouse's Benefit

- **Eligibility:** The death of a married Participant in active employment who has completed 5 years of Continuous Service or the death of a former married Participant entitled to a deferred Vested Benefit.
- **Spouse's Benefit:** An immediate benefit payable to the spouse calculated as if the Participant had terminated immediately before death, survived to the earliest retirement age, and retired on that date electing a joint and 50% survivor annuity with the spouse as the contingent annuitant.

Post-Retirement Spouse's Benefit: None, except as provided by the election of an optional form of payment.

8. Disability Benefit

- **Eligibility:** Attainment of age 40 and the completion of 10 years of Continuous Service.
- **Disability Benefit:** Calculated in the same manner as the Normal Retirement Benefit assuming that annual earnings shall continue in the same amount as paid for the 12 months immediately preceding the date from which a 6-month waiting period is determined, and allowing Credited Service to continue accruing during the time of the disability.

9. Form of Benefit Payment

Married Participant: If a Participant is married at the time of retirement, the pension will be paid in the form of an actuarially reduced joint and survivor monthly annuity with 50% of the payment continuing to the spouse for life, if surviving at the Participant's death.

Unmarried Participant: If a Participant is unmarried at the time of retirement, the pension will be paid in the form of a single life annuity, with payments to be made in equal monthly installments until the Participant's death.

10. Optional Payment Forms

At any time prior to the commencement of benefit payments, a Participant may elect to receive pension payments in some other form, which is the actuarial equivalent of the payment form prescribed subject to the approval of the pension plan committee.

Participants of the former Maryland plan may be eligible for a lump sum payment of their benefit, even if the amount is in excess of \$5,000. A Maryland participant may receive the Maryland portion of their benefit in lump sum form, as long as they meet the eligibility for that benefit under the old Maryland plan.

All CWJ participants are eligible to receive their CWJ accrued benefit in a lump sum, even if it is over \$5,000.

In 2015, the Plan was amended to allow for vested termination participants to take their benefit in a lump sum, assuming the lump sum was less than \$40,000. This became an ongoing feature of the Plan. This threshold was increased to \$100,000 in 2017.

11. Virginia Merger

Effective October 31, 1998, the assets and liabilities from the Automobile Club of Virginia Retirement Plan were merged into the Plan.

12. Central-West Jersey Merger

Effective December 31, 2001, the assets and liabilities from the AAA Central-West Jersey, Inc. Pension Plan were merged into the Plan.

13. Pension Choice

Effective December 31, 2004, all participants had the option to move from this DB plan to a newly created DC plan. If a participant chose the DC plan, the participant's DB benefit became frozen at December 31, 2004 and the corresponding lump sum was transferred from this DB plan to the DC plan.

14. Plan Benefit Formula Change

Effective December 31, 2009, the benefit formula was modified as discussed in #5 of this Section.

15. KIC

Effective December 31, 2010, the KIC (Insurance) group was sold; all active participants became vested terminations.

16. ACP Transfer

Effective March 31, 2012, approximately 75 participants from this plan were transferred to ACP Services.

II. Changes in Plan Provisions Since Prior Valuation

All benefits became frozen at July 31, 2018, as discussed above.

For 2019, ACA used the Standard Method interest rates for calculating the liability for PBGC purposes. The Standard Method uses the spot rate for December 2018. Since this method has been in effect for five years (since 2014), ACA could elect to switch to the Alternative Method, which uses 24-month averages (shown above). For further details, see the definition of Premium Funding Target (PFT) in the Glossary.

Mortality

2019 IRS static, non-generational Mortality Table as described in Regulation 1.430(h)(3) projected by Scale MP-2017, to between 7 and 15 years beyond the year of the obligation, male and female, with separated rates for annuitants and non-annuitants, and applicable to years beginning in 2019.

Shortfall Amortization Charges for 2019

This schedule shows the Shortfall Amortization Charge (SAC), which is the Funding Shortfall (FS) amortized over a period of seven years.

To determine the Plan Funding Percentage for the Shortfall Amortization Base Exemption, plan assets are reduced by the Prefunding Balance, as shown below.

(Assets – Prefunding Balance)/Funding Target

=

$(200,849,718 - 0) / 183,733,643 = 109.32\%$

Since the funding percentage of 109.32% (also shown in Schedule F, #6) is greater than 100% for plan year 2019, a SAC is not needed for 2019.

Amortization Schedule

None.

Schedule SB, line 24 – Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the retirement rate assumption
- A change in the form of benefit election percentage

These assumption changes were made to better reflect anticipated plan expense and had an insignificant effect on the plan's liability.

Schedule SB, line 24 – Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the retirement rate assumption
- A change in the form of benefit election percentage

These assumption changes were made to better reflect anticipated plan expense and had an insignificant effect on the plan's liability.

Summary of Plan Provisions as of January 1, 2019

1. Type of Plan

The Plan is a non-contributory, defined benefit plan.

2. Effective Date

The Plan became effective January 1, 1950.

3. Eligibility for Participation

Attainment of age 21 and one Year of Employment. Effective in 2005, new hires are not eligible to enter the Plan.

4. Definitions

- (a) **Plan Year:** A Plan Year is a 12-month period beginning on January 1 and ending on December 31.
- (b) **Hours of Service:** An hour for which an employee is paid, or entitled to payment for the performance of duties as well as any periods of vacation, holidays, sickness or disability.
- (c) **Year of Employment:** A 12-month period beginning on the employment commencement date during which the Employee completes at least 1,000 Hours of Service. If an Employee fails to complete 1,000 Hours of Service in the first 12-month period, a Year of Employment shall mean the first Plan Year in which 1,000 Hours of Service is completed
- (d) **Continuous Service:** The completion of 1,000 Hours of Service in a Plan Year shall constitute one year of Continuous Service for determining the vested percentage under the Plan. No service is granted after July 31, 2018.
- (e) **Credited Service:** The completion of 1,000 Hours of Service in a Plan Year shall constitute one year of Credited Service subsequent to January 1, 1976. Prior to that date, completed years and months shall be used in calculating Credited Service. Credit shall be given in both the first and final Plan Years of employment for fractions of years completed. The denominator of said fraction shall be 12 and the numerator shall be the actual number of completed months in the Plan Year of reference. No service is granted after July 31, 2018.
- (f) **Cancellation and Restoration of Credits:** Fewer than 500 Hours of Service in a Plan Year constitutes a one-year break in service for purposes of vesting and benefit accrual. Vesting and benefit years and the Accrued Benefit will be restored (a) if the Participant completes one year of Credited Service following re-employment and (b) if the Participant's previous period of service exceeds his or her period of absence.
- (g) **Earnings:** Annual earnings including bonuses and overtime not in excess of \$270,000 (for 2018). This limit is subject to an indexed cost-of-living adjustment where adjustments are made in \$5,000 increments.
- (h) **Final Average Annual Earnings:** The Participant's earnings received in the highest five consecutive twelve month periods of service. NOTE: Final Average Annual Earnings are frozen at December 31, 2009 for benefits accrued prior to December 31, 2009.
- (i) **Covered Compensation:** The average of the taxable wage bases in effect for each year during the 35-year period ending with the year the Participant attains Social Security Retirement Age, assuming no increases in such wage base for years after the current year and before the Participant actually attains Social Security Retirement Age.

5. Retirement Benefits

Normal Retirement

- ***Normal Retirement Date.*** The first day of the month coincident with or next following the later of a Participant's 65th birthday or 5 years of Continuous Service.
- ***Normal Retirement Benefit.***
 - ***For service prior to January 1, 2010:*** 1.5% of Final Average Annual Earnings at December 31, 2009 plus .5% of Final Average Annual Earnings at December 31, 2009 in excess of the Participant's Covered Compensation for 2009, the sum multiplied by the Participant's Credited Service at December 31, 2009 not in excess of 35 years; plus 2% of Final Average Annual Earnings times Credited Service in excess of 35 years.
 - ***For service after December 31, 2009:*** 1.0% of Final Average Annual Earnings plus .5% of Final Average Annual Earnings in excess of the Participant's Covered Compensation, the sum multiplied by the Participant's Credited Service after January 1, 2010, not in excess of 35 total years; plus 1.5% of Final Average Annual Earnings times Credited Service after January 1, 2010. For purposes of service after December 31, 2009, Final Average Annual Earnings only uses earnings after December 31, 2009.

The total benefit shall not exceed 60% of Final Average Annual Earnings.

All benefits became frozen at July 31, 2018.

Former participants of the following groups shall have their plan benefits calculated in accordance with their respective merger/acquisition agreements:

Automobile Club of Virginia: For service prior to December 31, 1994, benefits are calculated under, and paid from the Automobile Club of Virginia Retirement Plan. Effective in 1999, the Virginia Plan was merged into this plan. Service beginning as of January 1, 1995 shall be used to calculate a benefit under the AAA plan formula. Determination of vesting status shall be based on original date of hire.

Automobile Club of Maryland: For service prior to December 31, 1992, benefits are calculated under, and paid from the Automobile Club of Maryland Plan. Effective in 1993, the Maryland Plan was merged into this plan. An annual cost of living factor, no greater than 3%, is applied to the frozen Maryland benefit while employed at AAA. Service beginning as of January 1, 1993 shall be used to calculate a benefit under the AAA plan formula. Determination of vesting status shall be based on original date of hire.

Anthracite Motor Club: Service beginning as of January 1, 1995 shall be used to calculate a benefit under the AAA plan formula. Determination of vesting status shall be based on original date of hire.

The Valley Automobile Club, Inc.: Service beginning as of January 1, 1997 shall be used to calculate a benefit under the AAA plan formula. Determination of vesting status shall be based on original date of hire.

Potomac Division: Service beginning as of January 1, 1998 shall be used to calculate a benefit under the AAA plan formula. Determination of vesting status shall be based on original date of hire.

South Jersey Sales Group: Service beginning as of January 1, 1998 shall be used to calculate a benefit under the AAA plan formula. Determination of vesting status shall be based on original date of hire.

AAA Central-West Jersey, Inc.: Benefits are calculated under the CWJ plan formula for service prior to December 31, 2001. An annual cost of living factor, no greater than 3%, is applied to the CWJ portion of the benefit while employed at AAA. Service beginning as of January 1, 2002 shall be used to calculate a benefit under the AAA plan formula.

5. Retirement Benefits (cont'd)

Early Retirement

- **Early Retirement Date:** The first day of any month after the Participant has both attained age 55 and completed at least 5 years of Continuous Service.
- **Early Retirement Benefit:** Calculated in the same manner as the Normal Retirement Benefit giving credit for service to the Early Retirement Date and reduced by 1/3 of 1% for each month by which the Early Retirement Date precedes the Normal Retirement Date.

Late Retirement

- **Late Retirement Date:** The first day of any month after the Participant's Normal Retirement Date.
- **Late Retirement Benefit:** The benefit accrued on the actual retirement date, considering earnings and service to that date.

6. Vested Benefit

- **Eligibility:** Completion of 5 or more years of Continuous Service.
- **Vested Benefit:** Calculated in the same manner as the Normal Retirement Benefit giving credit for service to the date of reference. If the value of the Vested Benefit is less than \$5,000, the Participant will receive a lump sum amount in lieu of a deferred annuity.

7. Death Benefits

Pre-Retirement Spouse's Benefit

- **Eligibility:** The death of a married Participant in active employment who has completed 5 years of Continuous Service or the death of a former married Participant entitled to a deferred Vested Benefit.
- **Spouse's Benefit:** An immediate benefit payable to the spouse calculated as if the Participant had terminated immediately before death, survived to the earliest retirement age, and retired on that date electing a joint and 50% survivor annuity with the spouse as the contingent annuitant.

Post-Retirement Spouse's Benefit: None, except as provided by the election of an optional form of payment.

8. Disability Benefit

- **Eligibility:** Attainment of age 40 and the completion of 10 years of Continuous Service.
- **Disability Benefit:** Calculated in the same manner as the Normal Retirement Benefit assuming that annual earnings shall continue in the same amount as paid for the 12 months immediately preceding the date from which a 6-month waiting period is determined, and allowing Credited Service to continue accruing during the time of the disability.

9. Form of Benefit Payment

Married Participant: If a Participant is married at the time of retirement, the pension will be paid in the form of an actuarially reduced joint and survivor monthly annuity with 50% of the payment continuing to the spouse for life, if surviving at the Participant's death.

Unmarried Participant: If a Participant is unmarried at the time of retirement, the pension will be paid in the form of a single life annuity, with payments to be made in equal monthly installments until the Participant's death.

10. Optional Payment Forms

At any time prior to the commencement of benefit payments, a Participant may elect to receive pension payments in some other form, which is the actuarial equivalent of the payment form prescribed subject to the approval of the pension plan committee.

Participants of the former Maryland plan may be eligible for a lump sum payment of their benefit, even if the amount is in excess of \$5,000. A Maryland participant may receive the Maryland portion of their benefit in lump sum form, as long as they meet the eligibility for that benefit under the old Maryland plan.

All CWJ participants are eligible to receive their CWJ accrued benefit in a lump sum, even if it is over \$5,000.

In 2015, the Plan was amended to allow for vested termination participants to take their benefit in a lump sum, assuming the lump sum was less than \$40,000. This became an ongoing feature of the Plan. This threshold was increased to \$100,000 in 2017.

11. Virginia Merger

Effective October 31, 1998, the assets and liabilities from the Automobile Club of Virginia Retirement Plan were merged into the Plan.

12. Central-West Jersey Merger

Effective December 31, 2001, the assets and liabilities from the AAA Central-West Jersey, Inc. Pension Plan were merged into the Plan.

13. Pension Choice

Effective December 31, 2004, all participants had the option to move from this DB plan to a newly created DC plan. If a participant chose the DC plan, the participant's DB benefit became frozen at December 31, 2004 and the corresponding lump sum was transferred from this DB plan to the DC plan.

14. Plan Benefit Formula Change

Effective December 31, 2009, the benefit formula was modified as discussed in #5 of this Section.

15. KIC

Effective December 31, 2010, the KIC (Insurance) group was sold; all active participants became vested terminations.

16. ACP Transfer

Effective March 31, 2012, approximately 75 participants from this plan were transferred to ACP Services.

II. Changes in Plan Provisions Since Prior Valuation

All benefits became frozen at July 31, 2018, as discussed above.
